"The IEP staff helped me a lot. I didn't pass my TOEFL but OGE told me I could come here first and learn through the English program, then move on with my degree. I think this is a very good thing for Chinese international students."

—ZHIPENG LI., China

"I had the most unique experience in IEP. I gained so many useful language and culture skills, which gave me confidence to become successful in my degree program and it also helped to become a better professional."
