

Parts and Wholes with Cuisenaire Rods

Directions: As you work on the following, be sure to *use drawings* to illustrate your answer and *label the quantities* in your drawings.

1. Select a brown Cuisenaire Rod. If brown is the whole, find one-fourth.
2. Select a dark green Cuisenaire Rod. If dark green is the whole, what rod is two-thirds?
3. If dark green is the whole, what strip is three-halves?
4. Select a purple Cuisenaire Rod. If purple is one-third, what strip is the whole?
5. Select a dark-green Cuisenaire Rod. If dark green is two-thirds, what strip is the whole?
6. Select a yellow Cuisenaire Rod. If yellow is five-fourths, what strip is one whole?
7. Select a dark-green Cuisenaire Rod. If dark green is the whole, what fraction is the yellow strip?
8. If the dark green strip is one whole, what fraction is the blue strip?
