

Name:

Project Selections

Due: Tuesday, September 16, 2008

As you may recall, you will be required to complete two projects. You can choose two projects by selecting 2 of the 3 units. At least one of your projects must be completed in a small group consisting of 2-4 members.

Possible Units for Projects (Choose 2)	Select a Project by...	Submit your Project by...
1. Meaning of Numbers	September 16	October 21
2. Operations with Whole Numbers and Integers	September 30	November 18
3. Operations with Rational Numbers	November 6	December 4

CIRCLE TWO PROJECT UNITS that have you decided upon for your projects.

1. Meaning of Numbers 2. Operations with Wholes and Integers 3. Operations with Rational Numbers

If you are completing a project in Unit 1, which of the following projects are you selecting? (circle one):

Option 1: Math Consultant for a Tour Group

Option 2: Astronaut Reporting back to Earth

Option 3: Justifying to Fellow Teachers the Need for Different Types of Numbers

Option 4: Empathize with a Young Child

Option 5: Where Do Fractions Come From?

Option 6: Your Choice

If you are completing a project in Unit 1, are you completing it individually or as a small group?

Individually

Small Group

If you are completing it as a group, list the other individuals in your group. (Groups may be between two-four people in size):
