

## TRANSFER GUIDE AND PLANNING WORKSHEET

### Colorado Community Colleges University of Northern Colorado Bachelor of Arts Degree – Special Education – Teaching Emphasis

This planning worksheet represents a guide for community college students transferring to the University of Northern Colorado (UNC) and majoring in Special Education – Teaching Emphasis. This transfer guide can be used in two ways:

- This guide is not part of the state-wide “60 + 60” articulation agreement, but can be used to efficiently transfer to UNC for Special Education – Teaching Emphasis. Students who complete this guide will have a remaining 75 hours to complete the degree at UNC. If the student completes an Associate of Arts degree or an Associate of Science degree at a Colorado community/junior college, this Transfer Guide identifies the courses a student needs to complete (with a C- or higher) at the community/junior college in order to be able to finish the designated baccalaureate degree. Under Colorado policy, students who complete an Associate of Arts or an Associate of Science degree at a Colorado community/junior college **and are admitted to a public 4-year college or university within Colorado** are also guaranteed: the full transfer of a minimum of 60 credits toward a baccalaureate degree at a Colorado institution of higher education, completion of the lower-division component of the receiving institution’s core curriculum, and junior standing. If more than 60 college-level credits are taken at the community/junior college, some loss of transfer credit may occur and students may not be able to complete this baccalaureate degree in 120 credits.
- If the student intends to transfer prior to completing an Associate of Arts or an Associate of Science degree, this Transfer Guide should still be used to identify the courses that can most effectively prepare them for efficiently completing the designated major at the institution to which they are transferring. While not completing the required Associate degree eliminates the guarantees described above, all the individual general education courses identified below in Section I are guaranteed to transfer and to count toward fulfilling the receiving institution’s lower division general education requirements.

Completion of an associate degree does not assure admission to any University of Northern Colorado degree program.
