- Appendix A: Planning and Fiscal Sustainability
- Appendix B: FY18 Sustainable Cost Savings
- Appendix C: FY18 Operating Budget and Grants and Contracts Detail
- Appendix D: 2017-18 Rate Schedule Detail
- Appendix E: Student Discounting
- Appendix F: 2017-18 Enrollment Detail

FY18 will be the fourth year of UNC's Five-year Fiscal Sustainability Plan and the final year of spending down reserves. In FY19, the final year of the plan, UNC will cash flow positive and begin rebuilding reserves. The Five-year Fiscal Sustainability Plan, first discussed by the Board in June 2014, is a roadmap to long-term fiscal sustainability with limited state support. The plan calls for growing revenue by growing enrollment, continuing to identify sustainable cost savings, limiting cost increases primarily to investments that support enrollment growth, and spending reserves while revenues catch up with expenditures.

Meeting student recruitment and retention goals remains a strategic and financial priority in FY18. Continued new student enrollment growth and increased undergraduate persistence are critical factors in UNC's fiscal sustainability. To achieve this growth, UNC is working toward total enrollment of 15,000 students, a goal likely to be met in Fall 2020. This will require that we continue to increase numbers of incoming freshmen, transfer undergraduates, new graduate students and new international students as well as retain more of these students to graduation.

As shown in Table 1, the proposed FY18 budget includes \$242.8 million in gross operating revenue and \$39.0 million in discounting (institutional scholarships and waivers) for net operating revenue of \$203.8 million. The FY18 budgeted gross revenue from students (tuition, fees, and room and board) is \$175.4 million, which is \$14.6 million (9.1%) more than the FY17 forecast and \$37.2 million (27%) more than FY14, the year before the start of the Five-year Fiscal Sustainability Plan. The largest source of FY18 gross revenue is undergraduate main campus tuition at \$79.5 million (Table 10). Institutional discounting remains an increasingly important strategy at UNC and other public universities as state funding flattens and costs rise.

Figure 1 shows FY18 net operating revenue by source. Tuition, fees, and room and board charges to students, net of discounting, will account for 67.0% of UNC's net operating revenue, while state support is 19.4%.

On the other side of the equation, personnel costs account for 70% of the operating budget. UNC has made faculty and staff salary increases a priority to ensure that we can attract and retain personnel who contribute to academic quality and student success. The FY18 budget includes a 2% faculty and exempt salary pool and PERA retirement costs and health insurance increases. Total FY18 compensation is budgeted at \$137.6 million.

As enrollment growth has been slower than originally anticipated in the Five-year Fiscal Sustainability Plan, we have reduced operating cost increases, strategic investments and capital expenditures. This has allowed us to spend our reserves more slowly than initially anticipated. The FY18 budget includes \$890 thousand in sustainable cost savings, as compared to an original plan target of \$200 thousand. FY18 total non-personnel costs, strategic investments and capital are budgeted at \$69.4 million, as compared to \$73.0 million in the original Five-year Fiscal Sustainability Plan.

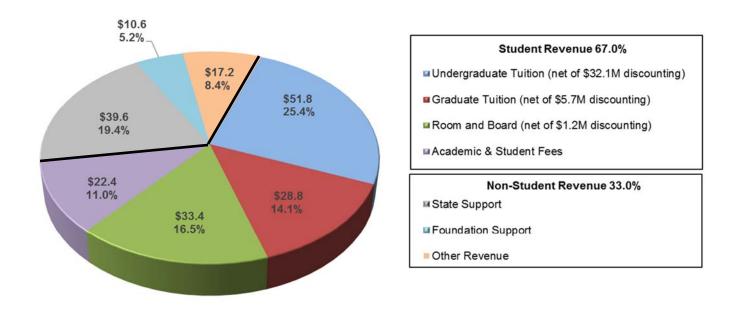

The FY18 budget is projected to result in a \$47.9 million cash balance at June 30, 2018, as compared to the \$30.0 mark in the original Five-year Fiscal Sustainability Plan.

**Table 1. Operating Revenue (in millions)** 

operating Revenue (in inimons)	EVAZ		EV47	EVAO
	FY17		FY17	FY18

Room and Board Waivers	1.2		1.1	1.2
Total Discounting	\$ 32.0	\$	34.2	\$ 39.0
Net Operating Revenue	\$ 195.7	\$	194.2	\$ 203.8

Figure 1. FY18 Net Revenue \$203.8 Million

(Details of UNC's operating revenue; does not include grants, contracts, or capital revenue.)

The recommended budget includes the following key changes from the FY17 forecast:

- Increase of \$0.5 million in state funding.
- Undergraduate base tuition rate increase of 6.8%, which is \$468 for the year for full-time Colorado residents. Base tuition rate does not include differential tuition charged for some programs. Differential tuition will not increase in FY18.
- Graduate on-campus tuition rate increase of 2.1%-5.0%, with most students experiencing a 3.0% increase (varies by program considering market and competitive landscape).
- Extended Campus and online tuition rate increase of 0.0% to 1.7%, with most students experiencing a 1.0% increase (varies by program considering market and competitive landscape).
- Increases to student capital fee of \$150 and student activity fee of \$26.
- Additional institutional investment of \$4.7 million in institutional discounting.
- Faculty, exempt and classified pay increases of \$1.9 million, a \$1.5 million increase in employee benefits (includes \$0.6 million for health insurance, PERA contribution rate increases, and increased fringe benefits due to salary increases-retirement, FICA, workers compensation, unemployment, etc.).
- Adjunct, summer/interim increase of \$0.4 million, primarily for the increased number of courses offered in Extended Campus, and \$0.3 million in positions included in the Fiscal Sustainability Plan.
- Student wages increase of \$0.7 million to cover increases in minimum wage of \$0.99 per hour in January 2017 and another \$0.90 per hour in January 2018.
- Increase of \$0.5 million in non-personnel operating budget. (Details are in Table 17.)
- Multiyear strategic investments of \$4.8 million. (Details in Table 19.)
- Capital investments (Details in Table 20).
  - o \$10.2 million in new institution-funded and state-funded capital projects of which \$7.4 million is to be expended in FY18.
  - o \$48.8 million for Campus Commons (state, debt and fund-raising combined).
  - o \$0.4 million in energy performance contract projects
- Sustainable cost savings of \$0.9 million as detailed in Appendix B.

### TUITION, FEES, AND ROOM AND BOARD RATES

Our pricing recommendations consider a systemic view of what UNC must provide students in order to deliver on our promise of transformative education. When setting both sticker price and discounting, we consider our competition, our cost to deliver education and student support, and students' willingness and ability to pay. Given the reality of the state's withdrawal from both operational and capital funding, the burden has shifted to the students; while we remain cautious about the cost of attendance, increases are rooted in promoting student success and improving retention and graduation rates.

#### For FY18 our recommendation is to:

- Increase resident undergraduate tuition by \$468 annually (6.8%). Appendix D includes more detail.
- Increase library fees by \$4 annually (3.0%) to cover increasing costs of online resources.
- Increase the technology fee \$10 annually (3.2%) to cover inflation.
- Continue the Student LEAF initiative \$20 annual fee. The fee funds environmental improvements in campus infrastructure and educational initiatives and is managed by a student-led committee with staff and faculty representation.
- Increase the student activity fee by \$26 annually (3.0%) to cover inflation.
- Increase the capital fee by \$150 annually (23.1%) to continue moving toward a fee that fully funds capital needs no longer funded by the state. This is the fourth year of a five-year capital fee plan.

Table 2 summarizes the effect of the recommendations on the pricing for resident undergraduate students. The pricing for graduate students varies by program.

**Table 2. Annual Undergraduate Resident Price** 

Tuition and Fees	FY17	FY18	\$ Increase	% Increase
Tuition (student share)	\$ 6,906	\$ 7,374	\$ 468	6.8%

Library Fee	138	142	4	3.0%
Capital Fee	650	800	150	23.1%
<b>Subtotal Tuition and Fees</b>	\$ 8,888	\$ 9,546	\$ 658	7.4%
Typical Room and Board	10,770	10,980	210	1.9%
Total Cost of Attendance	\$ 19,658	\$ 20,526	\$ 868	4.4%

### FINANCIAL AID AND INSTITUTIONAL DISCOUNTING

UNC continues to invest in institutionally funded scholarships, graduate tuition and fee waivers, room and board waivers, and graduate assistantship stipends as part of our overall pricing strategy.

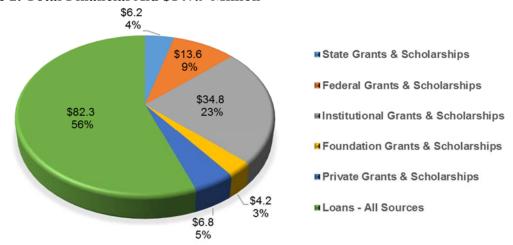

There are two types of discount rate: (1) the *institutional* discount rate and (2) the *student* discount rate. For additional information about the student discount rate, which compares the financial aid from all sources to a student's full cost of attendance, see Appendix E. For budget discussions, we use institutional discount rate because it demonstrates the financial impact on UNC of offering institutional scholarships and waivers. Our institutional discount rate is the percentage of tuition revenue we use for scholarships and waivers.

Total financial aid available to UNC students from all sources (state, federal, institutional, private, loans) for FY18 is estimated at \$147.9 million, as shown in Table 3 and Figure 2.

**Table 3. Financial Aid by Funding Source** 

Aid Type and Source	FY17 Budget	FY17 Forecast	FY18 Budget	17 Forecast to /18 Budget Change
Grants & Scholarships				
State	\$ 5,711,646	\$ 6,258,675	\$ 6,158,675	\$ (100,000)

Discount Percent	3.1%	3.4%	3.5%		3.4%	3.5%

#### **GRADUATE DISCOUNTING**

Institutionally funded financial aid for graduate students includes tuition and fee waivers and stipends for students who are awarded teaching, research, or administrative assistantships, as well as a limited number of scholarships. Only tuition and fee waivers and scholarships are included in graduate discounting calculations; stipends are budgeted as personnel expense for teaching, conducting research, or performing administrative tasks. Consistent with market expectations, certain programs, such as doctoral science programs offer assistantships while others, such as master's education programs, generally do not.

The graduate tuition rates and enrollment in the recommended budget will increase graduate tuition revenue by \$4.1 million. Institutional scholarships and waivers will increase \$0.2 million over the FY17 forecast. Approximately 16.3% of the graduate tuition revenue is to be used for discounting. Tables 7 and 8 show the financial impact of the graduate tuition rates and discounting in the recommended budget.

**Table 7. Graduate Institutional Aid Allocation** 

Aid Type	F	FY17 Forecast		FY18 Budget
Waivers	\$	4,854,500	\$	5,026,539

### ENROLLMENT AND TUITION REVENUE ASSUMPTIONS

Tuition revenue assumptions reflect rate changes as well as anticipated credit hour enrollment. Rate schedules are included in Appendix D and enrollment information is included in Appendix F. Assumptions in the recommended budget include:

- The FY18 Main Campus undergraduate credit hour enrollment is expected to be 2.6% more than the FY17 forecast (Table 9). A 6.8% resident, 2.5% non-resident, and 3.5% WUE tuition rate increase combined with the enrollment increases will result in a \$6.5 million revenue increase over the FY17 forecast (Table 10).
- The FY18 Extended Campus undergraduate credit hour enrollment is expected to be 1.0% greater than FY17 forecast (Table 9). Tuition rate and enrollment increases will result in additional revenue of \$0.2 million over the FY17 forecast (Table 10).
- The FY18 Main Campus graduate credit hour enrollment is expected to be 19.5% greater than the FY17 forecast (Table 11). Tuition rate and enrollment increases will result in a \$2.7 million revenue increase over the FY17 forecast (Table 12).
- The FY18 Extended Campus graduate credit hour enrollment is expected to be 2.6% greater than the FY17 forecast (Table 11). Tuition rate and enrollment increases will result in a \$1.4 million revenue increase over the FY17 forecast (Table 12).

<sup>&</sup>lt;sup>2</sup>Tuition changes related to enrollment also include the effect of shifts from higher priced to low er priced programs.

### **PERSONNEL**

As part of UNC's multiyear planning, we are working to establish sustainable strategies for providing competitive compensation to recruit and retain faculty and staff with the goal of delivering on our promise of transformative education to students. During Fall 2017, we developed university-wide staffing plans that included a limited number of new positions identified at the outset of the Five-year Fiscal Sustainability Plan. The staffing plan development process is designed to help units examine and rethink positions as they become vacant. As a result, positions are often eliminated, combined, or redefined.

The FY18 proposed budget includes a 2% salary pool for faculty and exempt staff. As in FY17, part of the exempt staff pool will be used to increase salaries that are below minimum levels identified the exempt staff banding project. In addition, the Long Bill was approved with a 1.75% across the board base-building increase for classified employees with satisfactory or outstanding evaluations as well as additional funds for merit increases. Personnel expenses in the recommended budget total \$137.6 million, which is \$4.7 million more than the FY17 forecast (Table 16). This includes \$30.7 million in fringe benefits. Table 14 summarizes the estimated FY18 fringe benefit budget, and Table 15 summarizes the changes in personnel expenses in the recommended budget.

**Table 14. Estimated Fringe Benefit Budget (in millions)** 

Retirement	\$ 15.2

## MULTIYEAR STRATEGIC INVESTMENTS BUDGET

The multiyear strategic investments budget is conceptually similar to the capital budget. Projects and initiatives funded by the strategic investment budget typically cross fiscal years and are distinguished from ongoing operations in one of two ways. They are either: (1) exploratory in nature and to be reconsidered in light of the return on the investment after several years, or (2) to be completed by an individual faculty member or department within a set time period for a specific purpose (e.g., funds for a faculty member to set up a science lab).

As an example of an exploratory project, our Community and Civic Engagement initiative (developed based on one of our nine core plans), was funded from this budget for four years. After reviewing student success and engagement outcomes, we are incorporating this function into the operating budget, beginning in FY18.

During the period of the Five-year Fiscal Sustainability Plan, the multiyear strategic investment budget has been funded primarily from reserves. In the future, the multiyear strategic investment budget will need to be funded from surplus operating revenues or one-time sources of funding.

The strategic investment budget in the recommended FY18 budget is \$4.8 million (Table 19). This includes investments related to our nine core plans, such as online course development, faculty research, new faculty start-up packages, grant-writing development, and the Student Success Collaborative. It also includes a portfolio of new technology projects and funding for campus-wide long-term facility planning including parking and traffic circulation.

**Table 19. Multiyear Strategic Investments**

Grand Total	\$	3,626,389	\$ 5,752,475	\$	4,765,000

UNC's facilities and capital equipment are our most significant asset and a critical consideration regarding our long-term financial health. For financial statement purposes, we reported a capital assets book value of \$244 million at fiscal year ending June 30, 2016, which is 76% of our \$320 million in total assets. The book value, however, understates the economic value of our facilities and equipment. The following numbers give a better sense of the importance of our capital investment in our planning work:

- Facilities building and infrastructure current replacement value (CRV) is \$880 million.
- Furniture and equipment is insured at a value of \$81 million.

Table 20 shows the detailed Capital Budget for FY18. The total Campus Commons project budget is \$73.6 million and will be expended over four years (FY16-FY19).

Total Campus Commons	nding*		
State Appropriation	\$	38.0	million

## CASH BALANCES AND RESERVES

As discussed in the Five-year Fiscal Sustainability Plan, part of UNC's response to the dramatically changing higher education landscape was to begin building a central reserve in 2009. We increased total cash from \$53.0 million in FY08 to \$80.6 million in FY13 while centralizing uncommitted cash rather than allowing individual departments to have "roll-forward" balances as in the past. In FY08, about 10% of our \$53.0 million in cash was held in central reserves; in FY13 about half of our \$80.6 million in cash was held in central reserves.

In FY14 we began spending down reserves to invest critical capital projects and strategic initiatives identified in our nine core and five support plans (see Appendix A for more planning information). The Five-year Fiscal Sustainability Plan calls for four years of reserve spending to make capital and strategic investments before beginning to rebuild the reserve in FY19.

Table 21 shows forecasted cash balances at June 30, 2017, and the projected effect of the recommended FY18 budget on cash balances at June 30, 2018.

Cash Forecast at 06/30/2018 (a) (b)	\$	21.4	\$	0.4	\$ -	\$	2.9	\$ 23.2	\$	47.9

<sup>(</sup>a) This forecast assumes \$26.3 million of bond proceeds will be expended on the Campus Commons in FY18.

<sup>(</sup>b) The 6/30/2017 year-end annual report will include \$27.3 million of unexpended Campus Commons bond proceeds in Cash and Cash Equivalents in addition to this forecast, and the 6/30/2018 year-end annual report will include \$1.0 million.

As shown in Table 22, the portion of cash in central reserves is comprised of:

- A \$750,000 mandatory bond repair and renovation reserve.
- Capital reserves that allow projects to be fully-funded at the time they are initiated and to address unexpected infrastructure failure.
- A risk management reserve that supplements and complements our insurance coverage, including funding to meet our \$50,000 property loss deductible, cover legal settlements, and a source for managing potential future changes to our insurance structure.
- A centralized uncommitted university reserve.

The FY17 forecast in the Operating Budget on page 11 is \$60 higher than needed for the Energy Performance Contract.

## Appendix A: Planning and Fiscal Sustainability

Over the past decade, we have developed a systemic, organic, and integrated planning process that (1) actively engages the campus community; (2) is an ongoing process of plan development, implementation, and evaluation; and (3) shapes our annual budgets and ongoing fiscal sustainability.

#### PLANNING MAP

The Planning Map (page A-4) connects numerous efforts to operationalize our vision for transformative education for students facilitated by our faculty teacher-scholar model. The Planning Map includes nine Core Plans and five Support Plans. The nine Core Plans articulate aspirations and action steps for nine areas comprising the core mission and function of UNC, the areas crucial to creating transformative learning experiences for students. The five Support Plans address major university-wide support functions that are necessary to implement the Core Plans. We operationalize these multiyear plans one year at a time through annual budgets and action steps.

#### RESOURCE ALLOCATION PHILOSOPHY

In the past we took a decentralized approach to planning and budgeting that allowed units to focus primarily on supporting their own needs and priorities. As we enter the fourth year of our Five-year Fiscal Sustainability Plan, we have maintained the centralized "river of revenue" financial management approach that has been essential to funding initiatives to increase enrollment, control expenses and build a more robust student support infrastructure. This approach – where all university resources, regardless of source, are used for university priorities – was necessitated by the external realities of limited state funding, changing student demographics and expectations, increased competition and the public's return-on-investment mindset. The trade-off in taking a centralized approach is that little opportunity is available for college and departmental innovation and initiatives. As we move to the end of the Five-year Fiscal Sustainability Plan, we are exploring ways to implement a hybrid financial planning and budgeting approach that provides sufficient central resources for major initiatives, but also decentralizes some responsibility and incentives for innovation.

#### **FY18 KEY INITIATIVES**

FY18 will be the fourth year of our Five-year Fiscal Sustainability Plan, so there is less margin for adjustment than in earlier years of the plan. We have gained significant ground in our new undergraduate and graduate student enrollment which will result in growth in continuing (and therefore, total) enrollment for the next several years. While continued new student growth will be an important part of our FY18 work, new student enrollment has been achieved more slowly than originally anticipated; this will require increased attention to cost containment and sustainable cost savings initiatives. Campus Commons construction will be a visible indication of progress during FY18, but at least as important will be the less visible work of rethinking the student support functions that will be housed in the building.

#### Five-year Fiscal Sustainability Plan

UNC's Five-year Fiscal Sustainability Plan is a roadmap to long-term fiscal sustainability with limited state support. It aims to grow revenue in spite of relatively flat state funding by spending down reserves to invest in priorities to spur enrollment growth in order to cash flow positive by Fiscal Year 2018-19.

The Five-year Fiscal Sustainability Plan was developed in 2014 to show how the actions and resource decisions emerging from UNC's Planning Map would come together over five years to effect the university's fiscal sustainability. There were five major growth targets.

- 1. Grow enrollment to over 15,000 students by Fall 2018.
- 2. Increase the proportion of graduate students in our total enrollment from 20% to 25% by Fall 2018.
- 3. Increase the average year-to-year undergraduate persistence rate by 2 percentage points (to 83%) by Fall 2018.
- 4. Identify at least \$2.4 million in new sustainable cost savings by the end of fiscal year 2018.
- 5. Pursue funding to break ground on the Campus Commons in the summer of 2016, and complete the second of two construction phases by the end of 2018.

We knew when we developed the Five-year Fiscal Sustainability Plan that, although there were specific interim enrollment and financial benchmarks, we would need to adapt along the way. In November 2015 and 2016, we discussed revised versions of the plan with the Board, and we will be developing a final revision in Fall 2017. While we anticipate continued new freshman and new graduate student growth in both Fall 2017 and Fall 2018, we now project that total enrollment will reach 15,000 in Fall 2020. Slower revenue growth will require that we increase our work to find sustainable cost savings so that we will cash flow positive in FY19.

Page A-5 is the most recent fiscal sustainability plan progress report, reflecting FY17 forecasted results and the FY18 budget.

#### **Enrollment and Pricing Plan**

The enrollment planning team is led by Provost/SVP Robbyn Wacker, CFO/SVP Michelle Quinn, and External and University Relations VP Dan Weaver. It includes members from departments that play key roles in undergraduate and graduate: marketing, recruitment and enrollment operations. The three overarching goals of the planning work are to: (1) have more students earn high-quality degrees that prepare them for work, life and responsible citizenship; (2) balance enrollment volume and student success to right-size UNC, and (3) serve students who reflect the diversity of the world around us.

In the first year of Five-year Fiscal Sustainability Plan (FY15), UNC experienced a decline in new undergraduate and graduate students while behind the scenes restructuring was accomplished. By 2017, we anticipate more than making up for that with a cumulative new freshman growth of 17% and cumulative new graduate student growth of 51%. This growth includes a mix of full- and part-time students as well as a mix of Main Campus, Extended Campus and online students. Integrated and targeted marketing as well as communication campaigns to build relationships have been key work to support this progress. We have also seen improvement in undergraduate student persistence and academic success measures as a result of student support and success initiatives.

As discussed at the May Board Finance and Audit Committee meeting, effective use of institutional financial aid, or discounting, is a growing part of our pricing strategy. We have used Ruffalo Noel Levitz as consultants in developing our undergraduate pricing and discounting models. Graduate pricing and discounting (primarily assistantships) are driven by individual program markets.

### **Campus Commons**

UNC is building the Campus Commons to provide an integrated support hub for students, a showcase for the university's world-class arts programs, and a portal to welcome and educate visitors about UNC. This addresses three critical concerns. (1) Student support functions are now spread around campus so students have to determine what type of assistance they need, identify which office provides it, and go back and forth among several offices to take care of complex issues. (2) Practice and performance spaces for arts students do not reflect the academic quality of UNC's world-renowned programs, creating a competitive disadvantage for the university and its graduates. (3) Because UNC does not have a gateway building, it does not have an opportunity to welcome visitors and educate them about the university and misses out on key opportunities for recruitment and promotion.

The Commons will be built adjacent to the University Center, to the southeast, and will complement the functions in the University Center. By bringing together a variety of functions and operating in concert with the University Center, the Commons will encourage collaboration and synergies that are difficult to foster in separate spaces.

The \$74-million project will be funded with state capital funds, private donor gifts, and bonds supported by a student capital fee. The portion of the student capital fee used for the Commons will be \$160 per year for a full-time student. The State of Colorado has committed \$38 million in capital funding toward the Commons, and UNC is approaching the \$7-million mark on the way to a \$12-million fundraising goal.

#### University-wide Planning

The **Strategic Framework** is the foundation for all of UNC's planning work. As illustrated by the Venn diagram (on right), our vision is to provide students with opportunities for transformative education by focusing on the intersections among academics, research and community.

UNC's approach to planning is entrepreneurial, multiyear, and based in systems thinking. Our planning process includes multiyear direction setting and priority setting; annual identification and implementation of action steps; and evaluation of both the planning process and its outcomes.

#### Entrepreneurial

At UNC, we have defined planning as an ongoing, iterative process of taking control of our own future in order to fulfill UNC's mission and our shared vision for the University.

#### Multiyear

We have two types of multiyear plans: **core plans** and **support plans**. Core plans articulate aspirations and action steps for the nine areas that comprise the core mission and function of the University. Building on the directions and priorities in the core plans, support plans articulate aspirations and action steps for major University-wide support efforts.

#### Systems-based

To facilitate a systems approach, all of our planning work considers the following eight key system elements:

While these eight elements are not of equal importance, each has a bearing on our ability to fulfill the vision articulated by the Strategic Framework. In the diagram on the right, a plan's color indicates only the Key System Element with which the plan is primarily associated; there is significant overlap among the plans and elements.

## Appendix B: FY18 Sustainable Cost Savings

As part of UNC's strategic planning culture, we have developed a regular practice of identifying "sustainable cost savings". That terminology was selected to ensure that we did not engage in unhelpful short-term approaches like across-the-board cuts or slashing budgets one year with the expectation that the funds would be returned the next year. We knew that we were facing a permanently changed environment and that our budgeting would need to be permanently changed. From 2010 to 2013 we identified over \$6.5 million in sustainable cost savings including both (1) "budget cleanup" – aligning budgets to actual historical expenditure patterns, eliminating built-in contingency at the individual unit level in favor of central reserves – and (2) changes in the way we do business such as a revised approach to extended campus revenues and incentives, changes in telecommunication support, adjusting operating hours of certain functions, continuous attention to staffing, and eliminating activities that we can stop doing in favor of activities that are more critical in our new environment.

As part of our Five-year Fiscal Sustainability Plan (June 2014 version), we set an initial target of \$2.4 million in sustainable cost savings over the five years. Our Fall 2015 increased that target to \$6.4 million, including both truly sustainable cost savings, as well as temporary savings and project deferrals to manage cash balances.

Our FY18 sustainable cost savings goal was \$0.8 million, which we exceeded by \$90 thousand. The first table shows the details of the savings identified. The second table shows cumulative savings for the Five-year Fiscal Sustainability Plan. We will be increasing sustainable cost savings goals for FY19 when we update our Five-year Fiscal Sustainability Plan during Fall 2017.

**FY18 Sustainable Cost Savings** 

	Sustainable
	Cost Savings
Cell phone stipends	\$ 12,708
University Relations services	21,160
Staff travel	26,000
Extended Campus supplies and services	127,500

<sup>&</sup>lt;sup>1</sup> Based on Fall 2016 "final" and Spring 2017 "census." Students are included in these calculations if they were enrolled as a degree-seeking undergraduate in both Fall and Spring and were fulltime (12+ CH) in each term. International students are excluded. Students are also excluded for any of the following reasons: the student's residency changed between fall and spring, the student received a tuition waiver for being an employee or a dependent of an employee, or the student withdrew from courses after census and was refunded some or all of their tuition and fees.

E-1

<sup>&</sup>lt;sup>2</sup>Differential tuition and course fees are additional cost, which vary from student to student.

<sup>&</sup>lt;sup>3</sup>For this summary, cost of attendance is calculated based on a combination of actual amounts each student was billed by the institution and budget figures from the Office of Financial Aid. All costs for tuition and fees are based on what the student was actually billed. Room and board costs are based either on actuals or on budget figures, depending on whether the student lived on campus and/or had a full meal plan. All other costs (e.g., books, insurance, transportation, etc.) are based on budget figures.

<sup>&</sup>lt;sup>4</sup>The calculations in this table are based on total Grant/Scholarship aid from all sources (institutional, foundation, federal, state, and private). All calculations are based on student level data; a student's specific award package is compared to their own specific calculated COA.

<sup>&</sup>lt;sup>5</sup>Represents the percentage of students in this population (Resident/Non-Resident/WUE) with at least one of these awards "paid."

<sup>&</sup>lt;sup>6</sup>For students with at least one of these awards paid, this is the most common range for their total from this type of award (using standardized \$1,000 intervals).

## Appendix F: 2017-18 Enrollment Detail

### **FY18 Enrollment and Revenue Cycle**

The reporting cycle for Academic Year 2017-18 began in January 2017 when we set enrollment targets for Fall. The information in this document gives point-in-time data for Fall 2017 along with comparable information for last year. Table 1 shows where we are in our enrollment and revenue reporting cycle.

Table 1. Key 2017-18 Enrollment and Revenue Dates

	Key 2017-18 Enrollment and Revenue	e Dates

#### Fall 2017 (FY18) Target Enrollment Headcount

Our target enrollment for Fall Census 2017 is 13,238 students (10,112 undergraduates and 3,126 graduates), which is an 8.0% increase in headcount from 2016 actual. Tables 3 and 4 are from the 2017-18 Enrollment Plan the Board reviewed in January, they show our enrollment and persistence targets for Fall Census 2017.

**Table 3. Fall 2017 Census Targets**

### **Undergraduate Enrollment Progress to Target**

#### **New Domestic First-Time Undergraduates**

As shown in Table 5, our point-in-time Fall 2017 new domestic freshmen admits (as of May 28) is 6,552 as compared to 5,972 for Fall 2016. Our number of admits will continue to increase slightly over the summer; we are projecting 6,674 total admits. With a projected admit-to-enrolled yield of 33.9%, we predict we will reach our target of 2,280 new domestic first-time students.

<sup>&</sup>lt;sup>2</sup> Degree-seeking and non-degree students (excludes high school concurrent)

<sup>&</sup>lt;sup>3</sup> Total equals sum of yellow highlighted rows

**Table 5. New Domestic Fall 2017 First-Time Undergraduates** 

New	New Domestic First-Time Undergraduates								
	Fall 17 (FY18) Target	Fall 17 (FY18) Prediction	Fall 16 (FY17) Actual						
Census Headcount	2,280	2,280	2,142						
		Fall 17 (FY18) Projected	Fall 16 (FY17) Census Actual						
Census Admits		6,674	6,094						
Census Yield Rate		33.9%	35.2%4						
		Fall 17 (FY18) Point-in-Time	Fall 16 (FY17) Point-in-Time						
Admits <sup>1</sup>		6,552	5,972						
FAFSAs Received (Admits	s Only) <sup>2</sup>	5,155	4,324						
Housing Contracts (Resid	lence Halls)³	1,741	1,911						

<sup>&</sup>lt;sup>1</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

#### **New Domestic Transfer Undergraduates**

As shown in Table 6, our point-in-time Fall 2017 new domestic transfer admits (as of May 28) is 1,334 as compared to 1,090 for Fall 2016. The number of admits will continue to increase slightly over the summer; we are projecting 1,521 total admits. With a projected admit-to-enrolled yield of 51.5%, we estimate 780 new domestic transfer students, which is above Fall 2016, but below the Fall 2017 target of 834.

**Table 6. New Domestic Fall 2017 Transfer Undergraduates** 

New Domestic Transfer Undergraduates								
	Fall 17 (FY18) Target	Fall 17 (FY18) Prediction	Fall 16 (FY17) Actual					
Census Headcount	834	780	776					
		Fall 17 (FY18) Projected	Fall 16 (FY17) Census Actual					
Census Admits		1,521	1,446					
Census Yield Rate		51.5%	54.8% <sup>4</sup>					
		Fall 17 (FY18) Point-in-Time	Fall 16 (FY17) Point-in-Time					
Admits <sup>1</sup>		1,334	1,090					
FAFSAs Received (Admit	s Only) <sup>2</sup>	789	710					
Housing Contracts (Resid	lence Halls)³	127	154					

<sup>&</sup>lt;sup>1</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

<sup>&</sup>lt;sup>2</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

<sup>&</sup>lt;sup>3</sup>Point-in-time dates are 5/24/17 and 5/25/16.

<sup>&</sup>lt;sup>4</sup>Calculated based on 2,144 enrolled admits, of which 2,142 were reported as "new domestic first-time"; the difference is students who were reported as "continuing."

<sup>&</sup>lt;sup>2</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

<sup>&</sup>lt;sup>3</sup>Point-in-time dates are 5/24/17 and 5/25/16.

<sup>&</sup>lt;sup>4</sup>Calculated based on 793 enrolled admits, of which 776 were reported as "new domestic transfers"; the difference is students who were reported as "continuing."

#### **Continuing Domestic Undergraduates**

The calculation for the number of continuing students for Fall 2017 is based upon the number of students we currently have minus the number who graduate and minus the number who temporarily "take a break" or permanently withdraw, plus those that return from a temporary break.

As shown in Table 7, we had 8,057 undergraduates enrolled this Spring and expect 1,042 to graduate in May and an additional 319 to graduate this Summer. Given expected retention (those that don't take a break or withdraw) and expected returns of students who took a break this spring, we predict 6,079 continuing domestic undergraduate students. This is higher than Fall 2016 actual but lower than Fall 2017 target.

Although it is still early for Fall undergraduate registrations, and data can vary significantly from year-to-year depending on the registration schedule, Table 7 also shows point-in-time (May 28) 5,544 registered continuing domestic undergraduates, as compared to 5,547 for Fall 2016.

**Table 7. Continuing Fall 2017 Domestic Undergraduates** 

Continuing Domestic Undergraduates							
Fall 17 (FY18) Target		Fall 17 (FY18) Prediction	Fall 16 (FY17) Actual				
Census Headcount	6,139	6,079	6,063				
		Spring 17 (FY17) Actual	Spring 16 (FY16) Actual				
Enrolled Prior Spring Cen	isus	8,057	7,941				
		Fall 17 (FY18) Point-in-Time	Fall 16 (FY17) Point-in-Time				
Registrations <sup>1</sup>		5,544	5,547				
		2017 Spring Actual & Summer Expected	2016 Actual				
Spring Graduates		1,042	1,021				
Summer Graduates		319	289				

<sup>&</sup>lt;sup>1</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

#### **Undergraduate International and Non-Degree Students**

We currently predict international and non-degree enrollment will increase over Fall Census 2016. This would indicate progress is being made in developing our international partnerships, particularly in East Asia.

#### **Graduate Enrollment Progress to Target**

Graduate students tend to delay their application and registration longer than undergraduate students. There is less pressure to register since graduate course sections do not close as undergraduate courses do. In addition, 53% of our graduate enrollment is in extended campus and online programs, which use a cohort model and often have start dates later than our main campus start of classes. This makes projecting our graduate enrollment more difficult.

**New Domestic Degree-Seeking Graduates** As shown in Table 8, our point-in-time Fall 2017 new domestic graduate applicants (as of May 28) are 2,239 as compared to 2,508 for Fall 2016. Our number of admits will continue to increase over the summer and into fall; we are currently projecting 1,622 total admits. With a projected admit-to-enrolled yield of 62.1%, we predict 1,007 new domestic graduate students.

**Table 8. New Domestic Fall 2017 Degree-Seeking Graduates** 

New Domestic Degree-Seeking Graduates								
Fall 17 (FY18) Target		Fall 17 (FY18) Prediction	Fall 16 (FY17) Actual					
Census Headcount	1,007	1,007	880					
Final Headcount		1,009	882					
		Fall 17 (FY18) Projected	Fall 16 (FY17) Census Actual					
Census Admits		1,622	1,453					
Census Yield Rate		62.1%	61.9%³					
		Fall 17 (FY18) Point-in-Time	Fall 16 (FY17) Point-in-Time					
Applicants <sup>1</sup>		2,239	2,508					
Admits <sup>1</sup>		1,282	1,113					
Registrations <sup>2</sup>		442	333					

Students with "complete" applications; 12 weeks before classes (5/28/17 and 5/29/16).

Continuing Domestic Degree-Seeking Graduates As shown in Table 9, we had 2,208 graduates enrolled this Spring; we expect 306 to graduate in May and an additional 292 to graduate this Summer. Given expected retention (those that don't take a break or withdraw) and expected returns of students who took a break this spring, we predict 1,694 continuing domestic graduate students. This is equal to our Fall 2017 target and 219 students above Fall 2016 actual.

Although it is still very early for Fall graduate registrations and data can vary significantly from year-to-year. Table 9 also shows point-in-time (May 28) 927 registered continuing domestic graduates as compared to 840 for Fall 2016.

<sup>&</sup>lt;sup>2</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

<sup>&</sup>lt;sup>3</sup>Calculated based on 900 enrolled admits, of which 880 were reported as "new"; the difference is students who were reported as "continuing."

**Table 9. Continuing Fall 2017 Domestic Degree-Seeking Graduates** 

Continuing Domestic Degree-Seeking Graduates								
Fall 17 (FY18) Target		Fall 17 (FY18) Prediction	Fall 16 (FY17) Actual					
Census Headcount	1,694	1,694	1,475					
Final Headcount		1,694	1,486					
		Spring 17 (FY17) Actual	Spring 16 (FY16) Actual					
Enrolled Prior Spring Census		2,208	1,973					
		Fall 17 (FY18) Point-in-Time	Fall 16 (FY17) Point-in-Time					
Registrations <sup>1</sup>		927	840					
		2017 Spring Actual & Summer Expected	2016 Actual					
Spring Graduates		306	284					
Summer Graduates		292	236					

<sup>&</sup>lt;sup>1</sup>Point-in-time is 12 weeks before classes (5/28/17 and 5/29/16).

**Graduate International and Non-Degree Students** We currently predict international and non-degree enrollment will increase over Fall Census 2016. As with the undergraduate international enrollment, the increase we predict is a direct result of the progress is being made in developing our partnerships in East Asia.
