

## School Psychology Practica

All students are required to complete numerous practica and field experiences prior to graduation. Each course is designed to provide “hands on” experiences related to skills-based competencies (see attached model). The practica curriculum consists of the following:

Seminar in School Psychology (APCE 763)	60 hours
Practicum in Child, Adolescent & Family Interventions (APCE 618)	80 hours
Practicum in Evidence-Based Interventions	180 hours
Practicum in School Psychology (APCE 779)	<u>180 hours</u>
	500 hours

Students are to document their experiences in the school by keeping a log detailing their experiences. These types of experiences and forms used are similar to those found later in this handbook. However, additional forms may be used and will be provided by the instructor of the practicum course.

### Practicum Requirements Ed.S. Program in School Psychology May, 2008
