This sample course sequence was designed for students who will not be waiving or transferring in any courses. Although there is some flexibility built into our program, those courses with an asterisk are pre-requisites for other courses so they must be taken in the sequence shown. Specifically, APCE 607 is a pre-requisite for APCE 618. APCE 781 is a pre-requisite for any of the assessment courses and each assessment course must be successfully completed before a student can take the next assessment course. APCE 638 is a pre-requisite for APCE 738. Several courses are pre-requisites to taking APCE 779: School Psychology Practicum (i.e., 660, 672, 674, 678). All required coursework must be taken before a student can begin internship hours. (Even though the schedule reflects internship hours taken during the final summer when the student is also taking coursework, the internship will not typically begin until early August when all summer courses have ended).

Note: APCE 747 will be required for students beginning in Fall 2008.
