VISITS

Since the program is an intense, two-week program, visits and leaves are difficult to arrange in the schedules. Unless it is essential, we discourage visits and leaves from the program. When leaves are unavoidable, we require that written permission be given to the dorm director **prior to or on the Sunday of registration**. When the child is picked up or returned, s/he must also be signed out with the dorm director. Students will be allowed to leave the dorm **only** if a parent request is on file with the dorm director.
