CAPTAIN GRAVITY'S SAFETY TIP OF THE MONTH

ATTITUDE IS EVERYTHING

Courtesy of Pinnacol Assurance

Having a safe attitude is more than just following the rules. It's that extra something that means you care about safety. You show you keep safety in mind when you . . .

FOCUS on the job you're doing, even when you'd rather be doing something else.

TAKE TIME to do the job right, even if it means getting out extra safety equipment and going over procedures.

TAKE RESPONSIBILITY for safety, even when it's "not my job."

DO THE RIGHT THING, even when others want you to take shortcuts or fool around.

KNOW THE RISKS of unsafe tasks, and avoid them whenever you can, even when it means taking more time to get the job done safely.
