

Food Sudoku - ANSWER KEY

Just like Sudoku, except with foods instead of numbers! The goal is to fill in all the blank squares with the correct foods, keeping in mind 3 constraints you must follow:

- Every horizontal row must include all 9 foods in any order.
- Every vertical column must include all 9 foods in any order.
- Every 3 by 3 box of the 9 by 9 square must include all 9 foods in any order.

The words begin with the letters A-I to make it easier for you to check that all 9 have been placed correctly.
