## Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

## Section 7. Accreditation Pathway

Continuous Improvement. *Summarize progress toward target level performance on the standard(s) selected.*

The University of Northern Colorado (UNC) has been working toward target level performance in the area former NCATE standard 4: Diversity. To that end our focus has been on the integration of College of Education and Behavioral Sciences diversity standards, inclusion of all populations among faculty, staff, and candidates, and the targeted preparation of candidates who are not only familiar with diversity standards, but who are wholly prepared to work with a variety of diverse populations. As we transition, to CAEP standards, UNC believes that we will be able to integrate our current work toward target in diversity into our work toward target in CAEP Standard 1: Content and Pedagogical Knowledge. At UNC, all EPP must address and ensure that teacher candidates meet the Colorado Professional Standards for Colorado Teachers and individual content related standards. In addition, all early childhood, elementary, K12 and special education programs, along with secondary English education must meet and prepare candidates to address the Colorado Literacy Standards. In addition, many of our programs hold national recognition from associates SPAs. In addition, the diversity framework is designed to increase diversity awareness and help us work towards greater equity and social justice in our university campus and the communities we serve. The framework is designed for faculty, staff, students, and administrators. We will pursue the following five broad goals and encourage their inclusion in all of our professional activities, teaching, learning, research, and service. Thus in addition to meeting state content, professional teacher standards, and literacy standards, our candidates are also prepared to meet, address and understand national SPA standards and the College diversity framework, thus assisting us to move along the continuum to meeting target level performance in CAEP Standard 1: Content and Pedagogical Knowledge.
