

RECORD GROUP C-2 NORTH CENTRAL ASSOCIATION (NCA)

SERIES 1 Colorado State Committee
Annual Reports

LOCATION Basement Archives Storage Area

VOLUME 66 ft

The NCA Annual Reports are a collection of bound documents dated from 1914 to 1981. They contain the annual accreditation reports for all the junior and senior high schools in the Colorado area. Each school had submitted records to be evaluated by a reviewing committee to correct failures to meet standards. The committee's decision of accreditation for each institution is included in these books.

Information on each school includes the grades, enrollment by sex, and the number graduated each year. Also included is the population of the city or town.

Questions completed by each school on the printed questionnaires include those on the subjects offered, hygienic conditions, laboratory and library facilities, periods per teacher, and the pupil-teacher ratio.

Information on each new teacher includes the name, college attended, degree received, areas of specialization, and additional professional training, and professional experience in the designated school and elsewhere, together with the subjects they were then teaching and their salaries.

SERIES 2 Policies, regulations and standards

LOCATION Archives Basement Ranges

VOLUME -1 shelf foot

This is a series of booklets published in 1948 and between 1977 and 1980 by the North Central Association of Colleges and Secondary Schools establishing standards for accreditation of secondary schools and junior high/middle schools.

Most of the pamphlets list officers of the Association or of the Commission on Secondary Schools, as well as the chairpersons of the State Committees of the Commission on Schools. Maps on the front of the booklets show the states covered by the NCA.

These pamphlets are not Colorado publications, but are retained because the standards contained were those applied to the Colorado schools accredited in Series 1.

SS 12 - 3-85

Revised by Shirley Soenksen on February 16, 2010 based on the original typed inventory sheets.
