

## **Criminal Justice Program Profile (Catalog 06-07)**

This sample four year (120 hour) profile is based on an early decision on the major, a heavy concentration of Liberal Arts Core requirements in the first two years, a regular progression through the program, and an average credit load of 15 hours per semester. The program does not require Criminal Justice majors to have a minor, but reference to minor courses is included here for those who may choose that option.
