

## **UNC Professor Honored by Math Association**

UNC Professor Richard Grassl has been named the recipient of the 2009 Burton Jones Distinguished Teaching Award. The annual award from the Rocky Mountain Section of the Mathematical Association of America recognizes extraordinarily successful teachers of mathematics at the post-secondary level for the entire Rocky Mountain area. It was presented to Grassl at the regional meeting April 17-18 at Colorado School of Mines in Golden. In addition to receiving this prestigious honor, Grassl will be the section nominee for the national Deborah and Franklin Haimo Awards for Distinguished College or University Teaching of Mathematics. Grassl has taught at UNC since 1991.
