

## Summer 2009 Budgets

Summer budgets are based on the number of credits you are registered for and the session(s) you are enrolled in; 6 week, 8 week, 12 week or a combination of the three. The chart below contains budgets for exactly half time and exactly full time for undergraduates, graduates, non-residents, residents and commuters. The budgets are also broken down for 6, 8 and 12 week sessions. If your enrollment falls between half time and full time your budget will be adjusted accordingly. For example: the budget for an undergraduate student taking 8 credits in a 12 week session will not appear on the chart below; however, a separate budget exists for that scenario and for all other scenarios that don't fall within the chart. Please contact the Office of Financial Aid for a specific budget based on your summer enrollment.

### Undergraduates

Full time (FT) enrollment: 12 or more credits  
 Half time (HT) enrollment: 6 credits

### Graduates

Full time (FT) enrollment: 9 or more credits  
 Half time (HT) enrollment: 5 credits
