

Join us for NSF Day at The University of Wyoming, Laramie

The National Science Foundation (NSF), The University of Wyoming, and the Wyoming EPSCoR Office are pleased to invite you to participate in our upcoming NSF Day.

NSF Days provide basic insight and instruction on how to compete for NSF funding for science, engineering, and education research. This day-long workshop will offer background on the Foundation, its mission, priorities, and budget.

Learn to write competitive proposals! NSF staff will give an overview on proposal writing, NSF's merit review process, and programs that fall within the seven scientific and engineering directorates, as well as funding opportunities that cross disciplinary boundaries. NSF representatives will be on hand to answer questions and to host discipline- and program-specific breakout sessions to personally engage in discussions with attendees.

A draft agenda is forthcoming. Previous agendas are available on www.nsf.gov/nsfdays
