

Do you want a challenge?

Do you want to earn money?

Do you want to use your science and mathematics knowledge to make a difference?

If you answer YES to these questions, apply to be a Noyce Intern, Noyce, Scholar, or Noyce PostBac.

Noyce Scholarship and Internship Programs

(Funded by the National Science Foundation)

What is a Noyce Scholarship?

This scholarship is for talented UNC science and mathematics majors or science and mathematics professionals who would like to be secondary (grades 6-12) mathematics or science teachers.

Noyce Scholars are UNC junior and senior students who receive \$16,000 per year. Scholarship recipients are required to complete two years of teaching in a high-need school district for every year of scholarship received.

Noyce Post-Bacs are UNC Post-Baccalaureates who receive \$16,000 for one year. Scholarship recipients are required to complete two years of teaching in a high-need school district for every year of scholarship received.

What is a Noyce Internship?

The Noyce Internship provides UNC freshman and sophomore science and mathematics majors opportunities to assist K-12 teaching and learning activities such as the Poudre Learning Center, Las Chicas de Matemáticas, and Frontiers of Science Institute.

Noyce Interns will receive \$900 for 80 hours of work during summer or academic year. Ideal candidates demonstrate mathematics and science academic success and commitment to support mathematics or science education activities.
