

UNC

Facilities Comprehensive Plan

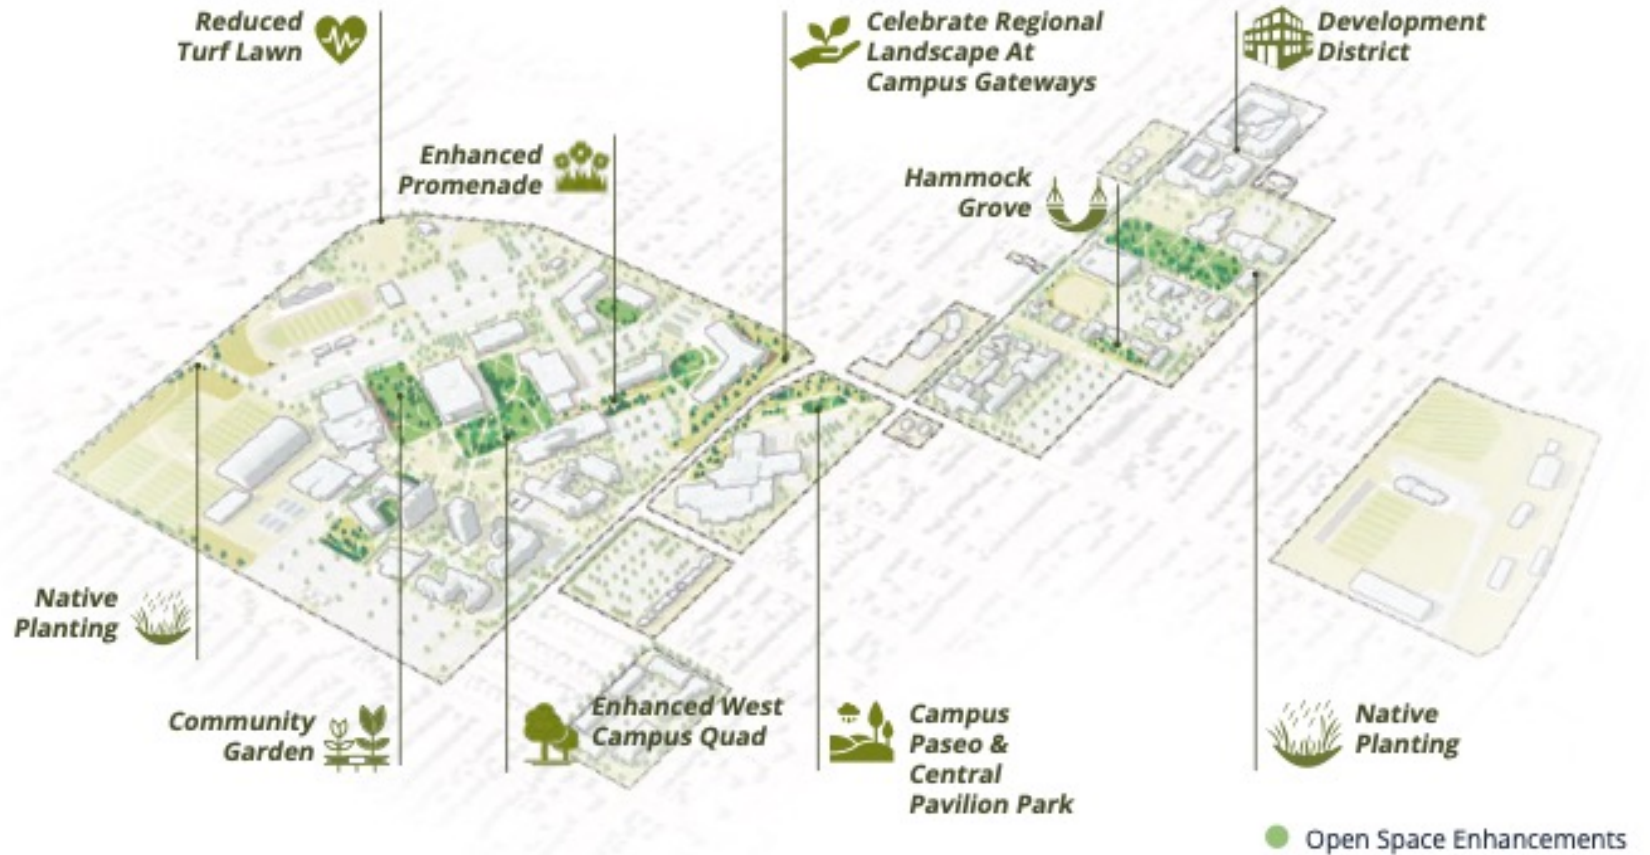

Campus Vision

SPRING 2024

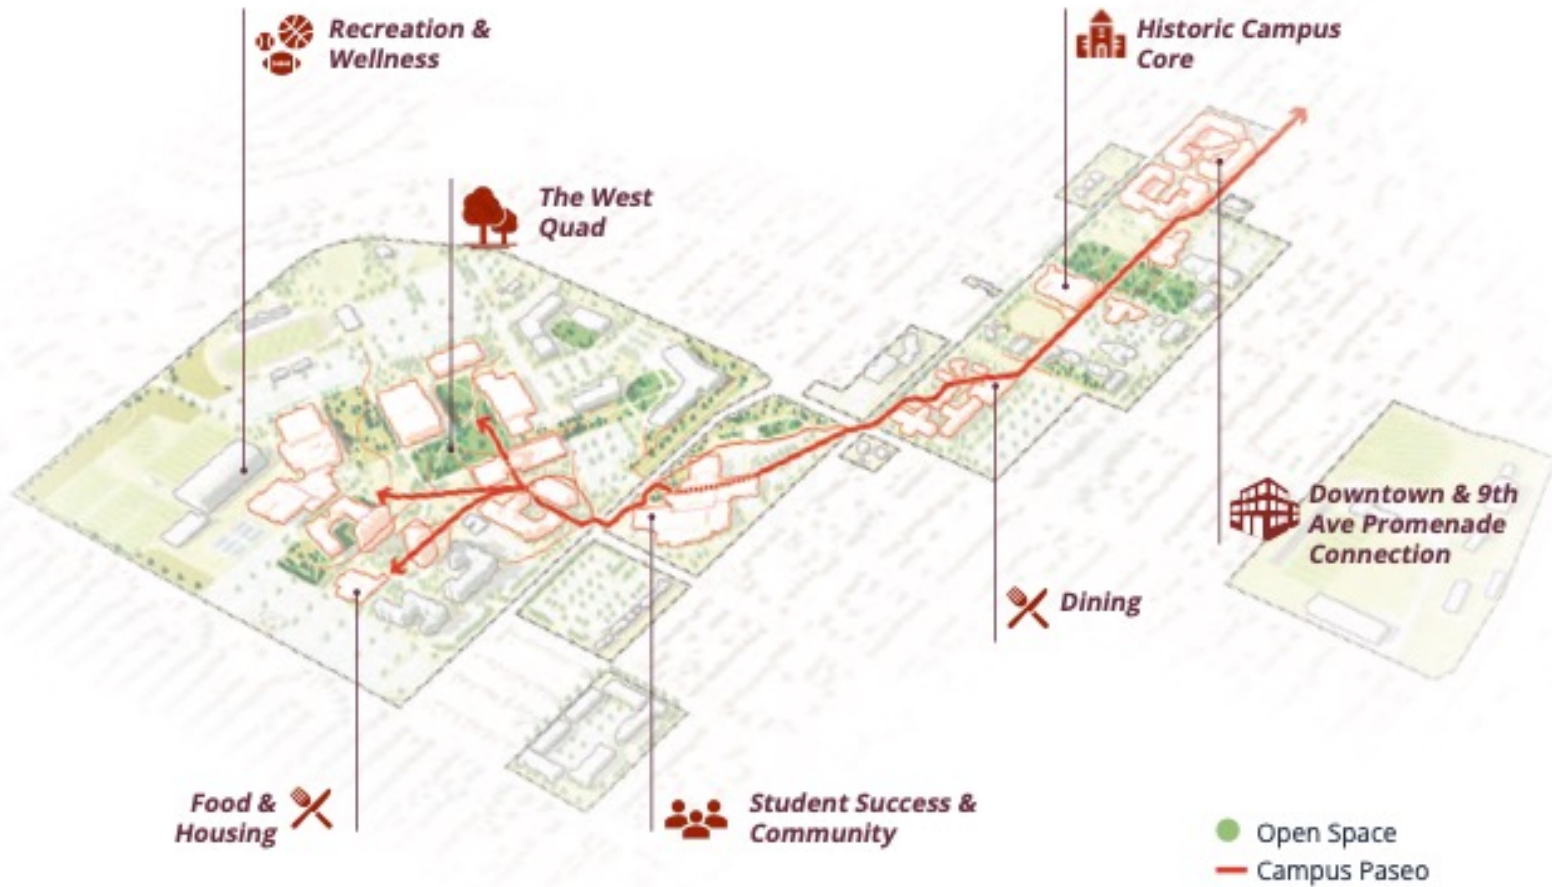

Facilities Framework

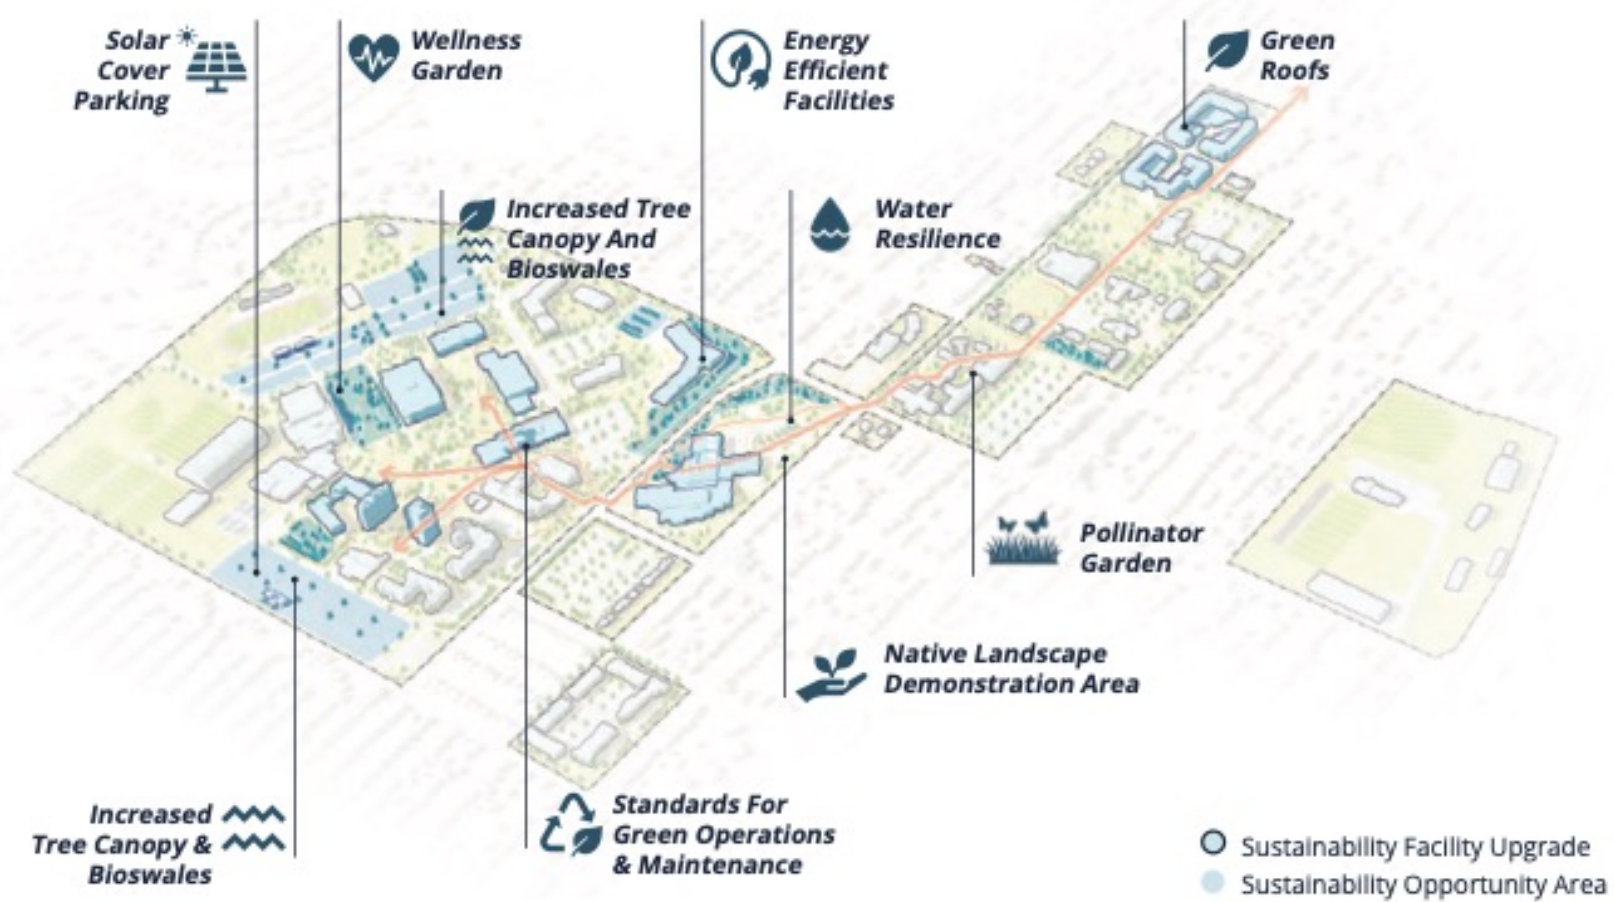

Open Space Framework

Student Life Framework

Sustainability Framework

Throughout the Facilities Comprehensive Planning process, several areas of campus were prioritized for upgrades and improvements. This plan is a living document that should be periodically examined and updated as UNC continues to evolve.

Aside from many of UNC's facilities, outdoor spaces, and amenities being scattered and disconnected, there is still a deficit of quality social spaces.

Today, the Facilities Comprehensive Plan comes at an important time in UNC's history. It reflects the vision, mission, and values of the institution and the goals and objectives of a multitude of university stakeholders. It represents a unifying vision that aligns UNC's academic mission, strategic plan, and physical development goals into a single document that helps guide the future direction of the campus.

- 1 New College of Osteopathic Medicine & Partnership District
- 2 New Performing Arts Academic Building
- 3 University Center Upgrade
- 4 New Campus Indoor Practice Facility
- 5 New Athletics Locker Room
- 6 Harrison Hall Replacement
