1-1-206(1) Faculty Constitution and By-Laws. The faculty of the University may adopt and maintain a constitution prescribing a structure for faculty governance and representation. The constitution must be approved by the BOT and may be amended from time to time subject to prior BOT approval. The constitution shall define and recognize faculty voting rights and shall call for the election of a Faculty Senate. The Faculty Senate shall be the sole representative body of the faculty.

The Faculty Senate (Senate) shall adopt and maintain by-laws for the orderly conduct of faculty business. Such Committees will be advisory in nature. Membership
on committees shall be by appointment of the President, and service on such committees by employees shall be considered to be an appropriate adjunct to regularly assigned duties.

Part 3 Faculty.

1-1-301 Faculty Contracts.

Faculty contracts are of four types and are denominated, adjunct, contract-renewable, tenure-track and tenure. The basic, but not exclusive, distinctions between these contracts are as follows:

1-1-301(1) Adjunct. An adjunct contract is typically made when there is an unexpected need for a faculty member’s services during a semester. Faculty in adjunct positions are not considered to be continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures]. Adjunct positions are not faculty budget line positions. Employment under an adjunct contract automatically terminates at the end of the contract period. [See also 2-3-202(1) Adjunct].

No ranks are available to adjunct faculty.

1-1-301(2) Contract-Renewable. A contract for a contract-renewable position is for a designated period not to exceed one year and automatically terminates upon the expiration of that period. Contract-renewable positions are used when there is an expectation of an on-going need for the services provided outside of a tenure-track appointment, or for Clinical Faculty, Visiting Faculty, Research Faculty, or Professionals-in-Residence [See 2-3-305 academic Titles]. Individuals in contract-renewable positions, except Visiting Faculty, are eligible for consideration for promotion to the next higher rank if they meet the minimum requirements for that rank [See 2-3-302 Rank Requirements]. Instructors can be promoted through the sequence of assistant professor, associate professor and professor. Lecturers can be promoted through the ranks of lecturer and senior lecturer. Contract-renewable positions may be converted to tenure-track positions according to 3-3-201(1) Contract-renewable Faculty. Re-employment of an employee after termination of a contract for a contract-renewable position is solely within the discretion of the University. However, faculty in contract-renewable positions are considered to be continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures]. Contract-renewable positions are funded through faculty budget lines. [See also 2-3-201 Faculty Contracts.]

1-1-301(3) Tenure-Track. A tenure-track contract is for a designated period not to exceed one academic year and automatically terminates upon the expiration of that period. Employment under a tenure-track contract entitles an employee to written notice in accordance with University policy if the University determines not to rehire the employee during the subsequent academic year. [See also 2-3-201(2) Tenure-Track.] Faculty in tenure-track positions are considered to be continuing faculty for the purposes of distribution in any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

1-1-301(4) Tenure. A tenure contract is for an academic year and gives the faculty member the contractual right to be employed for succeeding academic years until the faculty member resigns, retires (voluntary or mandatory), is discharged for cause, or is terminated pursuant to a reduction in force approved by the BOT, or becomes permanently disabled or dies. This contract is subject to the terms and conditions of employment which exist from academic year to academic year but such terms shall not be inconsistent with this policy nor shall a faculty member be reduced in rank except
for just cause or pursuant to a reduction in force approved by the BOT. For purposes of this policy, academic year means that period of time encompassed by fall and spring semesters unless otherwise specifically defined in an individual employment contract. [See also 2-3-201(3) Tenure.] Faculty in tenure positions are considered to be continuing faculty for the purposes of distribution in any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

1-1-302 Academic Rank and Titles.

Academic ranks used for faculty shall consist of lecturer, instructor, senior lecturer, assistant professor, associate professor and professor. These ranks and titles shall be granted in accordance with University regulations and procedures adopted and maintained by the President in accordance with the ordinary governance process, and shall be subject to the final approval of the BOT. Minimum standards for academic rank shall be established as a means of aiding the University to obtain qualified personnel and to encourage continued professional growth through recognition of the individual's accomplishments in the classroom, in research, in professional activities or in other pursuits for the best interests of the University. These standards do not necessarily in and of themselves constitute qualifications for hiring or promotion. The common minimum standard involves the academic background as determined by the highest degree earned by the individual. Other criteria, when applicable, may be considered by the University in lieu of formal degree requirements. Although faculty ranks are limited to lecturer, instructor, senior lecturer, assistant professor, associate professor, or professor, academic titles may be used for some faculty. Titles may include but are not limited to visiting Faculty, Clinical Faculty, Research Faculty, and Professional-in-Residence (e.g., Artist-in-Residence, Executive-in-Residence, etc.). [See also 2-3-301, et seq., Academic Ranks and Titles.]

1-1-303 Faculty Responsibilities and Conditions of Employment.

The President, through the ordinary governance process, shall adopt and maintain regulations and procedures governing faculty employment, faculty teaching responsibilities, compensation, course loads, conflicts of interest, leaves, and other matters affecting faculty duties. [See also 2-3-401, et seq., Faculty Responsibilities and Conditions of Employment.]

1-1-303(1) Faculty Workload Policy. The faculty workload policy is designed to establish guidelines for assignments of faculty workload. The Chief Academic Officer (CAO) is responsible for monitoring college workload assignments and providing appropriate reports in accordance with University policy, State law, and Colorado Commission on Higher Education requests.

1-1-304 Curriculum.

The BOT recognizes that curriculum design is within the purview of the faculty. The BOT authorizes a curriculum approval process in which changes to academic programs and courses are initiated by the concerned programs, schools, or colleges and are reviewed from the point of view of academic desirability by faculty committees at the program area, school, and college levels. After such faculty approvals, questions of implementation are to be determined by the appropriate school director, dean, and by the (CAO). Changes to undergraduate academic programs that result in requirements which exceed maximum credit hours required by the State of Colorado require the approval of the BOT.

1-1-305 Academic Freedom and Professional Ethics.
Academic freedom is the right to pursue and share ideas, information and knowledge without institutional or governmental interference. Faculty members are entitled to academic freedom. Implicit in the right to academic freedom in their teaching, their scholarly and artistic activities, and in the dissemination of the results of those activities. Also implicit in the right to academic freedom is faculty adherence to professional ethics.

Faculty members recognize the special responsibilities placed upon them. Their primary responsibility to their discipline is to seek and to state the truth as they see it. To this end they spend energy on developing and improving their scholarly competence. They accept the obligation of exercising critical self-discipline and judgment in using, extending and transmitting knowledge. They practice intellectual honesty.

As teachers, faculty members encourage the free pursuit of learning in their students and hold before them the best scholarly standards of their discipline. They demonstrate respect for students as individuals and serve as their intellectual guides and counselors. They make every reasonable effort to foster honest academic conduct and to assure that evaluations reflect the true merit of student work. They respect the confidential nature of the teacher-student relationship and avoid any exploitation of students for private advantage and acknowledge significant assistance from them. Faculty members protect the students' academic freedom.

As a colleague, the faculty member has obligations that derive from common membership in the community of scholars:

1) to respect and defend the free inquiry of associates
2) to show due respect for the opinions of others in the exchange of criticism and ideas
3) to acknowledge academic debts and to strive to be objective in the professional judgment of colleagues
4) to accept a share in the faculty responsibilities for the governance of the institution.

As members of an academic institution, faculty members seek above all to be effective teachers and scholars. Although they observe the stated regulations of the institution, provided these do not contravene academic freedom, they maintain the right to criticize and seek revision. When considering the interruption or termination of their service, faculty members recognize the effect of this decision upon the program of the institution and give due notice of their intentions.

As members of society, faculty members have the rights and obligations of any citizen. They measure the urgency of these obligations in the light of their responsibilities to their discipline, to students, to the profession, and to the institution. When speaking or acting as private persons, faculty members avoid creating the impression of speaking or acting for the University. As citizens engaged in a profession that depends upon freedom for its health and integrity, faculty members have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

1-1-306 Faculty Salaries.

The President, through the ordinary governance process shall adopt regulations and procedures establishing an equitable process for recommending faculty compensation and salary distribution.
However, the final authority over compensation, distribution and amounts budgeted for faculty salaries is reserved to the discretion of the BOT. [See also 3-3-701, et seq., Faculty Salaries.]

1-1-307 Faculty Evaluation.

Faculty evaluation and the process used to evaluate faculty reflects our collective responsibility for providing a basis for professional growth and development. Faculty and administrators play an important role in establishing the institution’s mission, in providing feedback, in assessing performance, and supporting the context for individual faculty professional development. Our faculty evaluation process is built on faculty and administrators working together to promote a caring and trusting community within colleges and the university at large, working to support honest and transparent faculty assessment, and encouraging dialogue and discussion among faculty.

1-1-307(1) Purposes and Intent of Evaluation.

Together, the faculty and administration aspire to be a university of distinction, recognized for excellence in teaching and learning centered on academic scholarship, research, and creative works. The following policies for the evaluation of faculty have been established to provide an equitable and fair assessment of each individual faculty member and his or her contribution within the context of the explicit goals of the institution, as reflected in the mission and strategic plan.

The purposes and intent of faculty evaluations are:

(a) to provide a regular, systematic evaluation of performance that contributes to the mission and goals of the University, the colleges and the departments/schools/programs.

(b) to provide support and opportunities for professional development and renewal

(c) to assess progress toward tenure and promotion and to be the foundation for tenure, promotion, and post-tenure review decisions.

(d) to recognize individual excellence and achievement

(e) to provide a basis for merit salary increases

(f) and to provide adequate feedback on how to improve for those who are not achieving at satisfactory levels.

The intent of the procedures is that the evaluation be done by peers in the discipline and as appropriate, by peers with interdisciplinary expertise relative to the faculty member’s role. The evaluation process should encourage excellence in both traditional and innovative approaches to teaching, research, scholarship and creative works, and service. [See also 2-3-801 Faculty Evaluation and 3-3-801 Faculty Evaluation.]

1-1-307(2) General Principles.

(a) individuals will be evaluated according to their documented responsibilities and job description which may cover teaching, research, scholarship and creative works, and service. These expectations are to be defined by the evaluatee's program area with unit, college, and University consideration of the mission and goals.
(b) the evaluation shall be based on the process described in 2-3-801(3)(b).

(c) evaluations must be consistent with principles of academic freedom, due process, and principles of tenure (for tenured faculty).

(d) faculty members may appeal the results of the review process using established faculty grievance procedures. [See 2-3-1201 Faculty Grievance.]

1-1-307(3) Post-Tenure Review.

All faculty at the University are subject to annual/biennial review and comprehensive post-tenure review. Faculty review and evaluation at the University has long included a comprehensive, summative, multi-year requirement, as well as an annual review process. Both of these review procedures meet the guidelines developed by the Colorado Commission for Higher Education for post-tenure review. The review process at the University is based on a faculty peer review system within discipline or interdisciplinary areas.

Review will provide regular and systematic evaluation of performance of faculty in the areas of teaching, research, scholarship and creative works, and service. Assessment of faculty performance in these areas will review their established responsibilities as determined by workload assignment. Faculty will consult with their department chair/school director /program coordinators regarding their individual assignment areas. This will allow the adjustment of their activities as goals for individuals and the University change. Such consultation will provide for the encouragement of professional development and renewal, and individual excellence and achievement. Post-tenure review will encourage faculty to engage in activities that contribute to the mission and goals of the University, the colleges, departments, schools, and program areas. Review will ensure that faculty members are fulfilling their University responsibilities, and will assist faculty who are not achieving at satisfactory levels to do so. Evaluations must be consistent with principles of academic freedom, the tenure system, due process, and other protected rights.

1-1-308 Promotion.

Promotion at the University provides a mechanism for the recognition of personal contributions of faculty members to the mission of the University and reputation as well as a professional contribution of the advancement of the state of the art and the society at large. While judgment of potential contributions must necessarily be based on past performance, it is expected that persons achieving a given rank will continue to take initiatives which are valued by the institution.

Although the administration of promotion policies at the University must be equitable, it must not be perceived as implying identical standards for types of contributions by each individual faculty member. The promotion policy must facilitate the recognition of diverse potentials which harmonize individual competence and initiative with institutional needs and values. The promotion policy attends to both the quality and quantity of contributions, with greater emphasis on the former.

Specific academic or professional qualifications and performance guidelines shall be established by program area faculty in consultation with the department chair/school director. These must be written and maintained in consultation with the departments/schools of the respective college and shall be approved by the appropriate dean and the Chief Academic Officer. [See also 2-3-901, et seq., Promotion and Tenure Guidelines.]

1-1-309 Faculty Leaves.

The sabbatical leave program is designed to provide an opportunity for growth and renewal for tenured faculty
members. Sabbatical leaves must be for the manifest, demonstrable benefit of the University in meeting its responsibilities of teaching, scholarly and other professional activities, service and the advancement of knowledge and must contribute to the further development of an individual as a teacher-scholar. Sabbatical leaves are limited by fiscal resources of the institution and staffing considerations. These leaves, therefore, are competitive in nature and will be approved on the basis of specific requests, including outlines of proposed activities to be pursued during the course of the leave. The President, through the ordinary governance process, shall adopt and maintain regulations and procedures for administering sabbatical leaves. [See also 2-3-1001, et seq., Faculty Leaves.]

1-1-310 Disciplinary Action of Tenured Faculty.

1-1-310(1) Internal Review. The President, through the ordinary governance process, shall adopt and maintain regulations and procedures for reviewing and making recommendations upon allegations of conduct constituting just cause for dismissal of tenured faculty from the University. Such regulations and procedures shall, at a minimum, contain the following steps:

(a) hearing before an appropriately constituted faculty review panel;

(b) an opportunity for advice and comment on the committee's recommendations by the Faculty Senate or an executive sub-group thereof;

(c) review by the President.

Final authority regarding dismissal of charges against a tenured faculty member or discipline short of termination shall reside with the President. Final authority regarding the termination of a tenured faculty member is reserved to the BOT. The BOT will review a Presidential recommendation for dismissal in order to determine that sufficient evidence of just cause exists and that the faculty member was given a fair and reasonable opportunity to contest or respond to the allegations against him/her and/or to present mitigating circumstances. If the President recommends termination of a tenured faculty member, the affected faculty member may file with the BOT a written request for the BOT to review the findings and recommendations of the President within ten calendar days after receipt of a copy thereof. If the affected faculty member fails or neglects to file such a request with the BOT within ten days, the BOT may deem the findings and recommendations to be uncontested and may take whatever final action they may deem appropriate. If the affected faculty member files a written request for review with the BOT within ten days, the BOT shall conduct a review in accordance with procedures it deems appropriate to the circumstances of the case and in the best interests of the affected faculty member and the University. The BOT may adopt, modify, or reject the findings or recommendations of the President. A written copy of the formal action taken by the Trustees shall be given to the affected faculty member or the counsel of record. The decision of the BOT shall be based on the above standards and shall be final.

1-1-310(2) Suspension. In exceptional cases which in the judgment of the President threaten direct and immediate injury to the public reputation or essential functions of the University, the President may authorize the suspension of a person complained against pending a determination of the charges. [See also 2-3-1101(3)(a) Initiation of Proceedings.]

1-1-310(3) Dismissal. Faculty members holding tenure can be dismissed if there is a reduction in force following the procedures prescribed in 2-3-1301(5), Reduction in Force; or for cause, meaning either:

(a) unsatisfactory performance determined according to the procedures prescribed in 2-3-801, et
seq., Faculty Evaluation, or

(b) acts or failures to act which are reasonably likely to harm or threaten harm to any person, or

(c) unlawful acts which are reasonably likely to affect performance at the University or the welfare of the University community. Any dismissal for cause shall follow the procedures set forth 2-3-1101(3), et seq., Dismissal.

Before a recommendation is made to the BOT to dismiss any faculty member for cause, the due process procedures prescribed in this section shall be followed.

These procedures are not applicable to cases involving voluntary resignations and do not preclude informal consultations among the President, the (CAO), academic deans, directors, chairs of departments, and members of the University faculty which may result in resignation or a resolution of the case.

1-1-311 Faculty Grievance.

The President, through the ordinary governance process, shall adopt and maintain regulations and procedures for the review and redress of faculty grievances. Final authority over the resolution and/or redress of grievances shall rest with the President. It is in the best interest of and the responsibility of all faculty to attempt resolution of alleged or perceived grievances in a collegial fashion through the use of the grievance process prior to asserting claims against the University through outside agencies or the use of State or federal courts. [See also 2-3-1201, et seq., Faculty Grievance.]

Part 4 - Student Government

Students of the University of Northern Colorado are authorized to participate in the development and recommendation of educational and student policies and the governance of the University consistent with all federal, state, and local law and in a manner consistent with the specific authority granted by BOT Policy, by regulations and procedures adopted by the President, and by a student constitution authorized by this policy. Any provision of BOT policy, University regulations and procedures or the student constitution notwithstanding, the BOT for the University retains final decision-making authority in all matters affecting governance of the University.

1-1-401 Student Constitution and By-Laws.

The students of the University of Northern Colorado may adopt and maintain a constitution prescribing a structure for student governance and representation. The Constitution must be approved by the BOT and may be amended from time to time subject to prior BOT approval. The Constitution shall define and recognize student voting rights and shall call for the election of a Student Senate. The Student Senate shall be the sole representative body of the students. The Student Senate shall adopt and maintain by-laws for the orderly conduct of student business. The Student Senate may appoint appropriate advisory councils/boards in order to assist the Council in its duties. BOT policies and University regulations and procedures of an academic nature or affecting students should be developed and approved with the collegial participation, advice and comment of the students through the Student Senate. In addition to the duties and powers stated above, the Student Senate, as the delegate assembly of the voting students of the University, shall have the authority to:

(1) act for the voting students on all matters within the scope of this policy and the student
constitution as approved by the BOT;

(2) receive and consider reports and recommendations from members of the University community as it sees fit;

(3) initiate or review policies pertaining to the general welfare of the University, its faculty or students;

(4) transmit resolution regarding any manner concerning the University to the President and/or the BOT, and to the students for their consideration and/or further action; and

(5) to represent the student body in the development of policy and recommendation for the allocation and management of all student fees, with the advisement of the President and subject to the approval of the BOT.

1-1-402 General Policy.

The President, with the advice and assistance of the appropriate, shall be responsible for development and maintenance of a Student Handbook. The Student Handbook shall contain:

(1) the policies prescribed in this Part 4,

(2) other BOT policies which in the judgment of the President are relevant or helpful to students,

(3) regulations and procedures adopted to implement those policies; and

(4) such additional information or regulations and procedures as the President sees fit to promulgate for the benefit of the students and the University (i.e., registration, academic standards, degree requirements, academic appeals, financial policies, student classification, University premises, health insurance, immunization, Greek recognition, etc.).

The Student Handbook shall be updated regularly and distributed to every new student.

1-1-403 Application and Admission.

The full range of opportunities at the University is available to all students the maximum extent required by law without regard to race, religion, gender, age, national origin, disability, sexual orientation, military service, or political affiliation. The University seeks to create a stimulating and diverse environment reflecting the thoughts and contributions of the many cultures of our world. The University's admission requirements will be selective. The University reserves the right to deny admission, continued enrollment or re-enrollment to any applicant or student whose personal history and background reasonably suggest that his or her presence may pose a threat or endanger the health, safety, welfare or property of members of the campus community or interfere with the orderly and effective performance of the University's functions. The President shall adopt and maintain regulations and procedures establishing admission requirements, safety criteria and review procedures to help ensure that students admitted to the University are academically qualified, do not pose a safety threat, and are of good moral character.

1-1-404 Equal Opportunity for Students.
The University, in accordance with law, is committed to providing equal educational opportunities and benefits to all students without regard to race, religion, gender, age, national origin, disability, sexual orientation, gender identity, gender expression, military service, or political affiliation. Special efforts are made to recruit members of protected classes, and the University’s Equal Opportunity Policy is emphasized in all information sent to prospective students.

1-1-405 Student Financial Aid.

The University will seek to offer a broad range of financial aid to its students in order to assist students in financial need, to encourage and improve academic standing and performance, and to diversify the campus and ensure equal opportunity.

1-1-406 Student Fees.

All general, mandatory student fees shall be established by the BOT. The President shall adopt procedures to limit and reduce mandatory student fees by means of efficiencies, reorganizations and consolidations, considering the needs and resourcefulness of the students, consistent with the following:

(1) mandatory student fees shall be used to fund activities and services open to all students and,

(2) student involvement in and awareness of fee issues shall be encouraged and increased.

1-1-407 The Drug and Alcohol Policy.

The University strives to create a healthy environment, one in which the high risk use of alcohol and the use of illicit drugs does not interfere with learning, performance, or development. Substance abuse disrupts this environment and places at risk the lives and well-being of the members of the University community as well as the potential of students for contribution to society. It is important for all members of the University community to take responsibility for preventing the illegal or high risk use of alcohol or other drugs from negatively affecting the community’s learning environment and the academic, physical and emotional well-being of its students. The University prohibits the unlawful possession, use, or distribution of drugs, alcohol, and other controlled substances by all members of the University community (students, faculty, staff, alumni, and guests). Individuals who violate this policy shall be subject to discipline, termination, dismissal, debarment, arrest, or citation as applicable. Additionally, employees or students who violate this policy may be required to participate satisfactorily in drug abuse education, counseling, or rehabilitation programs approved by the University.

1-1-407(1) Policy on Alcohol. The University of Northern Colorado neither encourages nor discourages the use of alcoholic beverages, (including 3.2 and 6% beer, vinous or spirituous liquor), but does condemn the misuse/abuse and illegal use of alcoholic beverages. All members of the University community (students, faculty, staff, alumni, and guests) are responsible for making decisions about their behavior within the context of Colorado and the City of Greeley laws and University regulations. In addition, individuals must always be aware of and respect the rights of others within the University and local community.

1-1-407(2) Policy on Drugs. The University prohibits the unlawful or unauthorized manufacture, distribution, dispensing, possession, consumption, sale or use of controlled substances on or in University-owned or controlled property or in the course of University business or at University activities. Individuals or entities including, but not limited to, students, employees, contractors, agents,
volunteers, invitees, or student organizations who violate this policy shall be subject to discipline, termination/dismissal, debarment, arrest or citation, as applicable. Additionally, employees or students who violate this policy may be required to participate satisfactorily in a drug abuse assistance or rehabilitation program approved by the University.

1-1-407(3) Enforcement of Policy. Any member of the University Community who observes a violation of this policy or becomes aware of an individual with an alcohol/drug/substance abuse problem on campus is encouraged to seek assistance from the appropriate resources: Drug Prevention/Education Program, Health Center, Counseling Center, Police Department, Housing Officials, or Colorado State Employee Assistance Program.

1-1-408 Family Educational Rights and Privacy.

The Family Educational Rights and Privacy Act of 1974, (as amended the “Act”), is a federal law which states that (a) a written institutional regulation must be established and (b) a statement of adopted procedures covering the privacy rights of students must be made available. The University shall maintain the confidentiality of student education records in accordance with the provisions of the Act and shall accord all the rights under the Act to eligible students who are or have been in attendance at the University to the maximum extent authorized by law. The President shall adopt and maintain regulations and procedures implementing the Act as amended and as it may be amended in the future.

1-1-409 Investigation of University Premises.

The University reserves the right to inspect University premises occupied by students. A visual room inspection can be made by an agent of the University if accompanied by a student. Normally, premises occupied by students will not be searched. A room may be searched; however, by not less than two appointees by the appropriate Vice President when there is evidence that a search is reasonable. Authorization for room searches will be made by a Vice President of the University or his or her designee. The authorization will be written and must contain a statement of the specific objectives of the search and a summary of the evidence on which the authorization was granted. Under emergency conditions, waiver of the written authorization requirement may occur when immediate action is deemed necessary and appropriate by a Vice President of the University or his or her designee.

For premises not controlled by the institution, the ordinary requirements for lawful search are to be followed.

1-1-410 Peaceful Assembly.

The University of Northern Colorado acknowledges the rights and privileges of individuals or groups to gather on public property for the purpose of peaceful assembly. The University expects the rights and privileges of all persons to be respected at such gatherings.

(1) Peaceful assembly is defined as any purposeful gathering on campus, in or outside of a University building or facility, by one or more persons whose conduct is peaceful and is in accordance with the University rules, and law. Peaceful assembly includes meetings, speeches, debates, demonstrations, marches, vigils, sit-ins, rallies, protests, and similar meetings or gatherings that do not: threaten or violate policies and rules; interfere with the conduct of University business, regular schedules, or events; infringe on the rights of others; endanger the health and safety of others; or damage or destroy property.
(2) The University requires that persons engaged in such assemblies on campus conduct themselves in a manner that will not impair the health or safety of any individual, disrupt the normal conduct of University affairs, or damage and destroy property. Any act by Student demonstrators that interferes with the rights of others, disrupts or impairs the normal functioning of the University, damages or destroys property, or impairs health or safety is grounds for suspension or dismissal from the University.

(3) Persons planning or initiating such assemblies to be conducted on the University campus are required to identify their groups and to state their purposes in advance to the appropriate University personnel. Areas may be reserved, if available, for the accommodation of such assemblies. Arrangements for any assembly which involves the use of University buildings must be made with the appropriate person. The organization sponsoring a speaker, or conducting an assembly, assumes the responsibility for maintaining the University policies on peaceful assembly and student freedom of expression.

(4) Staff assistance is available in the planning of such events in ways to eliminate or minimize the possibility of disruption. University security can be requested to assure that the rights of all concerned are protected.

(5) Demonstrations are prohibited in classrooms during hours they are scheduled for use, or at any site when conducted in a manner which interferes with educational function. Demonstrations are further prohibited in any special use facility. Demonstrators refusing to vacate such premises when directed by the instructor in charge or by authorized staff are subject to immediate disciplinary action and arrest under applicable city and state laws.

1-1-411 Health Insurance.

It is University policy that students who register for at least nine (9) academic hours during the regular academic year (fall, and spring semesters) must have health insurance. Students currently enrolled in a health and accident insurance program acceptable to the University may request a waiver of the UNC student health insurance plan. The deadline for such waivers is determined at the beginning of each academic year. The University does not require students registered for summer term only to purchase the University's student health insurance or demonstrate possession of an acceptable insurance plan in lieu of that offered by the University. However, any student who enrolls in the University's health insurance while also registered for nine (9) or more academic hours during spring semester is automatically covered by that insurance during summer term with no additional premium required.

1-1-412 Student Discipline.

Final authority regarding the imposition of disciplinary action on students is reserved to the President of the University or to the appropriate Vice President if delegated by the President. The President or the appropriate Vice President may review recommendations regarding discipline in order to determine that there is sufficient support for the charges and to ensure that the student was given a fair and reasonable opportunity to respond to the allegations against him and/or to present evidence of mitigating circumstances. The President's or the appropriate Vice President's decision regarding appropriate discipline shall be final.

1-1-413 Campus Activities.
All officially recognized UNC student activities are open to all students without regard to race, religion, gender, age, national origin, disability, sexual orientation, military service, or political affiliation, except those organizations exempted by Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, or other exemptions allowed by law. New organizations must submit their constitutions to a student committee and the appropriate Vice President for review to ensure they meet Student Senate constitutional requirements and Affirmative Action/Equal Opportunity requirements.

1-1-414 Student Housing.

All University-owned housing is available to university students in compliance with federal and state nondiscrimination laws. Necessary accommodations will be made for disabled students. Before landlords may list off-campus housing units with the University Residence Life, they must agree to comply with federal and state nondiscrimination laws. Complaints related to off-campus housing are submitted to the Off-Campus Renters Information Service coordinator or the Greeley Human Rights Council.

Part 5 Personnel: General.

1-1-501 General.

The specific obligations of University employees may vary by position. All employees, however, are expected to perform the duties and responsibilities of their positions and programs in compliance with the laws of the land, in a professionally competent and skillful manner, in accordance with the highest ethical standards, and the Policies, regulations and procedures of the BOT and of the University.

1-1-502 Conflict of Interest.

A University employee shall disclose to his or her immediate supervisor all facts and circumstances related to any University transactions, activities, contracts or other dealings in which they are involved or may become involved on behalf of the University which might directly or indirectly involve them in a duality or conflict of interest. Such disclosure shall be made in writing as soon as is reasonable after the conflict or potential conflict comes to the knowledge of the employee. A duality or conflict of interest shall be deemed to exist at any time when an interest held by the employee, or relationship maintained, prohibits or inhibits, or potentially prohibits or inhibits, the employee from exercising independent judgment in the best interests of the University. A duality or conflict of interest shall exist whenever an employee is a director, president, general manager, or similar executive officer or owns or controls directly or indirectly a substantial interest in any non-governmental entity participating in a transaction with the University. The immediate supervisor to whom a report of a duality or conflict of interest of potential duality or conflict of interest is given shall directly report the matter to the jurisdictional vice president who shall have the authority to administer the interest of the University in the situation subject to the superintendence and pre-emption of the President and the BOT.

1-1-503 Amorous Relationships.

Members of the University Community, whether faculty members, students, supervisors, or supervisees put academic and professional trust and ethics at risk when they engage in an amorous romantic/sexual relationship with persons whom they have a direct evaluative relationship. Because these relationships may give rise to the perception on the part of others that there is favoritism or bias in academic or employment decisions, the university discourages such relationships. The atmosphere created by such appearances of bias or favoritism has the potential to undermine the spirit of trust and mutual respect.
essential to a healthy work and academic environment. Even when the parties have initially consented to such relationships, they can render the parties and the institution vulnerable to possible later allegations of sexual harassment in light of the power differential that may exist. All members of the University Community are expected to be aware of their professional responsibilities and avoid apparent or actual conflict of interest, favoritism, or bias. When an amorous romantic/sexual relationship exists, effective steps should be taken to ensure unbiased evaluation or supervision of the student or employee. Failure to take such steps shall constitute a violation of BOT Policy 1-1-502, Conflict of Interest.

1-1-504 Nepotism.

It shall be deemed to be a conflict of interest for an employee to serve in a supervisory capacity over a relative or dependent. For the purposes of this policy “relative” shall be deemed to be any person within the 5th degree of consanguinity and “dependent” shall be defined in the Internal Revenue Code.

1-1-505 Outside Activities.

Employees are required to conduct their activities on behalf of the University with the utmost good faith and loyalty. Employees may not compete with the University or convert business opportunities of the University to their personal gain or advantage or the gain or advantage of another. Employees may not convert confidential information or trade secrets of the University to their personal gain or advantage or the gain or advantage of others. [See also University Regulations 3-3-401, et seq.]

1-1-506 Copyright Law Compliance.

All employees of the University shall conduct their activities on behalf of the University, including but not limited to any research or writing activities, in such a fashion so as to meet and comply with all requirements of the United States copyright laws and regulations (17 U.S.C; 37 C.F.R.). As a condition of employment, each employee agrees to accept responsibility for reading and understanding the requirements of the copyright law and the policy statement and guidelines of the University and for complying with those requirements and guidelines. In the event that a copyright infringement occurs as a result of the acts of an employee, if the employee is able to demonstrate compliance with the policy and guidelines of the University, as determined by the University, such actions shall be considered “good faith compliance” by the University and the employee shall not be required to indemnify the University for any damages, judgments, or costs which may be obtained against the University for the acts of the employee. If, however, an employee willfully, intentionally, negligently, or without good faith violates the copyright provisions, the employee shall be solely liable for all losses, damages, judgments, and costs of whatsoever kind or nature that may be incurred. Should the University be named in any legal or equitable action arising from such wrongful infringement, the employee agrees to save, hold harmless, and indemnify the University against all losses, damages, fees (including attorney’s fees), or other penalties, monetary or otherwise, that may be incurred as a result of such conduct.

1-1-507 Hazardous Materials.

Employees who handle toxic or hazardous substances on behalf of the University are required to maintain, use and dispose of such substances in accordance with applicable UNC Hazardous Material Management Plan procedures, state, federal and local laws/regulations as a condition of their employment. The employee should obtain assistance in ascertaining his or her obligations under these laws and regulations from the Director of Environmental Safety or his or her designee. Any employee who violates any such laws or instructions given by the University Environmental Safety Office shall be
deemed to have acted outside the scope of his or her authority.

1-1-508 Equal Opportunity.

The President is charged with the implementation of the University's Equal Opportunity Policy.

1-1-508(1) Purpose. It is the purpose of this Equal Opportunity Policy, and the Discrimination Complaint Procedures contained in the University Regulations, to eliminate discrimination and sexual harassment through education, information and discussion, and to provide procedures to investigate complaints of those subjected to alleged acts of discrimination, sexual harassment and/or retaliation prohibited under applicable Federal and State laws and under this Equal Opportunity Policy. A University employee, official or student who violates any provision of the Equal Opportunity policy will be subject to discipline including but not limited to termination of employment or expulsion. The President is charged with the implementation of the University's Equal Opportunity Policy.

1-1-508(2) Non-Discrimination Policy. The University will not engage in unlawful discrimination against any person with respect to employment or the provision of educational services because of race, color, religion, sex, age, national origin, disability, sexual orientation (heterosexuality, homosexuality, bisexuality, transgender status, or another individual's perception thereof), gender identity, gender expression, or veteran status, as prohibited under the applicable provisions of the Title VI of the Civil Rights Act of 1964. Title VII of the Civil Rights Act of 1964, Executive Order 11246, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, the Equal Pay Act of 1963, the Age Discrimination in Employment Act of 1967, the Americans with Disabilities Act of 1990, the Family Medical Leave Act of 1993, the Uniformed Services Employment and Reemployment Rights Act, the Vietnam Veterans' Readjustment Assistance Act of 1974 and the Colorado Anti-Discrimination Act. It is the University's policy to prohibit discrimination in employment or the provision of educational services on the basis of political affiliation. The University will take affirmative action to ensure that applicants for employment, its employees, applicants for student admission, and its students are treated by the University without regard to race, color, religion, sex, age, national origin, disability, sexual orientation, gender identity, gender expression, veteran status, or political affiliation. Affirmative action will include training programs, outreach efforts, recruiting activity and other positive steps in accordance with the laws of the United States and the State of Colorado. The University will post in conspicuous places notices setting forth the provisions of this University's Equal Opportunity Policy.

1-1-508(3) Sexual Harassment Policy. It is the policy of the BOT of the University to maintain the University as a place of work, study, and residence, free of sexual harassment and exploitation of its students, faculty, staff, and administrators. Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature that is so frequent or severe that it creates a hostile or offensive employment or educational environment.

Notwithstanding the foregoing, the definitions of discrimination and sexual harassment shall not include conduct, discourse, materials or methodologies which serve legitimate education purposes and are protected by the accepted tenets of academic freedom, the First Amendment, or are otherwise constitutionally protected. Violation of this policy is absolutely prohibited on the campus or in relationship to any University programs wherever located. The University is committed to take appropriate action against those who violate the University’s policy prohibiting sexual harassment, including corrective and disciplinary action. In addition, the University will take all reasonable steps to prevent or eliminate sexual harassment by non-employees including customers, clients, and suppliers who are likely to have contact with University students, faculty or employees.
1-1-508(4) Non-Retaliation Policy. The University will not tolerate retaliation of any kind against an individual who in good faith: complains of discrimination, sexual harassment and/or retaliation under applicable law or this Equal Opportunity Policy; provides information with respect to any complaint regarding prohibited discrimination, sexual harassment or retaliation; or participates in an investigation of such complaint.

1-1-509 Safety.

Employees are required to perform their duties and responsibilities in accordance with generally accepted safety standards as well as any specific safety standards applicable to their positions. It is the obligation of each employee to notify his or her supervisor of any unsafe condition on University premises, or practices of the University or any of its employees which he/she observes or becomes aware of that may affect his or her safety or the safety of any other person.

1-1-510 Other Duties.

Each employee is required to perform such other duties as may be assigned by his or her supervisor from time to time. Employees are subject to reassignment of duties by the President on a temporary or permanent basis as the President determines to be in the best interest of the University.

1-1-511 Ordinary Governance Process.

Ordinary governance process as used herein does not refer to any particular set of regulations or procedures, but simply embodies the expectation that interested members of the University community, through their appropriate representatives, have had a meaningful opportunity to participate in the process and advise and comment upon matters which affect them.

Part 6 Policies: General.

1-1-601 Naming of Facilities.

The University of Northern Colorado Board of Trustees recognize and appreciate the many people who have made and continue to make significant contributions to the University’s success and desire to recognize such contributions. Prior to submission to the Board of Trustees of any nomination for recognition of entities for service contribution or financial support to the University, the President shall notify the appropriate governance groups, including the Faculty Senate, and the president of the UNC Foundation of any proposed nomination. Recognition may include, but is not limited to, the naming of physical facilities or programs in honor of an individual or organization. The Board of Trustees shall make the final determination of any such recognition. (Approved BOT 6-16-04)

1-1-602 Architectural Standards.

The physical environment of the campus enhances learning and reflects the university’s commitment to excellence. The physical development of the campus of the University of Northern Colorado will be governed by architectural standards and landscape architectural standards adopted by the Board of Trustees (BOT). The architectural and landscape standards will be the foundation of any capital construction plans and campus master plan adopted by the BOT.

1-1-603 Requests for Public Records under the Colorado Open Records Act
The following constitutes the policy of the University of Northern Colorado regarding requests for inspection of "public records" ("Request") as that term is defined under the Colorado Open Records Act ("CORA"), C.R.S. § 24-72-201 et seq. The provisions of this policy are reasonably necessary for the protection of the University’s public records and the prevention of unnecessary interference with the regular discharge of the duties of the Director of University News and Public Relations, who is the Official Custodian of records for the University ("Custodian").

1. All Requests must be submitted in writing to the Custodian. Requests other than those made in writing and/or those made to any other person or office within the University will not be accepted. In addition to any requirements under CORA, a Request must:

   a. be identified as a “Colorado Open Records Act” or “CORA” Request;

   b. include the requester’s name, mailing and email address;

   c. be sent to the Custodian at fax: 970-351-1834 or mailing address: University of Northern Colorado, ATTN: CORA Request, Carter Hall 2006, Campus Box 4, Greeley, CO 80639; and

   d. describe the requested public records in enough detail (including but not limited to the relevant dates covered by the Request) to enable the Custodian, or the employee(s) designated by the Custodian, to locate such records in a reasonable amount of time and with a reasonable amount of effort.

2. The Custodian is not obligated to act upon a Request for public records unless it meets each of the requirements of sub-sections (1)(a) through (d). Due to spam filters and similar computer software, the University cannot guarantee that an email Request has been received by the Custodian and, therefore, Requests made by email will not be automatically accepted. At the sole discretion of the Custodian, email Requests may be accepted by the Custodian but shall be deemed rejected unless and until the Custodian expressly confirms acceptance.

3. If a Request complies with sub-sections (1)(a) through (c), above, but not with sub-section (1)(d), above, the Custodian may, in his/her discretion, not act on the Request as it does not comply with each of the requirements of this paragraph or, in the alternative, require that the requestor provide additional information in order to comply with sub-section (1)(d).

4. The time allowed under CORA for response to a Request shall begin on the first business day after the University’s receipt of a Request that complies with the requirements of this policy.

5. Charges for responses to Requests are:

   a. for photocopies of public records, $0.25 per page or, for documents in non-standard formats, the actual duplication costs incurred for the copy;

   b. where more than one (1) hour of total time of the Custodian and/or the employee(s) designated by the Custodian is required to respond to the Request, the requestor will be charged, unless waived by the Custodian, a reasonable fee based on the actual cost of responding, including the Custodian’s and/or the employee(s)’ time spent
gathering, preparing, redacting and copying the requested records, at hourly rate of pay of the Custodian and/or the employee(s) who performed the work;

(1) arbitrary: disparate treatment of persons in essentially identical circumstances

(2) capricious: no discernible relationship between the act or decision complained of and the legitimate interests or considerations affecting or motivating such act or decision

(3) violations of policy: misinterpretations, misapplications, or violations of authorized University policies.

2-1-202 Relationship to Other Appeals Procedures.

The Academic Appeals Procedure outlined herewith shall be used by students to appeal actions taken according to standards or practices that are specific to course, discipline, program, department, school, or college. Appeals of disciplinary actions taken on the basis of the University Standards of Conduct are subject to the procedures in 2-1-5 Student Conduct.
2-1-203 Rights and Responsibilities.

(a) **Student’s Right to Academic Counsel.** Before a formal appeal, at any time during the process outlined below, the student is encouraged to seek advice from his or her academic advisor, the appropriate Department Chair /School Director, the Graduate Dean / AVP of Undergraduate Studies, or the Dean of Student’s Office who will explain the procedure. The student may also identify one person, other than those individuals involved in subsequent appeals, to serve as his or her academic counsel. The academic counsel functions as the student’s advisor through the appeals process. In this role, the academic counsel will

(I) meet with the student and help guide him or her through University procedures;

(II) discuss with the student the rationale for claiming the decision being appealed was arbitrary, capricious or contrary to University policy; and

(III) be allowed to be present at any or all required conferences and the hearing before the Hearing Panel (2-1-208).

(b) **Faculty Member’s Right to Academic Counsel.** The faculty member may also identify one person, other than those individuals involved in subsequent appeals, to serve as his or her academic counsel. The academic counsel functions as the faculty member’s advisor through the appeals process. In this role, the academic counsel will

(I) meet with the faculty member and help guide him or her through appropriate University procedures;

(II) discuss with the faculty member the rationale for claiming the decision being appealed was arbitrary, capricious or contrary to University policy; and

(III) be allowed to be present at any or all required conferences and the hearing before the Hearing Panel (2-1-208).

(c) **Informal Conference with Faculty Member or Departmental, Program Area, or School Committee.** It is strongly encouraged that the student contact the faculty member to discuss the academic decision that the student considers arbitrary, capricious, or contrary to University policy before the initiation of the formal academic appeals process. If the student is not satisfied with the outcome of the informal conference with the faculty member, he/she must initiate the appeal in writing with the faculty member. If the student is appealing an action taken by a department, school, or constituent body thereof, it is strongly encouraged that the student contact the Chair of the Department, Program Area, or School committee to discuss the academic decision that the student considers arbitrary, capricious, or contrary to University policy before the initiation of the formal academic appeals process. If the student is not satisfied with the outcome of the informal conference, he/she must initiate the appeal in writing with the Department Chair or School Director.

(d) **Initiation of Formal Appeal.** It is the responsibility of the student to initiate the formal appeals procedure in writing at each level outlined herein. If the student fails to pursue the appeal in the
manner stipulated by this policy, after the conference with the appropriate individual identified above, the original academic decision will be final.

(e) Extension of Deadlines. Any party may request in writing an extension of the deadline stipulated in this policy but must demonstrate good cause. The length of such extension shall be appropriate to accommodate the cause of the delay. A student pursuing an appeal who believes that a request for extension has been unreasonably denied may include arguments to that effect in the next stage of the appeal process, if relevant. A student pursuing an appeal who believes that consideration of the appeal is being unduly delayed at any level may appeal to the next level identified in the following procedures.

(f) Provision of Evidence. The student is responsible for providing all evidence on which he or she intends to rely as part of the request for conference or hearing at each stage of the appeal process. The student’s selection of evidence, as well as his or her oral and written arguments, should seek to demonstrate why the action being appealed is arbitrary, capricious, or in violation of University policy. Copies of all evidence presented at each stage will be retained by all parties involved in each step of the process.

In cases of grade appeals, at any stage in the appeals process, grade changes can only be made by the faculty member who issued the original grade, provided that the faculty member is still employed by UNC or, as a result of the Hearing Panel’s decision as described in 2-1-204(7)(k). In the latter case, any grade change must be consistent with the Hearing Panel’s decision. If the faculty member is no longer employed by UNC, then the grade may be changed by the chairperson/director of the department/school where the original grade was issued.

2-1-204 Steps for Appeal.

2-1-204(1) Initial Conference.

If the faculty member denies the appeal, a rationale for the decision must be communicated in writing to the student, and must demonstrate how the action was other than arbitrary, capricious, or a violation of University policy.
In the event that the faculty member is not available, due to absence from campus, illness, or non-employed status, to respond to the student’s request in a timely manner, the student shall direct the appeal to the Department Chair or School Director (or designee). In the case of a Department Chair or School Director from a discipline other than that of the faculty member whose action is being appealed, the Director may designate a faculty member from the relevant program area to consider the appeal. To the extent possible, the Department Chair or School Director (or designee) will obtain information from and discuss the appeal with the faculty member who assigned the grade or whose action is addressed in the student’s appeal before making a final decision on the appeal. The Department Chair or School Director (or designee) shall have seven (7) working days to render a decision.

If the faculty member whose action is being appealed is also the Department Chair or School Director, the student shall begin the appeal process as in 2-1-204(3) by requesting a conference with the Dean of the faculty member’s college.

2-1-204(1)(b) Appeal Based on Action by Departmental, Program Area or School Committee. If the student is appealing an action taken by a Department, School, or constituent body thereof, the student shall begin the appeal process as in 2-1-203(2) below by requesting a conference with the Department Chair or School Director.

In the case of an appeal of a program area termination decision, the student shall begin the appeal process as in 2-1-203(3) below by requesting a conference with the Dean of the College in which the undergraduate program is housed or, in the case of graduate programs, with the Dean of the Graduate School.

2-1-204(2) Conference with the Department Chair or School Director. If the student does not believe that the initial informal conference or formal written appeal with the faculty member has resolved the problem, he or she may request a conference with the faculty member’s Department Chair or School Director. The student shall submit in writing a description of the problem or grievance and note how the action is arbitrary, capricious, or in violation of University policy. Additionally, the student should indicate if a conference with the faculty member was sought and if that conference occurred. In the case of a Department Chair or School Director who is not in the same discipline as the faculty member whose action is being appealed, the Department Chair or School Director will designate a faculty member in the same discipline to hear the student’s appeal at this level. The student is responsible for initiating this conference within seven (7) working days of the faculty member’s response if he or she wishes to pursue the appeal further. The conference shall take place within seven (7) working days of receipt of the student’s request. The Department Chair or School Director (or designee) shall additionally confer with the faculty member whose action is being appealed. The Department Chair or School Director may uphold or nullify the initial action, may recommend remedies, may remand the case to the faculty member, or may refer it directly to the College or Graduate Dean, as appropriate. The Department Chair or School Director (or designee) shall render a written decision regarding the student appeal within seven (7) working days of the conference, and forward copies of the decision, along with rationale based on whether the faculty member’s action was arbitrary, capricious, or a violation of University policy, to the student, the faculty member, and the College or Graduate Dean (or designee), as appropriate.
In cases of grade appeals, if the chairperson/director believes the faculty member has acted in an arbitrary or capricious manner, the chairperson/director must contact the faculty member and recommend reconsideration of the grade. If the faculty member does not agree to change the grade, the student may continue the process at the next level.

2-1-204(3) Conference with the College Dean or the Dean of the Graduate School. If the student does not believe that the conference with the Department Chair or School Director has resolved the problem, or if the student is appealing termination from an academic program, an undergraduate student may request a conference with the Dean of the College where the program of study is housed. The Dean may appoint a designee to act throughout in his/her stead. A graduate student may request a conference with the Dean of the Graduate School within seven (7) working days after the notification of the Department Chair’s or School Director’s (or his/her designee’s) decision.

The student shall submit in writing a description of the problem or grievance and note how the action is arbitrary, capricious, or in violation of University policy. Additionally, the student should indicate if a conference with the faculty member and/or Department Chair or School Director was sought and if those conferences occurred. The conference shall take place within seven (7) working days of receipt of the student’s request. The Dean may additionally confer with the faculty member or program area whose action or policy is being appealed. The Dean may uphold or nullify the initial action, may recommend remedies, or may remand the case to the faculty member, as appropriate. The Dean must render a decision within (7) working days of the conference, and forward copies of the decision, along with rationale based on whether the faculty member’s action was arbitrary, capricious, or a violation of University policy, to the student, the faculty member, and the Department Chair or School Director, as appropriate.

In cases of grade appeals, if the Dean believes that a grade change is warranted, the Dean must contact the faculty member to explain the decision and recommend the grade change. If the faculty member does not agree to change the grade, the student may continue the process at the next level.

2-1-204(4) Request for Academic Appeals Board (“AAB”) Hearing. If the student is not satisfied with the decision rendered by the Dean, the student may file a request to the Chair of the AAB for a formal hearing. The request for a hearing before the AAB must be submitted within seven (7) days of receipt of the Dean’s decision.

(a) Academic Appeals Board Membership. The AAB shall be composed of

(I) five (5) faculty members appointed by the Faculty Senate;

(II) five (5) members of the Graduate Faculty appointed by the Graduate Council, at least 2 of whom shall have doctoral research endorsement status.

(III) five (5) undergraduate students appointed by the Student Senate; and

(IV) five (5) graduate students appointed by the Graduate Student Association (GSA);

(V) a Chair, who shall be appointed by the CAO and approved by majority votes of the Faculty Senate and Student Senate.
AAB members shall serve one-year terms and may be reappointed. The Chair shall serve a two-year term and may be reappointed. In appointing members to the AAB, the Faculty Senate, Graduate Council, Student Senate, and Graduate Student Association shall strive for maximum diversity in terms of college representation and, in the case of faculty, rank. Appointments must be made by November 1st of each year. If the Faculty or Student Senates fail to make appointments in a timely manner, the CAO will make temporary faculty or undergraduate student appointments as appropriate, and the Dean of the Graduate School will temporarily appoint graduate students to the AAB if the GSA does not provide appointments in a timely manner.

(b) Within fourteen (14) working days of receipt of the student’s request for formal hearing, the Hearing Panel will be established by the Chair. In case of an appeal from an undergraduate student, the Hearing Panel shall consist of the five (5) undergraduate students appointed by the Student Senate, as well as the five (5) faculty members chosen by the Faculty Senate. In the case of an appeal from a graduate student, the Hearing Panel will consist of five (5) graduate students appointed by the Graduate Student Association (GSA), as well as the five (5) members of the Graduate Faculty chosen by the Graduate Council, to hear the case. The ten (10) members selected, as well as the Chair, shall constitute the Hearing Panel for the case. All eleven (11) members of the Hearing Panel shall retain a vote. The Chair shall forward the names of those selected to the student and the student’s College Dean.

(c) In the event of the Chair’s recusal or incapacity, the CAO may select an alternate Chair from the membership of the AAB.

(d) Within seven (7) working days of notification of the membership of the Hearing Panel, either party may object to the selection of any Hearing Panel member in writing to the Chair to the selection of any Hearing Panel member. Objections may be made only on the basis of perceived conflicts of interest. Within seven (7) working days of receipt of any objections, the Chair shall either replace the member(s) objected to, or retain the member(s) and refer the question of conflict of interest to the CAO. The CAO may uphold the Chair’s selection or require replacement(s) for the member(s) objected to. The CAO’s decision is final.

(e) In the event that the Chair must find a replacement for any member objected to, or due to a member’s recusal or incapacity, the Chair shall request that a replacement be chosen by the group who appointed the recused or incapacitated member.

(f) Procedure for Appeals Brought During a Non-Contractual Period. The Assistant Vice President for Undergraduate Studies or the Dean of the Graduate School will be the sole determiner as to whether the appeal will be heard during the non-contractual period. If it is determined that the hearing should not take place during the non-contractual period, the appeal will be heard during the next semester. Otherwise, the Assistant Vice President for Undergraduate Studies or the Dean of the Graduate School will appoint an ad hoc chair of the appeals board who will establish the Hearing Panel in accordance with section 2-1-204(4) (b). The faculty members of the Panel must be approved by the Executive Committee of the Faculty Senate. The student members of the Panel must be approved by the Student Body President or GSA President. The appeal will be heard within seven working days.
Should the Chair be unable to establish a Hearing Panel, the appeal will be heard at the beginning of the next semester.

2-1-204(5) Preliminary Evaluation of Case by Hearing Panel.

The Chair shall call a meeting of the Hearing Panel for a preliminary evaluation of the student’s case, which shall take place no later than twenty-one (21) working days after the deadline for filing objections to the Hearing Panel members, or the resolution of any such objections, whichever occurs later. The Chair shall solicit written arguments and supporting documentation from both sides, and forward all items received to the members of the Hearing Panel in a timely manner.

A quorum for the preliminary evaluation shall consist of the Chair, three (3) faculty members, and three (3) undergraduate or graduate students depending upon whether the Hearing Panel is deliberating an undergraduate or a graduate student appeal.

The preliminary evaluation will be conducted in closed session, without representation from either party.

Following discussion, the members of the Hearing Panel shall vote as to whether there was prima facie evidence that the action being appealed was arbitrary, capricious, or in violation of University policy. If three (3) or more members of the Hearing Panel vote that there was prima facie evidence that the action appealed was arbitrary, capricious, or in violation of University policy, the appeal will be heard. Otherwise the appeal will be dismissed. The Hearing Panel’s vote is final.

2-1-204(6) Preparations for the Hearing.

(a) **Notice of Hearing.** If the Hearing Panel votes to hear the appeal, the Chair shall notify the parties in writing of the time, date, and place of the hearing. The Chair shall make a good faith effort to schedule the hearing in a manner that accommodates the schedules of all parties. The hearing shall occur no later than thirty (30) working days after the vote in favor of hearing the appeal.

(b) **Pre-Hearing Disclosure.** The written notice of hearing shall require the student and the faculty member and/or program area or school to provide to the Chair, at least ten (10) working days prior to the date of hearing, all documents which contain, and the names and current addresses of all persons who have, relevant knowledge of facts relating or pertaining to the issues in contention as identified by the student in his or her request for a formal hearing. Upon receipt of the written submission from the student, and the faculty member and/or program area or school, the Chair shall transmit to each party copies of documents and identities of persons provided by the other party.

(c) The student and the faculty member and/or program area or school shall provide the Chair with the names of the persons identified in their respective submissions described in the immediately preceding subsection who they wish to call as witnesses, or who they wish to produce documents, at the hearing. The Chair shall notify all such persons and shall arrange for the appearance of such witnesses at the hearing if possible, or alternatively, shall otherwise attempt to solicit written statements from them. The Chair shall also collect all
documents so identified prior to the hearing and have them marked and made available for each Hearing Panel member’s review prior to and during the hearing.

2-1-204(7) Hearing Procedure.

(a) General Considerations. The hearing will be informal. The Chair of the Hearing Panel will preside over the hearing. The student and the faculty member and/or program area or school shall have the opportunity to present testimony of witnesses and to submit documents. The Chair shall conduct the hearing in a manner that allows the orderly presentation of testimony and documents but is not required to follow rules of evidence and procedure utilized in a court of law. To protect the student and the faculty member or program area or School, the hearing shall be closed to third persons and the information presented at the hearing shall not be provided to third persons except to the extent required to effectuate the decision of the Hearing Panel. Parties involved in the appeal have the right to attend the entire hearing, and to challenge testimony and evidence, and to be assisted and/or advised by Academic Counsel of his/her/its choosing (who is not called as a witness in the hearing) as described in 2-1-203(a)(iii) and (b)(iii), but the student and faculty member and/or program area or school shall be the only persons who will present their respective positions and arguments to the Hearing Panel.

(b) Quorum. A quorum of the Hearing Panel shall consist of the Chair, at least three (3) faculty members, and at least three (3) undergraduate or graduate students depending upon whether the AAB is deliberating an undergraduate or a graduate student appeal.

(c) Record. A record of the proceeding will be made and consist of a recording of the hearing, all documents presented, and the Hearing Panel’s written decision.

(d) Burden of Proof. The burden of proving an assertion rests on the person making the assertion.

(e) Relevance of arguments and evidence. The Hearing Panel is not bound to examine any evidence, or consider any argument that it does not regard to be relevant to the issues in the case. If during the course of the hearing the Hearing Panel identifies evidence, facts, or issues that it determines relevant, it shall consider them even if they were not raised by either of the parties. Both parties shall be given an opportunity to examine, consider, and respond to such evidence, facts, or issues.

(f) Preliminary Statement. The Chair of the Hearing Panel shall call the hearing to order, identify the issues and parties involved and give an overview of the hearing process.

(g) Presentation of Evidence. The presentation of evidence shall generally proceed in the following order:

(I) initial presentation by the student;

(II) initial presentation by the faculty member, program area or School and/or College;

(III) interrogation of both sides, as well as of any witnesses called by the Hearing Panel;
(IV) rebuttal presentation by student, if requested;

(V) deliberation by the Hearing Panel.

The presentation of oral testimony by a witness need not be by formal interrogation. A witness may simply be asked to disclose all testimony he or she has that relates to the issue in dispute. The Hearing Panel may reject what it deems to be unreliable, irrelevant, or cumulative testimony or documents. The Hearing Panel may interrogate a witness at any time on any subject it deems relevant. The Hearing Panel may sequester non-party witnesses (i.e., those other than the student and the faculty member and/or program area or school). Documentary evidence may be accepted without a testimonial foundation, but the Hearing Panel should be careful to ensure the authenticity of all documents. Sworn statements of persons should not be used as a substitute for testimony at the hearing unless the witness is unavailable due to reasons beyond the witness’ and the Hearing Panel’s control.

(h) **Questioning of Witnesses.** Both parties may call any witness identified by the parties in their pre-hearing submissions for examination and the other party shall have the opportunity to question any witness called during the hearing. In addition, the Hearing Panel may ask relevant questions of any witness during the hearing.

(i) **Closure.** The Hearing Panel may adjourn the hearing to a later date if necessary to receive further relevant evidence. After such additional evidence is received, the Hearing Panel shall close the hearing.

(j) **Deliberation.** The Hearing Panel shall deliberate promptly after the closure of the hearing, shall render a decision, and the Chair shall distribute that decision in writing to the student, the faculty member or entity whose action is being appealed, the relevant School Director and Dean, the Graduate Dean (in graduate student appeals), the AVP for Undergraduate Studies, the Dean of Students (in undergraduate student appeals), and the CAO within seven (7) working days of the conclusion of deliberations and final vote(s).

(k) **Decision.** The Hearing Panel’s written decision shall contain findings of relevant facts established by a preponderance of the evidence, as determined by two-thirds vote of the members of the Hearing Panel. The decision shall also state separately each conclusion reached by the Hearing Panel based upon the facts found. The conclusions must logically follow from the facts and must relate to the standards of review; i.e., arbitrariness, capriciousness, violations of policy. The Hearing Panel shall not disclose individual voting positions or any dissenting opinion(s).

In cases other than grade appeals, the decision shall state the Hearing Panel’s decision regarding the appeal. If a two-thirds vote of the Hearing Panel supports the student’s contention, the Hearing Panel shall have the authority to reverse the decision of the program area or school or faculty member, and to direct appropriate action necessary to implement such reversal. The decision of the Hearing Panel is final.
In cases of grade appeals, if the Hearing Panel determines that a grade change is warranted, the Chair must contact the faculty member to explain the decision and recommend the grade change. If the faculty member does not agree to change the grade, the Chair will remand the appeal to the department/school to determine the grade within five (5) working days. Any grade changes must be consistent with the Hearing Panel’s decision. The Hearing Panel will submit a written report with the appropriate form(s) to the Registrar’s office with the final grade determination.

(I) Disposition of Records. After the Hearing Panel’s decision is distributed to the student and faculty member and/or program area or school, the Chair shall forward all records of the hearing, as well as a copy of the decision, to the CAO. Except when required by a legally valid subpoena, access to records will be confined to authorized University personnel who require access in connection with the performance of their duties.

Normally, premises occupied by students will not be searched. A room may be searched; however, by not less than two (2) appointees of the Division of Student Affairs when there is evidence that a search is reasonable. Authorization for room searches will be made by the appropriate Vice President of the University or his or her designee. The authorization will be written and must contain a statement of the specific objectives of the search and a summary of the evidence on which the authorization was granted. Under emergency conditions, waiver of the written authorization requirement may occur when immediate action is deemed necessary and appropriate by the appropriate Vice President of the University or his or her designee.

For premises not controlled by the institution, the ordinary requirements for lawful search are to be followed. [See also 1-1-409 Investigation of University Premises.]

(XXI) Retaliation against any individual. Retaliation is defined as any conduct which serves as a reprisal with the intent of causing physical or psychological pain. Retaliation includes, but is not limited to, unwelcome or repeated contacts by telephone, by letter, in person, or by third party; damaging or vandalizing personal property; offensive acts/gestures; overt threats, whether or not they were actually carried out; or any conduct that would instill fear and trepidation in the victim.

(XXII) Students may be held independently accountable to both civic authorities and to the University for acts which constitute violations of law and/or violations of University policies, regulations, or procedures. Disciplinary action will not be subject to challenge on the ground that criminal charges involving the same incident have been dismissed, reduced, or are in process. A Colorado law states that if a person is convicted of a riot offense (inciting, arming, or engaging) he/she must be immediately suspended from a Colorado state-supported institution of higher education for a period of twelve months and will be unable to attend any other Colorado state-supported institution of higher education for that time period.

2-1-502 Academic Expectations Related to Student Conduct.

In order to encourage and foster academic excellence, the University expects students to conduct themselves in accordance with certain generally accepted norms of scholarship and professional behaviors. Because of this expectation, the University does not condone any form of academic misconduct. Academic misconduct includes but is not limited to plagiarism, cheating, fabrication, and knowingly or recklessly encouraging or making possible any act of plagiarism, cheating, or fabrication. Academic misconduct is an unacceptable activity in scholarship and is in conflict with academic and professional ethics and morals.

Consequently, students who are judged to have engaged in some form of academic misconduct may be subject to (1) a zero or an “F” on the work in question, (2) an “F” in the course, (3) other academic penalties as outlined in the professor’s course requirements and expectations, (4) disciplinary action as
specified in the Sanctions for Misconduct section below, or (5) any combination thereof. When an instructor reports an incident of academic misconduct and related academic consequences to the Dean of Students Office, a student found responsible for such misconduct may still receive a failing grade even if he/she has withdrawn from or dropped the course. Procedural due process, including the right to appeal, is to be followed in making a determination of whether academic misconduct has occurred.

Generally, a student’s intentions will not be the primary consideration in the determination of whether academic misconduct has occurred. A student’s intentions will usually be considered only during the process of deciding on the appropriate sanctions or penalties.

Plagiarism is the act of appropriating the written, artistic, or musical composition of another, or portions thereof; or the ideas, language, or symbols of same and passing them off as the product of one’s own mind. Plagiarism includes not only the exact duplication of another’s work, but also the lifting of a substantial or essential portion thereof.

Regarding written work in particular, direct quotations, statements which are the result of paraphrasing or summarizing the work of another, and other information which is not considered common knowledge must be cited or acknowledged, usually in the form of a footnote. Quotation marks or a proper form of indentation shall be used to indicate all direct quotations.

As long as a student adequately acknowledges his or her sources and as long as there is no reason to believe that the student has attempted to pose as the originator, the student will not be charged with plagiarism even though the form of the acknowledgment may be unacceptable. However, students should be aware that most professors require certain forms of acknowledgment and some may evaluate a project on the basis of form.

Cheating is the act of using or attempting to use, in examination or other academic work, material, information, or study aids which are not permitted by the instructor. Cheating includes, but is not limited to: Using books, notes, or calculators or copying from or conversing with others during an examination (unless such external aids are permitted by the instructor); having someone else do research, write papers, or take examinations; doing research, writing papers, or taking examinations for someone else. Prior approval of the instructor(s) is required before submission of all or part of the same work as part of the academic work for more than one course.

Fabrication is the invention of material or its source and its use as an authority in academic work. Fabrication includes, but is not limited to: inventing the data for a scientific experiment; inventing the title and author of a publication in order to use the invented publication as a source; or knowingly attributing material to an incorrect source.

2-1-503 Sanctions for Misconduct.

The University seeks to ensure equal treatment of students and recognized student organizations that are subject to disciplinary or academic sanctions and to impose similar sanctions under similar circumstances. The prior conduct record, if any, will be taken into consideration in determining sanctions. Any sanctions imposed by the University shall be confirmed in writing. Sanctions for violations of University standards by individuals or recognized student groups include:

1. **Warning** — An official notice to a student or recognized student organization that the conduct is in violation of the Student Rules and Regulations. The continuation of such conduct or actions may result in further disciplinary action.

2. **Probation** — Disciplinary probation is a period of observation and review of conduct during which the student or recognized student organization must demonstrate compliance with the Student Rules and Regulations. Terms of this probationary period will be determined at the time probation is imposed.
(3) **Loss of Privileges**—Denial of specified privileges for a designated period of time.

(4) **Restitution**—Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.

(5) **Discretionary Sanctions**—These include, but are not limited to, recommendation for counseling, required mental health assessment, restriction of privileges, or a special educational project designed to assist the student in better understanding the overall impact of his or her behavioral infraction.

(6) **Residence Hall Suspension**—Separation of the student from the residence halls for a definite period of time, after which the student is eligible to return. Conditions for readmission may be specified.

(7) **Residence Hall Expulsion**—Permanent separation of the student from the residence halls.

(8) **Interim Suspension**—Interim suspension is taken in extreme or unusual cases when there is reasonable cause to believe the continued presence of the accused student on campus presents an immediate and definite danger to himself/herself or other members of the campus community, or threatens disruption of University operations or activities. Interim suspension is immediate suspension of a student’s privilege to attend the University and all of its related functions. A student who has been placed on interim suspension may not attend classes, may not participate in any University activities, and may be excluded from University property. The authority for interim suspension is vested in the Chief Disciplinary Officer. The Chief Disciplinary Officer may impose an interim suspension for a student before a hearing is held.

(9) **University Suspension**—The suspension may be for a specified period of time or for an indefinite period of time until stated conditions are met. The student may be prevented from returning to University premises. When a student is suspended, a notation will be made on the student’s academic record (transcript) as follows: “SUSPENDED (date) FOR CONDUCT.” This notation will remain on the record until the terms of the suspension have been satisfied.

(10) **Expulsion**—Expulsion is the act of terminating a student’s academic program and his or her right to future enrollment. The student may also be prevented from returning to University premises. When this action is finalized, a notation will be made on the student’s academic record (transcript) as follows: “EXPELLED (date) FOR CONDUCT.” If cause sufficient to the University is shown, this notation may be removed from the academic record at the direction of the University after five academic years have passed.

(11) **Revocation of Admission and/or Degree**—Admission to or a degree awarded from the University may be revoked for fraud, misrepresentation, or other violation of University standards in obtaining the degree, or for other serious violations committed by a student prior to graduation.

(12) **Withholding Degree**—The University may withhold awarding a degree otherwise earned until the completion of the process set forth in this Student Conduct Code, including the completion of all sanctions imposed, if any.

(13) **Withdrawal Agreement**. In certain cases where a student’s behavior or mental or emotional health may render him/her unfit for continued participation within the University community, the Chief Disciplinary Officer may recommend the student withdraw from the University. Conditions for re-admittance to the University will accompany this withdrawal agreement.

(14) **Loss of Recognition**. Recognized student organizations may lose recognition after an informal hearing before the Chief Disciplinary Officer. This action deprives the organization of the use of campus resources, the use of the University’s name, and the right to participate in campus sponsored activities. This loss of recognition may be for a specific period of time or for an
indefinite period of time until stated conditions are met. Loss of recognition is subject to a formal hearing by the Vice President for Academic Affairs.

2-1-504 Disciplinary Actions and Procedures.

Students who violate University Standards of Conduct are subject to disciplinary action. The University has designed hearing procedures that aim to engage students and recognized student organizations in a fair, educational, and developmental process.

The Chief Disciplinary Officer of the University, located in the Dean of Student’s Office, has the primary administrative responsibility for University-wide coordination, investigation, and enforcement of student conduct standards. Based on the nature and location of the violation of University standards of conduct, student conduct cases may be acted upon by appropriate University officials as authorized by the Chief Disciplinary Officer. When a student is suspended or expelled, the decision is subject to a formal hearing before the University Hearing Officer/Panel. When a recognized student organization loses recognition, the decision is subject to formal hearing before the Vice President for Academic Affairs. The University Hearing Officer shall be a person with expertise in administrative hearing and academic issues appointed by the Vice President for Academic Affairs from a panel of qualified individuals. The responsibilities of this person shall be to conduct formal disciplinary hearings.

2-1-504(1) Informal Procedures.

The procedures for informal hearings shall be as follows:

(a) When a disciplinary case is referred to or acted upon by the Chief Disciplinary Officer or designee, the procedure will normally be conducted in an informal manner. Discussion, counseling, persuasion, and other existing informal procedures will normally be used. The student or recognized student organization subject to disciplinary action will be informed at least three (3) days prior to the informal hearing of a summary of the alleged behavior and code of conduct violation and the time and place of the hearing. Pending such action, the student or recognized student organization has the right to be present on campus, attend classes, or conduct organizational business except in cases of interim suspension.

(b) The student or recognized student organization has the right to be assisted by an advisor if they choose, at their own expense. This advisor can be a faculty member, student, legal counsel or other individual, but can have no other role in the hearing, such as a witness. The student is responsible for presenting his or her own information, and therefore, advisors are not permitted to speak or participate directly in any hearing. Should the student elect to be accompanied by legal counsel, the University reserves the same right to have legal counsel present. A student should select as an advisor a person whose schedule allows attendance at the scheduled date and time for the informal hearing because delays will not normally be allowed due to the scheduling conflicts of an advisor.

(c) Decisions made at an informal hearing may be heard by the University Hearing Officer/Panel, or in the case of a recognized student organization, by the Vice President for Academic Affairs, if the sanction results in suspension, expulsion, or loss of recognition. A formal hearing must be requested by the student or recognized student organization in writing within 10 calendar days after receipt of the Chief Disciplinary Officer’s decision. Such request shall be directed to the Vice President for Academic Affairs. (See Formal Hearing Procedures.)

(d) If sanctions are imposed as a result of the informal hearing, other than suspension, expulsion, or loss of recognition, students have the right to appeal the decision and/or sanctions.

(I) Students may choose to appeal the decision based on one or more of the following:
(i) Due process was denied (you believe the Hearing Officer violated your student rights/ responsibilities or didn’t follow the written conduct process/procedures).

(ii) Presence of new evidence. The presentation of the — new evidence must be considered sufficiently substantial to change the outcome in a significant manner.

(iii) The sanctions given were inappropriate given the nature of the violation.

(II) The appeal will be based on the hearing record and the facts of the case. The appeal process will not be a rehearing of the case.

(III) Students wishing to appeal must complete and submit the Statement of Appeal Form to the Dean of Students Office within (5) business days following the receipt of the decision letter. The written appeal is reviewed by an appeal reader, appointed by the Dean of Students and he or she may affirm or reverse the decision, or remand the case to another Hearing Officer for further deliberation.
Article 2: General Personnel

Part 1 General Personnel

2-2-101 Administrative/Professional Exempt Staff

2-2-102 Appeal Process.

Administrative/professional exempt staff employees may appeal their performance evaluation rating to the appropriate Vice President (Vice President for administrative/professional staff who reports directly to the President) within five (5) working days of receipt of the evaluation rating from the supervisor. The Vice President or President will make a determination of the appeal within ten (10) working days of receipt of the evaluation rating from the supervisor. Failure to meet the five day time period by the employee will negate the appeal; failure by the Vice President to respond within the ten (10) day time period will result in the appeal being upheld. Submission of an appeal must include a specific statement of the reason for the appeal (i.e. specific points of disagreement), appropriate supporting documentation, and a statement of the relief requested. Decision of the President is final.

2-2-103 Resignation.

2-2-103(1) Indefinite Term. Employees serving on indefinite term appointments may resign at any time without notice or approval. Employees who provide thirty (30) calendar days advance written notice of resignation shall be entitled to use any accrued or unused vacation leave prior to resignation and/or receive payment for up to 288 hours of accrued and unused vacation leave remaining at the time of resignation at the choice of the University. Employee's not providing such notice shall forfeit any accrued and unused vacation leave.

2-2-103(2) Definite Term. Employees serving on definite term appointments may resign prior to the end of the term without consent at the end of any fiscal year provided written notice is given sixty (60) calendar days in advance of the termination date unless otherwise approved by the President.

2-2-104 Lay Off.

Employees, both indefinite and definite term, may be laid off at any time due to lack of work, lack of resources, reorganization, or other circumstances where the position is eliminated, reduced or made unnecessary as determined in the discretion of the University. Thirty (30) calendar days written notice of layoff will be given to affected employees to the extent resources permits, as determined in the discretion of the Board or President.

2-2-105 Recall.

The names of full-time, definite term employees who are laid off shall be maintained on a recall list for 360 calendar days from the effective date of layoff. Persons on a recall list shall have a right of first refusal for any exempt position vacancy at the University for which they are qualified based upon a comparison of the job description for the vacant position and the person's qualifications. Qualification shall be determined by the President. If more than one person on a recall list is qualified for the same vacancy, the best qualified, as determined by the President, shall be entitled to priority for recall. Any person selected for recall shall be notified, in writing, of the position vacancy, and his or her right of first
refusal, by certified mail return receipt requested, addressed to the person’s last known address as appears in the personnel file maintained by the University. Such right of first refusal must be exercised within seven (7) calendar days of the date when delivery of notice is made or attempted as determined by postal certificate. If the person elects to accept the position he/she shall be required to begin employment within thirty (30) calendar days of the date of delivery or attempted delivery of notice as determined by postal certificate unless a longer period is otherwise agreed to or required by the University. Upon reemployment pursuant to this procedure the employee shall be entitled to be restored to a level of compensation comparable to that provided to other employees in similar positions with like terms of service at the University (inclusive of all service prior to layoff) as determined by the University. If the best qualified person refuses recall, the position shall be offered to the next best qualified person in descending order until a person accepts or all qualified persons have been offered the position, whichever occurs first.

2-2-106 Grievance Procedure.

2-2-106(1) Resort To Other Procedures. In recognition of the fact that the commitment of the University and the grievant to this process is necessary in order to achieve its designed objectives, if the grievant seeks resolution of the subject matter of a pending grievance in any forum or by any set of procedures other than those established in this procedure, whether administrative or judicial, the University shall be under no obligation to proceed any further with the matter here-under. The act of filing an action in another forum in order to avoid violating a time limitation shall not be considered a violation of the intent of this paragraph.

2-2-106(2) Confidentiality. Grievance proceedings shall be maintained as confidential subject only to the need of the grievant and the University to comply with the processes specified herein and to the present evidence concerning the grievance in other administrative or judicial proceedings. All hearings shall be held in private.

2-2-106(3) Definitions. For the purpose of this procedure:

(a) The term “grievance” shall mean an allegation that the grievant’s employment rights and entitlement has been adversely affected due to a violation, misapplication or misinterpretation of University policies, regulations, or procedures.

(b) The term “grievant” shall mean an identified person (or group of persons) who was an employee of the university at the time the action giving rise to the grievance occurred.

(c) “Working Days,” as used in this Board Policy Manual, means all days other than (a) those designated as “university holiday,” “university closed” or “spring break” on the UNC Calendar maintained on the University website, (b) the days following the last day of classes of the fall semester and prior to the first day of classes of the spring semester, (c) the days following the last of classes of the spring semester and prior to the first day of classes of the fall semester of the following academic year, and (d) Saturdays and Sundays.

2-2-106(4) Time Limitations. When any action which is required to be taken with a specified time period is not taken in time, the following shall apply:

(a) If the grievant fails to act within the time limits provided herein, the University shall have no responsibility to process the grievance and it shall be deemed withdrawn.
In case the University fails to act in time, the grievant may proceed to the next review level and any subsequently issued decision on the matter at the by-passed level, shall be void.

2-2-106(4)(a) Informal Procedure. A grievance must first be presented in writing and informally to the grievant's immediate supervisor. The grievance must be filed within twenty-five (25) working days of the date on which the grievant knew or should have known of the action or condition which occasioned the grievance. The supervisor upon learning of the grievance shall investigate the matter as deemed appropriate and respond to the grievant in writing within five (5) working days of the date the grievance was filed with the supervisor's office.

2-2-106(4)(b) Formal Procedure. If the grievance is not resolved pursuant to 2-2-106(4)(a) and the grievant desires to pursue the matter, the grievant shall formalize the grievance and file it with the jurisdictional vice president within five (5) working days of the decision [See also 2-2-106(4)(a)]. The formalized grievance shall be presented in writing. The written submission shall state the specific policy, regulation, or procedure alleged to have been misinterpreted, misapplied or violated, the effect on the grievant and the relief requested. The appropriate Vice President (or designee) shall investigate the grievance as deemed appropriate and respond to the grievant in writing within five (5) working days from the date the written grievance statement was filed with the appropriate Vice President's office.

2-2-106(4)(c) Appeal to President. If the grievance is not resolved pursuant to 2-2-106(4)(b), and the grievant desires to pursue the matter, the grievant shall file a written notice of appeal with the President within ten (10) working days of the date of delivery of the decision [See also 2-2-106(4)(b)] to the grievant. The President may elect to issue a decision based upon his own investigation, the findings and recommendation of a designee, or the findings and recommendations of an investigative panel. Prior to the issuance of a decision, and after any investigation is completed, the President shall hold an informal conference with the grievant in an attempt to effect a settlement. If no settlement is reached at that meeting, the President shall proceed to issue a decision. The President shall, within fifteen (15) working days after the grievance was filed [See also 2-2-106(4)(b)], notify the grievant of his or her decision. The President's decision shall be final.

Part 2 Discrimination Review Procedures (2-2-201 through 2-2-201 deleted effective April 15, 2015)

Part 3 Sexual Harassment (2-2-301 through 2-2-311 deleted effective April 15, 2015)

Part 4 Leaves.

For employees in the Division of Academic Affairs, 1.0 FTE when used in this section shall be interpreted to be equivalent to 1.2 FTE and all fractions shall be likewise prorated. “Required work days” shall mean those days when an employee is required to be working as well as days when an employee is on an authorized leave of a type which allows accrual of additional leave credits.

2-2-401 Vacation Leave.
2-2-401(1) Definitions.

(a) Full time, with respect to an administrative/professional exempt staff employee, shall mean an employee who is employed in a position that has been designated for budgetary purposes by the University as one (1.0) full-time equivalent (FTE).

(b) Part time, with respect to an administrative/professional exempt staff employee, shall mean an employee who is employed in a position that has been designated for budgetary purposes by the University as less than one (1.0) full-time equivalent (FTE).

2-2-401(2) Accrual. Full-time administrative/professional exempt staff shall accrue sixteen (16) work hours of vacation leave every calendar month of employment. Leave shall not be accrued during any work days not worked in a month except for periods on approved short-term disability, vacation, holidays, or other leave under the terms of which it is expressly provided that vacation leave may be accrued during its duration. Abatement of accrual during non-accrual leaves shall be on a percentage basis where the percentage of days abated is equal to the number of required work days/hours which the employee did not work in the calendar month divided by the total number of required work days/hours in the calendar month. Unless otherwise restricted, part-time administrative/professional exempt staff employees shall accrue a percentage of the sixteen (16) work hours of vacation leave every calendar month of employment which a full-time administrative/professional exempt staff employee could earn under this policy during the same period. The percentage used to calculate part-time staff accrual shall be equal to the value determined by dividing the full-time equivalency designated for the position by one (1.0) full-time equivalent (FTE). Full-time administrative/professional exempt staff employees other than faculty in administrative positions may accrue and accumulate a maximum of 384 hours of vacation leave. Unless otherwise restricted, part-time administrative/professional exempt staff employees may accrue and accumulate at any point in time, vacation leave equivalent to the maximum vacation leave which they could accrue under this policy during a two-year period based upon the full-time equivalency designation of their position at the time of accumulation determination.

2-2-401(3) Use. Vacation leave may only be used at times approved in advance by the employee's supervisor based upon the supervisor's consideration of the operational needs of the University. All employees must, however, be provided reasonable opportunity to use all vacation leave accrued during the year of accrual. Employees may, at the discretion of the University, be required to use accrued and unused vacation leave prior to severance. Records of employee use of vacation leave shall be on forms authorized by the University and shall be submitted to Human Resources on June 30 and December 30, or the last scheduled work day prior to those dates. Vacation leave shall be debited on a per hour basis. Definite term employees (other than faculty in administrative positions) shall be entitled to receive compensation for any accrued and unused vacation leave at the time of severance up to a maximum of 288 hours of vacation leave, except for severance for just cause. An employee may be required to use accrued and unused vacation leave prior to severance, at the discretion of the University.

2-2-401(3)(a) Leave Benefits for Special Conditions. Librarians serving in non-classified positions in the University Libraries are entitled to accrue and use vacation leave according to all provisions of 2-2-301(2). Those administrators identified as faculty in administrative positions shall not receive payment for accrued and unused vacation leave.

2-2-402 Short-Term Disability (Sick) Leave.
2-2-402(1) Definitions.

(a) Full time, with respect to an administrative/professional staff employee, shall mean an employee who is employed in a position that has been designated for budgetary purposes by the University as one (1.0) full-time equivalent (FTE).

(b) Short-term disability shall mean any condition, whether physical or mental, including conditions arising from pregnancy or childbirth which disables an employee from performing the duties assigned his or her position in the position description or by the supervisor or which imposes a risk of infection to other employees. The determination that a short-term disability exists shall be made by the University. The University reserves the right to require an employee to submit to an examination by a qualified health care professional of its choice for the purpose of assisting in the determination that a short-term disability exists.

(c) Part time, with respect to an administrative/professional staff employee, shall mean an employee who is employed in a position that has been designated for budgetary purposes by the University as less than one (1.0) full-time equivalent (FTE).

2-2-402(2) Accrual Rates. Full-time administrative/professional exempt staff employee shall be entitled to a maximum of ninety (90) days of fully compensated leave for short-term disability each fiscal year. Short-term disability leave may not be accumulated and transferred from one fiscal year to the next. Unless otherwise restricted part-time administrative/professional exempt staff employees shall be entitled to a pro-ration of the short-term disability leave time allowed for full-time administrative/professional exempt staff employees based upon a percentage determined by dividing the full-time equivalency designated for the position by one (1.0) full-time equivalent (FTE).

2-2-402(3) Certification. The University reserves the right to require a written certification from a qualified health care professional satisfactory to the University that an employee does not have a short-term disability prior to an employee returning to work from a short-term disability leave.

2-2-402(4) Use. An employee may not use short-term disability leave without prior supervisory approval. Said approval may be obtained by telephone. Records of employee use of short-term disability leave shall be on forms authorized by the University and shall be submitted to Human Resources on June 30 and December 30, or the last scheduled work day prior to those dates. Employee use of short-term disability shall be debited against his or her fiscal year allowance. Employees shall not be paid or otherwise credited for unused short-term disability leave. Short-term disability leave entitlement will be proratably abated for any employee during any period of unauthorized absence or suspension.

2-2-403 Civil Duty Leave.

Any employee who is validly subpoenaed or summoned to involuntarily appear or serve as a juror in a judicial forum or compelled to appear before a judicial, legislative or administrative body with civil power to compel attendance during regularly scheduled work hours, shall be entitled to receive leave with pay for a period of time necessary for such appearance if the appearance may not be reasonably accommodated by rescheduling the employee's work hours, as determined by the University. Any compensation received for the appearance, other than travel and meal allowances, shall be reported to the University and deducted from any salary paid by the University for such civil leave. Civil leave shall not be granted for appearances as an expert witness for a party to litigation. Civil leave must be
approved in advance in writing by the employee’s supervisor.

2-2-404 Holiday Leave.

Full-time employees shall be compensated for all holidays designated by the President that fall on regularly scheduled work days of the employee, provided that the employee has worked or been on approved leave for the required workday of the employee prior to the holiday and works or is on approved leave the first required workday for the employee after the holiday. Unless otherwise restricted, part-time employees are provided a pro-rate allocation of compensated holiday leave under the same conditions as full-time employees. The proration shall be based upon the percentage of one FTE assigned to the part-time employee’s position.

2-2-405 Military Training Leave.

Upon presenting proper military orders, an employee who is a member of the National Guard or military reserve shall be granted military training leave for the annual encampment or equivalent reserve training period. Of this amount of time, a maximum of fifteen (15) work days in any calendar year shall be military training leave with pay and shall not be charged as any part of vacation or compensatory leave. Military training leave shall commence the first working day the employee is on military training leave from his job and terminates on the last calendar day he is in a military training status, as evidenced by military order covering the leave period, or on the 15th day, whichever occurs first.

2-2-406 Military Leave.

Upon presenting proper military orders, an employee who enters active military service, including active service for training purposes, with the armed forces of the United States or other branch of service in the national defense, shall be granted military leave without pay. Military leave without pay shall be granted for the entire period of initial service plus any period of additional service imposed by law, plus one year thereafter. An employee who fails to return at the end of this period shall be deemed to have resigned. An employee who is separated from military service prior to expiration of the period of initial service plus any period of additional service imposed by law shall be granted one year from date of honorable separation in which to return to State service before being deemed to have resigned. Any employee who is inducted into the Armed Forces of the United States under the Military Selective Service Act (or under any prior or subsequent corresponding law) for training and service and who leaves a position (other than a temporary position) with the University in order to perform such training and service, and

(1) receives a certificate of satisfactory completion of military service and;

(2) makes application for re-employment with the University within ninety (90) calendar days after such employee is relieved from such training and service or from hospitalization continuing after discharge for a period of not more than one year, such employee shall;

(a) if still qualified to perform the duties of the position left, be restored to such position or to a position of like seniority, status, and pay; or

(b) if not qualified to perform the duties of such position, by reason of disability sustained during such service, but if qualified to perform the duties of any other position in the employ of the University, be offered employment and, if such employee so requests, be employed by the University in such other position the
dues of which such employee is qualified to perform as will provide such employee like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in each employee's case. The foregoing entitlements shall be allowed to each qualified employee provided that the University's circumstances have not so changed as to make it impossible or unreasonable to do so. Employees who are restored to employment at the University in accordance with the provisions of this section shall be considered as having been on leave of absence during such period of training and service in the Armed Forces and shall be re-employed without loss of seniority, shall be entitled to participate in insurance or other benefits offered by the University pursuant to established rules and practices that were in effect with the University at the time the employee was inducted into the Armed Forces. Such employee shall not be discharged from the position in which they are re-employed, except for cause for a period of one calendar year after the effective date of re-employment.

2-2-407 Leaves of Absence.

2-2-407(1) Leave with Compensation.

2-2-407(1)(a) Definition. For purpose of this section, “employee” shall be defined as an administrative/professional exempt staff employee serving on a definite term contract.

2-2-407(1)(b) Purpose. The purpose of leaves with compensation shall be to allow employees to engage in activities other than their contracted duties and responsibilities, which serve to further the knowledge, skills, credentials, or reputation of the employee to the benefit of the University.

2-2-407(1)(c) Eligibility. Leaves with compensation shall be available to any employee upon approval of the BOT after recommendation of the President, the jurisdictional vice president, and the employee's immediate supervisor. Employees shall not accrue a right to a leave with compensation by reason of longevity or the nature of the leave activity proposed. The approval of a leave shall be subject to the discretion of the BOT.

2-2-407(1)(d) Terms. Leaves with compensation granted for a period of thirty (30) calendar days or less during a fiscal year shall not impose any return service obligations. They shall be considered as time worked for all purposes including, but not limited to, the accrual of sick leave, vacation leave, salary increases, credited service accrual under the University’s retirement program unless otherwise provided by the BOT at the time of leave approval. Compensated leaves in excess of thirty (30) calendar days during the fiscal years shall obligate the recipient to immediately return to provide service to the University, in a position of like status as that held at the time the leave began, for a period equal to twice the length of the leave period, or reimburse the University for the total amount of salary, the dollar value of benefits, and any additional payments received to support the leave or leave activities from the University, within ninety (90) calendar days of the date of completion of the leave or default in return service obligation. If an employee satisfies only a portion of the return service obligation, the amount of repayment obligation shall be prorated by multiplying the total amount of compensation, and dollar value of benefits and other support received during the leave period, by a percentage equal to the amount of return service obligation fulfilled; divided by the entire period of return service obligation. Employees granted leaves
with compensation for periods in excess of thirty (30) calendar days during a fiscal year shall not accrue vacation leave or sick leave during the leave period. Such employees shall be credited service for purposes of the University's retirement program and shall receive time in service credits for any other purposes unless otherwise provided by the BOT at the time of leave approval. Activities conducted by employees on leave with compensation shall not be considered as services performed in the course and scope of their employment with the University nor shall the University be liable for injuries received or expenses incurred by the employee during the course of conduct of the leave activities unless otherwise provided by the BOT at the time of leave approval.

2-2-407(1)(e) Compensation. Employees who are granted leaves with compensation shall be compensated as follows:

1. salary shall be paid during leave period at a rate equal to one-half of the employee's last approved salary and;

2. employee shall receive all employer paid fringe benefits to which employee was entitled under the terms of the employee's contract with the University at the time the leave began. These compensation arrangements may be modified by agreement of the employee and the University, provided such agreement is reduced to writing and signed by an authorized officer of the BOT or the President of the University.

2-2-407(1)(f) Procedure. Employees desiring to obtain approval of a leave with compensation shall submit a request in writing to their immediate supervisor, setting forth in detail the purpose for which the leave is requested, and the anticipated benefits to be accrued by the University if the leave is approved. The immediate supervisor shall review the leave request and submit it with a recommendation to the jurisdictional vice president who shall, in turn, review the request and submit it with a recommendation to the President. If the President determines to recommend approval of the leave, the request and the President's recommendation shall be transmitted to the BOT for consideration. If the leave is approved, the recipient shall be obligated to sign a contract setting forth the terms and conditions of the leave and the repayment or return service obligation. The contract must be executed and returned to the University within twenty (20) calendar days of presentation or prior to the commencement of the leave period, whichever is sooner in time.

2-2-407(2) Leave without compensation.

2-2-407(2)(a) Definition. For the purpose of this section "employee" shall be defined as an administrative/professional exempt staff employee serving on a definite term contract.

2-2-407(2)(b) Purpose. Leaves without compensation may be granted by the BOT to an employee for any reason which it deems good and sufficient.

2-2-407(2)(c) Duration. Leaves of absence without compensation may be granted for any period of time, provided they shall not be granted for increments extending beyond the end of the fiscal year. Such leaves shall not obligate the recipient to return of service obligations unless otherwise provided by the BOT at the time the leave is granted.

2-2-407(2)(d) Terms and Conditions. Employees on leave of absence without
compensation shall not be accorded credit for years of service for any purpose nor shall they accrue sick leave or vacation leave unless otherwise provided by the BOT at the time the leave is granted. Recipients of such leaves may purchase continued health, life, dental, and accident coverages, and may purchase credited service under the University's retirement program to the extent that such opportunity is provided to the employee under the laws or contracts governing such benefits. Activities conducted by employees on leave without compensation shall not be considered as services performed in the course and scope of their employment with the University, nor shall the University be liable for injuries received or expenses incurred by the employee during the course of conduct of the leave activities unless otherwise provided by the BOT at the time of leave approval.

2-2-407(3) Maternity Leaves. Maternity leave as used in this section is defined as that period of time in which an individual is unable to perform the duties of her position directly due to the birth of a child, medical complications of pregnancy, or medical complications of childbirth. The University treats complications of pregnancy, childbirth, false pregnancy, terminations of pregnancy, and recovery therefrom as a temporary disability for all job related purposes. The Administration requires no arbitrary date of commencement nor termination of maternity leave. The leave shall commence when the staff member is physically unable to perform the duties of her assigned position and shall terminate when she is physically able to return to those duties. The University reserves the right to require a qualified professional's statement to support the individual's request for specific beginning and ending dates of maternity leave. In addition, the University reserves the right to request a second qualified professional opinion. If a second opinion is requested, it shall be made by a qualified professional designated by the University and paid by the University. In case of disagreement, the ultimate decision regarding length of maternity leave shall rest with the administration. Upon return from maternity leave, the individual's position, title, and salary shall be the same as if the individual had not been on leave, subject to existing University policies, regulations, and procedures. Accrued sick leave and accrued vacation leave benefits (where applicable) shall be used for maternity leave. Requests for maternity leave shall be directed to the individual's supervisor and to the appropriate dean or vice president. The University requests that notice regarding maternity leave be given with ample time to allow planning for replacements and all other arrangements necessary for the continuation of the duties of the individuals who will be on leave. Requests for extended leave beyond necessary durations or after exhaustion of accrued sick or vacation leave, not directly relating to physical inability to perform the duties of a position due to birth of a child, medical complications of pregnancy, or medical complications of childbirth may be granted as leave without pay.

2-2-407(4) Parental Leave Policy. Any full-time University faculty or exempt employee who becomes the primary caretaker of a child under the age of six, whether through birth or adoption, shall, upon request, be granted leave subject to the following conditions:

(a) In the case of a birth parent, written notification containing a specific request for parental leave shall be given the University employee's immediate supervisor at least ninety (90) calendar days prior to the anticipated birth of the child. Should birth occur more than ninety (90) calendar days in advance of the anticipated birth of the child, parental leave may be requested immediately.

(b) In instances of adoptive custody of a child, written notification shall be given the employee's immediate supervisor when the adoption home study or custody home evaluation has been completed and approved. This notification must contain a specific request for parental leave.
In cases of private adoptive custody placement, such notification must be given the employee's immediate supervisor as soon as such placement has been authorized by the affected parties or their legal representatives.

(c) Leave for one person designated as the primary caretaker (for purpose of this document, “primary caretaker” shall refer to the individual(s) identified by the family as most responsible for fulfilling significant nurturing needs of the child, but only one University employee within a family may be the primary caretaker at a given time) will commence at the time of birth or adoptive custody and continue for sixty (60) continuous days. These days shall be taken first from the employee's accrued sick leave and, if necessary, from accrued vacation leave. If adequate accrued sick/vacation days are not available, the remaining days shall be unpaid leave. Should a woman who gave birth be on maternity leave from the University, she shall be considered the primary caretaker, at least during the time of her maternity leave.

(I) Should additional leave be required, the primary caretaker may be granted unpaid leave as provided for in Leaves Without Pay. Written requests for such leave shall be submitted to the employee's immediate supervisor within thirty (30) calendar days of the time the child enters the home. In considering such leave requests, the age/special needs of the child and the requirement(s) of the adoptive agency (if applicable) shall be taken into consideration by the administration.

(II) Upon return from parental leave, the individual's position, title, and salary shall be the same as if the individual had not been on leave, subject to existing University policies, regulations, and procedures.

2-2-407(5) Family and Medical Leaves of Absence. In addition and/or supplemental to other leaves established by the University which are available to employees for the purposes of attending to family and medical concerns, the University has established the following leave in accordance with the Family and Medical Leave Act of 1993, as amended. In the event of an inconsistency between the requirements of that Act and this policy, this policy shall be construed to comport with the requirements of the Act.

2-2-407(5)(a) Definitions. For purposes of this policy, the following words and terms shall have the meanings prescribed:

(I) “Employee” shall mean all employees of the University.

(II) “Eligible employee” shall mean an employee who meets the following leave requirements.

2-2-407(6) Eligibility and Duration. Eligible employees shall be entitled to receive a family and/or medical unpaid leave of absence for up to twelve weeks per year for any of the following purposes:

a) because of the birth of a son or daughter of the eligible employee and in order to care for such son or daughter.

(b) because of the placement of a son or daughter with the employee of adoption or foster care.

Subject to the provisions of this policy, an employee may take leave for the purposes described above in (iii) and (iv); on an intermittent or partial day basis without a reduction
in the total leave eligibility beyond the amount of leave actually taken. Accounting for the intermittent or partial leave shall be in accordance with rules prescribed by Human Resources. 2-2-407(8) Coordination with Other Leaves. Prior to taking any leave under this policy, employees shall be required to exhaust all other applicable or available accrued and unused leave benefits under paid leave policies of the University. The leave provided for in this policy is intended to represent a minimum aggregate amount of leave, and the use of other paid leave benefits shall not extend the length of the leave otherwise available hereunder.

2-2-407(9) Reinstatement. Employees taking authorized leave hereunder shall be entitled to return to work at the end of the authorized leave in the position held at the time of commencement of the leave or to a position with equivalent duties, pay, benefits, and other terms and conditions of employment, as determined by the University. Employment status and benefit rights shall not accrue during the period of the leave, provided, however, that rights or benefits earned prior to the leave shall not be affected. The University reserves the right to deny reinstatement to any employee who is among the highest paid ten percent of the employees of the University if such denial is necessary to prevent substantial and grievous economic injury to the operations of the University, provided the University shall notify the employee of such intent to deny reinstatement at the time the University determines that such injury would occur.

2-2-407(10) Certification of Eligibility. The University reserves the right to require a completed certification by a health care provider to support a claim for leave for an employee’s own serious health condition or to care for a seriously ill child, spouse, or parent or to verify an employee’s ability to return to work and resume the duties of the employee’s position. For the employee’s own medical leave, the certification must include a statement that the employee is unable to perform the functions of his or her position. For leave to care for a seriously ill child, spouse or parent, the certification must include an estimate of the amount of time the employee is needed to provide care. In the case of certification for intermittent leave or leave on a reduced leave schedule for planned medical treatment, the dates on which such treatment is expected to be given and the duration of such treatment must be stated. In its discretion, the University may require a second medical opinion and periodic recertification at its own expense. If the first and second opinions differ, the University, at its own expense, may require the binding opinion of a third health care provider, approved jointly by the University and the employee.

2-2-407(11) Reporting. The University reserves the right to require any employee utilizing the benefits of this leave policy to provide periodic written reports on the continuing status of the employee’s eligibility to use the leave and/or the employee’s intentions with respect to return to work.

This form should be completed in detail, signed by the employee, submitted to the immediate supervisor for proper approvals and forwarded to Human Resources. To the extent feasible, the form must be submitted thirty (30) days in advance of the initial date of the leave. All requests for family and medical leaves of absence due to illness must include the appropriate certification by a health care provider.

Dependents and domestic partners of UNC full-time employees are entitled to receive a grant in the amount of the cost of in-state tuition for purpose of enrolling in and attending courses at UNC. The grant will be paid directly to UNC for each course in which an employee's dependent or domestic partner is enrolled and accepted and will not be applied to the account until after the Add/Drop date. In order for a dependent or domestic partner to qualify for a tuition grant the employee must be continuously employed at UNC during the entirety of the academic term for which the grant is made. Employees terminating their employment with UNC prior to the completion of a course for which a tuition grant has been allowed for any of their dependents or domestic partner, under the auspices of this policy, shall be obligated to reimburse the University for a percentage of the tuition. The percentage shall be equal to the percentage determined by dividing the number of hours actually accounted as hours worked by the employee during the academic term in which the course is conducted by the number of assigned hours required to be worked by the employee during the academic term in which the course is conducted. Such amount must be remitted to the University prior to the employee's last day of work or if not so remitted it may be deducted from the employee's last pay, at the discretion of the University.

Tuition grant benefits for dependents and domestic partners are subject to the same eligibility requirements and limitations as for employees to the extent applicable, provided, however, that dependents and domestic partners shall be entitled to continue to receive tuition grant benefits under this policy after the employee's death subject to the following conditions:

1. In the case of a dependent spouse, the benefits shall continue until remarriage or death;
2. In the case of a domestic partner, the benefits shall continue until the domestic partner enters into another domestic partnership or death;
3. In the case of dependent children, the benefits shall continue as long as the child qualifies for dependent status and has not attained age twenty-five (25), or after having received benefits fails to enroll in and complete any course work at the University for a period of 365 consecutive days, whichever occurs first in time.

Employees, domestic partners and dependents who receive tuition grants under this policy shall be obligated to pay in a timely manner all other costs associated with enrollment at the University and the particular course of study being pursued. Dependents and domestic partners in degree granting programs must meet Standards of Satisfactory Academic Progress established by the Office of Financial Aid in order to be eligible to receive the tuition grant.

Benefits under this policy are not transferable. Graduate tuition grants may be subject to tax withholding. Eligibility for receipt of the Dependent Scholarship may be granted only if application is received one day prior to the first day of classes. If the Dependent Tuition Grant Request form is not received by this date, a late charge may be assessed.

Employees who utilize this benefit in one term and leave the University prior to the end of their appointment period will be required to reimburse the University for tuition grants received and not earned.
(b) A full-time employee is defined as one with a 1.0 FTE assignment for faculty and professional staff, or 40 hours per week during the fiscal year for state classified staff.

(c) Human Resources will monitor the number of eligible hours.

(d) Eligibility for class enrollment is available at the time of employment.

(e) Prior to registration the employee must secure the approval of his or her immediate supervisor, the department head, and Human Resources.

(f) Supervisors are encouraged to allow employees to enroll in any class of their choice.

(g) Classes taken during working hours require that the employee make up the time missed. Employees eligible for overtime reimbursement are required to make up class hours within the same work week. Time must be made up within the same semester for employees not eligible for overtime.

(h) State Fiscal Rules provide for the waiving of tuition charges. UNC will waive fees except for any course related fees (i.e. science labs).

This constitution shall serve as the basis of authority for faculty sharing in the governance of the University upon approval of a majority of the votes cast by the faculty voting, and upon the approval of the President and the BOT.

**Part 2 Faculty: Definition and Contracts.**

2-3-201 Faculty Definition and Contracts.

The faculty shall include the President and all persons who hold BOT appointments with a rank of lecturer, instructor, senior lecturer, assistant professor, associate professor, or professor. It shall also include adjunct faculty. The faculty shall not include those exempt employees defined by 3-3-301, Faculty Status.

2-3-201(1) Full-Time Faculty.

Faculty members with 1.0 FTE assignment within the University for at least two semesters in a given fiscal year which consists of instruction, research, service, and/or librarian assignments. BOT-approved leaves will not affect full-time status for the provisions of this document.

2-3-201(2) Part-Time Faculty.

Any faculty member who is not a full-time faculty member.

2-3-202 Faculty Contracts.

There are four types of faculty contracts which are designated as: “adjunct”, “contract-renewable”, “tenure-track” and “tenure.” The basic, but not exclusive, distinctions between these contracts are as follows:

2-3-202(1) Adjunct.

An adjunct contract is typically made when there is an unexpected need for a faculty member’s services during a semester. Faculty in adjunct positions are not considered to be continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures]. Adjunct positions are not faculty budget line positions. Employment under an adjunct contract automatically terminates at the end of the contract period.

No ranks are available to adjunct faculty.

2-3-202(2) Contract-Renewable.

A contract for a contract-renewable position is for a designated period not to exceed one year and automatically terminates upon the expiration of that period. Contract-renewable positions are used when there is an expectation of an on-going need for the services provided outside of a tenure-track appointment, or for Clinical Faculty, Visiting Faculty, Research Faculty, or Professionals-in-Residence [See 2-3-305 Academic Titles]. Individuals in contract-renewable positions, except Visiting Faculty, are eligible for consideration for promotion to the next higher rank if they meet the minimum requirements for that rank [See 2-3-302 Rank Requirements]. Contract-renewable positions may be converted to tenure-track positions according to 3-3-201(1) Contract-renewable Faculty. Re-
employment of an employee after termination of a contract-renewable contract is solely within the
discretion of the University. However, faculty in contract-renewable positions are considered to be
continuing faculty for the purposes of distribution of any salary increase monies available each fiscal
year [See 3-3-701(1) Faculty Compensation Procedures]. Contract-renewable positions are faculty
budget line positions. [See also 3-3-201 Faculty Contracts].

Contract-renewable faculty will have one of the following ranks: Lecturer, Instructor, Senior Lecturer,
Assistant Professor, Associate Professor, and Professor [See 2-3-301 Academic Ranks and 2-3-901(4) Promotion of Instructors].

2-3-202(3) Tenure-Track.

A tenure-track contract is for a designated period not to exceed one academic year and automatically
terminates upon the expiration of that period. Employment under a tenure-track contract entitles an
employee written notice in accordance with the following schedule if the University’s Chief Academic
Officer determines not to rehire the employee during the subsequent academic year:

(a) Not later than three (3) months prior to the end of the first academic year of employment
under a tenure-track contract if the contract expires at the end of that academic year or at
least three (3) months in advance of its termination date if the contract is for a period less
than a full academic year or expires other than at the end of that academic year. Tenure-
track faculty hired with credit for any number of years toward tenure will, in their first year at
UNC, be treated the same as new tenure-track faculty members in their first contract year.

(b) Not later than six (6) months prior to the end of the academic year of employment under a
tenure-track contract if the contract expires at the end of that academic year or at least six
months in advance of its termination date if the second year contract is for a period less
than a full academic year or expires other than at the end of that academic year.

(c) Prior to the commencement date of the final contract after two (2) or more years of service
under tenure-track employment which in no event shall be less than 240 calendar days.

If the University’s Chief Academic Officer fails to provide sufficient notice as prescribed, the faculty
member shall be entitled to receive extended employment for thirty (30) days or, at the discretion of
the University, the faculty member may be given severance pay in an amount equivalent to the salary
the faculty member would have been entitled to receive.

If the notice is deficient by over thirty (30) days but less than sixty (60) days, the faculty member shall
be entitled to extended employment for a time period by which the notice is deficient or, at the
discretion of the University, the faculty member may be given severance pay in an amount equivalent
to the salary the faculty member would have been entitled to receive.

The salary or severance pay shall be the amount equivalent to the salary the faculty member would
have been entitled to based upon the academic year base salary and academic year FTE assignment
of the faculty member during the contract period when notice is given.

This provision shall not apply if the notice deficiency exceeds sixty (60) days and, in such case, the
faculty member shall be re-employed for the next succeeding academic year with an FTE assignment
and salary not less than the FTE assignment and salary of the preceding academic year.
Faculty in tenure-track positions are considered to be continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

Ranks available to tenure-track faculty are: Assistant Professor, Associate Professor, and Professor.

2-3-202(4) Tenure.

A tenure contract is for an academic year and gives the faculty member the contractual right to be employed for succeeding academic years until the faculty member resigns, retires, is discharged for cause, or is terminated pursuant to a Reduction in Force in accordance with policies approved by the BOT, or becomes permanently disabled or dies. This contract is subject to the terms and conditions of employment which exist from academic year to academic year but such terms shall not be inconsistent with this policy nor shall a faculty member be reduced in rank except for just cause or pursuant to a Reduction in Force in accordance with policies approved by the BOT.

For purposes of this policy, academic year means that period of time encompassed by fall and spring semesters unless otherwise specifically defined in an individual employment contract.

Faculty in tenure positions are considered to be continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

Ranks available to tenured faculty are: Assistant Professor, Associate Professor, and Professor.

Part 3 Academic Ranks and Titles.

2-3-301 Academic Ranks.

Academic ranks used for faculty shall consist of lecturer, instructor, senior lecturer, assistant professor, associate professor and professor. These ranks and titles shall be granted in accordance with University regulations and procedures adopted and maintained by the President in accordance with the ordinary governance process, and shall be subject to the final approval of the BOT.

There are three types of contract-renewable faculty not holding professorial rank [See 2-3-202(2) Contract-Renewable]. They are lecturer, senior lecturer and instructor.

(i) The rank of lecturer and senior lecturer are reserved for contract-renewable faculty not holding professorial rank whose highest degree is a master's degree or equivalent. Lecturers can be promoted to the rank of senior lecturer.

(ii) The rank of Instructor is reserved for contract-renewable faculty not holding professorial rank whose highest degree is a Ph.D., other terminal degree, or the equivalent. Instructors can be promoted through the ranks of assistant professor, associate professor, and professor.
2-3-302 Rank Requirements.

Minimum standards for academic rank shall be established as a means of aiding the University to obtain qualified personnel and to encourage continued professional growth through recognition of the individual's accomplishments in the classroom, in research, in professional activities or in other pursuits for the best interests of the University. These standards do not necessarily in and of themselves constitute qualifications for hiring or promotion. The common minimum standard involves the academic background as determined by the highest degree earned by the individual. Other criteria, when applicable, may be considered by the University in lieu of formal degree requirements. Positions may be advertised to permit applicants who have not completed the minimum degree requirement. When the position is filled by a candidate who has not completed the minimum degree requirement, the initial contract will specify the time period by which the degree requirements shall be completed.

(1) Lecturer: The minimum preparation is:

(a) the master's degree in the discipline in which the faculty member will have primary teaching responsibility, or

(b) the master's degree in another discipline and at least 18 hours of graduate work in the discipline in which the faculty member will have primary teaching responsibility, or

(c) completion of all the requirements for a terminal degree except for the dissertation or its equivalent in the discipline in which the faculty member will have primary teaching responsibility, or

(d) qualifications as outlined in 2-3-303 Equivalencies.

(2) Senior Lecturer: The minimum preparation is completion of at least seven (7) years of successful academic performance and

(a) the master's degree in the discipline in which the faculty member will have primary teaching responsibility, or

(c) completion of all the requirements for a terminal degree except for the dissertation or its equivalent in the discipline in which the faculty member will have primary teaching responsibility, or

(d) qualifications as outlined in 2-3-303 Equivalencies.

(1) Instructor: The minimum preparation is:

(a) the doctoral degree, other terminal degree, or equivalent in the discipline in which the faculty member will have primary teaching responsibility, or
(b) the doctoral degree, other terminal degree, or equivalent in another discipline and at least 18 hours of graduate work in the discipline in which the faculty member will have primary teaching responsibility, or

(c) qualifications as outlined in 2-3-303 Equivalencies.

(2) Assistant Professor: The minimum preparation is:

(a) the doctoral degree, other terminal degree, or equivalent in the discipline in which the faculty member will have primary teaching responsibility, or

(b) the doctoral degree, other terminal degree, or equivalent in another discipline and at least 18 hours of graduate work in the discipline in which the faculty member will have primary teaching responsibility, or

(c) qualifications as outlined in 2-3-303 Equivalencies.

(5) Associate Professor: The minimum preparation shall be an appropriate earned doctorate or other academic degree and/or professional certification considered terminal in the field, or qualifications as outlined in 2-3-303 Equivalencies, and four (4) years of successful academic performance.

(6) Professor: The minimum preparation shall be an appropriate earned doctorate or other academic degree and/or professional certification considered terminal in the field, or qualifications as outlined in 2-3-303 Equivalencies, and completion of at least seven (7) years of successful academic performance. Substantial evidence must be presented to document outstanding professional performance.

2-3-303 Equivalencies.

In recognition of exceptional professional contributions or experience, exceptions to the rank requirements may be made for those who, because of professional reputation, stature, and appropriate experience, are worthy of such consideration. In each instance the recommendation shall be made by the President to the BOT. Each case shall be presented on its own merits.

2-3-304 Special Status Faculty.

2-3-304(1) Affiliate Faculty.

Affiliate professorships may be granted to University and non-University personnel who provide regular, recurring service to the University and/or its programs. Affiliate professors normally provide these services without salary compensation and serve only within their areas of expertise. All affiliate professors must be demonstrably qualified with experience, skills, and/or other qualifications that enable them to provide the services required by the University. Services may include, but are not limited to: teaching of a course within one's area of specialty, and supervision of interns from the University to provide direct experience to students. The affiliate professor functions under the authority of the appropriate department/school/program area and in conjunction with the faculty
Each affiliate professor must be approved by the department chair or by the school director if he or she is in the relevant discipline or his or her designee if not, and the dean of the college. The affiliate professor will then exercise their particular task under the authority of the appropriate department/school/program area and in conjunction with the faculty therein.

While realizing that services of significant proportions are continually delivered by individuals to the University, affiliate professors are individuals whose services are regular and recurring. These services may include, but are not limited to: teaching of a course within one's area of specialty, supervision of interns from the University to provide direct experience to students, etc.

Under normal circumstances, affiliate professors will receive no salary for services provided to the University except that with the approval of the CAO, non-University personnel may be paid an honorarium and/or travel expenses.

Following are guidelines for the recommendation and selection of affiliate professors:

(a) The recommendation shall be initiated by the department chair or by the school director, if he or she is in the relevant discipline or his or her designee if not, and the dean of the college. Each recommendation shall delineate the qualifications, experience, and/or skills of the candidate, the specific service to be provided, salary (if any), terms and conditions of the appointment.

(b) The recommendation shall be approved or not approved by the CAO.

(c) The affiliate professor appointment form shall be signed by the individual and appropriate University officers.

(d) The names of affiliate professors will appear in University catalogues.

2-3-304(2) Emeritus Faculty.

Tenured faculty members and/or administrators in good standing who have served at the University for ten years or more and who have attained the rank of professor or associate professor will automatically be nominated, at the time of retirement or at the time of Reduction in Force due to financial or program exigency, by the President to the BOT to become emeritus faculty. University faculty members and/or administrators in good standing who have served the University for a period fewer than ten years and who hold the rank of professor, associate professor, assistant professor or instructor, regardless of how long they have served, may at the time of retirement or at the time of Reduction in Force due to financial or program exigency, also be nominated for emeritus status. Such nominations may be made by the appropriate department chair/school director, the dean, CAO, or the President.

Nominations, except those originating with the CAO or President, shall be submitted to the CAO, who will forward his or her recommendations to the President. The President may make such a recommendation to the BOT. The BOT shall take final action on all nominations.
2-3-305 Academic Titles.

Although faculty ranks are limited to lecturer, senior lecturer, instructor, assistant professor, associate professor, or professor, academic titles may be used for some faculty. Titles may include, but are not limited to, Visiting Faculty, Clinical Faculty, Research Faculty, and Professional-in-Residence (e.g., Artist-in-Residence, Executive-in-Residence, etc.). The designations used for ranks specified in 2-3-301 Academic Ranks may not also be used for titles.

(VII) Visiting Faculty. Visiting faculty may hold any faculty rank for which they meet the minimum requirements [See 2-3-302 Rank Requirements]. Visiting faculty positions are contract-renewable. Due to the limited duration of these positions, faculty in visiting positions are not eligible for promotion and are not considered continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

(VIII) Clinical Faculty. Clinical faculty may hold any faculty rank for which they meet the minimum requirements [See 2-3-302 Rank Requirements]. Clinical faculty positions are contract-renewable. Clinical faculty are eligible for consideration for promotion. The promotion criteria for Clinical Faculty shall be determined by the relevant program area faculty and shall be based primarily on excellence in clinical applications performance [See 2-3-901 Promotion Guidelines]. Clinical faculty are considered continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

(IX) Research Faculty. Research faculty may hold any faculty rank for which they meet the minimum requirements [See 2-3-302 Rank Requirements]. Research faculty positions are contract-renewable. Research faculty are eligible for consideration for promotion. The promotion criteria for Research Faculty shall be determined by the relevant program area faculty and shall be based primarily on excellence in research performance [See 2-3-901 Promotion Guidelines]. Research faculty are considered continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].

(X) Professional-in-Residence. Professionals-in-Residence (e.g., Artist-in-Residence, Executive-in-Residence, etc.) may hold any faculty rank for which they meet the minimum requirements [See 2-3-302 Rank Requirements]. Professional-in-Residence positions are contract-renewable. Professionals-in-Residence are eligible for consideration for promotion. The promotion criteria for Professionals-in-Residence shall be determined by the relevant program area faculty and shall be based primarily on excellence in performance in the relevant area of expertise [See 2-3-901 Promotion Guidelines]. Professionals-in-Residence are considered continuing faculty for the purposes of distribution of any salary increase monies available each fiscal year [See 3-3-701(1) Faculty Compensation Procedures].
Part 4 Faculty Responsibilities and Conditions of Employment.

2-3-401 Faculty Workload.

This policy establishes the University-wide parameters that program areas, departments, schools, and colleges shall use in the assignment of equitable workloads across the University.

2-3-401(1) General Provisions.

Each college will define the workload components of instruction, scholarship and services as appropriate to the disciplines and professions they represent. Workload assignments will:

(a) maintain high quality, and academically sound programs.

(b) facilitate the accomplishment of program area, department, school, college, and University goals in teaching, scholarship and service.

(c) facilitate the professional development of faculty.

(d) maintain student credit hour production and numbers of majors and other students served.

(e) link workload to evaluation for promotion, tenure, and compensation discussions.

(f) adhere to the Colorado Commission on Higher Education standards for contact time per credit hour.

2-3-401(2) Workload Definition and Components.

(a) Definition. Workload is defined as the distribution of faculty effort across the areas of instruction, scholarship, and service, including special assignments when applicable.

(b) Components.

(I) Instruction. Includes all activities associated with teaching activities related to credit hour production, i.e., maintenance of currency in content and pedagogy, tutoring, supervising student research, directing theses/dissertations, directing of performances and/or productions.

(II) Scholarship. Scholarship encompasses both research and its dissemination, and other creative or artistic activity relevant to the discipline of the individual professor. It may create new knowledge (discovery), synthesize existing information (integration), and devise ways to use knowledge (application), or lead to the production of artistic works and performances. This includes activities that advance the faculty member’s professional and disciplinary competence, advance knowledge in the discipline, and result in work that is invited or subjected to peer review.

(III) Service. Includes professional activities such as service on program area, department, school, college, and University committees; serving on faculty
governance bodies; program administration; advising students on their academic progress or professional development; sponsoring student organizations; participating in professional organizations in one’s discipline; and contributing one’s expertise and time to civic activities in the larger community.

(IV) Factors. The following are among additional factors that influence faculty effort and might be considered in the development of college equating practices: student credit hours generated; number of contact hours; class size; class level; honors designation; number of instructors (team teaching); number of course preparations; previous experience in teaching a course; development of a new course; off-site instruction; use of distance learning technologies; inclusion of new pedagogical or technological strategies for classroom instruction; direction of performance ensembles; supervision and/or coordination of practica, internships, field experiences, participation in partnership schools and directed studies; supervision of student research, both undergraduate and graduate levels; supervision of undergraduate theses, master’s theses, and doctoral dissertations; advising load and level; scholarly productivity; and responsibilities for program administration.

2-3-401(3) Workload Assignments

(a) Assignments. A full-time faculty workload (1.0 Full-Time Equivalent -- FTE) consists of 30 workload units per academic year. Department chairs/school directors are responsible for assigning workloads. School directors and chairs of departments with multiple program areas will assign workload under the following guidelines:

(I) In case the department chair/school director is in the same discipline as the program area, he or she will assign workload and ensure an equitable distribution across the program area.

(II) In case the department chair/school director is not in the discipline of a program area, he or she shall assign someone from that program area, who, in consultation with the department chair/school director, shall assign workloads and ensure an equitable distribution across the program area.

(III) Assignments may be distributed differently across categories by semester to meet program area needs.

(IV) Annual workload assignments and the weighting of each area must be defined in writing by the faculty member and his or her department chair/school director or his or her designee. If the faculty member disagrees with the assigned workload, the faculty member may discuss the disagreement with the college dean. Final responsibility for workload assignments resides with the department chair/school director or the designee selected according to this section [2-3-401(3)(a)].

(V) Annual evaluations will be based on the written workload assignment.

(VI) Department chair/school directors may use differential workloads and/or staffing to ensure that faculty talents support programmatic needs.
(b) Overloads. Each full-time faculty member or exempt administrator who is meeting all contractual responsibilities in areas including administration, teaching, advising, service and scholarship/creative activities may teach for supplemental pay one overload course of up to five credit hours per semester for resident instruction or extended studies. An overload must be approved by the department chair/school director and dean. Any exceptions to the one overload course limit must be approved by the Chief Academic Officer. The pay rate for all courses taught as an overload can be found in University Regulations [3-3-701(2)].

2-3-402 Teaching Responsibilities.

2-3-402(1) On-Campus Programs.

(a) Instructional staff members are responsible for stating clearly the instructional objectives of each course they teach at the beginning of each term. It is expected that each instructional staff member will direct his or her instruction toward the fulfillment of these objectives and that examinations will be consistent with these objectives. Instructional staff members are responsible to orient the content of the courses they are assigned to teach to the approved course descriptions.

(b) Instructional staff members are responsible for informing students in their classes of the methods to be employed in determining the final course grade and of any special requirements of attendance which differ from the attendance policy of the University.

(I) Attendance: Regular attendance in all classes will be assumed and encouraged. The instructor will determine the relationship between class attendance and the objective of the class and the way in which he or she will evaluate attendance as a factor in the achievement of the student. The instructor has the responsibility to inform students of policies as these policies relate to the students’ grades. The student also has the responsibility of knowing the policies in each course.

(II) Instructional staff members are responsible for collecting and grading all required examinations, papers, and projects, completed by the student and are required to make these available for his or her inspection and discussion. Examinations, papers, and projects submitted for evaluation which are not returned to the student will be retained for the next semester of the academic school year for this purpose. In courses not requiring written examinations, papers, or projects the instructor will provide a written explanation indicating the basis for all grades submitted for that course in sufficient detail to protect the student from prejudice or capricious evaluation.

(III) All instructional staff members are expected to meet their classes regularly (through the last scheduled meeting of the semester) and at the scheduled time. In case of illness or any other emergency, the instructor will notify the department chair/school director so that appropriate action may be taken. Temporary changes of class schedules must be approved by the respective department chair/school director and deans.

(IV) In addition to the course sessions announced in the Schedule of Classes, faculty
may require attendance at course-relevant events (e.g., study sessions, training sessions, lectures, concerts, theatrical productions). Such requirements shall be articulated in the course syllabus, although specific times and dates may be determined during the progress of the semester or term. In setting such requirements, however, faculty shall make reasonable accommodations for students with significant scheduling or logistical challenges by offering multiple opportunities or alternative means to satisfy a given requirement.

(V) All instructional staff members whose responsibilities involve students are expected to schedule a reasonable number of office hours for student conferences. Office hours should be scheduled at times convenient to both students and instructors with the additional option of prearranged appointments for students when there is a schedule conflict. The number of office hours is to be determined at the appropriate administrative level, and office hours should be a matter of common knowledge.

(V) Instructional staff members who are responsible for academic advising are expected to be in their office at specified hours during the period of each enrollment. Arrangements will be made for advising during registration.

(VI) Instructional staff members are responsible for providing an opportunity for student evaluation of each course taught, provided that more than one student is enrolled in the course. This opportunity will be consistent with the student evaluation policies and procedures approved for the instructional staff member's academic unit. Each dean will ensure that such policies and procedures exist within his/her college/library and, in consultation with the relevant unit leader, may approve unit-specific student evaluation policies and procedures.

(VII) Fundraising, whether to benefit UNC or a third party is an extra-curricular activity. As such, the level of fundraising success achieved, or amount of funds raised, cannot be used in determining grades in any direct study, internship, class curriculum or program of study. The prohibitions of this policy do not apply to the study of fundraising entities and grant writing in their processes.

2-3-402(2)Off-Campus Programs.

(a) Off-campus instructional staff members are responsible for stating clearly the instructional objectives of each course they teach at the beginning of each such course. It is expected that each instructional staff member will direct his or her instruction toward the fulfillment of these objectives and that examinations will be consistent with these objectives. Instructional staff members are responsible to orient the content of the courses they are assigned to teach to the course descriptions approved by the college reviewing personnel and/or committees.

(b) Instructional staff members are responsible for informing students in their classes of the methods to be employed in determining the final course grade and of any special requirements of attendance which differ from the following attendance policy of the University:

(I) Attendance. Regular attendance in all classes will be assumed and encouraged.
The instructor will determine the relationship between class attendance and the objective of the class and the way in which he or she will evaluate attendance as a factor in the achievement of the student. The instructor has the responsibility to inform students of policies as these policies relate to the students’ grades. The student also has the responsibility of knowing the policies in each course.

(II) Instructional staff members are responsible for collecting and grading all required examinations, papers, and projects completed by the student and are required to make these available for his or her inspection and discussion. Examinations, papers, and projects submitted for evaluation which are not returned to the student will be retained for the next semester of the academic school year for this purpose. In courses not requiring written examinations, papers, or projects the instructor will provide a written explanation indicating the basis for all grades submitted for that course in sufficient detail to protect the student from prejudice or capricious evaluation.

(III) All instructional staff members are expected to meet their classes regularly (through the last scheduled meeting of the semester) and at the scheduled time and hold reasonable hours. In case of illness or any other emergency, the instructor will notify the Office of Extended Studies so that appropriate action may be taken. Temporary changes of class schedules must be approved by the Office of Extended Studies.

(IV) In addition to the course sessions announced in the Schedule of Classes, faculty may require attendance at course-relevant events (e.g., study sessions, training sessions, lectures, concerts, theatrical productions). Such requirements shall be articulated in the course syllabus, although specific times and dates may be determined during the progress of the semester or term. In setting such requirements, however, faculty shall make reasonable accommodations for students with significant scheduling or logistical challenges by offering multiple opportunities or alternative means to satisfy a given requirement.

(V) All instructional staff members are expected to comply with district and University policies governing use of off-campus classroom facilities, and to ensure that there be no smoking at any time in the classrooms or in the other than officially designated areas in the building where classes are being held.

(VI) Instructional staff members are responsible for providing an opportunity for student evaluation of each course taught, provided that more than one student is enrolled in the course. This opportunity will be consistent with the student evaluation policies and procedures approved for the instructional staff member’s academic unit. Each dean will ensure that such policies and procedures exist within his/her college/library and, in consultation with the relevant unit leader, may approve unit-specific student evaluation policies and procedures.

(VI) Fundraising, whether to benefit UNC or a third party is an extra-curricular activity. As such, the level of fundraising success achieved, or amount of funds raised, cannot be used in determining grades in any direct study, internship, class curriculum or program of study. The prohibitions of this policy do not apply to the
study of fundraising entities and grant writing or their processes.

2-3-404 Scholarly-Professional Support.

The University endorses and supports faculty scholarly-professional activities through the provision of library services, laboratory facilities, aids in the solicitation of support from funding agencies and, when feasible, provides financial support, differentiated workloads, data processing, and graduate assistants.

Assignment for purposes of recognized authorship may be granted under conditions acceptable to the President, and any agreement relating to such an assignment must include a provision governing recognition of the University and faculty, apportionment of royalties, and the amounts of apportioned time.

2-3-404(1) Faculty Tuition Grant. Faculty will be allowed to take classes at the University, without payment of tuition in accordance with procedures outlined in 2-2-408(1), Dependent Tuition Grant.

2-3-405 Human Subject Research.

Faculty are required to conform research to the requirements in 3-8-104, Human Subjects, and 3-8-106, Scientific Misconduct Policy.

2-3-406 Hazardous Waste.

To be developed.

2-3-407 Safety.

To be developed.

2-3-408 Records.

Faculty will maintain student records for at least one semester from the date the class ended. Faculty who resign/retire, conclude a term contract, or otherwise terminate their employment with the University will leave all student records with the departmane chair/school director or his or her designee in the program area prior to leaving the University. Such records include grade books or other documentation for assigning grades; and include exams, papers, projects, etc., which have not been returned to students. The department chair/school director or his or her designee in the program area is responsible for collecting this material and having it available upon request. Records need to be collected and retained only to cover the period of time in which an academic appeal could still be filed. [See also Part 2 – Academic Appeal Procedure.]

2-3-409 Outside Activities.

2-3-409(1) Off-Campus Employment.

The primary professional responsibility of a faculty member is to the University. A faculty member is under obligation to render to the University the most effective service of which s/he is capable. No outside service should be undertaken, with or without pay, that might interfere or that might be in direct competition with University service.
2-3-409(2) Consulting.

The opportunity for qualified staff members to accept occasional consulting engagements on a professional basis is a traditional privilege extended to faculty members of the University. Such activities are recognized as desirable and constitute legitimate means by which faculty members may develop and maintain professional associations. When offered such an opportunity, the faculty member may accept after requesting, and receiving, written approval from his or her department chair/school director in the case that the chair/director is in the same discipline as the faculty member. In the case the chair/director is not in the same discipline, the chair/director shall designate someone from the relevant program area. Consulting engagements may not interfere with or detract from the staff member's fulfillment of his or her responsibilities to the University and s/he may retain personally any associated fee or honorarium. [See also 3-3-401(1) Consulting.]

2-3-409(3) Citizenship Responsibilities.

The education and experience of faculty and administrative personnel of the University provide impressive qualifications for membership and participation in voluntary organizations, committees, governing boards, and community councils. Faculty members and administrators are encouraged to exercise their civic rights and responsibilities in community activities compatible with their interests, capabilities, and obligations to the University. The faculty member must, however, remember and make clear to the public that when engaged in the above activities, s/he speaks and acts as a private citizen and not as a representative of the University.

2-3-410 Conflict of Interest.

A University employee shall disclose to his or her immediate supervisor all facts and circumstances related to any University transactions, activities, contracts or other dealings which might directly or indirectly involve him/her in a duality or conflict of interest. Such disclosure shall be made in writing as soon as is reasonable after the conflict or potential conflict comes to the knowledge of the employee. A duality or conflict of interest shall be deemed to exist at any time when an interest held by the employee, or relationship maintained, prohibits or inhibits, or potentially prohibits or inhibits, the employee from exercising independent judgment in the best interests of the University. A duality or conflict of interest shall exist whenever an employee is a director, president, general manager, or similar executive officer of, or owns or controls directly or indirectly a substantial interest in, any non-governmental entity participating in transaction with the University. [See also 3-3-402(1) Conflict of Interest Pertaining to Sponsored Programs.]

The immediate supervisor to whom a report of a duality or conflict of interest or potential duality or conflict of interest is given shall directly report the matter to the jurisdictional vice president who shall have the authority to administer the interest of the University in the situation subject to the superintendence and pre-emption of the President and the BOT.

2-3-411 Intellectual Property Rights of Faculty.(Approved BOT 6-1-04)

2-3-411(1) Works Subject to Copyright.

This policy applies to works which can be protected by copyright; have been created by a faculty member in the course and scope of employment by the University and which have been developed to impart knowledge to others in a systematic way; would in the absence of this policy be considered to
be works for hire under the law, and which are not subject to a written agreement between the
University and the faculty member commissioning the work which is executed prior to the creation of
the work.

(a) Works for Hire. In order to support creative and scholarly activity of University faculty, and
in recognition of the traditional view of faculty's interests in intellectual property created as a
consequence of employment by the University, the ownership of intellectual property in any
form, regardless of medium, including class materials shall be apportioned as follows
between the University and the faculty member(s):

(I) The University hereby assigns the copyright to such work to the author. The
University shall retain
a non-exclusive, non-assignable license to use the work for
educational and/or research purposes with appropriate attribution to the author. The University reserves the right to use the work in teaching, scholarship and
research, to control the use of the University's name and logo in conjunction with
the work, to require acknowledgement of the University's institutional support in the
creation of the work, to borrow portions of the work for use in compilations or
composite works, to use the work to directly advance the mission of the institution,
to require advance notice of dispositions of the copyrighted work by the author, and
to make derivative works, subject to the time limitations of applicable copyright law.

(II) The faculty member shall be the owner of the work, subject to the University's license set forth above.

(III) In the case of joint works which are the product of more than one faculty author in
the employ of the University, the University's assignment of its rights hereunder
controls only the relationship between the University and the individual faculty
member, and does not transfer the rights of one individual faculty member to
another.

(b) Works Not for Hire. Works completed independently by a faculty member, without reduction in
faculty assignment or with a reduction in faculty assignment which are accompanied by
proportional reduction in salary, without diminution of faculty responsibilities, and without use
of substantial University assistance or resources, which are not created in the course and
scope of a faculty member's employment by the University, such as, but not limited to, the
preparation of a textbook under contract with a publisher, remain the sole property of the
faculty member creator.

(c) Commissioned Works. The University may enter into a written contract with a faculty
member for the creation of a work using University and/or grant resources in which the
University or the external source retains ownership of the copyright of the work. Such an
agreement shall:

(I) be entered into prior to the creation of the work,

(II) explicitly describe the work as a deliverable product under the contract,

(III) specify the source of funding, which shall be distinct from the author's regular
compensation, and
(IV) be entered into at the option of the author and not as a condition of ongoing employment.

(d) Enforcement of Copyright. The University has no duty to the author to enforce either the University's or the author's copyright in any work for hire.

2-3-411(2) Works not Subject to Copyright.

Works created by faculty which are not subject to, and cannot be protected by, copyright are recognized by the University as valuable products of scholarship and creative activities undertaken by faculty as part of their professional activities with the University. The University encourages and rewards its discoverers and innovators who benefit society and who create significant economic resources for themselves, their research programs and the University.

2-3-411(3) Patent.

(a) The purpose of this policy is to provide a procedure for the placing in the public realm the fruits of research, while safeguarding the interest of the University, faculty, students and sponsors.

(b) Any patent rights to a device, product, organism, process invention of any sort, or any other patentable item created by a faculty member or student (herein after "inventor") in the course and scope of employment with the University shall belong to the University unless the inventor provides to the Chief Academic Officer (CAO) promptly after the invention is reduced to practice, notice of the invention describing the circumstances under which the invention was conceived and reduced to practice and 1) any project or program sponsor, 2) any agreements, whether formal or informal, with the sponsor and 3) the extent to which University equipment or physical facilities were used in the work that resulted in the invention.

(c) Upon such notice, the CAO shall execute a confidentiality agreement with the inventor. The CAO may seek opinions from faculty or other experts, also in confidence, as to the value or patentability of the invention. Within 120 calendar days of the date of the notice to the CAO, he or she shall notify the inventor if the University claims an interest in the invention and what steps, if any, it may take in the further exploitation of the invention. If the University claims no interest in the invention, the inventor shall be free to exploit the invention without University involvement, except for "shop rights."

(d) If the University waives its claim to any invention, it shall retain "shop rights" as defined by Federal law to use the invention, without payment of royalties or other costs.

(e) If the University develops the invention, which may include, but is not limited to, securing the patent and the commercialization or licensing the invention, the inventor and the University shall share equally all profits or royalties, after the University has recovered all of its development costs. These costs shall be construed as only costs accrued after the University claims an interest in the invention.

(f) If the invention is wholly or partially the result of government funded research through the University, the rights to the invention shall be governed by the provisions of the grant or
appropriate governmental regulations or laws.

(g) If the invention is the result of funding from industrial, philanthropic or other organizations or individuals, under contract or written agreement with the inventor and the University, rights to the invention shall be governed by the terms of such contract or agreement.

(h) If the invention is the result of activities unrelated to use of the University facilities, supplies or otherwise outside the inventor's scope of employment, the University shall claim no interest in the invention.

2-3-411(4) Modification by contract.

The provisions of this intellectual property policy may be modified by agreement of a faculty member and the University by means of a written agreement signed by the parties which explicitly provides that the terms of such agreement modify the provisions of this policy, specified in what manner it is modified, and recites the consideration supporting such modification.

2-3-412 Political Activity.

The political rights and privileges of the faculty in the University are the same as those of other citizens. Political activities of faculty are recognized as legitimate and acceptable. The faculty member's primary responsibility is to his or her profession and the University. In seeking a reduction in workload or a leave of absence for political purposes, s/he shall give proper consideration to the problems which may be created for the students, faculty, and administration. A faculty member may not use public funds, services and facilities to further his or her individual political purposes. A faculty member shall avoid identifying the University with political issues or parties.

Whenever extensive campaigning or long or frequent absence from the campus is entailed, full and early understanding of these circumstances between the individual and the administration is imperative. The faculty member seeking or considering a full-time political office must so notify the President prior to the time of the public announcement of his or her intention to run for office.

Some kinds of political activity (such as holding local office) may not affect the faculty member's service to the University. However, if a reduction of his or her workload is deemed necessary, there shall be a corresponding reduction in compensation and benefits.

A faculty member may be granted a leave of absence without pay during campaigning for a political office and/or during actual service in an elective or appointive office. Such leave shall be governed by the provisions in 2-3-1004(1), Leave of Absence.

Part 5 Curriculum.

2-3-501 Course Outline.

For the mutual benefit and protection of students and faculty, every faculty member is obligated to share in writing with students before the add deadline:

(1) the course objectives/outcomes.
(2) the general strategy, topics, subject matter, materials and tasks to be employed to meet those objectives/outcomes.

(3) evaluation criteria and weight to be applied to each assignment/activity in determining the final grade.

(4) a list of tentative deadlines for accomplishment of assignments.

Part 6 Academic Freedom and Professional Ethics.

2-3-601 Academic Freedom.

Academic freedom is the right to pursue and share ideas, information and knowledge without institutional or governmental interference. Faculty members are entitled to academic freedom in their teaching, their scholarly and artistic activities, and in the dissemination of the results of those activities. Implicit in the right to academic freedom is faculty adherence to professional ethics.

2-3-602 Professional Ethics.

Faculty members recognize the special responsibilities placed upon them. Their primary responsibility to their discipline is to seek and to state the truth as they see it. To this end they spend energy on developing and improving their scholarly competence. They accept the obligation of exercising critical self-discipline and judgment in using, extending and transmitting knowledge. They practice intellectual honesty.

As teachers, faculty members encourage the free pursuit of learning in their students and hold before them the best scholarly standards of their discipline. They demonstrate respect for students as individuals and serve as their intellectual guides and counselors. They make every reasonable effort to foster honest academic conduct and to assure that evaluations reflect the true merit of student work. They respect the confidential nature of the teacher-student relationship and avoid any exploitation of students for private advantage and acknowledge significant assistance from them. Faculty members protect the students’ academic freedom.

As a colleague, the faculty member has obligations that derive from common membership in the community of scholars: to respect and defend the free inquiry of associates; to show due respect for the opinions of others in the exchange of criticism and ideas; to acknowledge academic debts and to strive to be objective in the professional judgment of colleagues; to accept a share in the faculty responsibilities for the governance of the institution. As members of an academic institution, faculty members seek above all to be effective teachers and scholars. Although they observe the stated regulations of the institution, provided these do not contravene academic freedom, they maintain the right to criticize and seek revision. When considering the interruption or termination of their service, faculty members recognize the effect of this decision upon the program of the institution and give due notice of their intentions.

As members of society, faculty members have the rights and obligations of any citizen. They measure the urgency of these obligations in the light of their responsibilities to their discipline, to students, to the profession, and to the institution. When speaking or acting as private persons, faculty members avoid creating the impression of speaking or acting for the University. As citizens engaged in a profession that depends upon freedom for its health and integrity, faculty members have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.
Part 7 Faculty Salaries.

[See also 1-1-306 Faculty Salaries and University Regulations 3-3-701, et seq., Faculty Salaries]

Part 8 Faculty Evaluation. [See Also Title 3, Article 3, Part 3, 3-3-303(5) Performance Evaluation.)

Comprehensive Review provides a regular, systematic evaluation of performance to encourage professional development and renewal; to encourage individual excellence and achievement; to encourage activities that contribute to the mission and goals of the University, and one’s college, department, school, or free standing program; and to help those who are not achieving at satisfactory levels to do so. The evaluation process should encourage excellence in both traditional and innovative approaches to instruction, research, scholarship, and creative works.

The substantive evaluation of a faculty member’s performance is necessarily restricted to those with the disciplinary or, as appropriate, multi-disciplinary or interdisciplinary expertise needed to make the required judgments. The authority of the program area faculty and the chair/director/coordinator in this area carries with it significant responsibilities. These include the responsibility to make fair and honest judgments based on agreed upon criteria and to provide feedback regarding progress towards tenure and/or promotion when appropriate.

Graduate Faculty Status Review. Faculty will be reviewed on a cycle established by the graduate dean and is separate from Comprehensive Review.

2-3-801 Comprehensive Review

Comprehensive review is a single process which is used for a variety of purposes. A faculty member must receive a comprehensive review in any year upon request. In addition, the results of comprehensive review are the sole basis for decisions concerning pre-tenure review, tenure, promotion, and post-tenure review. Every comprehensive review of a tenured faculty member, for whatever purpose, is at the same time a post-tenure review.

The requirement that review decisions (such as tenure and promotion) be based only on the results of comprehensive review in the areas of faculty endeavor (teaching, professional activity and service) precludes the use of collegiality as a separate dimension in making such decisions. The term collegiality has, historically, meant different things to different people. Sometimes, it indicates a legitimate concern for cooperativeness and team work. Sometimes, however, it has been used to foster an unhealthy uniformity of opinion that is a threat to academic freedom. The University of Northern Colorado adheres to the position of the American Association of University Professors: http://www.aaup.org “On Collegiality As A Criterion for Faculty Evaluation” (November 1999). Collegiality should not be used as a separate category in reaching evaluative decisions. Where legitimate, it should be incorporated into the criteria for instruction, professional activity, and service.

2-3-801(1) Definitions.
(a) Comprehensive Review Period: The relevant years for the purposes of pre-tenure, tenure, promotion, and post- tenure review, or if not for any of these purposes, from the previous comprehensive review. [See also 2-3-901(1) Time Guidelines.] See 2-3-801(2).

(b) Dossier: Portfolio of information relative to performance during the comprehensive evaluation period, which shall include a narrative of accomplishments during the review period, an updated vita in approved university format; appropriate documentation; all student evaluations, from each year, covering all teaching assignments, all of the pre-tenure review and annual/biennial evaluations submitted by program area faculty, the chair/director/program area coordinator, and the dean for the period under review and other materials as the evaluatee deems appropriate.

(c) Professional activity: Activities pertaining to research, scholarship and creative works.

(d) School: An administrative subdivision of a college which may consist of one or more program areas. A school may be multidisciplinary, in which case it comprises more than one program area, or single disciplinary, in which case it comprises a single program area.

(e) Program Area: For the purposes of this policy, “program area” shall mean a discipline-based unit which may be multidisciplinary, interdisciplinary, or unidisciplinary and may consist of several emphasis areas or graduate and undergraduate degrees.

(f) Department: A department is an administrative subdivision of a college, which shall be considered to consist of one program area.

(g) Free standing program: An administrative unit of a college that is neither a department nor housed within a school. The coordinator of such a program will fulfill the duties assigned to department chairs/school directors in the evaluation process.

(h) Program Area Faculty: For the purposes of this policy, “Program Area Faculty” shall mean the faculty of a program area within a school. In the case of a single discipline school, the faculty of the school is the program area faculty. In the case of a multidisciplinary school, the faculty of each program area within the school is the program area faculty. The faculty of a department are also a program area faculty.

(i) Program Coordinators: For the purposes of this policy, program coordinators refer to the coordinator of a free standing program where there is no chair or director.

(j) Department Faculty: All of the faculty in a department will be considered to be members of a single discipline based unit or program area.

(k) Multidisciplinary or interdisciplinary activities: Teaching or professional activities that draw from or are at the intersection of more than one discipline.

(l) Evaluation level: There are five levels of evaluation: Excellent (= V), Exceeds Expectations (= IV), Meets Expectations (= III), Needs Improvement (= II), and
Unsatisfactory (= I). The evaluation level is determined by the following evaluation scale in (m) below:

(m) Evaluation Scale (Round to the nearest 10\textsuperscript{th})

V. 4.6 - 5.0    Excellent
IV. 3.6 - 4.5    Meets Expectations
III. 2.6 - 3.5     Needs Improvement
II. 1.6 - 2.5     Needs Improvement
I. 1 - 1.5     Unsatisfactory

(n) Overall Evaluation: The average, weighted in accordance with workload, of evaluation levels in all performance areas. This is used for post-tenure review and annual/biennial review, although not for promotion or tenure review. For example, a faculty with a workload of 0.6 instruction, 0.2 professional activity, and 0.2 service, who received a score of 4 for instruction, 3 for professional activity and a score of 1 for service would have an overall score of 3.2
(0.6x4)+(0.2x3)+(0.2x1) = 3.2 which falls in the range of III Meets Expectations.

(o) Performance Areas: There are three performance areas: teaching, professional activity, and service.

2-3-801(2) Types of Comprehensive Review.

Comprehensive Review is used for faculty who are under consideration for promotion, pre-tenure review, tenure, or post-tenure review. A tenured faculty member will undergo a comprehensive post-tenure review at least once in every six academic years. A faculty member must receive a comprehensive evaluation in any year upon his or her request. [See also 1-1-307 et seq., Faculty Evaluation and University Regulations 3-3-801 et seq., Implementation of Faculty Evaluation Procedures.] The following considerations apply to comprehensive reviews for specific purposes:

(a) Promotion Review. Promotion review, when requested by the evaluatee, shall include:

(I) degree of progress toward promotion.

(II) action recommended (to promote or not).

(b) Pre-tenure Review. Tenure-track faculty members will undergo a pre-tenure review in their third year of a tenure-track appointment (see University Regulations 3-3-801 et seq. implementation of faculty evaluation procedures for details, including exceptions to the third year rule). Pre-tenure review shall note degree of progress toward tenure/promotion and what further achievements are expected for tenure/promotion and will include scores and reasons based on the program area’s approved criteria.

(c) Tenure Review. Tenure review will address one or more of the following:

(I) degree of progress toward tenure.

(II) deficiencies in meeting the evaluation criteria.
(III) the outcome of the evaluation, which determines whether tenure is recommended.

(d) Post-Tenure Review. Post-tenure review shall address one or more of the following:
   (I) Progress toward promotion, if appropriate.
   (II) Deficiencies requiring improvement and a remediation plan, if needed.
   (III) The outcome of the evaluation, which determines whether satisfactory or unsatisfactory.

2-3-801(3) Comprehensive Review Procedures

(a) Preliminaries.

The Program Area faculty develops criteria within the framework of the University's mission that reflect the nature of teaching, professional activity, and service as valued within the discipline for each evaluation level. Each unit should develop criteria for the following purposes: pre-tenure review, tenure, post-tenure review, and promotion. The criteria developed for each may differ from each other. However, since a positive tenure decision must be accompanied by a positive decision on promotion to associate professor, the criteria for these two purposes must be the same. The criteria must be approved by the program faculty, the chair/director/program coordinator, the dean of the relevant college, and the Chief Academic Officer. No criteria will be adopted unless acceptable to the program area faculty, the chair/director/program coordinator, the dean, and the Chief Academic Officer. As part of Program Review, each program area will review and submit for approval their evaluation criteria according to the process described above. Program areas with approved criteria in place prior to spring 2016 need not resubmit those criteria for approval until the next Program Review.

(b) Process.

At each step of the review, the evaluatee will be informed in writing which will be transmitted via campus mail and university email, of the decision made. The evaluatee will be given the opportunity to respond to that review, with the option of providing additions and/or clarifications to their dossier. This additional information allows for the reconsideration of the decision made and provides additional information to the next step in the process. At each level of review, and prior to the next, the evaluatee and prior reviewers have one opportunity to respond.

   (I) The evaluatee prepares a dossier covering accomplishments over the evaluation period.

   (II) The tenured and tenure track faculty members in the program area, excluding the evaluatee and the chair/director/coordinator, review(s) the dossier and whatever other relevant material can reasonably be gathered and assign(s) a score in each of the performance areas relevant to the workload of the evaluatee. Contract-renewable faculty may participate in the discussion and share relevant information, but may only participate in the assignment of scores regarding contract-renewable faculty members. If the unit has fewer than 3 tenure/tenure-track faculty members, aside from the evaluatee and chair, then the evaluating faculty must include extra members as required to bring the number to 3. To accomplish this, a list of names of faculty members from the University of Northern Colorado who have related expertise must be submitted by the evaluatee, to consist of twice the number of people required. The
faculty, including the chair, will select from that list to bring the total number to 3. For interdisciplinary programs (e.g., ENST, LOM) which have faculty advisory boards, the advisory board must choose from among its members, at least 3 faculty members to serve as the program area faculty for evaluation purposes.

(III) The scores of the program area faculty may be determined either by using mean, median, mode scores or by a vote of the participating individual faculty members. In either case, the process must result in a single score for each of the performance areas. In addition, the program area faculty explains, in writing, its reasons, in terms of the approved program area criteria, for its scores. Each program area will decide the mechanisms whereby the rationale is determined and the scores are tabulated.

(i) Tenure Applications

If the program area faculty’s evaluation results in a positive recommendation for tenure [see 2-3-902(5)] its evaluation (scores and reasons) will be forwarded to the department chair/school director/program coordinator and will be shared with the evaluatee.

If the program area faculty’s evaluation does not result in a positive recommendation for tenure, the evaluatee and the chair/director/program area coordinator will be notified in writing and tenure will be denied unless the evaluatee appeals to the Tenure Appeal Committee (2-3-902(7)). The sole basis for such appeals is that the program area faculty’s evaluation was not consistent with the program area’s approved criteria and procedures which resulted in a negative recommendation for tenure. Once the tenure appeal process is complete, the Tenure Appeal Committee will forward its findings, in writing, and the documentation it has received, to the chair/director/program area coordinator and shared with the evaluatee. If the Tenure Appeals Committee finds that the program area faculty’s evaluation was not consistent with the program area’s approved criteria the evaluation process will proceed to step IV below. If the committee finds that the program area faculty’s evaluation was consistent with the program area’s approved criteria and procedures, tenure will be denied.

(ii) Pre-Tenure, Promotion, and Post-Tenure Review, and other comprehensive reviews.

The program area faculty’s evaluation (scores and reasons addressing criteria) will be forwarded to the department chair/ school director/program coordinator in writing, and will be shared with the evaluatee.

(IV) The department chair/school director/program coordinator will assign a score in each of the performance areas relevant to the workload of the evaluatee. The chair/director/ coordinator’s evaluation (scores plus reasons addressing criteria) will be shared with the program area faculty and with and the evaluatee. The faculty will have the opportunity to respond to the chair/school director/program coordinator. Both the program area faculty’s evaluation (scores plus reasons) and the chair/directors/program coordinator’s evaluation (scores plus reasons) will be forwarded, in writing, to the college dean.

(V) The dean reviews the evaluations of the program area faculty and the chair/director/coordinator to verify that the scores assigned, and the reasons given, are
consistent with the approved program area criteria and procedures. The dean may include confidential personnel information about the evaluatee if it has bearing on the evaluatee's teaching, professional activity or service. Unless the university's general counsel or the director of human resources deems that the information is to remain confidential, this information must be shared with the faculty and chair/director/program coordinator and included in the evaluation process.

If the dean finds that the evaluation is not consistent with approved program area criteria or process, he or she communicates that finding, in writing, with reasons, to the program area faculty, the chair/director/coordinator and the evaluatee. In case of such disagreement, the dean will indicate what scores he/she believes were warranted by the program area's criteria. The faculty and chair/director/coordinator will have the opportunity to respond to the dean. The dean forwards his or her findings, along with those of the faculty and chair/director/coordinator, together with all responses to the Chief Academic Officer. In addition, the dean will include the Tenure Appeals Committee findings only if the Tenure Appeals Committee has decided that the program area faculty's evaluation was not in accord with the program area's evaluation criteria or process.

(VI) The Chief Academic Officer reviews the evaluations of the program area faculty, the chair/director/coordinator, along with the dean's findings on the consistency of the evaluations with the approved program area criteria and process, and in the cases considered by the Tenure Appeals Committee, its findings. The CAO may include confidential personnel information about the evaluatee if it has bearing on the evaluatee's teaching, professional activity or service. Unless the university's general counsel or the director of human resources deems that the information is to remain confidential, this information must be shared with the faculty and chair/director/program coordinator and included in the evaluation process.

The Chief Academic Officer determines whether or not the evaluations are consistent with the approved criteria and procedures. If the Chief Academic Officer disagrees with the scores assigned by the faculty and/or chair/director/coordinator, he or she must determine what scores were warranted by the program area's criteria. In the case of applications for tenure, promotion, or post-tenure review, the Chief Academic Officer, consistent with the program area's criteria, makes the final decision as to what action will be recommended to the President and Board of Trustees.

(c) Responsibilities of Participants in the Comprehensive Evaluation Process.

(I) Evaluatee. Each evaluatee will prepare a dossier covering performance and accomplishments over the comprehensive evaluation period. If years of credit for teaching, professional activity, and/or service at a prior institution have been agreed upon at the time of hire, the activities that occurred during those years will be included in the first comprehensive review dossier. It is the responsibility of the evaluatee to gather and submit evidence to be used as the basis of evaluation. Since the evaluatee is essentially “making a case”, it is also the right of the evaluatee to include whatever evidence he or she believes to be relevant to the evaluation of his or her performance.

(II) Faculty, Chair/School Director/Program Coordinator. The substantive evaluation of faculty performance in the areas of teaching, professional activity and service, consistent with the program area criteria, and evaluation procedures, is the responsibility of the faculty and the chair/school director/program coordinator in the program area.
(II) Dean. The responsibility of the dean is to assure that the scores assigned and the reasons given by program area faculty and the chair/school director/program coordinator are consistent with approved program area criteria and procedures.

(III) Chief Academic Officer. The responsibility of the Chief Academic Officer is to assure that the evaluation levels assigned and the reasons given by program area faculty and the chair/director and dean are consistent with approved program area criteria and procedures. In particular it is the responsibility of the Chief Academic Officer to resolve disagreement between the program area faculty and chair and the dean on this matter in cases involving application for tenure, promotion or post-tenure review.

2-3-801 (4) Annual/Biennial Review.

Annual/Biennial review provides a mechanism for regular feedback to all faculty members holding academic rank as to their performance and determining merit pay. Satisfactory annual/biennial reviews do not guarantee or determine a successful comprehensive review. A faculty member may request annual/biennial review in any year.

(a) Definitions

(I) Dossier: Portfolio of information relative to performance which shall include a narrative of accomplishments during the review period; an updated vita in approved university format; appropriate documentation; all student evaluations covering all teaching assignments, and other materials as the evaluatee deems appropriate.

(II) Professional activity. Activities pertaining to research, scholarship and creative works.

(III) School: An administrative subdivision of a college which may consist of one or more program areas. A school may be multidisciplinary, in which case it comprises more than one program area, or single disciplinary, in which case it comprises a single program area.

(IV) Program Area: For the purposes of this policy, “program area” shall mean a discipline-based unit which may be multidisciplinary, interdisciplinary, or unidisciplinary and may consist of several emphasis areas or graduate and undergraduate degrees.

(V) Department: A department is an administrative subdivision of a college, which shall be considered to consist of one program area.

(VI) Free standing program: An administrative unit of a college that is neither a department nor housed within a school. The coordinator of such a program will fulfill the duties assigned to department chairs/school directors in the evaluation process.

(VII) Program Area Faculty: For the purposes of this policy, “Program Area Faculty” shall mean the faculty of a program area within a school. In the case of a single discipline school, the faculty of the school is the program area faculty. In the case of a multidisciplinary school, the faculty of each program area within the school is the program area faculty. The faculty of a department are also a program area faculty.

(VIII) Program Coordinators: For the purposes of this policy, program coordinators refer to the coordinator of a free standing program where there is no chair or director.
(IX) Department Faculty: All of the faculty in a department will be considered to be members of a single discipline based unit or program area.

(X) Multidisciplinary or interdisciplinary activities: Teaching or professional activities that draw from or are at the intersection of more than one discipline.

(XI) Evaluation level: There are five levels of evaluation: Excellent (= V), Exceeds Expectations (= IV), Meets Expectations (= III), Needs Improvement (= II), and Unsatisfactory (= I). The evaluation level is determined by the following evaluation scale in (I) below:

(XII) Evaluation Scale (Round to the nearest 10th)

(XIII) Overall Evaluation: The average, weighted in accordance with workload, of evaluation levels in all performance areas. For example, a faculty with a workload of 0.6 instruction, 0.2 professional activity, and 0.2 service, who received a score of 4 for instruction, 3 for professional activity and a score of 1 for service would have an overall score of 3.2 (0.6x4) + (0.2x3) + (0.2x1) = 3.2 which falls in the range of III Meets Expectations.

(XIV) Performance Areas: There are three performance areas: teaching, professional activity, and service.

(b) Preliminaries.

(I) The program area develops criteria for annual/biennial review that reflect the nature of teaching, professional activity, and service as valued within the discipline for each evaluation level. Criteria for comprehensive review may be different from criteria for annual/biennial review.

(II) Each program area will develop its own procedures for annual/biennial evaluation subject to the approval of the department chair/school director/program coordinator. Schools/departments/program areas may choose whether or not to stagger biennial evaluations. Each department's/program area's procedures must include a mechanism to resolve any differences between department/program area faculty evaluations and that of the department chair/school director/program coordinator. [See also (III) below].

(A) If the program area and department chair/school director/program coordinator cannot reach agreement on evaluation procedures, the same procedures used in comprehensive evaluation will apply.

(c) Process.
(I) The program area faculty will conduct their evaluation in accordance with their approved annual/biennial evaluation criteria and procedures and forward evaluation (scores and reasons), in writing, to the department chair/school director/program coordinator.

(II) The department chair/school director/program coordinator will conduct his/her own independent evaluation, based upon the approved program area criteria, of the faculty member’s performance.

(III) In the case of contract-renewable faculty in promotable ranks, the evaluatee may request that the program area faculty, the department chair/ school director/program coordinator, and the dean comment on the evaluatee’s progress toward promotion.

(IV) Both of these evaluations will be forwarded to the dean. The dean will not assign scores except in the case of an evaluatee who appeals his or her evaluation scores from the program area faculty or department chair/school director/program coordinator.

(V) If, on appeal from the evaluatee, the dean conducts an independent evaluation, and if the dean’s evaluation disagrees with that of the department/program area faculty and/or chair/school director/coordinator, after unsuccessful attempts have been made to resolve those disagreements, then the dean and the department/program area and chair/school director will forward their individual evaluations and rationale to the CAO, who will make the final decision.

2-3-801(5) Confidentiality and Professional Ethics.

It is intended that all information reviewed, evaluation data collected, committee deliberations, decisions, and other work products generated during the course of evaluations conducted in accordance with this procedure shall be maintained as confidential, except as otherwise authorized under the terms and provisions of this procedure, or when used to administer the affairs of the University, or to comply with the law.

**Part 9 Promotion and Tenure Guidelines**

2-3-901 Promotion.

*(For Promotion Stipend see 3-3-701)*

Promotion provides a mechanism for the recognition of contributions of faculty members to the mission of the institution and its reputation as well as professional contributions to the advancement of the state of the art and to society at large. While judgment of potential contributions must necessarily be based on past performance, it is expected that persons achieving a given rank will continue to take initiatives which are valued by the institution.

Although the administration of promotion policies at the University must be equitable, it must not be perceived as implying identical standards for types of contributions by each individual faculty member. The promotion policy must facilitate the recognition of diverse potentials which harmonize individual competence and initiative with institutional needs and values. The promotion policy attends to both qualitative and quantitative contributions.
Promotion decisions are based only on the outcomes of comprehensive review as described in 2-3-801.

Academic or professional qualifications shall satisfy the minimum qualifications for each rank as established in 2-3-302 Rank Requirements and 2-3-901(1) Academic and Professional Qualifications.

Relevant promotion criteria will be discussed by the department chair/school director/program coordinator with each faculty member in his or her school/department/program periodically to insure that each member is cognizant of program area performance expectations and his or her fulfillment of them. A school director will engage in this process according to the following principle:

1. In case the school director is in the same discipline as the program area, he or she will discuss these matters with each faculty member.

2. In case the school director is not in the discipline of a program area, he or she, along with someone from that program area, will discuss relevant promotion criteria with each faculty member.

2-3-901(1) Time Guidelines.

(a) Instructors are eligible for consideration for promotion to the rank of assistant professor after completion of four years of successful academic performance, as long as they have met the minimum requirements necessary for appointment to the rank of assistant professor [See 2-3-302 Rank Requirements].

(b) Assistant professors are eligible for considerations for promotion to the rank of associate professor after completion of four years of successful academic performance in rank, as long as they have met the minimum requirements necessary for appointment to the rank of associate professor [See 2-3-302 Rank Requirements].

(c) Associate professors are eligible for consideration for promotion to the rank of professor after completion of four years of successful academic performance in rank, as long as they have met the minimum requirements necessary for appointment to the rank of professor [See 2-3-302 Rank Requirements].

(d) Lecturers are eligible for consideration for promotion to the rank of senior lecturer after completion of six years of successful academic performance in rank, (or an analogous rank elsewhere, if negotiated), as long as they have met the minimum requirements necessary for appointment to the rank of senior lecturer.

2-3-901(2) Promotion Criteria.

The approved program area evaluation criteria (see 2-3-801) for the relevant promotion will be the sole basis for promotion decisions.

2-3-901(3) Promotion Decisions.
The decision to promote or not to promote is determined by the outcomes of evaluation in the comprehensive review (see 2-3-801). In what follows the requirements are individually necessary and jointly sufficient. That is, the evaluatee must satisfy all of the requirements listed in order to get a positive promotion decision and must get a positive promotion decision if he/she satisfies all of the requirements listed.

(a) Promotion of tenure track/tenured faculty

(I) Promotion to Associate Professor: Exceeds expectations or higher (level IV or level V) in either teaching or professional activity and meets expectations or higher (level III, level IV or level V) in the other two areas.

(II) Promotion to Professor: Exceeds expectations or higher (level IV or level V) in both teaching and professional activity and at least meets expectations (level III) in service.

(b) Promotion of contract renewable faculty

(I) Promotion of Instructor to Assistant Professor: Exceeds expectations or higher (level IV or level V) in primary area of responsibility and at least meets expectations (level III, level IV or level V) in the other areas of responsibility, if any.

(II) Promotion from Assistant Professor to Associate Professor: Exceeds expectations or higher (level IV or level V) in primary area of responsibility and at least meets expectations in the other areas of responsibility, if any.

(III) Promotion from Associate Professor to Professor: Excellent (level V) in primary area of responsibility and at least meets expectations (level III, level IV, or level V) in the other areas of responsibility, if any.

(IV) Promotion from Lecturer to Senior Lecturer: Exceeds expectations or higher (level IV or level V) in primary area of responsibility and at least meets expectations (level III, level IV or level V) in the other areas of responsibility, if any.

2-3-901(4) Eligibility.

Eligibility for consideration for promotion shall be based upon academic years in which the individual is contracted with the University to a full-time position. Up to three years credit toward both promotion and tenure may be negotiated by newly hired faculty members who have been tenured, or who have held tenure-track appointments at another institution of higher education, or who possess a record of outstanding achievement in the area in which they are being hired. Lecturers may also request up to three years of credit for analogous positions at other institutions toward their promotion to senior lecturer. When such credit is granted, it must be the most recent year or years’ accomplishments that will be counted toward promotion.

Under exceptional circumstances, faculty may become eligible for early consideration for promotion and/or tenure. Time in which the individual is on leave for academic purposes, with or without pay, shall be counted as if the individual had not been on leave. It shall be the responsibility of the individual who is eligible for consideration to initiate the review through a formal request to the appropriate department chair/school director/program coordinator.

2-3-901(5) Consideration.
At the time of the formal request for consideration for promotion it shall be the responsibility of the candidate to document satisfactory fulfillment of the appropriate areas of consideration for promotion as defined within the program area criteria for the relevant promotion.

2-3-901(6) Review.

Professional ethics require that decisions regarding promotion be conveyed to the candidate. It is also important that professionals judging fellow professionals accept the responsibility to review appropriate and applicable supporting material to insure that decisions are fair and based upon the approved criteria. [See also 1-1-307 Faculty Evaluation, 2-3-801, et seq., Faculty Evaluations and 3-3-801, et seq., Implementation of Faculty Evaluation Procedures.]

Promotion and tenure become effective upon BOT approval.

2-3-902 Tenure.

2-3-902(1) Purpose.

The purpose of tenure is to create an environment in which academic freedom is protected.

2-3-902(2) Eligibility.

Eligibility shall be calculated on full academic years in which the individual was contracted to a full-time position. This may include years negotiated as credit toward tenure [See 2-3-801(3) (c) (i)]. Time that the individual has spent on non-paid leave shall not be calculated as applicable toward eligibility for tenure. [See 2-3-1004 Unpaid Leave].

2-3-902(3) (a) Tenure Guidelines.

Unless extended by the provisions of 2-3-902(3) (b), tenure-track faculty become eligible for tenure consideration in their fifth year at UNC but must receive tenure consideration in their sixth year. If tenure is denied in the fifth year, faculty may reapply in their sixth year. If tenure is not granted before the end of the sixth year, the seventh will be the terminal year.

(i) Promotion and tenure become effective upon BOT approval. Tenure shall reside at the university level.

(ii) In unusual circumstances, immediate tenure may be granted to faculty being hired from outside the University as associate and full professors.

(iii) Up to three years credit toward tenure may be negotiated by newly hired faculty who have been tenured, or who have held tenure-track appointments at another institution of higher education, or who possess a record of outstanding achievement in the area in which they are being hired. When such credit is granted it must be the most recent year or years’ accomplishments that will be counted toward promotion/tenure.

(iv) Under exceptional circumstances, faculty may become eligible for early consideration for promotion and/or tenure.
(v) Applications for promotion to the rank of associate professor by tenure-track faculty must always be accompanied by an application for tenure, so that the two decisions may be considered at the same time. In these cases, tenure and promotion to the associate rank must be granted at the same time.

2-3-902(3)(b) Tenure Clock Extension. A tenure-track member of the faculty shall be eligible for an extension of the tenure probationary period for life events that can be expected to markedly delay the ability to meet the requirements for tenure. A maximum of two (2) separate extensions of the tenure probationary period will be granted.

As described below, each extension will be for one (1) year. When an extension to the tenure clock occurs, the total body of the work required for tenure shall be no different from the case in which no stoppage of the tenure clock occurred. Life events that can be expected to markedly delay the ability to meet the requirements for tenure are:

(i) a child is born or adopted into the faculty member’s household; each parent in the household is eligible.

(ii) by reason of a serious health condition (as defined in the Family and Medical Leave Act) persisting for a substantial portion of a semester, the faculty member is required to act as the primary caregiver for a parent, child, spouse, or domestic partner.

(iii) by reason of a serious health condition (as defined in the Family and Medical Leave Act) persisting for a substantial portion of the period for which the extension is sought, the faculty member is unable to perform the functions of her or his position.

(iv) by reason of death of a parent, child, spouse, or domestic partner.

(v) by reason of a catastrophic residential property loss; each faculty employee in the Household is eligible.

Notification of the intent to take an extension under the terms of this policy, as stated above, shall be made in writing and sent to the chair/director. When a request for extension is based on either 2-3-902(3)(b)(ii) or 2-3-902(3)(b)(iii), the request should be submitted to the Director of Human Resources and the chair/director notified that an FMLA request has been submitted. The Director of Human Resources will forward the results of said request to the Chair/Director who will consider the results of the FMLA application in their decision. The chair/director who, noting any reasons to believe that the notification is based on illegitimate grounds, shall forward to the dean who, noting any reasons to believe that the notification is based on illegitimate grounds, shall forward to the Chief Academic Officer (CAO). Unless the Chief Academic Officer (CAO) finds compelling reasons to disallow the extension, the extension shall occur. The chair/director, dean, and Chief Academic Officer (CAO) shall each have ten (10) working days in which to complete his/her role in the process. Notification of the intent to take an extension shall be made within three (3) months of the onset of the life event, or as soon as practicable once the situation has been identified.

2-3-902(4) Tenure Criteria.
The approved program area evaluation criteria (see 2-3-801) for tenure will be the sole basis for tenure decisions.

2-3-902(5) Tenure Decision.

The following requirements are individually necessary and jointly sufficient for a positive tenure decision. That is, the evaluatee must fulfill all of the requirements in order to receive a positive tenure decision and must get a positive tenure decision if he/she does fulfill all of the requirements. The requirements are:

Exceeds expectations or higher (level IV or level V) in either instruction or professional activity and meets expectations or higher (level III, level IV or level V) in the other two areas.

2-3-902(6) Administrators with Tenure.

Tenure is granted in the university by its Board of Trustees. An administrator who is a faculty member having tenure at UNC shall retain his or her tenure while holding an administrative position, and the right to return to his/her academic unit. An administrator who does not have tenure at UNC prior to his/her administrative appointment, and who also receives tenure as a faculty member upon administrative appointment, may only be assigned to an academic unit with the approval of the unit’s faculty.

2-3-902(7) Tenure Appeals Committee.

(a) The tenure appeals committee shall consist of two faculty representatives from each college, excluding University College, and one from the University Libraries. Representatives shall serve a two-year term. Elections shall be held annually so that one member of each college is elected each year. Elections will be conducted by the Faculty Senate and will be held during the spring semester. Terms of office will begin with the next academic year. The Committee shall select its own chair and establish its own bylaws which must be approved by the Faculty Senate.

(b) The function of the tenure appeals committee is to review appeals from a faculty member who believes that the evaluation by his or her program area faculty was not consistent with the program area's approved criteria or evaluation process, which resulted in a negative recommendation for tenure.

(c) Appeals must be filed within ten working days of notification of the program area’s decision. The Committee shall conclude its deliberations within twenty working days after receipt of an appeal. [See also 1-2-101 General Provisions.]

(d) If the committee finds by majority vote that the program area faculty's evaluation is consistent with its approved criteria and evaluation process, tenure is denied. The appellant as well as the department chair/school director/program coordinator will be notified. In all other cases the committee's decision, accompanied by reasons, will be forwarded to the department chair/school director/program coordinator, as well as to the evaluatee, and the evaluation process will resume as described in 2-3-801.

**Part 10 Faculty Leaves. [See Also 1-1-309 Faculty Leaves.]**

2-3-1001 Sabbatical Leave
2-3-1001(1) Purpose:

The sabbatical leave program at the University is designed to provide an opportunity for faculty growth and renewal and must be for the manifest, demonstrable benefit of the University in the promotion of teaching and scholarship. The purpose of sabbatical leave is to enhance professional growth, knowledge in the discipline, students’ educational experience, and the University's reputation.

2-3-1001(2) Sabbatical Leave Eligibility. [See also 3-3-1001(2) Term Faculty Considerations Agreement Addendum.]

Tenured and tenure-track faculty members, including librarians holding faculty appointments, shall be eligible for sabbatical leave consideration during the sixth year of full-time service to the University, i.e., eligibility occurs in the sixth year for leaves to be taken in the seventh, or in a subsequent year. Faculty members hired and continuously employed on term contracts will not be eligible for sabbatical leave consideration. Part-time tenured faculty members as defined in Title 2, Article 3, Part 2 Faculty: Definition and Contracts, and Title 2, Article 3, Part 4, Faculty Responsibilities and Conditions of Employment, 2-3-401, Faculty Workload will receive prorated credit toward their sabbatical leave eligibility in proportion to their FTE assignments, e.g., two semesters at .50 FTE will be counted as one semester of time-in-service. Only tenured faculty members are eligible to take a sabbatical leave. Exempt administrators who have faculty status are not eligible for sabbatical leave nor do they accumulate time-in-service toward sabbatical leave, but may be eligible for administrative leave (see 2-2-307).

Eligibility for sabbatical leave consideration shall be counted from a) the beginning of the first full academic year of the faculty member’s employment, or b) the beginning of the academic year following the completion of a previous sabbatical leave, or c) the date established according to the postponement provisions in 2-3-1001(5), Approval Procedures. Full-time service during an academic year, including paid sick and disability leaves, will count as one year toward time-in-service for sabbatical leave eligibility and a semester of full-time service will count as a half year toward time-in-service for sabbatical leave eligibility. Employment beyond the academic year, unless specified by contract, shall not count as time-in-service. Time spent in leave-without-pay shall not count as time-in-service.

If time spent in leave-without-pay is for the purpose of enhancing teaching, scholarship, or research, a request may be made to the department chair/school director and to the appropriate dean that the leave count as time-in-service for a sabbatical leave. This request must be part of the leave-without-pay application and must have the approval of the department chair/school director and the dean prior to the commencement of the leave.

2-3-1001(3) Appropriate Use of Sabbatical Leaves.

[See also 3-3-1001(1) Sabbatical Proposals].

The activities undertaken during sabbatical leave must be related to the individual’s on-campus responsibilities. The proposal must specify the effect on professional growth, development of knowledge in the discipline, influence on the students’ educational experience, and the enhancement of the University’s reputation. Once the goals and plan are approved, the faculty member is obligated to fulfill them, unless amended [See also 2-3-1001(5) Approval Procedures].

(a) Examples of acceptable sabbatical proposals include, but are not limited to:
(I) The pursuit of research or study at an institution of higher education or similar entity where improvement of oneself as a teacher-scholar is the focus.

(II) The pursuit of research projects or creative endeavors within a faculty member’s specialty to advance knowledge; improve the “state of the art,” or to produce material for publication.

(III) The acquisition of practical experience that will directly enhance the individual’s capacity to meet University responsibilities.

(IV) The pursuit of special studies or projects for the purpose of expanding institutional-related services beyond the faculty member’s obligations.

(b) Examples of unacceptable sabbatical proposals include, but are not limited to:

(I) Study at an institution of higher education, the primary purpose of which is to gain a degree in an area or discipline not related to current University responsibilities.

(II) Travel that is not directly related to University responsibilities. (A significant distinction is made herein between travel to improve oneself as a teacher-scholar and travel in and of itself.)

(III) Any sabbatical request within the faculty member’s current obligations to the University. (Examples include rewriting of course materials, course development, and the like.)

(IV) Activities or research not related to current University responsibilities.

2-3-1001(4) Restrictions.

(a) A sabbatical leave may not be terminal leave and may not be taken in the last year of service to the University. In accepting a sabbatical leave, the faculty member shall agree to return to the University for at least the full-time equivalent of one academic year immediately thereafter. When the faculty member terminates his or her employment at the University within one academic year immediately after leave, the faculty member shall refund the sabbatical remuneration (including salary and benefits) to the University. In the case of permanent disability or death prohibiting the return to service, neither the individual nor the heirs shall be obligated to refund any part of the paid leave or benefits.

(b) Leaves may be requested only for fall and/or spring semesters. However, summer term may be considered as a semester for University Libraries faculty sabbaticals.

(c) A sabbatical leave may not immediately precede or follow an unpaid leave of absence unless recommended by the dean and approved by the CAO.

(d) The appropriate dean and department chair/school director will insure that student academic programs will not be unduly disrupted by the granting of sabbatical.

(e) Except as provided under 2-3-1001(6) Compensation, sabbatical leave shall not be used as a means of augmenting personal income.

2-3-1001(5) Approval Procedures.
Approval of a leave request will be based upon the merits of the proposal communicated by the specific goals and plan for achievement outlined in the proposal.

(a) Sabbatical Proposal Submission. Individual sabbatical leave proposals shall first be submitted to the department chair/school director, who will then call a meeting of the faculty. (See 3-3-1001(1) Sabbatical Leave Application Procedures.) After due consideration, this group will either recommend approval or disapproval of the proposal based on protocols developed by the department/school faculty in consultation with the chair/director and approved by the dean. This decision shall be based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues.

(b) Proposals recommended by the faculty for approval will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. Proposals not approved by the faculty for reasons of academic merit are disapproved and go no further in the process except for reporting purposes as specified in section (c) below. Proposals not recommended for approval by the faculty for reasons of resources and/or staffing issues will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. The recommendations of the faculty and the department chair/school director will be forwarded to the dean who will make his/her recommendations based solely on resource and/or staffing issues, and on whether the proposal clearly addresses how it meets one or more of the appropriate uses of sabbatical leaves as specified 2-3-1001(3). The recommendations of the faculty, the department chair/school director and the dean will be forwarded to the CAO who will make the final decision and report such decision to the President and to the BOT. The applicant will be informed of the recommendations and will be afforded an opportunity to respond at each level of the review process up to the CAO, whose decision is final.

(c) All proposals that are not recommended for approval, with the exception of those withdrawn by the faculty member, will be forwarded to the department chair/school director, dean, and CAO for reporting purposes.

(d) All sabbatical leave proposals approved by the CAO will be presumed to be of equal merit. If for any reason in a given year the University cannot support all of the sabbatical leaves that have been approved, the CAO or his or her designee(s) will prioritize the proposals in the following manner:

(I) Sabbatical leave proposals that are time sensitive will take precedence over proposals that are not time sensitive. A proposal will be deemed time sensitive if it cannot be completed at all if postponed beyond the proposed dates. Information relevant to making this determination must accompany the sabbatical leave proposal (See 3-3-1001(2) for required information.)

(II) Within each group of proposals ordered as in paragraph (I), any proposals that have already been postponed in favor of more time sensitive proposals will take precedence over proposals that have not been so postponed. Notes of any previous postponements must accompany the proposal.

(III) Within each group ordered by the above principles, proposals from faculty members for whom the period of time since last sabbatical leave has been longest take precedence over those for whom the period since the last sabbatical has been shorter. Proposals will contain an indication of the period
of time since the last sabbatical leave or, in the case of a first sabbatical leave, since the time of hire.

When a leave is postponed for the above reasons, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(e) Delay of Leave by Faculty Member. Faculty members who apply for and are granted a sabbatical leave, and who, for any reason, are unable to take the leave at the time specified, may request postponement of the leave for up to one year. Postponement requires the recommendation of the department chair/school director and dean. If in this time the individual has not begun the leave, the leave is null and void and the individual must submit a new application. When a leave is postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(f) Delay of Leave by the Dean. The dean for the affected unit has the right to change the effective dates of the leave. The dean may not postpone the leave for more than one year from the requested beginning date, unless the affected faculty member agrees. When a leave is thus postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(g) Proposal Revisions. Revisions of approved leave plans must be approved by the department chair/school director and dean. The applicant will be informed of the recommendations and, if the revised proposal is not approved, will be afforded an opportunity to provide additional information.

2-3-1001(6) Compensation

(a) Salary. Remuneration for a one-semester leave will be at full salary and for a full academic year (i.e., two semesters) will be 60 percent of the academic year instructional base salary. Faculty members on sabbatical leave may not receive compensation for overload teaching for the university.

(b) Non-salary Compensation. During the period of sabbatical leave, in addition to the salary received from the institution, the faculty member may accept grants, awards, contracts, fellowships, allowances for transportation and/or cost-of-living differentials, or other compensation or stipends related to the approved sabbatical leave project. Any such additional compensation is to be explained in the sabbatical leave proposal, or to be appended to the proposal if awarding occurs after the sabbatical leave proposal has been approved by the CAO. Policies regarding consulting and other outside activities remain applicable when a faculty member is on sabbatical leave. [See 2-3-409 Outside Activities and 3-3-401 Outside Activities.] In all cases, the acceptance of additional income by a person on sabbatical leave is justified only if the activity from which such income is accepted is congruent with the purposes of research, scholarly writing, creative endeavors, or clearly related professional experience and study for which the sabbatical leave is granted.

2-3-1001(7) Sabbatical Leave Workload.

The work outlined in the approved sabbatical leave proposal constitutes the entirety of the faculty member’s workload obligation to the University (1.0 FTE in the case of a full-time faculty member) during the sabbatical leave, whether for one semester or for two semesters.

2-3-1001(8) Faculty Report Obligation.

In accepting a sabbatical leave, the faculty member agrees to provide to the department/school faculty a written report of the activities, the goals attained, and the benefits derived during the
course of the leave. Upon approval of the faculty, the report will be forwarded to the department chair/school director and the dean. The department chair/school director and the dean will review the report to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in 2-3-1001(3). If the department chair/school faculty or dean finds the report unacceptable, the faculty member will be notified in writing and will have the opportunity to respond. Once the report has been accepted, copies will be forwarded to the CAO. Faculty members who do not submit an acceptable report within one academic year of completion of the leave shall not be eligible for subsequent sabbatical leaves.

2-3-1001(9) Institutional Accountability.

(a) All sabbatical leave records and approved and disapproved plans, will be available for inspection, upon request, by the Joint Budget Committee, the Education Committees of the Senate and the House of Representatives, and the Colorado Commission on Higher Education. Withdrawn plans will not be included in the records and will be returned to the faculty members.

(b) Final sabbatical reports are not considered a part of personnel files and become open record for public disclosure pursuant to the Colorado Open Records Statute (C.R.S. 24-72-204).

2-3-1002 Special Leaves.

Provisions are made herein for leaves with pay not covered in the sections on sabbatical leave and administrative leave. Special leave may be granted upon its merits by recommendation through the appropriate administrative channels. Examples of special leaves include: leaves for retraining faculty who are changing instructional specialties at the request of the University, leaves to update or retrain administrators who are transferring from administrative duties to the primary duty of classroom instruction and leaves demanding full-time service to assume leadership in national organizations.

2-3-1003 Paid Leaves.

2-3-1003(1) Holiday Leave.

Holiday leaves are determined in accordance with State regulation. Since the University may be in session during approved holidays, compensatory time is declared at the option of the University, either on days adjacent to University holidays or during vacation periods. [See also 2-2-304 Holiday Leave.]

2-3-1003(2) Short-Term Disability Leave.

Full-time faculty employees of the University shall be granted 90 days sick leave eligibility per academic year at full pay. The days of sick leave are to be calculated according to State personnel regulations. Loss to the University of professional services due to sick leave within the 90-day period will be covered by professional colleagues whenever possible. A long-term disability program is available through insurance providers (contact Human Services). Upon termination or retirement, payment for unused sick leave eligibility shall not be granted. [See also 2-2-30 Short-Term Disability (Sick) Leave.]

2-3-1003(3) Maternity Leave.
Maternity leave as used in this section is defined as that period of time in which a woman is unable to perform the duties of her position directly due to birth of a child, medical complications of pregnancy, or medical complications of childbirth. The University treats complications of pregnancy, childbirth, false pregnancy, terminations of pregnancy, and recovery therefrom and any temporary disability resulting therefrom as any temporary disability for all job related purposes.

The University requires no arbitrary date of commencement nor termination of maternity leave. The leave shall commence when the staff member is physically unable to perform the duties of her assigned position and shall terminate when she is physically able to return to those duties. The University reserves the right to require a qualified professional's statement to support the individual's request for specific beginning and ending dates of maternity leave. In addition, the University reserves the right to request a second qualified professional's opinion. If a second opinion is requested, it shall be made by a qualified professional designated by the University and paid by the University. In case of disagreement, the ultimate decision regarding length of maternity leave shall rest with the administration.

Upon return from maternity leave, the individual's position, title, and salary shall be the same as if the individual had not been on leave, subject to existing University policies, regulations, and procedures. Accrued sick leave and accrued vacation leave benefits (where applicable) shall be used for maternity leave. Requests for maternity leave shall be directed to the individual's supervisor and to the appropriate dean or vice president. The University requests that notice regarding maternity leave be given with ample time to allow planning for replacements and all other arrangements necessary for the continuation of the duties of the individual who will be on leave. Requests for extended leave beyond necessary durations or after exhaustion of accrued sick or vacation leave, not directly relating to physical inability to perform the duties of a position due to birth of a child, medical complications of pregnancy, or medical complications of childbirth may be granted as leave without pay.

2-3-1003(4) Parental Leave Policy.

[See also 2-2-307(4) Parental Leave Policy.]

Any full-time University faculty or exempt employee who becomes the primary caretaker of a child under the age of six, whether through birth or adoption, shall, upon request, be granted leave subject to the following conditions:

(a) In the case of a birth parent, written notification containing a specific request for parental leave shall be given the University employee's immediate supervisor at least 90 calendar days prior to the anticipated birth of the child. Should birth occur more than 90 calendar days in advance of the anticipated birth of the child, parental leave may be requested immediately.

(b) In instances of adoptive custody of a child, written notification shall be given the employee's immediate supervisor when the adoption home study or custody home evaluation has been completed and approved. This notification must contain a specific request for parental leave. In cases of private adoptive custody placement, such notification must be given the employee's immediate supervisor as soon as such placement has been authorized by the affected parties or their legal representatives.
(c) Leave for one person designated as the primary caretaker [for purposes of this document, “primary caretaker” shall refer to the individual(s) identified by the family as most responsible for fulfilling significant nurturing needs of the child]. Only one University employee within a family may be the primary caretaker at a given time which will commence at the time of birth or adoptive custody and continue for 60 continuous days. These days shall be taken first from the employee’s accrued sick leave, and, if necessary, from accrued vacation leave. If adequate accrued sick/vacation days are not available, the remaining days shall be unpaid leave. Should a woman who gave birth be on maternity leave from the University, she shall be considered the primary caretaker, at least during the time of her maternity leave.

(d) Should additional leave be required, the primary caretaker may be granted unpaid leave as provided for in Leaves Without Pay. Written requests for such leave shall be submitted to the employee’s immediate supervisor within 30 calendar days of the time the child enters the home. In considering such leave requests, the age/special needs of the child and the requirement(s) of the adoptive agency (if applicable) shall be taken into consideration by the Administration.

(e) Upon return from parental leave, the individual's position, title, and salary shall be the same as if the individual had not been on leave, subject to existing University policies, regulations, and procedures.

2-3-1003(5) Vacation Leave.

Full-time librarians shall be entitled to vacation leave as provided in 2-2-301, Vacation Leave.

2-3-1004 Unpaid Leave.

2-3-1004(1) Leave of Absence.

A leave without pay may be granted by the University upon request of a faculty or staff member. Leaves without pay will be approved by the department chair, the dean, the CAO, the President, and the BOT. A leave without pay may be granted an individual for the pursuit of a degree program, leaves for the betterment of society including election to a city, State, or national office, etc. Time spent on leave without pay granted prior to tenure shall not, in itself, affect a faculty member's rank, but will not be counted as time toward eligibility for consideration for tenure. With respect to appointment term, promotion period, and salary schedule, the individual's position shall be the same as it would be if the individual had not been on leave. A period of time spent on leave without pay will, however, affect an individual's service credit toward PERA benefits as well as the survivor and disability protection of the employee. A "Certification of Leave of Absence" form must be completed prior to the "Leave of Absence." It is important that appropriate provisions are made with the appropriate University offices for continuation of fringe benefits, if desired, prior to the beginning of the leave without pay. The employee on leave shall be responsible for payment of all amounts necessary to continue such benefits.

Leaves without pay may be granted for periods up to one year and may be renewable for a period of no more than one fiscal additional year.

2-3-1004(2) Military Leave.
The provisions of 2-2-305, Military Training Leave, and 2-2-306, Military Leave, govern the exempt staff.

**Part 11 Disciplinary Action [See Also 1-1-310 Disciplinary Action of Tenured Faculty.]**

2-3-1101 Disciplinary Action of Tenured Faculty

2-3-1101(1) Internal Review.

See 1-1-310(1), Internal Review.

2-3-1101(2) Suspension.

See 1-1-310(2), Suspension, and 2-3-1101(3)(a), Initiation of Proceedings.

2-3-1101(3) Dismissal.

See 1-1-310(3), Dismissal.

2-3-1101(3)(a) Initiation of Proceedings.

Proceedings which may result in a recommendation of dismissal of a faculty member may be initiated by the President, Chief Academic Officer (CAO), academic deans, or directors by communicating said recommendation to the President. The President will send such recommendation to the Faculty Senate Faculty Welfare Committee (Welfare Committee). The President may direct that the affected faculty member be relieved of some or all of his or her duties and responsibilities, without prejudice and without loss of compensation, pending the final disposition of his or her case.

2-3-1101(3)(b) Conduct of Proceedings.

Upon receipt of a recommendation for dismissal, the Welfare Committee shall give written notice within five working days to the faculty member affected and to the chair of the Faculty Senate. The notice shall state the charges (as prepared by the President or the CAO) and shall advise the faculty member that he or she has the right to a hearing before the Welfare Committee upon making written request to said Committee not later than ten working days after receipt of the notice. Any member of the Welfare Committee who is directly involved in the case shall be disqualified.

(I) The Welfare Committee shall within ten working days initiate a hearing of the case referred to it and may call upon anyone for relevant information. The President, CAO, and the administrative unit, in which the affected faculty member is employed, or their representatives or counsel(s), and the affected faculty member and his or her advisor(s)/counsel(s) may:

(A) be present at all meetings of the committee in which evidence or argument
on the case is heard;

(B) present such evidence as each deems appropriate;

(C) call, examine and cross-examine witnesses;

(D) examine all documentary evidence received by the Welfare Committee;

(E) make recommendations to the Welfare Committee prior to the conclusion of the Welfare Committee's investigation whereupon such recommendations shall become a part of the Welfare Committee’s record of the case.

If there are multiple sessions of the hearing, these shall take place within a twenty working day period. A full stenographic record of the hearing shall be taken.

(II) After the completion of the hearing, the Welfare Committee shall file a written report within fifteen (15) working days with the Faculty Senate. The report shall contain the grounds for the Welfare Committee’s conclusions and recommendations. The Faculty Senate may exercise its right of review of its Welfare Committee’s actions.

(III) Within fifteen (15) working days, after receiving the conclusion and recommendations of the Welfare Committee, a written report of the action taken by the Welfare Committee, together with the record of its review proceedings, shall be filed by the Senate with the affected faculty member, the administrative head of the college or school who initiated the proceedings, the CAO, and the President. In filing the report and record with these persons, the Faculty Senate may also include its recommendations on the Welfare Committee’s findings, conclusions and recommendations. The affected faculty member, the CAO, and the administrative heads of the college and school affected may, within ten working days after receiving copies of the Welfare Committee’s report and the record, file written comments with the President.

(IV) The President shall thereafter review the record of the case and shall formulate recommendations and the reasons therefore. The affected faculty member and the Faculty Senate shall be furnished copies of the President’s recommendations and may, within ten working days after receiving same, submit to the President written comments respecting the recommendations. The full record of the case, including the recommendations of the President and any comments by the affected faculty member or the Faculty Senate, shall then be transmitted by the President to the BOT for final action.

(V) Within ten (10) working days after the President transmits a recommendation to the BOT, the affected faculty member may submit a request in writing to the BOT for a hearing. A hearing before the BOT will be in accordance with the procedures established by the BOT which may include, but not be limited to, a subcommittee of the BOT or the appointment of a hearing officer.
The final action taken by the BOT will be communicated to the chair of the Faculty Senate, the school director, the dean, the CAO and the President.

Part 12 Faculty Grievance.

2-3-1201 Faculty Grievance.

This policy sets forth definitions and procedures concerning faculty grievances. All discussions, deliberations, and documents under this policy shall be held in the utmost confidence.

2-3-1201(1) Definitions.

2-3-1201(1)(a) Eligibility.

All faculty members shall have the right to seek redress of grievances within the University community.

2-3-1201(1)(b) Grievable Matters.

Grievable matters are those in which one or more faculty members in a specific instance allege(s) that a university policy or procedure has been violated to the detriment of his or her/their academic freedom, professional status, compensation, and/or the advancement in the profession s/he/they represent or in other ways. In cases of dismissal of tenured faculty, the applicable procedures are those at 1-1-310 and 2-3-1101. In cases of contract non-renewal of all other faculty, the applicable procedures are those outlined in this policy.

2-3-1201(1)(c) Faculty Grievance Committee.

The Faculty Grievance Committee (Grievance Committee) is designated as the hearing authority for all grievances except for those which have their own procedures. A Grievance Committee of twelve (12) full-time faculty members shall be appointed by the Chair of the Faculty Senate and confirmed by the Senate to three-year, staggered terms. The Grievance Committee shall select its own chair and two (2) other committee members who, in addition to the chair, may be asked to chair hearing panels. In the instance of especially heavy case loads, the Chair of the Senate may appoint with Senate confirmation additional members to the Grievance Committee.

2-3-1201(1)(d) Working Days.

"Working Days," as used in this Board Policy Manual, means all days other than (a) those designated as "university holiday," "university closed" or "spring break" on the UNC Calendar maintained on the University website, (b) the days following the last day of classes of the fall semester and prior to the first day of classes of the spring semester, (c) the days following the last of classes of the spring semester and prior to the first day of classes of the fall semester of the following academic year, and (d) Saturdays and Sundays.

2-3-1201(2) Preliminary Procedures.

The aggrieved person(s) (herein after called the grievant(s)) shall discuss the alleged violation with
the appropriate department chair/school, director, academic dean, and the Chief Academic Officer (CAO) in that order. These discussions must take place within thirty (30) working days of the date of the alleged violation. Should these discussions fail to resolve the issue, the CAO shall notify the grievant(s) in writing within fifteen (15) working days that the administrative review processes have been exhausted.

2-3-1201(2)(a) If the grievant(s) then wishes to file a grievance, s/he/they shall submit it in writing to the chair of the Grievance Committee within thirty (30) working days of written notification by the CAO. The grievant(s) shall state:

(I) the exact nature of the grievance,

(II) name(s) of the party(s) (herein after called the respondent(s)) alleged to have committed the violation, and

(III) the relief requested.

2-3-1201(2)(b) Within ten (10) working days of receipt of the written notification, the chair of the Grievance Committee shall do the following:

(I) select five (5) members of the Grievance Committee, including a chair, to form the Hearing Panel (Panel) to hear the grievance.

(II) convey to the President, the chair of the Senate, the panel members, and the respondent(s) copies of the grievance.

(III) provide the grievant(s) and respondent(s) with the proposed time-table and procedure for the hearing.

From this point, the Panel assumes responsibility for conducting the grievance proceedings.

2-3-1201(2)(c) Upon receipt of the written notification from the chair of the Grievance Committee, the grievant(s) and respondent(s) shall have ten (10) working days to submit in duplicate initial arguments, a list of witnesses, exhibits and other evidence to be presented at the hearing, together with the name of his or her/their counsel. This information, together with all exhibits and evidence, shall be delivered to the chair of the Panel who shall promptly make it available to grievant(s), respondent(s), and the Panel.

2-3-1201(2)(d) Once the exchange of evidence is complete, the Panel shall within twenty (20) working days hold a hearing on the case. A full audio recording of the hearing shall be taken.

2-3-1201(3) The Hearing - General.

The expectation is that the hearing shall be reasonable and fair. The participants in the hearing shall be the Panel, the grievant(s) and his or her/their counsel and witnesses, and the respondent(s) and his or her/their counsel and witnesses. The hearing shall be closed to all other parties. Witnesses will be present only during their own testimony unless all parties agree otherwise. The goal of the proceedings shall be to insure that the Panel shall be able to hear all relevant positions, examine all materials submitted in the exchange of evidence, and analyze all dimensions of the case.
2-3-1201(4) Hearing Procedures.

Members of the Panel may ask questions of either party in the case or any witness called. All parties in the case shall be given the opportunity to ask questions of all witnesses called by either side. Steps in the hearing itself will be as follows:

2-3-1201(4)(a) The chair of the Panel shall introduce the case by reviewing the steps below for the hearing, clarifying any procedural points regarding evidence to be introduced, stating that the burden of proof lies with the grievant(s), and any matter which should appropriately be resolved before hearing the case. Matters of concern should be raised at this point if any party to the case has a question or complaint. Questions regarding procedure shall be decided by the Panel prior to the beginning of the hearing.

2-3-1201(4)(b) The grievant(s) shall be given the opportunity to make an opening statement outlining his or her/their case.

2-3-1201(4)(c) The respondent(s) shall then be given the opportunity to make an opening statement outlining his or her/their case.

2-3-1201(4)(d) The grievant(s) shall present his or her/their case.

2-3-1201(4)(e) The respondent(s) shall present his or her/their case.

2-3-1201(4)(f) The grievant(s) shall be given the opportunity to make closing arguments.

2-3-1201(4)(g) The respondent(s) shall be given the opportunity to make closing arguments.

Within ten (10) working days of completion of the hearing, the chair of the Panel shall file a copy of the report with the President, grievant(s), and respondent(s). The Panel’s report shall consist of three (3) parts: findings of fact, recommended course of action, and rationale. If the action already taken is upheld, the report shall contain a specific statement of the rationale or reasons supporting that recommendation. The chair of the Panel shall file a copy of the report and the audio recording of the hearing with the Faculty Senate Office. Within ten (10) working days after receiving this report, the affected persons may submit an appeal in writing to the President. The President shall consider any such appeal before taking final action or making a recommendation for action to the BOT. The President will render a decision within ninety (90) calendar days. Final disposition of the case by the President shall be reported to the Senate in executive session. S/he shall notify the grievant and respondent of the decision prior to reporting to the Senate. A copy of the President’s final report shall be filed in the Faculty Senate Office.

Part 13 Severance.

2-3-1301 Severance.

2-3-1301(1) Non-Reappointment.

A recommendation not to reappoint or not to grant tenure to a non-tenured faculty member shall be
made to the faculty member in writing. A recommendation not to continue the appointment of a faculty member holding tenure with more than three years of service at the University because of program or budget exigencies shall be made in accordance with 2-3-1301(5)(d), Identification and Notice of Faculty Whose Contractual Rights, are to be Reduced or Terminated. The provisions of this section shall not be applicable to a dismissal for other good cause.

2-3-1301(2) Resignation.

An employee may terminate his or her contract:

(a) by giving written notice to the University's signatory on the contract at least sixty (60) calendar days prior to the first day of the contract period, or

(b) at the end of an academic term, provided written notice is given to the University's signatory on the contract at least thirty (30) calendar days prior thereto.

2-3-1301(3) Retirement.

No age limit.

2-3-1301(4) Transitional Appointments.

Full-time tenured faculty members may be granted a transitional appointment, subject to the approval of the President and fulfillment of the conditions in this section 2-3-1301(4). A transitional appointment allows for a phased disengagement from full-time teaching, research, and service in anticipation of retirement. During the time of transitional appointment the faculty member continues to be an active, productive member of the academic unit while at the same time having the time and opportunity to prepare for the time of full retirement. The faculty member on a transitional appointment continues to participate in the teaching, advising, service and research activities of the department/school subject to the part-time provisions of his or her appointment.

(a) Eligibility. Full-time, tenured faculty members are eligible to request a transitional appointment. Academic administrators who also hold a tenured faculty appointment are eligible to request a transitional appointment within the context of their academic faculty roles. Administrative professionals and non-tenure track academic faculty are not eligible for transitional appointments. A transitional appointment may not be used in lieu of any other form of leave provided at the University, including, but not limited to, parental, medical, disability or personal leave.

(b) Review and approval. Transitional appointments must be approved by the President after review by the department chair/school director, dean and chief academic officer. Transitional appointments will be evaluated on the basis of the needs of the University.

(c) Procedure for requests. Requests for transitional appointment should be submitted in writing to the department chair/school director one full academic year before the requested commencement of the transitional appointment. A time period of less than one year may be allowed only in those cases where such appointments with lesser notice are considered to be in the interest of the University and with the approval of the department chair/school director, the dean, the chief academic officer (CAO) and the President.
(d) Term. A transitional appointment is normally for a term of one year, but may have a term of no more than four years with the approval of the department chair/school director, dean, CAO, and the President. A transitional appointment concludes with the abrogation of tenure. However, this does not preclude subsequent full-time or part-time employment in a non-tenured position subject to the needs and resources of the university. After the commencement of the transitional period, a transitional appointment may not be modified to a regular appointment. A faculty (d) member may elect to take full retirement prior to the end of the transitional contract provided he/she gives notice of his or her intent to retire at least thirty (30) days prior to the end of the academic term immediately prior to the faculty member’s chosen retirement date.

(e) Tenure status. A faculty member on a transitional appointment retains tenure until the conclusion of the transitional appointment.

(f) Salary/workload. The terms of a transitional appointment shall normally be fifty (50) percent of the faculty member’s normal appointment time and fifty (50) percent of a full work load at 50 percent salary, but exceptions which permit a variation from the fifty (50) percent may be negotiated. In no case shall the percentage of salary paid during a transitional appointment exceed the pro rata percentage of the assigned FTE during the transitional appointment contract. Exact percentages are subject to negotiation between the University and the faculty member and shall be spelled out in the transitional appointment contract and approved by the process provided in 2-3-1301(4)(d).

(g) Benefits. Faculty members on transitional appointments who participate in the University’s Optional Retirement Plan (ORP), are eligible for all benefits, and receive the University’s benefits contribution on the same basis as other faculty with regular appointments within the ORP. Faculty members on transitional appointments who are PERA annuitants are eligible for all benefits except university contributions to PERA, but may be subject to PERA’s annuity penalty for “post retirement” work for a PERA affiliated employer, including the University, in excess of 110 days in any calendar year. Transitional faculty receiving PERA annuity should determine directly with that organization what effects, if any, these transitional appointments have on their PERA annuity amounts.

(h) Pay and benefit adjustments. Faculty members on transitional appointments are considered for any pay and benefit increases on the same basis as faculty holding regular appointments, proportionate to the extent of the appointment. Leave policies shall be in effect, except that faculty on transitional appointments are not eligible for sabbatical leaves.

2-3-1301(5) Reduction in Force. This document establishes the process which shall be followed by the University in implementing a Reduction in Force. This document also sets forth procedures for the identification of faculty whose contractual rights are to be reduced or terminated due to a Reduction in Force and defines the procedure which is due each individual affected by Reduction in Force. This document may be supplemented or mended from time to time, as set forth in 2-3-1301(5)(h), Amendment.

2-3-1301(5)(a) Definitions.

(l) Administrators: Administrators are exempt employees of the University who are not faculty members as defined below.
(II) Board: The Board is the BOT of the University of Northern Colorado.

(III) Faculty Members: For the purposes of this document, faculty members are employees of the University whose contractual agreement includes an FTE assignment for classroom teaching, research, service, departmental/divisional administration, coaching and/or librarian assignments. For the purposes of this document, individuals who are serving in faculty and/or administrative positions and who maintain the right to a tenured or tenure-(III) track position within the University shall be considered faculty members to the full extent of their tenure rights. Individuals who maintain the rights to a faculty position and whose salaries are fully or in part paid by grants or other non-State funds shall be considered faculty members to the full extent of their retained rights. The term “faculty member” shall not include graduate or teaching assistants, emeritus faculty appointments, or employees within the Colorado State Personnel System.

(IV) Financial Exigency: Financial exigency is a bona fide and demonstrable financial crisis which materially threatens the ability of the University to continue its statutorily mandated function, and which is caused by:

(A) A substantial reduction in the legislative general fund revenues appropriated and available to the University or

(B) A substantial reduction in tuition funds or other cash funds available to the University, which cannot be alleviated by less drastic means.

(V) Full-time Faculty Members: Full-time faculty members are faculty members with 1.0 FTE assignments within the University for at least two semesters in the fiscal year in which the plan is being formulated which consists of classroom teaching, research, service, departmental or divisional administration, coaching, and/or librarian assignments. Employees who maintain the right to return to a full-time faculty position shall be considered full-time faculty members. BOT approved leaves, including, but not limited to sabbatical leave, shall not affect full-time status for the purposes of this document.

(VI) Joint Retrenchment Committee. The Joint Retrenchment Committee (JRC) is an ad hoc committee consisting of the CAO, two other University employees chosen by the President, five (5) faculty members elected by the faculty according to procedures to be established by the Faculty Senate Elections Committee and, at the discretion of the Student Senate, one (1) student chosen by the Student Senate. Such procedures shall assure that the five (5) faculty members come from five different schools/colleges. The chair of the Faculty Senate shall then select an additional faculty member to preside over the Joint Retrenchment Committee who shall not vote except in the case of a tie vote. The committee will remain in force throughout the period of the financial exigency and the completion of all aspects of the plan (including recall).

(VII) Part-time Faculty: Part-time faculty members are faculty members who are not full-time faculty as defined above.
(VIII) President: The President is the chief executive officer of the University. Duties of the President as described in this document may be delegated in writing by the President to a designee.

(IX) Program Area: Program area is that portion of a department, division, or school having a clearly defined existence as designated by the CAO in consultation with the appropriate chair/director and the unit dean, in which faculty members perform their duties and as may be designated in each faculty members’ contract of employment.

(X) Program Discontinuance or Reduction: Program discontinuance or reduction is the elimination or reduction of a program area pursuant to a Reduction in Force.

(XI) Reassignment: Reassignment is the change of the job title, job description, and/or job assignment of a faculty member employed by the University on the date the BOT initiates a Reduction in Force.

(XII) Recall: Recall shall be the appointment of a faculty member whose contractual rights were reduced or terminated by a Reduction in Force, to a position which is equivalent to the position formerly held before the Reduction in Force. The President, in consultation with the JRC, shall determine the equivalency of the positions.

(XIII) Recall Period: The recall period is for 1,095 calendar days following the effective date of a Reduction in Force.

(XIV) Reduction in Force: Reduction in Force is the partial or complete separation from service to the University of tenured faculty, or the removal of tenure-track or term faculty prior to the end of the specified term of their contract. A Reduction in Force is accomplished pursuant to the process and procedures described in this document, and except for dismissal or suspension for cause pursuant to 1-1-310(3), Dismissal, is the only means by which tenured faculty may be reduced or terminated. A Reduction in Force must be based on one (1) of the following factors:

(A) Financial exigency;

(B) A material change in the educational priorities of the University, made in good faith;

(C) The clearly demonstrated failure of a program to contribute to the University’s established role and mission; or

(D) A legislative or gubernatorial directive to change the educational priorities of the University or to eliminate or reduce teaching or faculty personnel or a program, degree or course of study.

When Reduction in Force is based on financial exigency, factors other than
financial crisis, including the desire to reorganize the University or to implement long-range educational policy, shall not be used to justify the declaration of financial exigency. However, declaration of financial exigency shall not preclude consideration of these factors in developing solutions for resolving the crisis.

When Reduction in Force is being considered for reasons other than financial exigency, financial reasons may play a significant role in the decision to reduce the number of programs or the scope and size of specific programs, however, the identification of the program(s) proposed for elimination or reduction and the final decision on whether the program(s) will be reduced or discontinued shall be based primarily on reasons of educational policy.

(XV) Reduction in Force Plan: A Reduction In Force Plan is a plan developed pursuant to 2-3-1301(5)(c), Procedures for the Development of a Reduction in Force Plan, as a result of the BOT decision to initiate a Reduction in Force.

(XVI) Re-employment: Re-employment shall occur when a faculty member whose contractual rights were reduced or terminated by a Reduction in Force is employed in a position within the University which is neither equivalent to the position formerly held nor the result of a reassignment.

(XVII) Retrenchment: A reallocation, reduction, or elimination of resources which may include a Reduction in Force.

(XVIII) College: Colleges include the following units of the University: Arts and Sciences, Business Administration, Education, Health and Human Sciences, Performing and Visual Arts, and the University Libraries. For purposes of this section 2-3-1301, Severance, "Unit" and "College" may be used interchangeably.

(XIX) Tenured Faculty Member: A tenured faculty member is a faculty member serving under a tenure contract.

(XX) Tenure-Track Faculty Member: A tenure-track faculty member is a faculty member who is serving under a tenure-track contract.

(XXI) Term Faculty Member: A term faculty member is a faculty member under a term contract.

(XXII) Time-In-Service

Time-In-Service in a Program Area: The total number of semesters that a faculty member has been employed within a program area.

Time-In-Service in a Department/Division: The total number of semesters that a faculty member has been employed within a department/division/school.

Time-In-Service in the University: The total number of semesters that a faculty
member has been employed within the University.

(A) Only faculty members who have at least a 0.50 FTE academic year assignment in classroom teaching, research, service, departmental/divisional administration, coaching, and/or librarian assignments shall be eligible to accrue time in service in a program area or in a department/division/school.

(B) Semesters spent on sabbatical leave or other approved leave of absence will count toward time-in-service in a program area, a department/division/school, and in the University.

(C) Except for approved leaves of absence under the conditions of (B) above, the recall provision in 2-3-1301(5)(e)(V), Recall of Reduced Faculty to Equivalent Positions, the reassignment provisions in 2-3-1301(5)(e)(III)(A), and the retraining provisions in 2-3-1301(5)(e)(III)(B), Assistance for Faculty Facing Reduction in Force, a break in service in a program area, a department/division/school, and the University has occurred when a faculty member has not been employed in the University for two or more semesters in a fiscal year. A faculty member shall not be entitled to count any time-in-service in a program area, a department/division/school, and the University accrued prior to such a break in service: time-in-service in a program area, a department/division/school, and the University shall not be considered broken by BOT-approved leaves of absence, paid or unpaid.

(D) Time-in-service shall be determined as of the date the BOT initiates a Reduction in Force.

(E) Chief Academic Officer (CAO)/Vice President for Academic Affairs: The Vice President for Academic Affairs is the Chief Academic Officer (CAO) of the University. Duties of the Vice President for Academic Affairs as described in this document may be delegated in writing by the CAO to a designee.

2-3-1301(5)(b) The Joint Retrenchment Committee.

(I) Creation of the Committee: The Joint Retrenchment Committee shall be created as set forth in 2-3-1301(5)(a), Definitions, at such time as the President shall make a preliminary determination, as described in 2-3-1301(5)(c), Procedures for the Development of a Reduction in Force Plan, that a financial exigency may exist or that one of the other factors which may authorize a Reduction in Force may exist.

The President's preliminary determination and all related documentation (supporting or opposing the President's preliminary determination) shall be submitted to the Joint Retrenchment Committee, which shall thereupon conduct an investigation and submit its written report to the President within sixty (60) days after its creation. The report shall reflect the Joint Retrenchment Committee's determination that:
(A) A financial exigency may or may not exist.

(B) That any of the other factors which may give rise to a Reduction in Force does exit or does not exist.

(C) If a financial exigency may exist, a recommendation of those means, short of a Reduction in Force, which may be utilized to prevent or minimize a Reduction in Force.

(D) If any of the other factors which may give rise to a Reduction in Force may exist, a recommendation of those means, short of a Reduction in Force, which may be utilized to prevent or minimize a Reduction in Force.

(E) A legitimate basis, after exhaustion of all other alternatives, exists for the BOT to initiate a Reduction in Force.

Upon receipt of the report of the Joint Retrenchment Committee, the President shall take such action as may be authorized pursuant to 2-3-1301(5)(c), Procedures for the Development of a Reduction in Force Plan.

(II) Powers of the Committee: The JRC shall have the enumerated powers set forth below and any other powers not specifically enumerated to enable it to fulfill its purpose as contemplated herein:

(A) To interpret all policies and procedure specified in this Reduction in Force document.

(B) To conduct a full investigation and report as outlined in 2-3-1301(5)(b)(I), Creation of the Committee.

(C) To retain such outside experts and professional assistance as may be reasonably necessary to facilitate its duties; provided, however that any requests for funding in excess of the amount allowed by the State fiscal policies shall first be submitted to, and approved by a person or group having authority to approve such expenditures (i.e., the President, the BOT, the Faculty Senate, etc.).

(D) To conduct any supplemental investigations which may be required to fulfill its duties in the event the BOT initiates a Reduction in Force as set forth in 2-3-1301(5)(c), Procedures for the Development of a Reduction in Force Plan.

(E) To draft a Reduction in Force Plan for submission to the President and/or the BOT.

(F) To identify faculty members whose contractual or other rights may be reduced or terminated as a result of an approved Reduction in Force.

(G) To appear and make presentations to any other person or committee
designed to hear the grievances or complaints of any faculty member identified pursuant to subsection (vi) above.

(III) Conduct of Committee Business: A condition for an individual accepting membership on the JRC shall be that the individual agrees to maintain confidentiality of all discussions, except as may be required to be disclosed at any hearing initiated by a reduced or terminated faulty member. The CAO shall provide such clerical staff as will be necessary for preparing all minutes and motions and shall be responsible for all mailings. All clerical staff and outside experts and professionals shall be required to maintain confidentiality at least to the same extent as committee members.

(I) The President shall periodically review the entirety of the University’s needs and circumstances; provided, however that such review shall be conducted at least once every three years. In conducting his or her review, the President may, but need not, consult with such University committees or with the Faculty Senate committees as s/he deems appropriate. Upon conclusion of his or her review, the President shall submit a written preliminary report to the Faculty Senate, stating whether or not s/he believes one or more factors exist which may require a Reduction in Force. If the President preliminarily concludes that a Reduction in Force may be required, he/she shall immediately cause the JRC to be created and initiate its work.

(II) If the President’s preliminary report indicates that one or more factors exist which may give rise to a Reduction in Force for financial reasons, the report shall include:

   (A) Description of the nature and degree of the financial crises faced by the University, which gives rise to a claim of financial exigency.

   (B) A list of the alternative measures already taken and those which could be taken in order to avoid resorting to a Reduction in Force, including the anticipated dollars and FTE positions which will be saved by normal attrition, and an identification and review of all vacant positions.

   (C) A statement of the reasons those measures and normal attrition are not adequate to alleviate the financial crisis.

   (D) A statement of the reasons the financial crisis is of sufficient severity to justify the belief that a Reduction in Force may be required.

(III) If the President’s preliminary report indicates that one or more factors exist which may give rise to a Reduction in Force for reasons other than financial exigency, the report shall include:

   (A) An identification of the specific reason or reasons a Reduction in Force is deemed necessary.
(B) A statement and analysis of the educational policy considerations being relied upon to support a Reduction in Force.

(C) A list of the alternative measures already taken and those which could be taken in order to avoid resort to a Reduction in Force, including the anticipated dollars and FTE to be saved by normal attrition and an identification and review of all vacant positions. If the report identifies specific program areas recommended for discontinuance or reduction, then this provision shall apply as to each program area identified.

(D) A statement of the reasons those measures and normal attrition are not adequate to alleviate the need for a Reduction in Force. If the report identifies specific programs or areas to be recommended for reduction, then this provision shall apply as to each program or area identified.

The President's report will be presented to the JRC for consideration and act in accordance with 2-3-1301(5)(b), The Joint Retrenchment Committee.

(IV) Upon receipt of the report of the JRC, as described in 2-3-1301(5)(b), The Joint Retrenchment Committee, the President may take any one or more of the following actions:

(A) Accept the report and recommendation of the JRC and take such action as may be authorized below.

(B) Reject the report and recommendation of the JRC in whole or in part. In such event the specific issues of the rejection shall be set out in writing and submitted to the JRC for consideration. Within fifteen days after the submission of the President's rejection document to the JRC, the President shall meet with the JRC to determine if any disputed matters can be resolved and a joint report agreed upon. If a joint report is agreed upon which recommends a Reduction in Force, such report shall be submitted to the BOT for consideration and action. Upon submission to the BOT, copies of the joint report shall be furnished to the Faculty Senate, deans, the STUDENT SENATE, and made available to other appropriate University organizations upon request.

(C) If the President and the JRC are not able to resolve their differences and either the President or the JRC advocate a Reduction in Force, a report recommending a Reduction in Force may be submitted by the advocate of a Reduction in Force along with the report of the other side. Copies of the submissions to the BOT shall be submitted to the Faculty Senate, deans, the STUDENT SENATE, and made available to other appropriate University organizations upon request. The Faculty Senate, a deans' representative, and the STUDENT SENATE shall have fifteen days from receipt of the reports to prepare and submit position papers or other submissions to the BOT.

(V) Initiation of Reduction in Force. After receiving the report referred to above, and
any alternative reports and/or comments, the BOT shall determine whether sufficient grounds exist for a Reduction in Force. If the BOT determines that sufficient grounds exist, the BOT shall initiate a Reduction in Force by directing the President to have a Reduction in Force Plan developed and prepared consistent with this document.

(A) Planning Constraints. The plan within these Reduction In Force policies and procedures and consistent with 2-3-1301(5)(a), Definitions, may curtail or delete certain programs at the same time that other programs are being retained, expanded, or added only after both the long term and short-term educational and economic implication of such reorganization have been reviewed and evaluated and recommendations are made by the JRC, within a time period established by the President. Programs and services most necessary to meet the educational needs of the students and the State, consistent with the established missions, goals, and values of the University, shall be the highest priority for retention when Reduction in Force is being considered.

(B) Development of the Plan. The JRC, in consultation with the President, shall prepare a Reduction in Force Plan within ninety (90) days after the BOT initiates the Reduction in Force. The plan shall contain:

(i) An explanation of how the Reduction in Force and accompanying reorganization will assist in the resolution of the circumstances giving rise to Reduction in Force.

(ii) The University's long range strategy for stability and how the Reduction in Force contributes to the accomplishment of the objective.

(iii) The projected impact of retrenchment on the affected program area(s) and other program area(s) academically dependent upon them. Issues of accreditation, academic soundness, and academic integrity shall be addressed.

(iv) Explicit criteria for reviewing programs, departments, schools, and colleges shall be specified.

(C) University Review. The Reduction in Force Plan shall be submitted to all faculty including deans, and to the Student Senate. The President, the faculty and students may submit to the JRC, in writing, any disagreements, agreements, or suggested revisions regarding the Plan. The JRC shall review all material submitted and, within twenty-one (21) calendar days after the publication date of the plan, submit the plan (as it may be amended) to the President, with copies to the Faculty Senate, the deans, and the Student Senate. The President, after reviewing the Plan, may propose revisions to the Plan, which revision will then be submitted to the JRC, the Faculty Senate, the deans and the Student Senate with reasons for the revisions. Then the President, accompanied by the chair of the JRC,
shall present the Plan and the President's proposed revisions to the BOT. The JRC, the Faculty Senate, the deans, and the Student Senate, or their designated representatives, may present alternative plans, or any portion thereof, and/or their views of the Reduction in Force Plan to the BOT. All plans and proposals shall be submitted to the BOT within 140 calendar days after the Initiation of a Reduction in Force by the BOT. The President has authority to extend any deadlines regarding the preparation and submission of the Reduction in Force plan.

(D) If the JRC fails to submit a plan within the time limits set out in 2-3-1301(5)(c)(V)(B) and (C), Procedures for the Development of a Reduction in Force Plan (as extended by the President), the President shall thereupon assume the functions and duties of the JRC, and shall prepare and submit the Initial Reduction in Force Plan.

(E) BOT Review and Action: The BOT after review of the JRC Plan and any proposed revisions or recommendations presented may direct the President to implement the Reduction in Force Plan as received or modified by the BOT. The date of BOT action adopting the Reduction in Force Plan shall be the effective date of the Reduction in Force Plan.

2-3-1301(5)(d) Identification and Notice of Faculty Whose Contractual Rights Are to Be Reduced or Terminated.

The following process shall be carried out according to a schedule established by the CAO.

(I) Criteria for the Identification of Faculty to be Reduced in Force: Faculty members whose contractual rights are to be reduced or terminated shall be identified by following procedures A through E below. The status of each faculty member within each category below shall be that status as of the date the BOT initiates a Reduction in Force. Implementation of the following procedures F through I shall be completed in accordance with a time schedule established by the Plan. This schedule may be modified by the President from time to time as the process is being carried out, after consultation with the JRC or its authorized representative.

(A) The first faculty members to be reduced from a program area shall be those in category (I)(A)(i) below, those in (I)(A)(ii) below shall be reduced next, those in (I)(A)(iii) below next; and so on. The following categories refer to part-time faculty status within the University.

(i) Part-time term faculty.*

(ii) Full-time term faculty.*

(iii) Part-time tenure-track faculty.*

(iv) Full-time tenure-track faculty.*

(v) Part-time tenured faculty.
(vi) Full-time tenured faculty.

*In the case of faculty used to replace faculty on leave or in administration, as defined in 2-3-1301(5)(a), Definitions, the faculty members being replaced shall be listed among affected faculty and the replacement removed from the list.

(B) Within the categories in (I)(A)(i) above, faculty identified to be reduced first shall be those in category (I)(B)(i) below, followed by those in (I)(B)(ii) below, and so on.

(i) Faculty with a bachelor’s degree.

(ii) Faculty with a bachelor’s degree and appropriate certification.

(iii) Faculty with a master’s degree.

(iv) Faculty with a master’s degree and appropriate certification, or with two or more appropriate master’s degrees, or with a specialist degree.

(v) Faculty with a doctorate or other appropriate terminal degree.

(C) Within the categories in (I)(A) through (I)(B) above, faculty identified to be reduced first shall be those in category (I)(C)(i) below, followed by those in (I)(C)(ii) below, and so one.

(i) Faculty with the rank of instructor.

(ii) Faculty with the rank of assistant professor.

(iii) Faculty with the rank of associate professor.

(iv) Faculty with the rank of professor.

(D) Within the categories in (I)(A) through (I)(B) above, faculty identified to be reduced first shall be those in category (I)(D)(i) below, followed by those in (I)(D)(ii) below, and so on.

(i) Least time-in-service in the affected program area.

(ii) Least time-in-service in the affected department/division.

(iii) Least time-in-service in the University.

(E) If after applying steps (I)(A) through (I)(D) above, further reductions are still needed within the program area, the faculty of the affected program area, with the advice of the department chair/division director and the dean, shall make recommendation to the JRC of the individuals to be reduced based
on program need and quality.

(F) A list of faculty members ranked by procedures (I)(A) through (I)(E) above, must be submitted to the JRC by the chair of the department or director of the division housing the affected program area. The JRC is responsible for verifying that the departmental/divisional submission is in conformance with criteria (I)(A) through (I)(E) above. Once the list of faculty ranked by the above procedures has been verified by the JRC, the Committee will identify the faculty whose contractual rights will be reduced or terminated by criteria (I)(A) through (I)(E) above.

(G) Once the faculty to be reduced by the above procedures have been determined and verified, faculty of an affected department/division/school must determine the impact the proposed reductions will have on their ability to deliver the remaining program(s). If the department/division/school faculty determine that the ability of the department/division/school faculty to deliver the remaining program(s) would be enhanced by rearranging the listing for faculty who were identified to be reduced [by procedures (I)(A) through (I)(E) above], the faculty of the affected department/division/school must present to the JRC documentation of the impact and an alternate plan for determining faculty to be reduced from the department/division/school. In this event, the JRC shall review and evaluate the alternate plan and forward its recommendation to the President along with all materials received. The President shall decide whether or not to accept an alternate plan. If no alternate plan is submitted by the faculty of the department/division/school, the chair of the department or division housing the affected department/division/school shall send to the JRC a statement to verify that: 1) the faculty to be reduced will be determined by the procedures in (I)(A) through (I)(E) above, and 2) the faculty of the department/division/school have determined that their ability to deliver the remaining program(s) would not be enhanced by an alternate plan to select faculty to be reduced from the department/division/school.

(H) Within a time limit established by the JRC and approved by the President, individual faculty members in any affected department/division/school may submit a written minority report to the JRC reacting to the Plan relative to program areas within the department/division/school submitted to the JRC. The JRC shall review and evaluate all minority reports and forward its recommendations to the President together with all materials received.

(I) Copies of all correspondence received by the JRC from an affected department/division/school shall be sent to every faculty member in that department/division/school within a time limit established by the JRC.

(J) Upon review of all materials forwarded by the JRC, the President shall identify the faculty members to be reduced and communicate, in writing, their names to the faculty of any affected department/division/school, the appropriate chair/director, dean, and the JRC.
(II) Notice of Reduction in Force:

(A) Tenured faculty members to be reduced or terminated, and tenure-track and term faculty whose contractual rights are to be reduced or terminated prior to the expiration the contract terms, as the result of a Reduction in Force, shall be entitled to receive notice or salary in lieu of notice in accordance with the following schedule: 365 days for tenured faculty and for tenure-track faculty with eighteen months or more of time-in-service in the University; 180 days for tenure-track faculty with less than eighteen months but at least nine months of time in service in the University; ninety (90) days for tenure-track faculty with less than nine months time in service in the University, and for term faculty.

This notice period may be modified if notice of a reduction or termination is given after the end of one academic year, but before the start of the next academic year. Under this circumstance, the faculty member will be compensated for the period of the delay in notice, and the reduced or terminated faculty member’s employment will end at the close of the new academic year.

(B) The notice shall state that the contractual rights which were terminated or reduced were accomplished according to the procedures of this document and indicate review rights of the faculty member whose contractual rights are being reduced or terminated.

(C) All faculty are responsible for having on file with the administrative office housing their program area, a current address and telephone contact. The administrative office housing the program area is responsible for supplying to Human Resources, upon request, the current address and telephone contact of each faculty member in the program area. The University will meet its responsibility to affected faculty by sending notices and communications required by this document to the address provided by the administrative office housing the program area or, through University mail, to the faculty member’s University address of record and obtaining receipts when reasonably possible indicating that the documents have been delivered to the affected persons.

(III) Effective Date of Termination or Reduction of Contractual Rights:

(A) The effective date of the reduction or termination of contractual rights of a faculty member shall be at the end of the academic year with two exceptions: as (A) provided in 2-3-1301(5)(d)(III)(B) and in cases where to do so would violate the notice provisions of 2-3-1301(5)(d)(II)(A) Notice of Reduction in Force. In all such cases in the latter category, the effective date of the reduction or termination shall be the end of the subsequent academic year.

(B) If a reduction or termination of contractual rights is due to the reduction or termination of funding from grant or other non-State appropriated sources
prior to the end of a academic year, the effective date of the reduction or termination of contractual rights shall be the last day of such non-State appropriated funding. Notice of the reduction will be given sixty (60) calendar days prior to the date of reduction unless the President is not notified of the loss of funding until after that date, in which case notice will be given immediately after the President is informed of the loss of funding.

(C) Faculty members affected by termination of grant or other non-State funding, and who maintain the rights to a faculty position funded by State funds, shall return immediately to the State-funded faculty position and the temporary employee who held the State-funded position shall be terminated.

(D) If while a faculty member who maintains the rights to a State-funded faculty position is on grant or other non-State funding, a Reduction in Force is required, the State-funded faculty position to which the faculty member has a return right may be considered for the reduction if such position is within an affected program area and the procedures identified in 2-3-1301(5)(d)(III)(B) and (C) shall be implemented, using the qualification of the faculty member on grant or other non-State funding.

2-3-1301(5)(e) Services, Benefits, and Employment Opportunities for Faculty Facing Reduction in Force.

(I) Services and Benefits for Faculty Facing Reduction in Force:

(A) A special faculty advocacy task force shall be established by the Faculty Senate Executive Committee in consultation with the President for the purposes of counseling with and advisement of faculty who will be reduced from the University.

(B) The Director of Human Resources shall provide the Public Employees Retirement Association (PERA) and such other retirement plan providers approved by the University, with a list of potentially affected faculty members and administrators and solicit the agency's cooperation in providing counseling at individual and group meetings. Such meetings will provide information on retirement benefits and retirement option available to the faculty and administrators.

(C) Salary and benefits notwithstanding those provided herein shall cease at the end of the designated academic year, or at the end of the contract term, whichever occurs first, for individuals covered under 2-3-1301(5)(d)(III)(A), Effective Date of Termination or Reduction of Contractual Rights, and shall cease the day after the (C) effective date of termination or reduction of contractual rights for individuals covered in 2-3-1301(5)(d)(III)(B).

(II) Reassignment. Faculty members in a program area affected by Reduction in Force will receive special consideration for vacant positions within the University
according to 2-3-1301(5)(e)(III)(A), and 2-3-1301(5)(e)(III)(B). In addition, the President may reassign faculty members in an affected program area. Reassigned faculty shall be compensated at their then current year’s salary and benefit levels for the remainder of that academic year only. In succeeding years, their salary and benefit levels shall be those regularly established for the position to which they were reassigned. Reassigned faculty members may be placed in a vacant faculty, classified, or exempt position. Those faculty members who are reassigned to a vacant faculty position shall retain their status with respect to rank and/or tenure.

(III) Assistance for Faculty Facing Reduction in Force:

(A) The President shall document that every effort has been made to place faculty members facing Reduction in Force within other appropriate, alternate, or equivalent vacant positions within the University or within other University approved retirement options.

(B) If placement within the University or other University approved retirement options would be facilitated by a period of retraining, a reduced faculty member may submit to the CAO a plan for retraining, including a targeted vacant position for which the faculty member would be eligible. The plan may be submitted or amended at any time within two (2) years of notification of reduction. Such plans may include UNC tuition discounts as approved by the Colorado Commission on Higher Education, release time with or without pay, time schedule for retraining, available assistance, or any other resources available. Within thirty (30) calendar days after a plan or an amended plan is submitted, the CAO will forward to the President recommendations regarding any requests for University resources. The President will make a final decision. If the plan is accepted as presented or amended, a contract must be executed setting forth the mutual obligations of the faculty member and the University prior to the initiation or amendment of the retraining program. If, after completion of a program of retraining the affected faculty member is re-employed by the University, all prior rank or tenure rights shall be restored as though no break in service had occurred.

(C) Reduced faculty shall receive without charge the use of the University placement and career counseling services and staff assistance in maintaining placement files and services.

(IV) Reduction List:

(A) The names of reduced tenured faculty members shall be placed on a reduction list of 1095 calendar days following the effective date of their Reduction in Force Plan. In addition, for the time period between notification of reduction and the effective date of reduction, names of tenured faculty members so notified will be included on the reduction list. Maintenance of the reduction list shall be the responsibility of the Director of Human Resources. A faculty member’s name (A) may be removed from the reduction list at the written request of the faculty member.
All faculty whose names are on the reduction list shall be sent University position vacancy announcements by the Director of Human Resources. For this purpose, it shall be the responsibility of the faculty member to keep the Director of Human Resources advised of his or her current address.

Recall of Reduced Faculty to Equivalent Positions:

- If during the recall period an affected program department/division/school is authorized to fill a vacancy, the position shall be offered first to those faculty members on a reduction list who were reduced from that department and who are qualified, as determined by the President after consultation with the dean and the appropriate chair/division director. Among those who are qualified, offers of a recall shall be made in the reverse order of reduction.

- If during the recall period a position is created which is equivalent, as determined by the President, after consultation with the dean or the appropriate chair/director, to one which was eliminated or reduced, it shall be offered first to those faculty members on the reduction list who are qualified, as determined by the President after consultation with the dean and department chair/division director. Among those qualified, offers of recall shall be in the reverse order or reduction. Appeals of equivalence determinations shall be reviewed by the President after consultation with the JRC. Decision by the President or appeals of equivalents shall be final, subject to the faculty member's right to access to the Faculty Grievance Procedures.

- If, after completion of a program of retraining the affected faculty member is re-employed by the University, salary and benefit levels shall be those regularly established for the position to which the faculty member is re-employed; however, all prior rank or tenure rights shall be restored as though no break in service had occurred.

- All offers of recall shall be made, in writing, by the President and sent by registered or certified mail.

- Those faculty members who held tenure appointments on the effective date of reduction shall be awarded tenure upon recall in accordance with the University personnel policies and regulations existing at the time of recall, including these Reductions in Force provisions.

- A faculty member hired in accordance with this section shall have all respective time-in-service in a program area, department/division, and the University accrued prior to the reduction restored at the time of recall.

- Any reduced faculty member who is recalled shall be eligible to receive the same salary which was received at the time of reduction as adjusted for any changes in salary and benefits that would have been received had reduction not occurred.
(H) Reduced faculty who refuse an offer of recall to a full-time position shall be removed from the reduction list and the University shall have no further obligation to them.

(I) If during the recall period an administrator holding tenure in an affected program area and whose position was reduced, declares an intention to return to teaching in the affected program area, the administrator's name will be placed on the reduction list and the administrator will assume relative standing on the list as determined by the procedure in 2-3-1301(5)(d), Identification and Notice of Faculty Whose Contractual Rights are to be Reduced or Terminated.

(VI) Re-employment of Reduced Faculty:

(A) The President will establish hiring procedures which ensure that faculty whose names are on the reduction list and who are qualified and apply shall receive initial consideration for re-employment.

(B) Acceptance of an alternative position by faculty member does not abrogate the right to recall.

(I) Faculty Review

(A) All faculty members who have received notice that their contractual rights will be reduced or terminated by a Reduction in Force will be encouraged, in writing, to request review of the decision by a Faculty Review Panel (Panel). The request shall be made in writing to the President within fourteen (14) calendar days after the receipt of the notice of Reduction in Force. A faculty member waives all rights to review by failure to submit a request in writing to the President within the fourteen calendar days.

(B) Within seven (7) calendar days after receipt of a timely faculty request for review, the President shall submit the request to the chair of the Faculty Senate and shall report to the chair of the BOT the names of faculty requesting a review by a Panel.

(C) The chair of the Faculty Senate shall have twenty-one (21) calendar days after receipt of a request to appoint and convene a Panel and submit to the panel the faculty request for review.

(D) The Panel shall consist of five faculty members chosen at random from all eligible members of the Faculty Grievance Committee. Eligible members of the Faculty Grievance Committee are any present or past members of that committee who are not associated with any department/division identified for discontinuance or reduction in the Reduction in Force Plan and who were not members of the JRC. Eligible members of the Faculty Grievance Committee may decline appointment only for good cause stated in writing to the chair of the Faculty Senate.
(E) As soon as practical after appointment, the Panel shall give notice of hearing. All proceedings shall be informal and conducted with dispatch. The panel shall keep a complete record of its proceedings and all data or documents gathered or presented to it. The President or any faculty member requesting review may challenge any member of the panel for bias prior to the date of the hearing. Judgement on the challenge by the chair of the Faculty Senate shall be final.

(F) The cost of the hearing shall be borne by the University but not the cost of transcription for any appeal.

(G) The burden of proof rests upon the President with regard to establishing that the basis for the Reduction in Force was in accordance with the procedure contained herein. All documents which were relied upon by the President in making his or her decision will be made available to the affected faculty members for inspection and/or photo copying. The photo copying will be at the requestor's expense.

(H) The faculty member may present evidence in his or her defense.

(I) The hearing before a Faculty Review shall be held in accordance with constitutional due process principles. Faculty members are entitled to the active participation of legal counsel of their own choosing and at their own expense. Either the President or the affected faculty member(s) may call members of the JRC as witnesses.

(J) If specific issues are common to several hearings, the Panel shall conduct a single hearing to resolve the common issues before proceeding with the remainder of the hearings. Either the President or a faculty member who has requested review may request and receive a single hearing on common issues.

(K) Within twenty-eight (28) calendar days of receipt of a faculty request for review from the chair of the Faculty Senate, the Panel shall issue a written report. The report shall briefly identify the issues raised by the faculty member requesting review, summarize the important evidence, and state the Panel's findings and its recommendation on the action taken under the Reduction in Force Plan. Every finding by a Panel shall be deemed an initial decision for purposes of review. The report shall be transmitted to the chair of the Faculty Senate, who shall promptly transmit copies of the report to the President and the affected faculty member. If the number of requests for review makes it impractical for one Panel to comply with this twenty-eight (28) day timeline, additional Panels may be appointed by the chair of the Faculty Senate, and/or the timelines may be extended with the President's approval, such approval not to be unreasonably withheld.

(L) In the absence of an appeal to the BOT in accordance with 2-3-1301(5)(f)(II)(A), BOT Review, any initial decision of the Panel shall be the decision of the BOT and shall be final and binding on the parties.
Notwithstanding the foregoing, the BOT, on its own motion, may review any initial decision of a Faculty Review Panel if it notifies the parties within twenty-eight (28) calendar days after receipt of the initial decision.

(M) The President reserves the right to alter, modify, amend or rescind the original notice of Reduction in Force to the affected faculty member consistent with, in whole or in part, the findings and conclusions of the report of the Panel at anytime prior to final action by the BOT pursuant to 2-3-1301(5)(f)(II)(F), BOT Review.

(II) BOT Review:

(A) Within twenty-eight (28) calendar days after receipt of the initial decision of the Panel, the President or the faculty member may request an appeal to the BOT. This appeal must be made in writing and delivered to the Office of the Secretary of the BOT. The letter shall be accompanied by a copy of the Panel's report and a designation of the parts of the transcript of the hearing which that party wishes to have transcribed, if any. The appellant simultaneously shall send a copy of the letter and designation to all other parties involved in the hearing.

(B) Within fourteen (14) calendar days after receipt of the designation of transcript, all other parties or the BOT may designate additional portions of the proceedings to be transcribed by sending notice of designation to all other parties involved in that hearing.

(C) Each party requesting transcription of any portion of the proceedings shall submit to the BOT within fourteen (14) calendar days after the day of such request, evidence of payment in full of the reporter's estimated cost of transcribing the portion of the record designated by the party.

(D) The BOT shall review and take action on the initial decision of the Panel based solely upon the record developed before the Panel and written and oral arguments presented by the President and the faculty member in accordance with a schedule established by the BOT. At any oral argument permitted by the BOT, the faculty member has the right to the active participation of legal counsel of his or her own choice and at his or her own expense.

(E) In determining the appeal, the BOT shall be governed by the following standards of review:

(i) A Faculty Review Panel determination that a program, division or department be discontinued or reduced shall be deemed presumptively correct.

(ii) All issues on which the Panel report and the President's final position statement are in accord shall be deemed presumptively
resolved.

(iii) All other issues shall be resolved by the BOT with due regard to the President's obligation to meet his or her burden of proof on such issues.

In any event, before reaching a final decision, the BOT must be satisfied that the final decision is in the best interests of the University.

(F) The BOT shall announce its final decision regarding the appeal within twenty-eight (28) calendar days after the completion of the appeal.

(G) The President may not seek judicial review of any action of the BOT setting aside or modifying the President's action of reductions in force.
