Opening Reception
University Center Ballroom

The following paper has been withdrawn: P91 at 3:55 pm Symposium S14
First-year chemistry majors’ experiences in a general and descriptive laboratory course by Heilen Arce.

Day 1: Plenary Speaker

Connie Willis

Award winning science-fiction author of The Doomsday Book and To Say Nothing of the Dog

COINCIDENCES, MISTAKES, COMPLETE DISASTERS, PIGEON DROPPINGS, BONGO DRUMS, X-RAYS, AND SNAKES: SERENDIPITY AND SCIENCE:
People think of scientific discovery as the culmination of an orderly, logical process consisting of rational thought, precise methodology, and painstaking experimentation—the exact opposite of the creative process which governs art and literature.

Willis has won the 2011 Damon Knight Memorial Grand Master Award for her contributions to the literature of Science Fiction and Fantasy, numerous Hugo Awards, Locus Poll Awards, and Nebula Awards.

Today’s News/Updates

Symposium: S12, Pocket Guide p. 17, @ 2:15, list of modeling workshop participants who will be sharing:

Enid Sanchez (Jesuit College Preparatory School of Dallas, Dallas, TX): Whiteboarding: How sharing -> understanding

Kyla Gurganus (Lincoln High School, Ypsilanti, MI): Proportional reasoning: Opening doors for more students

Gary Cooper (Pima Community College, Tucson, AZ): Is it for HS teachers?

Roxie Allen (St. John's School, Houston, TX): My story so far ....
Correct abstract: Program e-book, p. 294

P657: Socrative refresher: How to keep previous content front and center
Author: Loren Barnhurst (Southern Adventist University)

The Socrative Student Response System is a simple and accessible clicker platform which uses smartphones, tablets, or laptops as a means of input. Socrative supports a multitude of question types, is flexible and easy to use for the professor and student alike, and promotes active learning on the part of the student while communicating instant feedback to the professor. The presentation will demonstrate how Socrative can be used as a tool to aid students by refreshing previous content while providing intentional practice throughout the year on multiple choice questions similar to the ACS final exam.
