

Artist Statement

Joint Endeavor is a 15" x 22" mixed media (paper, glue, watercolor) composition suspended in a handcrafted oak frame. My first thought of this work arose by contemplating the chaos of watercolor medium being amplified by the freedom of mixed media compositions. As I pieced together dissimilar ideas, through pictures, I became unsettled by the undeniable similarity that arose between each fragment of paper. Joint Endeavor illuminates the paradox life, in unity and diversity, and celebrates the individual's priceless experience of being part of the entire whole.

Acknowledgements

To my loving family for cultivating and instilling a deep appreciation for creativity within me from a young age. To my loving fiancé, Kreg Flowers, for his active support of my artwork and help in constructing the frame for this piece.
