

UNC ANIMAL USE PROTOCOL
Attachment E – RESTRAINT & CONDITIONING

Provide detailed descriptions of any of the following procedures that will be used on this protocol. Your description must include enough detail for complete understanding of what will be done. Include provisions for addressing animal health and welfare, and provide a justification if the activities will result in pain and/or distress. Include [Attachment A](#) if they will result in animals being categorized in P&D categories D or E.

E.1. Activities that may be described as “conditioning” or “training”

E.2. Activities that will require prolonged use of restraint devices excluding standard devices used for short-term procedures such as injections, tail bleeding, decapitation, etc. Graphics or drawings of devices may be helpful
