

The Office of Assessment presents:

# ASSESSMENT CONNECT AND LEARN SERIES FOR STUDENT SERVICES

## Overview

The Office of Assessment Connect and Learn series provides student services professionals with opportunities to 1) learn about assessment of student learning strategies and 2) meet colleagues from across campus.

## Fall 2018 Connect and Learn Series

### Connect and Learn 1: Using learning outcomes and curriculum maps to guide student services programming

- **Presenter:** Erin Datteri-Saboski, Director, New Student Orientation
- **Description:** Student learning outcomes and a curriculum map (or learning opportunity map) are the foundation for effective assessment. Presenter Erin Datteri-Saboski will describe how learning outcomes and a curriculum map have guided programming decisions in New Student Orientation. Participants will explore ways to enhance how they use student learning outcomes and a curriculum map to make decisions about programming in their own units.
- **Details:** Tuesday, September 25. 2:00-3:30 p.m.

### Connect and Learn 2: Methods for assessing student learning in student services units

- **Presenters:** Cathy Heise, Coordinator, Tutorial Services; Jason Sifrit, Assistant Director, Major Exploration & Academic Probation
- **Description:** Assessing student learning in student services units has unique challenges and can require creativity and flexibility. Presenters Cathy Heise and Jason Sifrit will describe their methods for assessing student learning. They will share challenges and benefits for their approaches. Participants will reflect on ways that they can assess student learning in their own programs.
- **Details:** Thursday, October 25. 2:00-3:30 p.m.

### Connect and Learn 3: Using student learning evidence to inform programming decisions in student services

- **Presenters:** Erin Datteri-Saboski, Director, New Student Orientation; Jason Sifrit, Assistant Director, Major Exploration & Academic Probation
- **Description:** Evidence of student learning is critical for identifying improvements to help students learn more effectively and recognizing and celebrating successful student learning. Presenters Erin Datteri-Saboski and Jason Sifrit will describe how student learning evidence informed changes to their units' programming and provided justification for the positive impact their programs have had on student learning. Participants will reflect on ways to incorporate evidence of student learning into decision-making in their programs.
- **Details:** Thursday, November 15. 2:00-3:30 p.m.

**Sign up required. [RSVP HERE](https://tinyurl.com/Connect-Learn18F-signup). Or go to <https://tinyurl.com/Connect-Learn18F-signup>.**

**Attend all three meetings to receive a certificate for your professional portfolio.**
