- This is how you will add each of your players (individually) to your team. The team members cannot add themselves to your team.
- You must have their Bearmail to add them to the roster
- This MUST be done before the player can participate in a game, on your team. Once you have done this your account will be activated.
- You can also add free agents by clicking on the "add from free agents" tab.
- Any questions/concerns can be directed to Jordan Bishop at Jordan.bishop@unco.edu
