- iii. Confidential contact does not need to be a family member but can be anyone the student chooses.

Confidential Contact Information

In addition to identifying a general emergency contact person listed in the student's housing contract, a student residing in on-campus housing has the option annually to confidentially identify a separate person to be contacted by UNC no later than 24-hours after the student is determined to be missing.

When the University of Northern Colorado (UNC) determines that a student who resides in on-campus housing is missing, UNC personnel will notify the UNC Police Department at (970) 351-2245 no later than 24-hours after the time the student is determined missing.

Students are not required to designate a separate individual for this purpose and if they choose not to do so then UNC will assume that they have chosen to treat their general emergency contact as their missing person contact.

If the student is under 18 years of age and is not emancipated, the institution is required to notify a custodial parent or legal guardian no later than 24-hours after the time that the student is determined missing, in addition to notifying any additional contact person designated by the student.

A student's confidential missing person contact information will be accessible only by authorized campus officials and by law enforcement during the course of an investigation and will not be disclosed outside of a missing person investigation.

4. Gender Inclusive Housing and Gender Identity (NEW)

- a. We are asking students to disclose their gender identity in 2 separate places on the housing contract.
 - i. This section will be used by the housing office to match students for assignments

Gender Inclusive Housing and Gender Identity

Housing at UNC offers Gender Inclusive Housing to provide a living environment welcoming to all gender identities. Gender Inclusive Housing allows for students to live together in a University Housing environment in which they feel safe and supported, regardless of gender identity or sex assigned at birth. Students who are living at UNC beginning during fall term and who apply by contract deadlines are eligible to select their own roommates and have optimal choice in their roommate search. For example, if you identify as a woman, and want to find a roommate who identifies as a woman, you may do so. If you identify as transgender, you will be able to find a roommate without any restrictions based on your sex assigned at birth.

What is Gender Inclusive Housing?

Gender Inclusive Housing seeks to provide a living environment welcoming to all gender identities, not one limited by the traditional gender binary. Gender Inclusive Housing allows for students of any gender/non-gender to live together in a University Housing environment in which they feel safe and supported, regardless of gender identity or sex assigned at birth.

Where is Gender Inclusive Housing?

The vast majority of campus spaces can be Gender Inclusive Housing if all students in the roommate group or all students assigned in the room/suite/apartment want to live in a gender inclusive space.

Exceptions to the Gender Inclusive Housing include the Women's community in Gordon Hall which accepts only students who identify as a Woman.

Who Will See This Information?

This information will only be accessible within the housing system and will not be shared with individuals outside of that system.

In the Roommate Matching section of this contract, you'll be asked to specify the gender identity you'd like to share with potential roommates. Your answer to that question will be visible to other students participating in the RoomEz roommate matching process.
