Colorado currently has two laws to support breastfeeding individuals:

The Colorado Breastfeeding in Public Act (2004) recognizes the benefits of breastfeeding children and allows a mother to breastfeed in public without being cited for indecent exposure.

The Colorado Workplace Accommodations for Nursing Mothers (2008) law requires employers to provide adequate break time for an employee to express breast milk for their nursing child for up to two years after the child's birth. It also requires an employer to provide a private place for employees to express breast milk, other than a bathroom stall.
