Introduction

Expanding pathways from high school to higher education is essential for Colorado to reach its state goals of increasing college completion rates, closing the attainment gap, and decreasing high school dropout rates.¹ As part of the Colorado Commission on Higher Education Master Plan, the Commission has set a goal of reaching 66 percent postsecondary credential attainment for Colorado citizens aged 25-34 by 2025.² In order to reach this goal, the state utilizes several strategies which contribute to continued student success.

Dual enrollment is one strategy states across the country are using to cultivate seamless P-20 pathways and increase credential completion. Dual enrollment programs provide high school students the opportunity to enroll in college-level courses and earn credit at no cost to them for tuition. These programs help students develop the knowledge, skills and abilities necessary to be postsecondary and workforce ready. Research indicates that dual enrollment students are more likely to enroll and persist in college than their peers and are less likely to need remedial education once in college.³

Data and Definitions

Pursuant to statute (C.R.S. §22-35-112), the Colorado Department of Higher Education (DHE) and the Colorado Department of Education (CDE) have prepared this report.⁴ The data in this report provide a descriptive summary of students in Colorado's public education system who participated in dual enrollment programs in the 2014-2015 academic year.

This report summarizes:

1. The number of local education providers and institutions of higher education that have entered into cooperative agreements;
2. Number of public school students participating in Concurrent Enrollment, ASCENT and other dual enrollment programs;
3. Demographic information of students that participated in Concurrent Enrollment;
4. The total number and percentage of students that passed Concurrent Enrollment courses during the 2014-2015 school year;

¹ [*Colorado Competes: A Completion Agenda for Higher Education*](#). Colorado Commission on Higher Education, October 2012.

² Ibid.

³ [*The Effects of Concurrent Enrollment on the College-Going and Remedial Education Rates of Colorado's High School Students*](#). Colorado Department of Higher Education. March 2014.

⁴ See *Attachment A* for an overview of the reporting requirements.

“Dual enrollment” is used in this report to refer to the broad array of programs available to high school students that allow them to take college-level courses for credit. In this report, the capitalized version of “Concurrent Enrollment” refers only to the statewide programs created by House Bill 09-1319 and detailed in the Concurrent Enrollment Programs Act (C.R.S. §22-35-101 et seq.).

The Concurrent Enrollment Programs Act defines Concurrent Enrollment as the “simultaneous enrollment of a qualified student in a local education provider and in one or more postsecondary courses, including academic or career and technical education courses, which may include course work related to apprenticeship programs or internship, at an institution of higher education” (C.R.S. §22-35-103, updated 2015).

Data reported here are collected through the DHE Student Unit Record Data System (SURDS), unless otherwise noted. This report does not include data on Postsecondary Enrollment Options (PSEO), Fasttrack, or other dual programs not described in House Bill 09-1319 as these dual enrollment programs were phased out in July of 2012 or are institution specific.

Highlights

- Statewide, 35,713 students participated in dual enrollment programs of any type in the 2014-2015 academic year. This represents nearly 30 percent of all 11th and 12th graders in public high schools in Colorado.
- Concurrent Enrollment continues to see sustained increases in participation, up 13 percent statewide with 23,127 students participating in 2014-2015.
- Participation in dual enrollment programs in 2014-15 increased by 15 percent overall from the previous year.
- Denver Public Schools had the most students participating in Concurrent Enrollment by headcount, while Karval RE-23 School District had the highest percentage of students participating in Concurrent Enrollment out of all Colorado school districts.
- Statewide, 94 percent of school districts and 84 percent of high schools offer Concurrent Enrollment programs.
- Compared to the prior year, participation in Concurrent Enrollment programs increased dramatically among Hispanic students (26 percent increase), African American students (30 percent increase), and Native American/Alaskan Native students (39 percent increase).
- In 2014-15, high school students attempted a total of 198,375 Concurrent Enrollment credit hours. The average number of credit hours attempted per student was 8.6, with an average of 8 hours passed.
- A large majority of the Concurrent Enrollment hours taken by students—93 percent— were passed in 2014-15. This is an improvement from the previous year's complete pass rate of 89 percent.
- Participation in remedial Concurrent Enrollment courses is 8.6 percent of the Concurrent Enrollment total, representing 2,054 students. Only students in their 12th grade year may take remedial Concurrent Enrollment courses.
- More than 1,200 students in Concurrent Enrollment programs earned some type of postsecondary credential in 2014-15.
- Participation in ASCENT increased by 11 percent from the previous year, with over 460 students participating statewide in 2014-15.
- More than half of students who participated in ASCENT in 2014-15 were Hispanic, a minority group that is historically underrepresented in postsecondary education. One of the goals of the ASCENT program is to increase the percentage of traditionally underserved students who participate in postsecondary education.
- According to previous DHE research, students who participated in dual enrollment programs in high school had higher college enrollment rates, first-year credit hour accumulation, grade point averages, and retention rates in college.
- A previous DHE study found that participation in dual enrollment is associated with a 23 percent increase in the likelihood of enrolling in college and a 10 percent decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant.

Summary of Dual Enrollment Programs

Table 1 provides a summary of the different dual enrollment programs in the state during the past three academic years.

During the academic year 2014-15, 35,713 high school students participated in Concurrent Enrollment, ASCENT or other dual enrollment programs, representing nearly 30 percent of all 11th and 12th graders. This number was an increase of more than 4,600 students from 2013-14, or a 15 percent increase in dual enrollment participation overall. The highest area of participation growth in 2014-15 was in Concurrent Enrollment programs at 2- & 4-year Institutions, which saw an increase of nearly 13 percent. Concurrent Enrollment program participation data at Area Technical Colleges (ATCs) is included for the first time in this year's report. While ATCs have been able to provide Concurrent Enrollment to students in prior years, specific participation data was previously unavailable. These schools provided 883 students with Concurrent Enrollment opportunities in the 2014-2015 academic year which contributes to the overall increase seen this year. The largest number of students is in the Concurrent Enrollment program—as defined in House Bill 09-1319—with 67 percent of dual enrollment students participating in the program (see Figure 1). The "Other High School Dual Enrollment Programs" category includes individually, institutionally designed dual enrollment programs. This category saw a 10 percent increase in the number of students enrolled (Table 1).

Nearly 30 percent of 11th and 12th graders in public high schools participate in dual enrollment programs.

Table 1: High School Dual Enrollment Summary⁵

Program Type	Unduplicated Student Count Academic Year 2012-2013	Unduplicated Student Count Academic Year 2013-2014	Unduplicated Student Count Academic Year 2014-2015	Change from 2013-14 to 2014-15
Concurrent Enrollment 2- & 4-year Institutions	17,873	20,488	23,127	+12.8%
Area Technical Colleges	-	-	883	NA
ASCENT Program	291	415	462	+11.3%
Other High School Dual Enrollment Programs	8,771	10,189	11,241	+10.3%
Total	26,935	31,092	35,713	+14.9%

Note: Concurrent Enrollment program numbers include students at early college high schools. ASCENT counts are from CDE's October Count data.

Data for ATCs not available for 2012-13 or 2013-14. All counts for ATCs fall within the statutory definition of Concurrent Enrollment.

⁵ Data throughout the report are from the Department of Higher Education's Student Unit Record Data (SURDS), unless otherwise noted.

Table 2 displays participation in dual enrollment programs by institution of higher education. The two-year institutions that served the most high school students in the 2014-15 academic year were Arapahoe Community College, with 3,614 students followed by the Community College of Aurora, with 3,339 students. Of the Area Technical Colleges, Pickens Technical College served the most high school students with 604 students. Of the four-year institutions offering dual enrollment programs, the University of Colorado Denver served 4,878 students primarily through their institutionally-developed dual enrollment program.

Figure 1. High School Dual Enrollment Summary, by Program

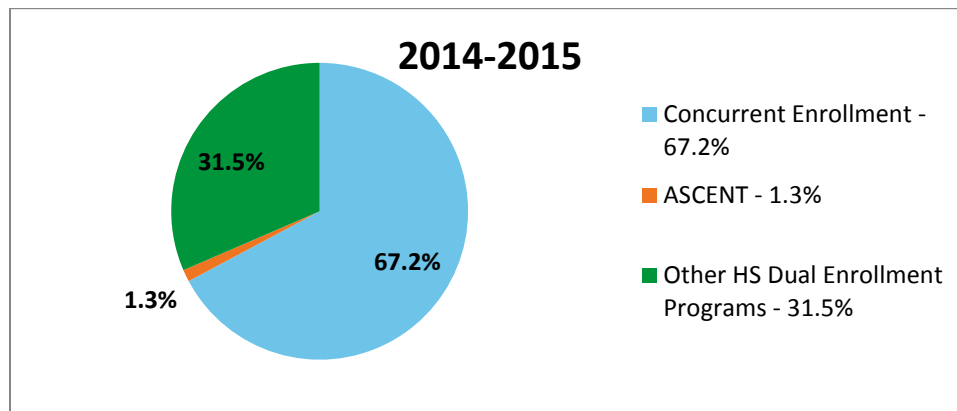

Table 2: 2014-2015 Dual Enrollment Participation, by Higher Education Institution

Note: All counts at each level unduplicated. Totals in each section may not equal grand total.

Public Institution of Higher Education	Concurrent Enrollment (HB09-1319)	ASCENT	Other HS Dual Enrollment Program	Total All Programs
Two-Year Institutions				
Aims Community College	1,196	4	86	1,286

University of Colorado Boulder	26	0	43	69
University of Colorado Colorado Springs	52	0	1,881	1,933
University of Colorado Denver	4	0	4,874	4,878
University of Northern Colorado	26	0	500	526
Western State Colorado University	349	0	0	349
Four-Year Total	2,645	25	10,283	12,911
Grand Total	24,010	462	11,240	35,713

Note: All institutional data in Table 2, including ASCENT data, are from DHE's SURDS. Totals include unduplicated counts from DHE's SURDS. Grand Total ASCENT counts are from CDE's October Count data. Also, as Colorado Mesa University (CMU) includes a two-year college, Western Colorado Community College (WCCC), as part of its system, some of the concurrent enrollment students counted here may be enrolled in WCCC, and not CMU's four-year program.

The remainder of this report will summarize Concurrent Enrollment and ASCENT programs as described in House Bill 09-1319. "Other" dual enrollment programs will not be hereafter reported.

Partnership Summary

A local education provider (LEP) that seeks to allow students to participate in Concurrent Enrollment must enter into a cooperative agreement with an institution of higher education per C.R.S. §22-25-104. The Concurrent Enrollment Programs Act defines a local education provider as a school district, a board of cooperative services (BOCES), a district charter school, or an institute charter school. In 2014-15, 26 public institutions of higher education and 226 LEPs had cooperative agreements in place using the Concurrent Enrollment model per C.R.S. §22-25-104. These totals may include duplicates as one LEP can have cooperative agreements with multiple institutions of higher education. Institutions of higher education and LEPs with cooperative agreements may differ from data on participation as agreements vary in terms of length. Additionally, institutions are asked to submit agreements to the DHE and those agreements may not have yet been received.

Participation Growth

The Concurrent Enrollment program continues to see sustained increases in participation. During the 2014-15 school year, 2,639 more students participated in the Concurrent Enrollment program than in the previous year. As reported last year, the increase from 2012-13 to 2013-14 was 2,810 students. This year's report also includes Concurrent Enrollment counts from Area Technical Colleges (883 students). This is the first year the Concurrent Enrollment counts from the ATCs were included in the report and have been separated out to better compare numbers from this year and last year. The data indicate that while participation statewide continues to increase, the rate of growth has slowed. One factor contributing to the slowed rate of growth could be the steady number of school districts participating in Concurrent Enrollment. Currently, 94 percent of school districts and 84 percent of high schools in Colorado participate in Concurrent Enrollment which is a slight increase from last year's participation.

Table 3 displays the unduplicated student count for Concurrent Enrollment participation by institutions of higher education for the last two years. Pikes Peak Community College had the largest increase of students enrolled (+716), with a total of 1,896 students participating. Colorado State University - Pueblo had the largest participation increase of four-year institutions, with 452 more students participating in 2014-15 than in the previous school year. A total of 29 public institutions of higher education served Concurrent Enrollment students in 2014-15. See Appendix A for an unduplicated count of students by institution and high school.

Table 3: Concurrent Enrollment Programs 2014-2015, Prior-Year Comparison

Public Institutions of Higher Education	Number of Students, 2013-14 Academic Year	Number of Students, 2014-15 Academic Year	Change in number of students
Two-Year Public Institutions			
Aims Community College	888	1,196	+308
Arapahoe Community College	3,386	3,480	+94
Colorado Northwestern Community College	489	502	+13
Community College of Aurora	3,138	3,231	+93
Community College of Denver	1,855	2,502	+647
Front Range Community College	2,451	3,015	+564
Lamar Community College	377	368	-9
Morgan Community College	859	807	-52
Northeastern Junior College	389	405	+16
Otero Junior College	585	567	-18
Pikes Peak Community College	1,180	1,896	+716
Pueblo Community College	1,191	1,233	+42
Red Rocks Community College	1,350	1,482	+132
Trinidad State Junior College	558	683	+125
Four-Year Public Institutions			
Adams State University	68	59	-9
Colorado Mesa University	945	698	-247
Colorado Mountain College	881	851	-30
Colorado State University	7	12	+5
Colorado State University - Pueblo	60	512	+452
Fort Lewis College	37	42	+5
Metropolitan State University of Denver	63	99	+36
University of Colorado Boulder	32	26	-6
University of Colorado Colorado Springs	54	52	-2
University of Colorado Denver	2	4	+2
University of Northern Colorado	24	26	+2
Western State Colorado University	172	349	+177
Total	20,488	23,127	2,639

Note: Counts throughout the report may differ based upon multiple enrollments and descriptive reporting. As Colorado Mesa University does include a two-year college as a part of its system, some of the concurrent enrollment students counted here may be enrolled in the two-year program, not the four-year program.

Note: Data from ATCs not included since data was not available for schools in 2013-14.

Participation by Districts and High Schools

A total of 2 BOCES and 167 school districts participated in Concurrent Enrollment in 2014-15, which represents 94 percent of school districts in Colorado. See Figure 2 for a visual display of participating districts and Appendix B for a complete list of Concurrent Enrollment headcount and participation rates by school district. Additionally, 407 high schools had at least one student participating in Concurrent Enrollment, representing about 84 percent of all Colorado high schools.

Table 4a lists the top 10 school districts with the highest percentage of high school students participating in Concurrent Enrollment. Karval School District RE-23, a small rural district, tops the list with 100 percent of its students taking Concurrent Enrollment courses. All top participating school districts in Table 4a are classified by CDE as small rural districts.⁶

Table 4a: Top 10 Participating Rural Districts in Concurrent Enrollment, by Percentage of High School Students in Concurrent Enrollment, 2014-2015

District	Number of Students in Concurrent Enrollment (Unduplicated Headcount)	Percent of 9th-12th Graders in Concurrent Enrollment
Karval School District RE-23	9	100%
Crowley County School District	114	75%
Moffat 2	37	73%
Edison 54 JT	88	72%
Swink School District	65	65%
Liberty J-4	11	61%
Fowler R-4J	67	59%
Meeker RE1	97	54%
La Veta RE-2	28	47%
Cheraw 31	32	46%

Note: Percentage of 9th-12th grade students is based on CDE's October Count data.

Tables 4b and 4c highlight the top 10 schools and school districts with the highest number of students participating in Concurrent Enrollment by headcount. When looking at Concurrent Enrollment participation by student headcount, the state's larger schools and districts have the highest participation numbers. Grandview High School tops the high school list. Two of the high schools in Table 4b are new this year to the top 10 list for high school participation: South High School and Fred N. Thomas Career Education Center (CEC). In Table 4c, Denver Public Schools remains at the top spot on the list of the top 10 school districts participating in Concurrent Enrollment by headcount for the third year. Thompson R2-J School District was new on the top 10 list for the 2014-15 school year.

⁶ CDE's definition of rural schools: "A Colorado school district is determined to be rural giving consideration to the size of the district, the distance from the nearest large urban/urbanized area, and having a student enrollment of approximately 6,500 students or less. Small rural districts are those districts meeting these same criteria and having a student population of less than 1,000 students." www.cde.state.co.us

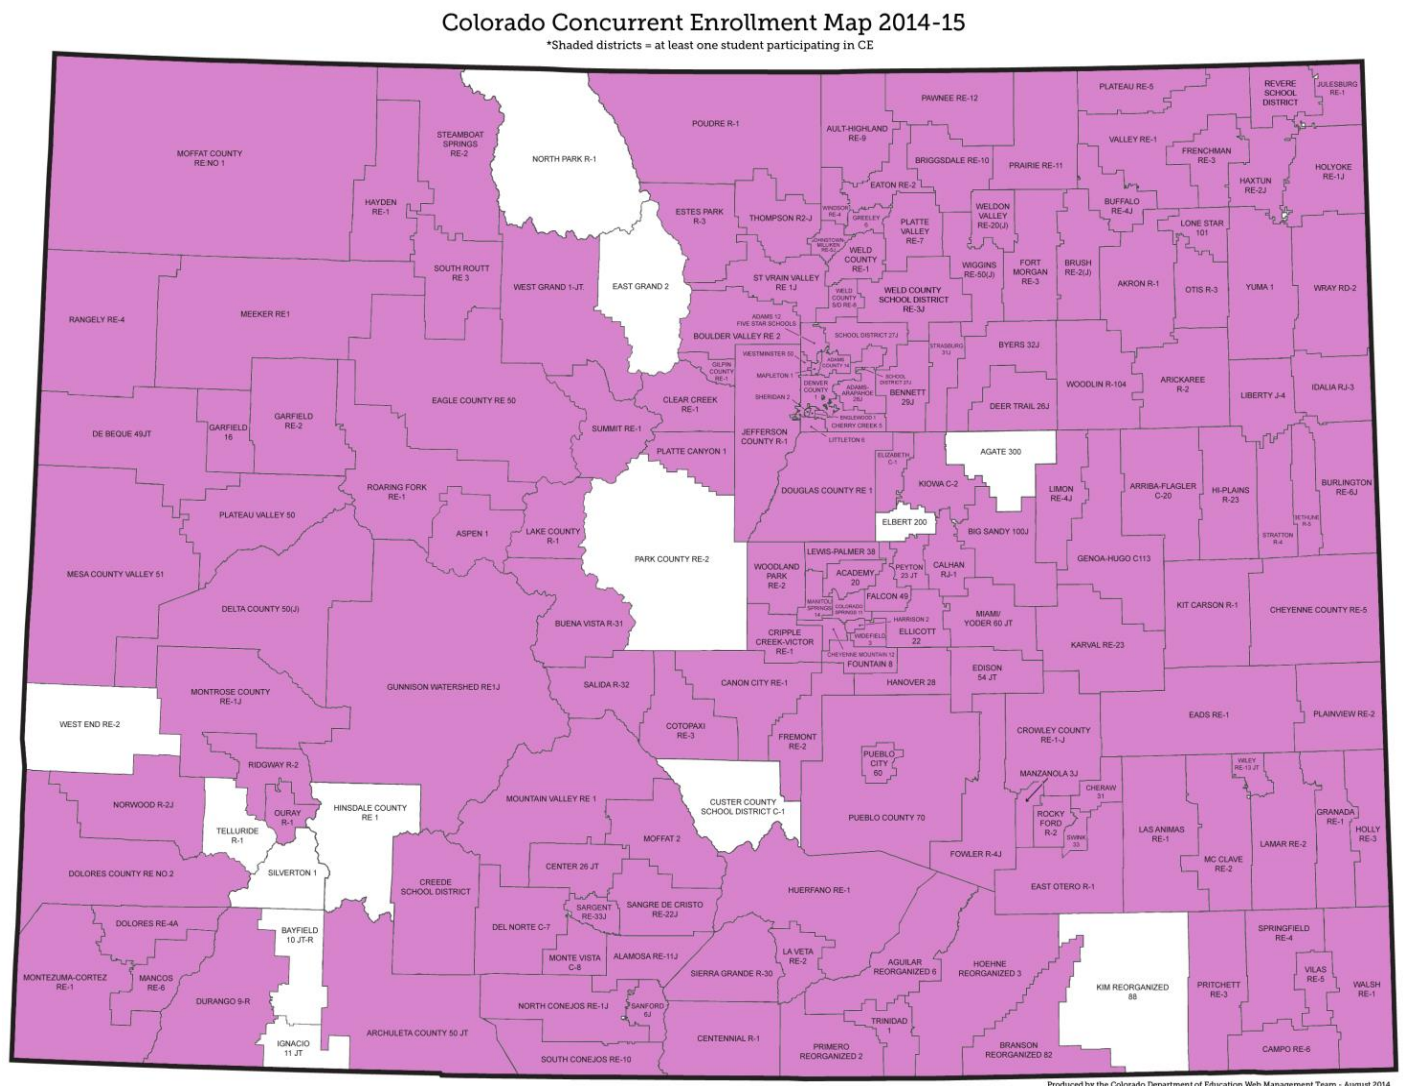

**Table 4b: Top 10 Schools Participating in Concurrent Enrollment, by Student Headcount
2014-2015**

District/Institute	School	Unduplicated Headcount
Cherry Creek Schools	Grandview High School	627

Mesa County Valley School District 51	7	447

Figure 2. Map of School Districts Participating in Concurrent Enrollment, 2014-15
Shaded districts have at least one student in Concurrent Enrollment.

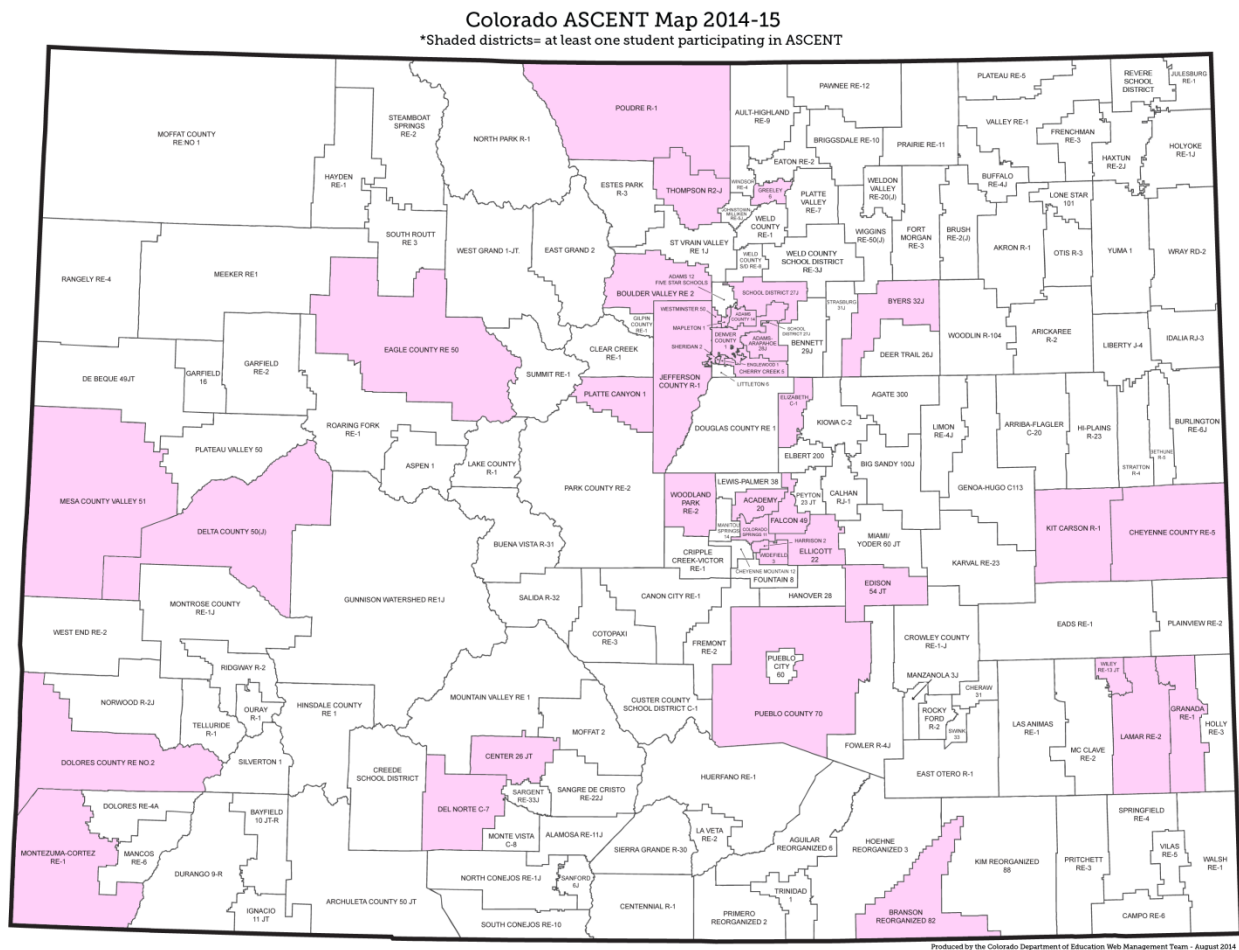

Accelerating Students through Concurrent Enrollment (ASCENT)

The ASCENT program provides an opportunity for students to continue to participate in Concurrent Enrollment in the year directly following the student's twelfth grade year or a fifth year of high school. Forty (40) districts, an additional twelve (12) from the 2013-14 year, participated in this program with a total enrollment of 462 students. Appendix C provides a list of the districts and the unduplicated headcount of students who participated in the ASCENT program using data that was obtained through the Colorado Department of Education's October Count.

CDE October Count data was used in this section of the report in order to align with the amount of funding received by districts/LEPs for ASCENT participation. As students can participate part-time, the unduplicated headcount may be larger than the total FTE funded by the legislature.

Figure 3. Map of School Districts Participating in ASCENT, 2014-15

ASCENT Demographics

Per C.R.S. §22-35-108, students eligible to participate in ASCENT must have completed twelve postsecondary credit hours prior to the completion of the twelfth-grade year, and not be in need of basic skills coursework in their selected pathway. ASCENT students must also be selected for participation by the school principal and accepted into a postsecondary degree program.

One of the objectives of the ASCENT program is to increase the percentage of students who participate in postsecondary education, especially among low-income and traditionally underserved populations (C.R.S. §22-35-108). Tables 5a and 5b provide information on ASCENT participation by race/ethnicity and gender. Over half of students who participated in ASCENT in 2014-15 were Hispanic, a minority group that is historically underrepresented in postsecondary education. Similar to Concurrent Enrollment participation, more females participated in ASCENT than males.

Table 5a: ASCENT Participation, by Race/Ethnicity, 2014-2015

Race/Ethnicity	2014-2015 Percent of Students
Asian	< 5%
African American	< 5%
Hawaiian or Pacific Islander	0%
Hispanic	51.5%
Native American/Alaskan Native	< 5%
White	40.3%
More than one race/ethnicity	< 5%

Table 5b: ASCENT Participation, by Gender, 2014-2015

Gender	2014-2015 Percent of Students
Female	58.2%
Male	41.8%

Table 5c outlines ASCENT participation by students' eligibility for free or reduced priced lunch (FRL). More than thirty percent of ASCENT students were eligible for free or reduced priced lunch, with the majority of these students qualifying for free lunch.

Table 5c: ASCENT Participation, by FRL Status, 2014-2015

FRL Eligibility Status	2014-2015 Percent of Students
Free Lunch	25.5%
Reduced Lunch	5.8%
Not Eligible	66.2%

Concurrent Enrollment Demographics

Table 6a provides information on Concurrent Enrollment participation by race/ethnicity. The number of Hispanics students—Colorado’s largest minority group—participating in Concurrent Enrollment increased by 26 percent from 2013-14 to 2014-15. Additionally, participation by African American students and Native American/Alaskan Native students increased by 30 percent and 39 percent respectively. Overall, since the beginning of Concurrent Enrollment in 2009, the program has seen significant diversification, and the composition of the Concurrent Enrollment program continues to closely resemble the composition of public high schools in Colorado. Table 6b displays Concurrent Enrollment participation by gender. Over the last two school years more females have participated in Concurrent Enrollment than males.

Table 6a: Concurrent Enrollment Participation, by Race/Ethnicity, 2014-2015

Race/Ethnicity	2013-2014 Academic Year Number/Percent		2014-2015 Academic Year Number/Percent		Percent Change in Number of Students
Asian	587	3%	654	3%	+11%
African American	671	3%	870	4%	+30%
Hawaiian or Pacific Islander	47	0.2%	53	0.2%	+13%
Hispanic	4,235	21%	5,344	22%	+26%
Native American/Alaskan Native	126	1%	175	1%	+39%
Unknown/Did not wish to Answer	2,338	11%	2,465	10%	+5%
White	11,513	56%	13,399	55%	+16%
More than one race/ethnicity	739	4%	837	3%	+13%
Nonresident Alien	394	2%	443	2%	+12%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. A nonresident alien is a person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely.

Table 6b: Concurrent Enrollment Participation, by Gender, 2014-2015

Gender	2013-2014 Academic Year Number/Percent		2014-2015 Academic Year Number/Percent		Percent Change in Number of Students
Female	10,985	54%	13,007	54%	+18%
Male	9,452	46%	10,971	46%	+16%
No Gender Data	71	0.3%	29	0.1%	-59%

Note: Includes Concurrent Enrollment and does not include ASCENT. Counts may differ based upon multiple enrollments and descriptive reporting. Headcount enrollments, by ethnicity and gender, for each participating higher education institution are available in Appendices D and E.

Academic Success

Table 7 details the number of credit hours attempted and the number of credit hours passed for Concurrent Enrollment students by institution of higher education. In 2014-15, high school students attempted a total of 198,375 Concurrent Enrollment credit hours, up from 167,050 hours in the previous year. The average number of credit hours attempted by Concurrent Enrollment students was 8.6, with an average of 8 hours passed.

A large majority of the Concurrent Enrollment hours taken by students—93 percent— were passed in 2014-15. This is an improvement from the 2013-14 school year pass rate of 89 percent. The pass rate for the 2012-13 school year was 84 percent.

Remedial Courses

Table 8 details student participation in basic skills, or remedial, Concurrent Enrollment courses. Per C.R.S. §22-25-104, a student may concurrently enroll in basic skills courses only if the student is enrolled in the 12th grade.

Out of all Concurrent Enrollment students, 2,054 students, or 8.6 percent, enrolled in remedial courses compared to 6.5 percent in the previous year. Data in this year's report includes College Composition and Reading (CCR) courses as part of the list of remedial courses. The inclusion of CCR courses is a new addition for this year's report and was not included in previous reports.

In order to more accurately compare participation over time, counts for 2013-2014 have been updated in Table 8 and the 6.5 percent figure above to include students in CCR courses. The addition of these courses was part of the remedial redesign spearheaded by the Colorado Community College System however they are not considered Supplemental Academic Instruction (SAI). The CCR courses capture many students who would have been in either English or Reading remedial courses.

Both Community College of Aurora and Community College of Denver saw the largest increases. Community College of Denver enrolls more than half (56%) of all remedial Concurrent Enrollment students. Utilizing dual enrollment for remedial courses helps students successfully complete developmental education prior to college enrollment. This enables students to immediately enter college-level, credit-bearing courses and be on their way to earning a postsecondary credential.

**Table 7: Concurrent Enrollment Credit Hours Attempted and Passed

Note: Figures for 2014-15 include CCR courses. This is the first year CCR courses were included in DHE reports.

⁷ Counts for 2013-2014 include students in CCR courses which were not included in last year's report.
Concurrent Enrollment 2014-2015

Career and Technical Education Courses

Per C.R.S. §22-35-103, Concurrent Enrollment students have the opportunity to take postsecondary career and technical education (CTE) courses and earn credit that can be applied toward a technical certificate or degree. In 2014-15, nearly 9,900 students participated in CTE Concurrent Enrollment courses, which represent more than 40% of all Concurrent Enrollment students. Table 9, below, displays the number of students by institution of higher education. Arapahoe Community College served the most students with CTE Concurrent Enrollment programs—nearly 2,100 students—in 2014-15.

Providing opportunities for CTE courses as part of dual enrollment offerings is a recognized strategy to help improve outcomes for traditionally underserved students. The CTE pathways in Colorado provide additional options for students to earn postsecondary credentials, and offering CTE through Concurrent Enrollment allows students to get a head start on those pathways.

**Table 9: Career and Technical Education (CTE) Concurrent Enrollment Participation
2014-2015**

Public Institutions of Higher Education	Number of Students in CTE Concurrent Enrollment Courses
Aims Community College	619
Arapahoe Community College	2,089
Colorado Mesa University	254
Colorado Mountain College	161
Colorado Northwestern Community College	150
Community College of Aurora	1,093
Community College of Denver	645
Front Range Community College	1,226
Lamar Community College	119

Otero Junior College	310
Pikes Peak Community College	950
Pueblo Community College	576
Red Rocks Community College	1,128
Trinidad State Junior College	274
Total	9,880

* Area Technical Colleges may also offer CTE Concurrent Enrollment courses, but those data were currently unavailable for this report.

Postsecondary Credentials

Table 10 shows how many Concurrent Enrollment and ASCENT students are seeking a postsecondary credential while in high school. Overall, 11,791 students registered for their courses in a specific credential program. Most students are seeking an Associate of Arts or Associate of Science degree.

Table 10: Concurrent Enrollment and ASCENT Postsecondary Credential-Seeking Students 2014-2015

Credential Type	Concurrent Enrollment Students	ASCENT Students	Total Students
Certificate (less than 1 year)	768	13	781
Certificate (at least 1 year, less than 2)	271	3	274
Associates Applied Science	1,716	38	1,754
Associates of General Studies	1,123	35	1,158
Associate Degree (AA or AS)	7,596	182	7,778
Bachelor of Arts Degree	27	19	46
Total credential-seeking	11,501	290	11,791
Not credential-seeking	12,447	43	12,490

Note: ASCENT numbers are from DHE's SURDS.

Table 11 displays the number and type of credentials actually earned by high school students participating in the Concurrent Enrollment or ASCENT programs during the 2014-15 academic year. Through Concurrent Enrollment or ASCENT programs, 1,231 students earned some type of postsecondary credential in 2014-15. This is a 29 percent increase over last year's total credential completion number (956).

Table 11: Concurrent Enrollment and ASCENT Postsecondary Credential Completion 2014-2015

Credential Type	Total Students, 2014-2015	Total Students, 2013-2014	Change from previous year
Certificate (less than 1 year)	919	734	+185
Certificate (at least 1 year, less than 2)	62	29	+33
Associates Applied Science	9	10	-1
Associates of General Studies	29	29	0
Associate Degree (AA or AS)	212	154	+58
Total	1,231	956	+275

Note: ASCENT numbers are from DHE's SURDS.

Outcomes of Dual Enrollment Programs

The last two prior Concurrent Enrollment reports included an inferential analysis section which examined the effect participation in dual enrollment programs has on student matriculation to, and performance in, college.

The findings show better outcomes on all indicators for dual enrollment students as compared to students who did not take dual enrollment courses. The 2014 study found that participation in dual enrollment is associated with a 23 percent increase in the likelihood of enrolling in college and a 10 percent decrease in the need for remediation, holding gender, income, race/ethnicity, and ACT scores constant.⁸

Additionally, students participating in dual enrollment had higher earned cumulative credit hours, higher first-year grade point averages and more students returned for their second year of college. These promising findings for all students, regardless of background factors, place concurrent enrollment as a main strategy for closing the attainment gap and increasing credential completion.

Next Steps

As CDE and CDHE strive to support school districts and higher education institutions in expanding and enhancing Concurrent Enrollment and ASCENT programs, continued support is planned for the following activities.

Support establishing and strengthening partnerships between districts and postsecondary institutions.

Pursuant to statute § 22-35-107 (6)(c), CDE and DHE are working to provide guidance so that all school districts have adequate resources to enter into at least one cooperative agreement. Targeted support can be provided to districts not currently participating in Concurrent Enrollment, with specific focus on those that participated in previous years, to determine and support interest in beginning and continuing to offer this opportunity. This could include site visits to discuss alignment of Concurrent Enrollment with district postsecondary readiness goals, provide implementation resources and example practices, and examine potential barriers to participation, as well as convening districts with their local institutions of higher education to explore partnership opportunities.

⁸ [The Effects of Concurrent Enrollment on the College-Going and Remedial Education Rates of Colorado's High School Students](#). Colorado Department of Higher Education. March 2014.

Encourage growth and success of Concurrent Enrollment.

With the high number of partnerships already in place, there is increased need for technical assistance to expand and strengthen existing partnerships. Areas that have been identified as priorities for improving partnerships include streamlining processes between partners, increasing number of high school teachers approved to teach Concurrent Enrollment courses, and outlining roles and responsibilities.

Clarifying guidance on qualifications for high school teachers to teach Concurrent Enrollment.

Offering college courses through the state's legislated Concurrent Enrollment program on high school campuses, taught by high school teachers, increases students' access to Concurrent Enrollment, while also often decreasing the financial burden for districts. High school teachers seeking approval from institutions of higher education to teach Concurrent Enrollment courses must meet the same hiring requirements as other faculty at that institution of higher education. Guidance on these requirements is needed to provide clear and consistent information for interested districts and teachers. Additionally, there is a need to explore ways in which to increase the pathways for current or upcoming high school teachers to meet these requirements in a timely and financially feasible manner.

Attachment A: Reporting Requirements and Data Availability

Reporting Requirement	Source	Data Availability from 2014-2015 Academic Year (AY)
The number and names of local education providers and institutions of higher education that have entered into cooperative agreements	Institutions of Higher Education through Department of Higher Education	Used institutional data for 2014-15 AY.
The number of qualified students who participated in a concurrent enrollment program in the previous school year, including subtotals for each local education provider and each institution of higher education	Department of Higher Education	Used SURDS data for 2014-15 AY.
Demographic information about qualified students who participated in a concurrent enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2014-15 AY.
The total number of credit hours completed at each institution of higher education by qualified students who participated in a concurrent enrollment program in the previous school year	Department of Higher Education	Used SURDS data for 2014-15 AY.
The total number of basic skills courses completed at each institution of higher education in the previous school year by qualified students participating in a concurrent enrollment program	Department of Higher Education	Used SURDS data for 2014-15 AY.
The total tuition costs paid by local education providers to institutions of higher education in the previous school year on behalf of qualified students who participated in dual enrollment programs in the previous school year, including subtotals for each local education provider and each institution of higher education	Local Education Provider Request or Institution of Higher Education Request.	Data currently not available based on higher education tuition breakdowns and structures.
The total number of qualified students designated by the department as ASCENT program participants in the previous school year	Colorado Department of Education / Department of Higher Education	Used CDE & SURDS data for 2014-15 AY.
The postsecondary degree and certificate programs in which ASCENT program participants were concurrently enrolled in the previous school year, including subtotals indicating how many ASCENT program participants concurrently enrolled in each postsecondary degree and certificate program	Department of Higher Education	Used SURDS data for 2014-15 AY.
Data indicating the total number and percentages of qualified students who failed to complete at least one course in which they concurrently enrolled	Department of Higher Education	Used SURDS data for 2014-15 AY.
To the extent possible, data indicating the total number and percentage of qualified students who concurrently enrolled in college courses who have completed a postsecondary degree	Department of Higher Education	Used SURDS data for 2014-15 AY.

Appendix A: 2014-2015 Concurrent Enrollment Headcount, By Institutions of Higher Education and High Schools

No data indicates that there was not a high school associated with the student data submitted by the institution of higher education to the Department of Higher Education.

Note: A breakdown for Area Technical Colleges (ATCs) is not available due to data limitations.
