

04 00 00 – MASONRY

SECTIONS INCLUDED:

04 20 00 – UNIT MASONRY

04 20 00 – UNIT MASONRY

BRICK MASONRY / CONCRETE MASONRY UNITS

- The West campus primary brick selection is Lakewood Brick and Tile – Scheffield Grain. The accent brick is Misty Gray Grain. Verify final brick selections for each project.
- Mortar is natural gray un-tinted
- Refer to the Campus Architectural Standards.
- Specify that all brick / CMU in place and in storage shall be covered to protect it from excess moisture and development of efflorescence.
- Protect building interiors and wall cavities from moisture intrusion due to masonry cleaning operations
- Specify acidic cleaning methods per manufacturers recommendations. Sand blasting will not be allowed.
- Cast stone or precast caps on site walls and similar locations shall include through wall flashing at the cap to reduce efflorescence. If flashed, mortar joints can be sued in lieu of sealant.
- Specify chamfered edges on seat walls, etc.
