Advisor Signature _____
Print Name Signature Date

Chair/Director Signature _____
Print Name Signature Date

(If the Advisor is also the Chair/Director, please have the Assistant/Associate Dean sign.)

Course Substitution - any program course requirement, as approved through the curriculum process and listed in the catalog that is replaced/substituted by another course. All course substitutions must ensure the maintenance of academic program integrity and should be in the same area as the required course or in a closely related field. Additionally, course substitutions have direct academic impact on other UNC courses. Academic impact must be considered when a request for course substitution is made.

Course Waiver - any program course requirement, as approved through the curriculum process and listed in the catalog, that is deemed unnecessary to be completed by an individual student due to the student's non-course experiences and/or demonstrated existing knowledge. All course waivers must ensure the maintenance of academic program integrity. Academic impact must be considered when a request for course waiver is made.
