YEAR 1 - FALL (16 credits)		YEAR 1 - SPRING (15 credits)	
ENST 100 Intro to Environmental Studies	3 credits	SCI 291 Scientific Writing (LAC-Area 1B)	3 credits
MATH 124 College Algebra (or equivalent)*	4 credits	ENST Social or Physical Category	3 credits
Liberal Arts Core: Area 3 Arts and Humanities	3 credits	STAT 150 Intro to Stat Analysis (LAC Area 2)	3 credits
ENG 122 College Composition	3 credits	ENG 195 Introduction to Literary and Cultural Analysis (Spring only)	3 credits
University Electives (UNIV 101)	3 credits	ENG 218 or ENG 219	3 credits
<i>Consider: UNIV 101 <a href="http://www.unco.edu/university-101/">http://www.unco.edu/university-101/</a></i> Designed to help freshman successfully navigate the first semester of college. Each course is small, highly interactive with an interdisciplinary focus on reading, writing, critical thinking, and communication skills.		<i>Consider: Intro level LAC class for potential minor programs*</i> Students often minor in fields such as GIS, political science, earth science, and communication. This allows for the application of sustainability context within a specific skill set or discipline	
YEAR 2 - FALL (16 credits)		YEAR 2 - SPRING (15 credits)	
ENST 265 Conservation of Natural Resources (Fall only)	3 credits	ENG 295 Approaches to Literary and Cultural Analysis	3 credits

University Electives	3 credits		

**Admission Requirement – No separate admission requirement.**

**\* Minor -- No Minor Required (\* refer to notes in Year 1 and Year 2 Spring Semester for adding a minor)**

This worksheet is one possible recommended plan to complete your bachelor's degree in 4 years. Every UNC student must meet the following requirements in order to graduate with a bachelor's degree: earn a minimum of 120 semester credit hours; possess a minimum of a 2.00 cumulative grade point average; have at least 40 credit hours in courses designated as Liberal Arts Core; meet all degree requirements in the student's major field of study. Each major and/or emphasis may have additional requirements necessary for graduation. **Students must consult with their major advisor to receive information on any additional graduation requirements.**

## OTHER WAYS TO GET INVOLVED IN NON-ACADEMIC ENVIRONMENTAL RELATED PROGRAMS ON CAMPUS:

### ***UNC Earth and Environmental Network***

This network is a way for students to connect with and understand our environmental programs at UNC. To that end, we've launched a series of social media and networking pages and encourage you to join and add your environmental major and minor colleagues. We'll be posting jobs, internships, workshops, events, and information that we think you may find interesting. We also encourage you to ask questions and provide feedback to each other as you navigate your academic and professional careers.

### ***Student LEAF***

Founded in 2012, the mission of Student LEAF is to empower students in transforming the campus community to a more sustainable culture. This is achieved through collaborative proposing and evaluation of projects by students, faculty, and staff. Projects include facilities improvements and education initiatives that promote resource efficiency and an environmentally conscious lifestyle. We invite any member of our campus community to join our weekly meetings and participate in project development. In 2015, UNC began contracting with McKinstry, an energy auditing and efficiency company. Student LEAF partners with McKinstry in educational efforts across campus designed to encourage students to observe their energy use and increase energy efficient choices through the People Power Planet dashboard (linked below).

### ***Earth Guardians***

Earth Guardians is growing a resilient movement with youth at the forefront by empowering them as leaders and amplifying their impact. We invite you to join us in our mission to protect the planet for future generations. No matter how old you are, you can make a difference. UNCO Earth Guardians is a crew that collaborates with UNCO students and Greeley and Ft. Collins residents to raise awareness on environmental issues and actions.
