As a McNair Internship, I will be spending my internship hours in three main projects for the reminder of the semester. The first project will focus on recruiting potential McNair members for next year. As a recruiter for McNair, I will meet with my fellow peers to answer questions about the McNair program. I will set up tables in various destinations on campus and give presentations and announcement in classrooms. I will also send a McNair Recruiting flyer to the Clubs and Organizations on campus and keep in contact with them, if they do have individuals who are interested in becoming a part of the McNair program. The second project will focus on organization of the McNair library and to set up a checkout system, so the McNair students can check out books from the McNair Library. The third project will focus on the book marking system for the computer in the McNair office. The book marking system will give students a helpful system to find link that could help with their research paper or graduate school process. This is a summary of what I will be doing as a McNair Intern.
