

Weld County District Attorney's Office

Nineteenth Judicial District

Investigation Unit

One of the best places to work

The experience and knowledge an intern gains by being part of the Weld County District Attorney's Office Investigation Unit are priceless to any person seeking a career in Law Enforcement /Law/Sociology/Psychology/Victims/ Investigation.

In my short and valuable time here, I have been taught by some amazing and skilled individuals, who showed me how important communications and interpersonal skills are when it comes to succeeding in this field of work.

This profession requires one to wear many hats, and to be able to think abstractly while working in a group setting or as an individual. It requires the individual to work aside others who have different levels of experience, and to know how to create an environment of cooperation among different departments.

Finally, I must say that working in this incredible environment has enriched me and inspired me. It also has provided me with the tools to continue my career path and for that I am thankful to the different key players I have worked with. Most importantly, my sincere thanks go to Ed Jordan, who was my personal mentor, and Keith Olson, who both made my experience a most gratifying and enriching one.
