

University of Northern Colorado FY 21 Talent & Workforce Report

Workforce data about University of Northern Colorado Employees

Marshall Parks
Human Resources Director

ABOUT THE REPORT

The Fiscal Year (FY) 20–21 University of Northern Colorado Workforce Report is issued by the Human Resources Department.

The report highlights workforce data about the university staff members, including demographics, new hire information, and compensation data from July 1, 2020, to June 30, 2021.

Here is a link to a dashboard that is available on our Human Resources (HR) website: <https://www.unco.edu/human-resources/about-us/unc-human-resources-data.aspx>. This data will always be available and provides a level of transparency and availability of basic staffing data to campus.

Because this will meet basic reporting needs, this Annual Workforce Report replaces the previously supplied Staffing Report. This report includes additional HR data not in the current report such as turnover data, demographic workforce data, and comparative data with other institutions.

WORKFORCE OVERVIEW

This Workforce Report covers UNC employees in three employee classes. For this report, an employee at UNC satisfies the following criteria:

- Permanent full-time or part-time employee
- Excludes temporary employees
- Excludes student employees
- Excludes Adjunct Faculty, unless specifically stated they are included

Classified System

The Colorado Constitution (CO Const. art. XII, §13) established the State Personnel System as the classified civil service system for the State of Colorado. The system applies only to certain positions within the Executive and Legislative Branches. Employees in the classified system may have retention rights and must adhere to the policies, procedures, and personnel rules established specifically for the State Personnel System in the State's constitution, statutes, and personnel rules.

Non-Classified System

Pursuant to Colorado exemption statute (C.R.S. 24-50-135) employees in non-classified positions are exempt from the State Personnel System. Consequently, they are exempted from the rules, procedures, and regulations that govern the State Personnel System. The non-classified system includes employees in Amendment S positions (deputy directors, chief financial officers, public information officers, human resources directors, executive assistants, and legislative liaisons), Senior Executive Service positions, the Legislative Branch (with the exception of the State Auditor's Office), and Judicial Branch. Institutions of Higher Education are part of the Executive Branch; however, most higher education employees are exempt from the classified system.

Faculty

The teaching staff and those members of the administration having academic rank. The faculty includes all employees who hold appointments with a rank of lecturer, instructor, senior lecturer, assistant professor, associate professor, or professor.

NOTE: UNC employed an average of 2,645 employees in FY21. This includes classified and non-classified, faculty, permanent, temporary, part-time, student, and full-time employees.

Shared Governance

Classified Staff Council (CSC) operates to represent, inform, and educate classified staff by serving as a liaison between employees across the UNC campus, the university system, and state administration. CSC is a group of elected and appointed classified staff members who work to provide fellow staff members with information on topics ranging from legislative affairs to current events on campus. CSC members represent staff through a variety of working groups, task forces, and campus committees.

The **Professional Administrative Staff Council (PASC)** advises the University on matters relevant to its constituents and participates in University governance. PASC serves as the representative body for professional administrative employees of the University of Northern Colorado and participates in such policy matters of the institution as may affect its constituents by proposing and undertaking education and service projects and actively participating in current developments and issues that are relevant to the professional administrative employees of the university.

The **Faculty Senate** serves as the delegate assembly of the voting faculty at the University of Northern Colorado. Faculty senate acts for the voting faculty on all matters within the scope of this constitution, inclusive of grants of authority to such University councils/boards. May initiate or review policies pertaining to the general welfare of the University, the faculty, and the students which have significant University-wide.

Figure 1. 10 Year Faculty and Staff FTE

Data from 11/01/2020
Includes Adjunct Faculty

Employee and Student Headcount Trends

As shown in Figure 2, over the past 10 years faculty headcount has increased by 106 (14%) and staff headcount has decreased by 29 (3%), for a total employee headcount increase of 77 (4%). Headcount numbers are based on filled positions on November 1, so timing of vacancies contributes to some headcount variances for point-in-time data from year to year.

As the higher education landscape grew increasingly competitive, we recognized that in order to grow enrollment, we must renew UNC's focus on quality, develop new programs, and reach out to new markets. This focus is reflected in the investments in faculty and staff despite declining enrollment in the mid-2010s, shown in Figure 2. Beginning in FY19 and continuing into FY21, the university has worked to create efficiencies and reduce staffing levels to reduce university spending. This work included staff layoffs, voluntary retirement incentive programs, 60 day holds on vacant positions, and the implementation of Administrative Service Centers.

SALARY

Total Compensation Package

The total compensation package includes base salary and benefits (medical, dental, disability, life, wellness, and retirement).

- **Actual Base Salary:** Actual base salary for UNC employees made up the majority of employee's package at **66%** of the total.
- **Benefits:** Benefits (medical, dental, life, disability, and retirement) account for **34%** of UNC's total compensation.

OVERALL DEMOGRAPHICS

UNC strives to be an always evolving, welcoming, and inclusive campus. Beginning in FY 2019-20 UNC created the Chief Diversity Officer position to help guide and advance our collective work related to diversity, equity, and inclusion. To achieve this, diversity for UNC represents differing perspectives, thoughts, and experiences. UNC values the individuality of our faculty and staff's human distinctions because these distinctions benefit students, our community, and each other.

The diversity within our university and state is a distinct advantage that we celebrate, cultivate and nurture. We ensure learning occurs through meaningful discussion of shared and different experiences, viewpoints, and ideas. The university has made this commitment as part of the 10-year strategic vision. The 2030 Vision Element, Empowering Inclusivity, outcomes are outlined below:

- UNC celebrates the diverse backgrounds and intersecting identities of our community members and recognizes that we benefit from the talent and energy of all students, staff, and faculty
- We reflect upon and learn from the experiences of historically marginalized communities
- All individuals and perspectives are an integral part of our success and identity
- Community members engage in robust discussions and share their experiences, viewpoints, and ideas in respectful ways

IPEDS gathers race and ethnicity data using the current federal categories. Of note are changes to the way race and ethnicity data are collected. Prior to 2010 the federal reporting categories allowed an individual to select one of the following race categories: American Indian or Alaska Native, Asian or Pacific Islander, Black (non-Hispanic), Hispanic, or White (non-Hispanic). Beginning in 2010 federal reporting questions first ask if an individual is Hispanic/Latino. Only after answering that question can the individual select one or more of the following race categories: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander (a new category), or White. Additionally, individuals have the option to choose more than one race for federal reporting.

It is also important to note that beginning with the November 1, 2012, reporting date, IPEDS stopped collecting race and ethnicity data on part-time employees.

Because race, ethnicity, and gender-identity are social constructs, we recognize that there are imprecision and heterogeneity within these categories. Additionally, we acknowledge our faculty and staff's unique social and cultural underpinnings and the contributions of each of these to the UNC community. Race, ethnicity, and gender are simply a guideline with which individuals have self-reported. Finally, we recognize the limited racial, ethnic, and gender groupings presented here provide a non-representative sampling or data currently not collected. UNC will determine how to fully incorporate inclusive reporting practices and offer these data moving forward.

Excludes Adjunct Faculty

Figure 17. Employee Reported Reasons for Leaving

Multiple responses allowed
Reported by employees in anonymous exit survey

GENERAL ASSUMPTIONS

Multiple Records: For any employees with multiple records in a given month, we selected the first record in the table for that employee for that given month.

Employee Criteria: The tables are generally based on permanent faculty and staff.

Salary: The salary amounts used in this analysis are unadjusted for FTE.

Table Types: Most demographic tables are based on November 2020. For tables involving average employee counts, the entire fiscal year was used. Each table has a note indicating the time period of the data upon which the table is based.

Workforce

Due to the various types of metrics presented in this report, different definitions have been used to provide the necessary data. In some instances, the Department used a count of employees at a given point in time (June 30, 2019), and in other instances, the Department used the average count during the fiscal year to provide the necessary data.

For this report:

- Each table indicates the methodology utilized.
- A position is an individual distinct set of duties or assignments.
- A full-time employee is the budgetary equivalent of one permanent position working 2,080 hours per fiscal year.
- Employees are the actual people holding a position and working in the personnel system.

The fiscal year runs from July 1 through June 30. This report is based on an extract of the University's workforce data from the for all months from July 1, 2020, through June 30, 2021.

Average is the arithmetic mean, the value of all the entries in a set of data divided by the number of entries. Median is the middle value in a set of data, an equal number of values above it and below it. Due to rounding, percent totals may not always equal 100%.

Retirement

Retirement eligibility is cumulative. If an employee is eligible to retire within one year, they are eligible to retire within all subsequent years.

Turnover

Definition of turnover for employees:

- Employee-initiated separations from UNC employment (voluntary);
- Employer-initiated separations from UNC employment (involuntary);
- Layoffs;
- Retirements; and
- Deaths.

Turnover data excludes employees who transfer from one department to another because they are still considered employees of UNC. Turnover rates were calculated as the total turnover count divided by the average number of positions in the fiscal year.

Appendix A
Key Definitions

Employee	For purposes of this report excludes students and temporary staff.
Staff	Classified and professional admin employees. For the past 10 years UNC has routinely converted classified positions to professional admin positions.
Professional Admin	Employees who are not faculty and are not part of the state employee classification system.
Faculty	Employees with instructional positions.
Classified	Employees in positions governed by the state classification system.
Salary Expense	Actual salaries paid and accruals required by generally accepted accounting principles (e.g., salaries paid on July 1, 2016, are included in the salary expense for the fiscal year ending June 30, 2016). Includes faculty, professional admin, classified, graduate and teaching assistants, students, and temporary staff.
Standard Occupational Codes	An employment classification system established by the federal government to enable comparison across data sets.
