Table of Revisions

Section I HSS Standing Committees– Revisions
- Awards Committee structure revised February 8, 2013
- Minor changes to PRAC, Award Committee Language, and Diversity Advisory Board – March 4, 2016
- Removal of Community Advisory Board and Development Committee – March 4, 2016
- Major change to Diversity Advisory Board language – October 6, 2017

Section II HSS Faculty Qualifications and Search Procedures – Revisions
- Changed title of section – October 6, 2017
- Major change to section – October 6, 2017

Section III Sabbatical Leaves - Revisions
- Board Policy references updated September 26, 2013
- Change to first paragraph – November 20, 2015

Section IV HSS Policy for Interim and Summer Sessions – Revisions
- Edits throughout section and table revised May 8, 2012
- University Regulations references updated September 26, 2013
- Major change to section – February 19, 2016

Section V Faculty Professional Development Funding – Revisions
- Section added February 24, 2012
- Funding Pool B modified March 23, 2012
- Major changes throughout section October 12, 2012
- Removed last outdated paragraph – November 20, 2015
- Rewrite – March 10, 2017

Section VI Academic Program Review and Assessment – Revisions
- Section renumbered February 24, 2012
- Minor changes to Annual Progress Report section April 23, 2012

Section VII Faculty Evaluation Procedures and Guidelines - Revisions
- Section renumbered February 24, 2012
- Rubric heading correction March 13, 2012
- Promotion from Instructor to Assistant Professor March 13, 2012
- Rescind page 43, “Preface to College Faculty Evaluation Guidelines” April 26, 2013
- Part C, Section 2, College criteria for promotion from Lecturer to Senior Lecture added, September 27, 2013
- Part C, Section 2 (6) minor change to language
- Part A, revisions and reformatting to Annual Evaluation form, September 12, 2014
- Part C, revisions and reformatting to Comprehensive Review form, January 23, 2015
- Part A, revisions to Annual Evaluation form, January 23, 2015
- Part A, change instances of ‘Annual’ to Annual/Biennial’ throughout section – November 20, 2015
- Replace language under ‘Evidence of Performance in Professional Activity; External Peer Review’ with reference to University Regulations 3-3-802(2) – January 15, 2016
- Eliminate current language and replace with reference to Board Policy Part 8 2-3-801(2) and add Pre-Tenure option to the top of Comprehensive Review form – March 4, 2016

**Section VIII Chairs, Directors and Deans Evaluation Guidelines - Revisions**
- Section renumbered February 24, 2012
- Duties and Evaluations of Department Chairs and Program Coordinators add – January 23, 2015
- Change language under Directors Evaluation to reference Board Policy – November 20, 2015

**Section IX Office Space Usage and Assignment - Revisions**
- Section added February 22, 2013

**Section X Research Incentive Funding - Revisions**
- Section added February 14, 2014
UNIVERSITY of
NORTHERN COLORADO

Office of the Provost and Vice President for Academic Affairs

TO: David Caldwell
    Dean, HSS

FROM: Allen Huang

DATE: May 30, 2006

I have reviewed the College of Humanities & Social Sciences Policies and Procedures Manual that was submitted to my office and I approve the same. The document is consistent with the Board of Trustees Policies & Procedures.
SECTION I
HUMANITIES AND SOCIAL SCIENCES STANDING COMMITTEES

In addition to any necessary ad hoc committees, the College of Humanities and Social Sciences will maintain the following standing committees. All these committees are advisory to the Dean of Humanities and Social Sciences, with the exception of the Curriculum Committee, which has responsibilities described in Board policy provision, 1-1-304. Faculty committees will elect their own chairs and develop their own bylaws consistent with college and university policy.

Program Review and Assessment Committee
The purpose of this committee is to review 5-year comprehensive program reviews. See the description of the program review and assessment process in this document for more details.

Awards Committee
Members of this committee review applications for college awards including the following: Teaching Excellence; College Scholar; Excellence in Advising and Service and Excellence in Academic Leadership and other awards and select winners in each category to meet the appropriate due dates. The committee will also review applications for the Faculty Reassigned Time Awards for Research, Scholarship and Creative Works and determine those who will receive the awards. In addition, members review undergraduate student papers each spring for the outstanding student research paper awards.

The Committee will develop and/ or review written criteria for each of the awards. These criteria will be made available to all members of the college.

The committee shall consist of five members, drawn from the voting faculty of the college and elected at large by the college voting faculty with no more than one representative from any program area. Each member shall serve a three year term. In the initial election, however, two of the terms will be for only two years. Thereafter, all terms will be for three years.

College Leadership Council
This committee consists of all school directors, department chairs, program coordinators, and the dean with other dean’s office personnel chosen by the dean as ex-officio members.

Curriculum Committee
The purpose of this committee is to review all curriculum proposals in the college and provide professional advice or comments to the originating units related to quality, consistency, and clarity of the proposals; their anticipated contribution to the curriculum of the college and the college mission; and the integration of the proposed curriculum into existing curriculum.

Budget and Planning Committee
Functions of the budget and planning committee include input to the dean on planning and budget issues.
Policy and Procedures Committee
The purpose of the policy and procedures committee is to review policies and procedures in the college and suggest changes where needed.

The Program Review and Assessment Committee, Curriculum Committee, Budget and Planning Committee and Policy and Procedures Committee will all consist of members who are elected. Committee membership is elected on an at large basis in the college. No more than thirty percent (30%) of the membership of any one of the committees listed in this paragraph may share the same department/school affiliation. Terms will be for 3 years and will be staggered so that there is some continuity in membership. Committee elections will be conducted each spring by the Humanities and Social Sciences senator who is a member of the Faculty Senate elections committee. Future structural changes will be addressed as changes occur.

Diversity Advisory Board
Purpose: The Diversity Advisory Board (DAB) fosters a welcoming climate for the HSS campus community consistent with the UNC Statement on Diversity. Specifically, the Board will serve as a resource, be available to answer questions related to diversity and work with members of the college on projects, plans, or activities that support diversity as an integral part of the academic mission of the college and the university. The Board also solicits nominations from students and selects an awardee for the annual Diversity in the Classroom faculty award. The DAB serves in an advisory capacity and is not a policy-making body.

Membership and Appointment: The Dean and/or the Board will invite participation by undergraduate or graduate student(s) whose majors are within HSS; HSS faculty member(s); HSS classified or exempt staff; and affiliated constituent(s) from other areas outside the college. In addition, constituent groups may be asked to determine representative membership.

Meetings: The Board shall meet at least once each semester to discuss and review current diversity-related activities, developments, or initiatives.

Undergraduate Success Committee
Constituency: Membership will consist of elected faculty representatives. The committee will also include one undergraduate or graduate student with a major in an HSS discipline. The student member may be recommended to the committee chair by the HSS College Student Council or may be an individual invited by the Dean in consultation with the committee chair. The committee will select its chair from among the committee’s members. [The Associate Dean will continue to act as HSS liaison to the UNC Recruitment and Retention group.]

Description: The committee will study and evaluate conditions or circumstances that affect undergraduate success, including student support services, academic and co-curricular programming, and other areas of interface between the college and students. The committee may recommend specific changes to existing practices or develop and propose new ideas that would have a positive impact on the quality of the undergraduate experience.

REV: 10/6/17
SECTION II
HUMANITIES AND SOCIAL SCIENCES FACULTY QUALIFICATIONS
AND SEARCH PROCEDURES

Part A – Qualifications
Qualified faculty members are identified primarily by credentials, but other factors, including but not limited to equivalent experience, may be considered in determining whether a faculty member is qualified. Instructors (excluding for this requirement teaching assistants enrolled in a graduate program and supervised by faculty) possess an academic degree relevant to what they are teaching and at least one level above the level at which they teach, except in programs for terminal degrees or when equivalent experience is established. In terminal degree programs, faculty members possess the same level of degree. When faculty members are employed based on equivalent experience, a minimum threshold of experience and an evaluation process is used in the appointment process. Faculty teaching general education courses, or other non-occupational courses, hold a master’s degree or higher in the discipline or subfield. If a faculty member holds a master’s degree or higher in a discipline or subfield other than that in which he or she is teaching, that faculty member should have completed a minimum of 18 graduate credit hours in the discipline or subfield in which they teach.

Instructors teaching in graduate programs should hold the terminal degree determined by the discipline and have a record of research, scholarship or achievement appropriate for the graduate program.

Quality Assurance Expectations in Determining Minimally Qualified Faculty
Credentials should be the primary mechanism to ascertain minimal faculty qualifications. Experience also may be considered in determining faculty qualifications. (In some situations, a combination of these may be appropriate.)

Using Credentials as a Basis for Determining Minimally Qualified Faculty
Faculty credentials refer to the degrees that faculty have earned that establish their credibility as content experts and thus their competence to teach that content in the classroom. Common expectations for faculty credentials in higher education include the following:

Teaching faculty teaching should have completed a program of study in the discipline or subfield* (as applicable) in which they teach, and/or for which they develop curricula, with coursework at least one level above that of the courses being taught or developed. Completion of a degree in a specific field enhances an instructor’s depth of subject matter knowledge and is easily identifiable.

UNC faculty teaching in undergraduate programs should hold a degree at least one level above that of the program in which they are teaching. If a faculty member holds a master’s degree or higher in a discipline other than that in which he or she is teaching, that faculty member should have completed a minimum of 18 graduate credit hours in the discipline in which he or she is teaching.

If an individual faculty member has not achieved 18 graduate credit hours in the discipline in which he or she teaches, the unit should be able to explain and justify its decision to assign
the individual to the courses taught. These decisions should be supported by policy and procedure that are acceptable to the professional judgment of HLC peer reviewers. See the following subsection for more information about how experience may be considered in determining faculty qualifications.

Faculty teaching in graduate programs should hold the terminal degree determined by the discipline and have a record of research, scholarship or achievement appropriate for the graduate program.

Faculty guiding doctoral education should have a record of scholarship and preparation to teach at the doctoral level. Research and scholarship should be appropriate to the program and degree offered.

*An academic subfield refers to a component of the discipline in which the instruction is delivered. The focus, in the context of HLC accreditation, is on the courses being taught and the general appropriateness of faculty qualifications with reference to such courses. The key consideration is whether a degree in the field or a focus in the specialization held by a faculty member appropriately matches the courses the faculty member would teach in accordance with the conventions of the academic field.*

**Using Tested Experience as a Basis for Determining Minimally Qualified Faculty**

Tested experience may substitute for an earned credential or portions thereof. For a unit to determine that a faculty member is qualified based on experience the unit determines what is equivalent to the degree it would otherwise require for a faculty position. This experience should be tested experience in that it includes a breadth and depth of experience outside of the classroom in real-world situations relevant to the discipline in which the faculty member would be teaching. (Note: Tested experience, as is explained in the following section on dual credit, is typically not based exclusively on years of teaching experience, although other experiential factors as noted below may be considered on a case-by-case basis.)

The value of using tested experience to determine minimal faculty qualifications depends upon the relevance of the individual faculty member’s experience both to the degree level and to the specific content of the courses the faculty member is teaching. A unit that intends to use tested experience as a basis for hiring faculty must have well-defined policies, procedures and documentation that demonstrate when such experience is sufficient to determine that the faculty member has the expertise necessary to teach students in that discipline. In their policies on tested experience as a basis for hiring faculty members, units are encouraged to develop faculty hiring qualifications that outline a minimum threshold of experience and a system of evaluation. Tested experience qualifications should be established for specific disciplines and programs and could include skill sets, types of certifications or additional credentials, and experiences. Documented qualifications would ensure consistency and transparency in hiring and human resources policies. The faculty hiring qualifications related to tested experience should be reviewed and approved by the unit faculty, chair, and the dean.

**Determining Minimally Qualified Faculty in the Context of Dual Credit**

If a unit approves of awarding college credit by means of dual credit arrangements with high schools it must assure the quality and integrity of such offerings and their comparability to the same college credit offered on the institution’s main campus or at the institution’s other locations. As such, the faculty members teaching dual credit courses should hold the same minimal qualifications as required by the institution of its own faculty. This requirement is not
intended to discount or in any way diminish the experience that the high school teacher brings into a dual credit classroom. Such classroom experience alone, however lengthy or respected, is not a substitute for the content knowledge needed for college credit.

Many high school teachers possess tested experience beyond their years in the classroom that may account for content knowledge for the dual credit courses they may teach. These teachers may have gained relevant experience while working in other sectors or through professional development or other relevant experience that now informs their teaching. They may be active in professional organizations and learned societies through presentations and publications on topics relevant to the dual credit courses they may teach. In combination with other credentials and/or tested experience, they may be able to provide direct evidence of their students’ achievement on college-level tests that reflects a level of teaching and learning akin to a college classroom. However, evidence of students’ achievement, on its own, is not sufficient to demonstrate minimal qualifications.

Faculty members who have obtained a Master of Education degree but not a master’s degree in a discipline such as English, Communications, History, Mathematics, etc., may have academic preparation to satisfy HLC’s expectations. In this context, the curricula of graduate degrees in the field of Education, when inclusive of graduate-level content in the discipline and methods courses that are specifically for the teaching of that discipline, satisfy HLC’s dual credit faculty expectations. In other words, the attainment of a Master of Education degree does not demonstrate a qualification to teach dual credit courses in a particular discipline unless it is demonstrated that the content of that faculty member’s Master of Education degree is sufficiently related to the discipline of the dual credit course.

* Dual credit refers to courses taught to high school students at the high school for which the students receive both high school credit and college credit. These courses or programs are offered under a variety of names; HLC’s Criteria on dual credit apply to all of them, as they involve the accredited institution’s responsibility for the quality of its offerings.

**Sample Department/School Tested Experience Minimum Threshold for Tested Experience Policy**

**Minimum Threshold Criteria**

The Department/School/Program Area of _________ has established a minimum threshold for tested experience when determining faculty qualifications by means other than earned credential. To be considered qualified through tested experience, a faculty member must meet at least one of the following criteria:

- Substantial graduate-level academic coursework and/or methodological training related to [insert name of discipline];
- A record of research, creative activity, scholarship, or achievement appropriate to the field of instruction;
- Related research experience in industry and/or the private sector;
- Practical experience in the art, business, legal, or political sector;
- Relevant clinical experience;
- Relevant certifications, licensure, or additional credentials;

Prior to any appointment, the department will determine the appropriate level of experience required to meet the minimum threshold based on the nature of the appointment (e.g.,

REV: 10/6/17
different standards would apply for an adjunct teaching first-year students compared to a tenure track hire).

Special Considerations for World Languages

Being a native speaker is not considered sufficient by the HLC for meeting the requirements for tested experience. World languages departments choosing to qualify faculty via tested experience should establish additional criteria that demonstrate their qualification to teach languages at the undergraduate and/or graduate level as appropriate.

Special Considerations for Interdisciplinary Programs

The HLC has not established specific criteria for interdisciplinary programs; however, they do recognize that many interdisciplinary programs are in areas for which graduate degrees are not currently available. These programs should carefully consider what faculty qualifications are required to teach not only in the program but specific courses in the program (e.g., a faculty member with a PhD in English and a focus on women’s literature would be qualified to teach gender studies literature courses but may not be qualified to teach a gender studies course focused on sociological issues in gender studies).

Special Considerations for Graduate Level Programs

Units should use caution when making appointments through tested experience for graduate programs.

Processes for Documenting Qualifications

Documenting Qualifications: Use one of the following descriptors to note the HLC qualification criteria on the appropriate form (fill in the blank with discipline/content):

Master’s in ______________________
Doctorate in ______________________
Bachelors in ______________________ w/18 Graduate Credit Hours in X
Master’s in ______________________ w/18 Graduate Credit Hours in X
Doctorate in ______________________ w/18 Graduate Credit Hours in X
Bachelors in ______________________ w/Tested Experience
Master’s in ______________________ w/Tested Experience
Doctorate in ______________________ w/Tested Experience

The HSS Dean’s office will work with the HSS chairs and program coordinators to ensure that discipline specific qualifications for all faculty (tenured/tenure track, contract renewable, dual credit, and adjunct) are accurately documented.
Part B – Search Procedures

Guidelines for the search and interview process are set by Human Resource Services. They are frequently updated and are available on the Human Resource Services web site.

A faculty member from the program area of the hire, in accordance with the department/school/program area policy, will direct and organize the search process. All information regarding the search will be made available to department chair, school director, dean, and AA/EO coordinator of the search. In accordance with university hiring procedures as determined by Human Resource Services, application materials from candidates will be sent electronically and will be posted in a central electronic repository that is accessible to the search committee, AA/EO coordinator, department chair or school director, associate dean, dean, and to administrative assistants who are charged with supporting the search. Any information not available electronically (for example letters of recommendation, transcripts, etc.) shall be stored in a secure location by the hiring department/school/program/college as appropriate to the stage of the search until the search is completed.

Candidates interviewing on campus will meet with the dean or associate dean during the visit. There is an expectation that candidates will make a presentation while on campus. Examples include but are not limited to a forum for presenting and discussing research and/or a classroom teaching demonstration. The dean and/or associate dean will be invited to the candidate’s presentation(s).
SECTION III
SABBATICAL LEAVES

See University Regulations 3-3-1001(1), Sabbatical Leave Application Procedures

Sabbatical Leave Report

The following materials and procedure will be used by faculty to report sabbatical leave activity. Sabbatical leave reports are due within one academic year from completion of the leave. In accordance with Board of Trustees Policy, faculty who do not submit a sabbatical leave report within the required time frame will not be eligible for subsequent sabbatical leaves.

College of Humanities and Social Sciences
Sabbatical Leave Report

Name: _________________________
Department / School _____________________________
Date of Sabbatical Leave: Semester: ________      Year: ________
Date by which Sabbatical Leave Report is Due:  ______________ (within one academic year from completion of leave).
Date of Sabbatical Leave Report: _______________

Each department / school will determine the method by which faculty will evaluate sabbatical leave reports. The chair / director is responsible for recording and reporting the results and, where appropriate, for providing the faculty member with a written notification of non-acceptance by the faculty. The protocol for evaluation of sabbatical leave reports will be submitted to the dean for approval. At minimum, the sabbatical report will be evaluated considering the following criteria:

(1) Whether the report is complete and explicitly addresses each of the required elements (see below)
(2) Whether the sabbatical leave met its objectives as outlined in the proposal or, if applicable, as revised.

In order to complete the sabbatical leave report, use this form as a cover sheet for the following:

1. Provide a copy of your approved sabbatical leave proposal.

2. Provide your sabbatical leave report. In your report, please address each of the following:
   a. Summarize the key activities undertaken.
   b. Comment on what was accomplished during the leave, particularly with reference to goals articulated in your proposal.
c. Explain how the sabbatical has contributed to your own professional development, to the academic program(s) in which you teach, and to the university.

Submit this cover sheet and the above materials to the appropriate department / school faculty representative in accordance with the department’s / school’s approved procedure for evaluation.

Board of Trustees Policy stipulates the following expectations, requirements, and conditions regarding sabbatical leaves and sabbatical leave reports:

2-3-1001(3) Appropriate Use of Sabbatical Leaves. [See also 3-3-1001(1) Sabbatical Proposals].
The activities undertaken during sabbatical leave must be related to the individual’s on-campus responsibilities. The proposal must specify the effect on professional growth, development of knowledge in the discipline, influence on the students’ educational experience, and the enhancement of the University’s reputation. Once the goals and plan are approved, the faculty member is obligated to fulfill them, unless amended [See also 2-3-1001(5), Approval Procedures].

(a) Examples of acceptable sabbatical proposals include, but are not limited to:
(I) The pursuit of research or study at an institution of higher education or similar entity where improvement of oneself as a teacher-scholar is the focus.
(II) The pursuit of research projects or creative endeavors within a faculty member’s specialty to advance knowledge, improve the —state of the art,‖ or to produce material for publication.
(III) The acquisition of practical experience that will directly enhance the individual’s capacity to meet University responsibilities.
(IV) The pursuit of special studies or projects for the purpose of expanding institutional-related services beyond the faculty member’s obligations.

(b) Examples of unacceptable sabbatical proposals include, but are not limited to:
(I) Study at an institution of higher education, the primary purpose of which is to gain a degree in an area or discipline not related to current University responsibilities.
(II) Travel that is not directly related to University responsibilities. (A significant distinction is made herein between travel to improve oneself as a teacher-scholar and travel in and of itself.)
(III) Any sabbatical request within the faculty member’s current obligations to the University. (Examples include rewriting of course materials, course development, and the like.)
(IV) Activities or research not related to current University responsibilities.

2-3-1001(5) Approval Procedures.
Approval of a leave request will be based upon the merits of the proposal communicated by the specific goals and plan for achievement outlined in the proposal.

(a) Sabbatical Proposal Submission. Individual sabbatical leave proposals shall first be submitted to the department chair/school director, who will then call a meeting of the faculty. (See 3-3-1001(1) Sabbatical Leave Application Procedures.) After due consideration, this group will either recommend approval or disapproval of the proposal based on protocols developed by the department/school faculty in consultation with the chair/director and approved by the dean. This decision shall be based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues.

(b) Proposals recommended by the faculty for approval will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. Proposals not approved by the faculty for reasons of academic merit are disapproved and go no further in the process except for reporting purposes as specified in section (c) below. Proposals not recommended for approval by the faculty for reasons of resources and/or staffing issues will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. The recommendations of the faculty and the department chair/school director will be forwarded to the dean who will make his/her recommendations based solely on resource and/or staffing issues, and on whether the proposal clearly addresses how it meets one or more of the appropriate uses of sabbatical leaves as specified 2-3-1001(3). The recommendations of the faculty, the department chair/school director and the dean will be forwarded to the CAO who will make the final decision and report such decision to the President and to the BOT. The
applicant will be informed of the recommendations and will be afforded an opportunity to respond at each level of the review process up to the CAO, whose decision is final.

(c) All proposals that are not recommended for approval, with the exception of those withdrawn by the faculty member, will be forwarded to the department chair/school director, dean, and CAO for reporting purposes.

(d) All sabbatical leave proposals approved by the CAO will be presumed to be of equal merit. If for any reason in a given year the University cannot support all of the sabbatical leaves that have been approved, the CAO or his or her designee(s) will prioritize the proposals in the following manner:

(I) Sabbatical leave proposals that are time sensitive will take precedence over proposals that are not time sensitive. A proposal will be deemed time sensitive if it cannot be completed at all if postponed beyond the proposed dates. Information relevant to making this determination must accompany the sabbatical leave proposal (See 3-3-1001(2) for required information.)

(II) Within each group of proposals ordered as in paragraph (I), any proposals that have already been postponed in favor of more time sensitive proposals will take precedence over proposals that have not been so postponed. Notes of any previous postponements must accompany the proposal.

(III) Within each group ordered by the above principles, proposals from faculty members for whom the period of time since last sabbatical leave has been longest take precedence over those for whom the period since the last sabbatical has been shorter. Proposals will contain an indication of the period of time since the last sabbatical leave or, in the case of a first sabbatical leave, since the time of hire.

When a leave is postponed for the above reasons, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(e) Delay of Leave by Faculty Member. Faculty members who apply for and are granted a sabbatical leave, and who, for any reason, are unable to take the leave at the time specified, may request postponement of the leave for up to one year. Postponement requires the recommendation of the department chair/school director and dean. If in this time the individual has not begun the leave, the leave is null and void and the individual must submit a new application. When a leave is postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(f) Delay of Leave by the Dean. The dean for the affected unit has the right to change the effective dates of the leave. The dean may not postpone the leave for more than one year from the requested beginning date, unless the affected faculty member agrees. When a leave is thus postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(g) Proposal Revisions. Revisions of approved leave plans must be approved by the department chair/school director and dean. The applicant will be informed of the recommendations and, if the revised proposal is not approved, will be afforded an opportunity to provide additional information.

2-3-1001(8) Faculty Report Obligation.
In accepting a sabbatical leave, the faculty member agrees to provide to the department/school faculty a written report of the activities, the goals attained, and the benefits derived during the course of the leave. Upon approval of the faculty, the report will be forwarded to the department chair/school director and the dean. The department chair/school director and the dean will review the report to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in 2-3-1001(3). If the department chair/school faculty or dean finds the report unacceptable, the faculty member will be notified in writing and will have the opportunity to respond. Once the report has been accepted, copies will be forwarded to the CAO. Faculty members who do not submit an acceptable report within one academic year of completion of the leave shall not be eligible for subsequent sabbatical leaves.

2-3-1001(9) Institutional Accountability.
(a) All sabbatical leave records and approved and disapproved plans, will be available for inspection, upon request, by the Joint Budget Committee, the Education Committees of the Senate and the House of Representatives, and the Colorado Commission on Higher Education. Withdrawn plans will not be included in the records and will be returned to the faculty members.

(b) Final sabbatical reports are not considered a part of personnel files and become open record for public disclosure pursuant to the Colorado Open Records Statute (C.R.S. 24-72-204).

The complete Board of Trustees Policy, including other provisions related to sabbatical leaves, is available at http://www.unco.edu/trustees/Policy_Manual.pdf. University Regulations related to sabbatical leaves are available at http://www.unco.edu/trustees/University_Regulations.pdf
Evaluation of Sabbatical Leave Report

The following materials and procedure will be used for evaluation of a faculty sabbatical leave report:

College of Humanities and Social Sciences
Evaluation of Faculty Sabbatical Leave Report

This form is to be completed by the faculty evaluation representative, school director or department chair, and dean and copied to the faculty member who has submitted a sabbatical leave report. It is intended to record evaluative responses and recommendations concerning the sabbatical leave report. It is the responsibility of the department chair or school director to ensure that approved protocol for evaluation of sabbatical leave reports is followed and, along with the dean, to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). Additional pages of comments may be attached as needed. Under BOT Policy 2-3-1001(8) faculty and dean have the responsibility for assessing the acceptability or non-acceptability of the sabbatical leave report.

Faculty Member: _________________________ Department /
School ________________________________
Date of Sabbatical Leave: Semester: ________ Year: ________
Date of Faculty Sabbatical Leave Report: _______________ _____ First Report _____
Second Report

1. Faculty Evaluation: Indicate the faculty’s approval or non-approval of the sabbatical leave report. Include the means by which the determination was reached according to approved protocol for the academic unit. Attach comments as needed. If the approved protocol of the unit includes voting, indicate the faculty vote concerning the sabbatical leave report*:

   ____ Approve: acceptable ______ Disapprove: not acceptable*

   _________________________            ________________________
   Faculty representative         Date

2. Review by Department Chair / School Director:

   This sabbatical leave report ____ does ____ does not* clearly address how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). (See Appendix.)

   _________________________            _________________________
   Department Chair / School Director     Date

3. Determination of Dean: _____ Approve: acceptable _____ Disapprove: not acceptable*
*If the sabbatical leave report is found unacceptable or in non-compliance with BOT Policy by the faculty, chair/director, or dean, a written notification must be provided to the faculty member from the level(s) of evaluation which did not approve the report. Attach and submit to the faculty member notifications of non-acceptance together with this form.
In cases where the original faculty report has been found unacceptable, the faculty member may submit a second report to the faculty representative for consideration and evaluation. In such cases, this form will be used for responses by faculty, chair/director, and dean for second responses and recommendations. The second response by the dean is the final determination of approval or non-approval of the sabbatical leave report.
c. Explain how the sabbatical has contributed to your own professional development, to the academic program(s) in which you teach, and to the university.

Submit this cover sheet and the above materials to the appropriate department / school faculty representative in accordance with the department’s / school’s approved procedure for evaluation.

Board of Trustees Policy stipulates the following expectations, requirements, and conditions regarding sabbatical leaves and sabbatical leave reports:

2-3-1001(3) Appropriate Use of Sabbatical Leaves. [See also 3-3-1001(1) Sabbatical Proposals].
The activities undertaken during sabbatical leave must be related to the individual’s on-campus responsibilities. The proposal must specify the effect on professional growth, development of knowledge in the discipline, influence on the students’ educational experience, and the enhancement of the University’s reputation. Once the goals and plan are approved, the faculty member is obligated to fulfill them, unless amended [See also 2-3-1001(5), Approval Procedures].

(a) Examples of acceptable sabbatical proposals include, but are not limited to:

(I) The pursuit of research or study at an institution of higher education or similar entity where improvement of oneself as a teacher-scholar is the focus.

(II) The pursuit of research projects or creative endeavors within a faculty member’s specialty to advance knowledge, improve the state of the art, or to produce material for publication.

(III) The acquisition of practical experience that will directly enhance the individual’s capacity to meet University responsibilities.

(IV) The pursuit of special studies or projects for the purpose of expanding institutional-related services beyond the faculty member’s obligations.

(b) Examples of unacceptable sabbatical proposals include, but are not limited to:

(I) Study at an institution of higher education, the primary purpose of which is to gain a degree in an area or discipline not related to current University responsibilities.

(II) Travel that is not directly related to University responsibilities. (A significant distinction is made herein between travel to improve oneself as a teacher-scholar and travel in and of itself.)

(III) Any sabbatical request within the faculty member’s current obligations to the University. (Examples include rewriting of course materials, course development, and the like.)

(IV) Activities or research not related to current University responsibilities.

2-3-1001(5) Approval Procedures.
Approval of a leave request will be based upon the merits of the proposal communicated by the specific goals and plan for achievement outlined in the proposal.

(a) Sabbatical Proposal Submission. Individual sabbatical leave proposals shall first be submitted to the department chair/school director, who will then call a meeting of the faculty. (See 3-3-1001(1) Sabbatical Leave Application Procedures.) After due consideration, this group will either recommend approval or disapproval of the proposal based on protocols developed by the department/school faculty in consultation with the chair/director and approved by the dean. This decision shall be based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues.

(b) The recommendations of the faculty for approval will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. Proposals not approved by the faculty for reasons of academic merit are disapproved and go no further in the process except for reporting purposes as specified in section (c) below. Proposals not recommended for approval by the faculty for reasons of resources and/or staffing issues will be forwarded to the department chair/school director who will make recommendations based upon the merits of the proposal according to the standards of the academic discipline as well as resource and/or staffing issues. The recommendations of the faculty and the department chair/school director will be forwarded to the dean who will make his/her recommendations based solely on resource and/or staffing issues, and on whether the proposal clearly addresses how it meets one or more of the appropriate uses of sabbatical leaves as specified 2-3-1001(3). The recommendations of the faculty, the department chair/school director and the dean will be forwarded to the CAO who will make the final decision and report such decision to the President and to the BOT. The
applicant will be informed of the recommendations and will be afforded an opportunity to respond at each level of the review process up to the CAO, whose decision is final.

(c) All proposals that are not recommended for approval, with the exception of those withdrawn by the faculty member, will be forwarded to the department chair/school director, dean, and CAO for reporting purposes.

(d) All sabbatical leave proposals approved by the CAO will be presumed to be of equal merit. If for any reason in a given year the University cannot support all of the sabbatical leaves that have been approved, the CAO or his or her designee(s) will prioritize the proposals in the following manner:

(I) Sabbatical leave proposals that are time sensitive will take precedence over proposals that are not time sensitive. A proposal will be deemed time sensitive if it cannot be completed at all if postponed beyond the proposed dates. Information relevant to making this determination must accompany the sabbatical leave proposal (See 3-3-1001(2) for required information.)

(II) Within each group of proposals ordered as in paragraph (I), any proposals that have already been postponed in favor of more time sensitive proposals will take precedence over proposals that have not been so postponed. Notes of any previous postponements must accompany the proposal.

(III) Within each group ordered by the above principles, proposals from faculty members for whom the period of time since last sabbatical leave has been longest take precedence over those for whom the period since the last sabbatical has been shorter. Proposals will contain an indication of the period of time since the last sabbatical leave or, in the case of a first sabbatical leave, since the time of hire.

When a leave is postponed for the above reasons, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(e) Delay of Leave by Faculty Member. Faculty members who apply for and are granted a sabbatical leave, and who, for any reason, are unable to take the leave at the time specified, may request postponement of the leave for up to one year. Postponement requires the recommendation of the department chair/school director and dean. If in this time the individual has not begun the leave, the leave is null and void and the individual must submit a new application. When a leave is postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(f) Delay of Leave by the Dean. The dean for the affected unit has the right to change the effective dates of the leave. The dean may not postpone the leave for more than one year from the requested beginning date, unless the affected faculty member agrees. When a leave is thus postponed, eligibility for the next sabbatical leave will be calculated as if postponement had not occurred.

(g) Proposal Revisions. Revisions of approved leave plans must be approved by the department chair/school director and dean. The applicant will be informed of the recommendations and, if the revised proposal is not approved, will be afforded an opportunity to provide additional information.

2-3-1001(8) Faculty Report Obligation.

In accepting a sabbatical leave, the faculty member agrees to provide to the department/school faculty a written report of the activities, the goals attained, and the benefits derived during the course of the leave. Upon approval of the faculty, the report will be forwarded to the department chair/school director and the dean. The department chair/school director and the dean will review the report to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in 2-3-1001(3). If the department chair/school faculty or dean finds the report unacceptable, the faculty member will be notified in writing and will have the opportunity to respond. Once the report has been accepted, copies will be forwarded to the CAO. Faculty members who do not submit an acceptable report within one academic year of completion of the leave shall not be eligible for subsequent sabbatical leaves.

2-3-1001(9) Institutional Accountability.

(a) All sabbatical leave records and approved and disapproved plans, will be available for inspection, upon request, by the Joint Budget Committee, the Education Committees of the Senate and the House of Representatives, and the Colorado Commission on Higher Education. Withdrawn plans will not be included in the records and will be returned to the faculty members.

(b) Final sabbatical reports are not considered a part of personnel files and become open record for public disclosure pursuant to the Colorado Open Records Statute (C.R.S. 24-72-204).

The complete Board of Trustees Policy, including other provisions related to sabbatical leaves, is available at http://www.unco.edu/trustees/Policy_Manual.pdf. University Regulations related to sabbatical leaves are available at http://www.unco.edu/trustees/University_Regulations.pdf
Evaluation of Sabbatical Leave Report

This form is to be completed by the faculty evaluation representative, school director or department chair, and dean and copied to the faculty member who has submitted a sabbatical leave report. It is intended to record evaluative responses and recommendations concerning the sabbatical leave report. It is the responsibility of the department chair or school director to ensure that approved protocol for evaluation of sabbatical leave reports is followed and, along with the dean, to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). Additional pages of comments may be attached as needed. Under BOT Policy 2-3-1001(8) faculty and dean have the responsibility for assessing the acceptability or non-acceptability of the sabbatical leave report.

Faculty Member: ___________________________  Department / School___________________________
Date of Sabbatical Leave: Semester: ________      Year: ________  
Date of Faculty Sabbatical Leave Report: _______________             ____ First Report ____ Second Report

1. Faculty Evaluation: Indicate the faculty’s approval or non-approval of the sabbatical leave report. Include the means by which the determination was reached according to approved protocol for the academic unit. Attach comments as needed. If the approved protocol of the unit includes voting, indicate the faculty vote concerning the sabbatical leave report:

    _____ Approve: acceptable       _____ Disapprove: not acceptable*

    ____________________________            ______________________
    Faculty representative                         Date

2. Review by Department Chair / School Director:

   This sabbatical leave report ____ does ____ does not* clearly address how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). (See Appendix.)

   ____________________________            ______________________
   Department Chair / School Director                Date

3. Determination of Dean: _____ Approve: acceptable _____ Disapprove: not acceptable*
*If the sabbatical leave report is found unacceptable or in non-compliance with BOT Policy by the faculty, chair/director, or dean, a written notification must be provided to the faculty member from the level(s) of evaluation which did not approve the report. Attach and submit to the faculty member notifications of non-acceptance together with this form.

In cases where the original faculty report has been found unacceptable, the faculty member may submit a second report to the faculty representative for consideration and evaluation. In such cases, this form will be used for responses by faculty, chair/director, and dean for second responses and recommendations. The second response by the dean is the final determination of approval or non-approval of the sabbatical leave report.
SECTION IV
HUMANITIES & SOCIAL SCIENCES POLICY FOR INTERIM AND SUMMER SESSIONS

Summer and interim courses provide opportunities for students to make progress towards graduation. All courses must conform to the University’s summer or interim session and block time schedules. Any exceptions must be approved by the dean and any other relevant administrative offices.

Summer and interim session pay is determined by University Regulations. The College uses the drop date to determine the enrollment of the class and thus the faculty member’s compensation. Rules guiding compensation, maximum teaching loads, and dates by which the faculty member must commit to teaching are guided by University Regulations 3-3-702, which are included below. Faculty should check to make sure that they are following the most recent University Regulations. Faculty should consult the Regulations and the chart with the prorated compensation levels.

Faculty pay is prorated in the event that full enrollment is not met by the drop deadline. A minimum compensation rate of $1,500 per credit hour has been set; otherwise compensation depends on the academic year salary. Refer to University Regulations for details.

Faculty may decide to cancel their course(s) but they must notify their chairs/director, coordinators at least 20 days before their session begins. Most often, that means before May 1 for the first summer session, June 1 for the second summer session, or December 1 (interim session). Because schedules change, faculty should check on the dates. There is a limit with regard to how many credits a faculty member may teach – see University Regulations.

University Regulations 3-3-702 Summer and Interim Session Compensation and Workload Policy

3-3-702(1) Workload.
(a) The maximum credit hours of instruction for summer including all modes of delivery for both on campus and off campus courses will be at 12 credit hours with 6 credit hours and 9 credit hours maximum each for short and long summer sessions respectively.

(b) The maximum credit hours of instruction for Interim session will be at 6 credit hours.

3-3-702(2) Compensation
(a) The compensation for both Extended Studies and all summer and interim courses regardless of location, method of course delivery, or funding source, for all faculty holding the rank of lecturer, instructor, assistant professor, associate professor, or professor will be at 1/36th of the faculty member’s academic year salary if the faculty member is on a full-time contract. In the case of non-full-time faculty, holding one of the above ranks, the compensation will be 1/36th of what the salary would be if the faculty member were full-time.
(b) To allow flexibility for faculty and programs, the following compensation table will be utilized.

<table>
<thead>
<tr>
<th>Undergraduate Class Size</th>
<th>Undergraduate Prorated Rate</th>
<th>Graduate Class Size</th>
<th>Graduate Prorated Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>15+</td>
<td>100%</td>
<td>10+</td>
<td>100%</td>
</tr>
<tr>
<td>14</td>
<td>94%</td>
<td>9</td>
<td>90%</td>
</tr>
<tr>
<td>13</td>
<td>87%</td>
<td>8</td>
<td>80%</td>
</tr>
<tr>
<td>12</td>
<td>80%</td>
<td>7</td>
<td>80%</td>
</tr>
<tr>

<td>80%</td>
</tr>
<tr>
<td>10</td>
<td>80%</td>
<td>5</td>
<td>80%</td>
</tr>
<tr>
<td>9</td>
<td>80%</td>
<td>4</td>
<td>40%</td>
</tr>
</tbody>
</table>
The proposed pay scale for the summer and interim sessions does not apply to the overload instruction during regular semesters nor is it applicable to adjunct faculty. To insure an equitable treatment of those faculty whose 1/36th per credit compensation falls short of $1500.00 per credit, a minimum floor of $1500.00 at the class size of 15+ for undergraduate and 10+ for graduate for summer and interim session courses will be instituted. Authorization to offer multiple sections will reside with the responsible Dean given that maximum number of enrollment that is pedagogically feasible is reached. There might be some instances in which, with the approval of the Dean, a full payment to a faculty member without reaching the desired full compensation enrollment is warranted. Such exemptions can be made if the average enrollment of the program in the interim and combined summer sessions is reached at 20 and 15 for undergraduate and graduate courses respectively. In rare cases where undergraduate and graduate students are combined in one course, the compensation and corresponding adjusted pay table will revert to the appropriate prorated rate that corresponds to the majority cohort. In cases of limitations imposed by laboratory stations, accreditation requirements, clinical instruction, student teaching, and any other externally authorized constraints, the maximum number of enrollment will be limited to the sanctioned enrollment. Accordingly the rate of compensation will be set at $1500.00 per credit or at the adjusted rate according to the 1/36 of the base compensation and proposed pay table, whichever will afford a higher level of compensation to the affected faculty.

### 3-3-702(3) Calendar

(a) The decision to teach a course at a regular and/or reduced compensation level resides with the faculty member. However, faculty members are expected to notify their chairs/directors prior to May 1st (first 6-week and 12-week sessions), June 1st (second 6-week session) and December 1st (winter interim session), or at least twenty (20) days prior to the beginning of any other session, if they do not wish to teach their assigned courses at a reduced rate.
SECTION V

FACULTY PROFESSIONAL DEVELOPMENT FUNDING

The professional development funding distribution model for HSS is described below:

Initial Distribution of Funds

Professional Development funds will be distributed to the HSS Departments/School/Programs according to the total FTE of base funded faculty rostered in them. Each unit shall develop criteria and procedures and define eligibility for distribution of these funds.

The primary purposes of these funds are: (1) to meet or offset travel expenses related to program participation in professional meetings; (2) to meet or offset the cost of professional training; and (3) to support scholarly research.*

All authorizations will be approved by school/department chair or program coordinator and, in case of travel, by the dean. Faculty receiving this funding remain eligible for other professional development funding sources at the university, e.g. through OSP and FRPB. NOTE: Before applying for funds from the Provost’s Award for Travel, applicants must have applied for all travel funding available to them from their college and/or schools/departments/programs.

The amount of funding available per faculty member will depend upon the amount of the overall allocation to the college and may vary from year to year.

Funds unspent by the end of the fiscal year will not rollover into the following year. Thus, by February 1, the chairs and program coordinators will determine the amount of any encumbered funds in their programs and the remainder will be transferred to the College Pool for Professional Development.

The College Pool for Professional Development

The funds not encumbered by the departments/school/programs will provide additional funds for needs not met by the program allocations described above. The funds returned to the

* Questions about eligibility of expenditures in support of scholarly research should be directed to the HSS Financial Analyst. Support of scholarly research may include membership fees for professional organizations, journal subscriptions, etc. (However, please do not subscribe to journals already available from the University Libraries.) It may also include equipment purchases with the following caveats: 1) Faculty members may only have one university computer at any one time; 2) Information Management & Technology calculates eligibility for the computer refresh program based on the most recently purchased computer listed in the inventory, regardless of funding source; 3) tablets are considered computers if and only if their capabilities are similar to a laptop or desktop (for example, a Microsoft Surface Pro is considered a computer.) For faculty who wish to use their computer in the field, please note that UNC laptops are under a 5 year protection plan, which includes loss and accidental damage. IM&T highly recommends saving all data directly to OneDrive for Business to minimize the risk of losing data.
College from the departments/school/programs will be made available for use by eligible faculty.

The College Pool will be administered by the dean and the dean is responsible for approving requests submitted by chairs/program coordinators on behalf of their faculty. The dean is also responsible for the distribution of these funds.

Funds will be distributed in two rounds as follows:

- **Round 1**
  - Chair/program coordinator reports unspent/unencumbered funds: February 1st
  - Call for Submissions: February 8th
  - Submission Date: February 22nd
  - Notification Date: March 8th

- **Round 2**
  - Financial Analyst determines unspent/unencumbered funds: March 10th
  - Call for Submissions: March 22nd
  - Submission Date: April 5th
  - Notification Date: April 19th

Process:

After verifying the amount of unspent/unencumbered funds available for each round, the dean’s office will issue a **Call for Submissions**. Faculty who have professional development needs not met by the original allocation of professional development funds shall consult with their chairs/program coordinators, who will review the requests and submit those that are approved, along with the appropriate documentation, to the dean by the **Submission Date**. The dean will notify chairs/program coordinators and applicants of the decision no later than the **Notification Date**. Funding for an individual faculty member shall not exceed $1200 in each round.

If there are funds remaining after round 2, the dean’s office will consider further requests on a first-come, first-served basis.
SECTION VI
ACADEMIC PROGRAM REVIEW AND ASSESSMENT

Program Review and assessment processes are designed to incorporate continuous improvement into academic programs. As a consequence, program evaluation and the assessment of student learning outcomes should occur on an ongoing basis. Both program review and assessment should result in outcomes that strengthen academic programs and directly benefit students. Program review and assessment support the university’s mission to promote effective teaching and learning. In addition, the Higher Learning Commission (UNC’s regional accreditor) and the State of Colorado (Department of Higher Education) expect program review and assessment of student learning to be incorporated into the practice of academic units.

This section of the Manual is divided into three parts: Part A addresses assessment of student learning; Part B describes the comprehensive program review process at UNC; and Part C is a glossary that contains commonly used terms in both assessment and program review.

Part A. Assessment of Student Learning Outcomes

Assessment of student learning is one component of the comprehensive program review process. Student learning outcomes (learning objectives; SLOs) describe what students will know and be able to do as a result of the courses, programs of study, and other activities associated with earning a degree. Making learning outcomes explicit addresses two ends: it provides faculty with goals against which to evaluate student progress, and ultimately the efficacy of the course/program; and it provides students with a set of stated expectations to help them to understand the structure of the course/program and their progress toward meeting course/program goals. In making learning objectives transparent and assessing progress toward meeting them, faculty can gather evidence about what is and is not working in current practice, and use that evidence to improve course/program quality.

Core elements of academic program area assessment strategy include:

1. Program level undergraduate and graduate student learning outcomes. At a minimum, an assessment plan must specify what it is that any student graduating with a particular degree should know and be able to do. A well developed assessment strategy will map individual course offerings to the larger program goals (see the entry for ‘curriculum map’ in Part C).

2. Methods of assessing student performance on each of the student outcomes. The methods must include consideration of direct evidence, and may include indirect evidence. Best practice includes multiple measures. Examples of both direct and indirect evidence for courses and programs are provided at the end of Part C.

3. A process that identifies, on a regular basis, the results of the assessment process and how these results will be used to develop programmatic improvements to address the areas in which outcomes are not being achieved or require additional support.
4. A centralized (at the unit level) electronic repository that contains the unit’s assessment materials (including collected evidence, analysis and documentation of use of the results of assessment). The repository may be kept in TracDat (a software program used across the university for keeping track of assessment and program review data), although TracDat is not required. Assessment and program review recordkeeping should be supervised by a faculty member from the program area and should be updated at least annually.

Faculty members on the College of Humanities and Social Sciences Program Review and Assessment Committee (PRAC) are available to serve as resources to answer questions and provide input on program area assessment plans. In addition, support is available from the Provost’s Office of Assessment and the HSS Dean’s Office.

**Part B. Comprehensive Program Review Process**

The program review process consists of two main elements, the comprehensive review, typically completed every five years, and the annual progress report, undertaken on a yearly basis.

Guidelines for the comprehensive program review are available at the following URL: [http://www.unco.edu/assessment/programReview/index.html](http://www.unco.edu/assessment/programReview/index.html). Comprehensive program review documents receive written feedback from the Program Review and Assessment Committee, the dean and the provost.

The Annual Progress Report is completed by each program area in order to summarize progress toward comprehensive program review goals and items identified for action in the dean’s response and the provost’s Memorandum of Understanding (MOU). The annual report is reviewed at the college level only.

**HSS Format for Program Review Annual Progress Report**

In addition to providing the dean with information useful in evaluating programs’ annual progress, this format has been designed to provide programs with a tool that will be useful for the comprehensive review process. The categories of reporting outlined in Sections 1 and 2 are taken from the comprehensive review protocols. The report is due to the dean’s office on October 1st of each year.

**Section 1: Report Narrative**

*The narrative portion of the report should be no more than 5 pages.*

a. **Discussion of progress toward goals.** The program should discuss progress toward accomplishing its goals, providing a description of specific actions taken during the previous year related to these goals. If goals have changed, the program should describe why.

---

1 See p. 3 of the UNC Program Review Policy for conditions to be met in opting out of TracDat.

REV: 4/23/12
b. Discussion of Provost’s Memorandum of Understanding (MOU)\textsuperscript{2} and the Dean’s Recommendations. The program should provide an update on the status of actions outlined in the Provost’s MOU and the Dean’s recommendation letter.

c. Discussion of program review data. The program should discuss any significant changes that occurred over the previous year. The discussion should address known or suspected reasons for these changes and how the program intends to respond to the changes.

d. Discussion of resource needs. The program should briefly discuss any changes in resource needs resulting from its annual assessment and review of student learning outcomes, quality measures, program review data, and/or progress toward goals.

Section 2: Assessment Report

The assessment report consists of two tables and accompanying explanatory narrative, as needed. Assessment data, rubrics, and other related materials (such as that in TracDat or elsewhere) should be included as an attachment rather than as a link. The tables should contain five categories of information: (1) the outcome or quality measure being evaluated; (2) methods and evidence that are being used to evaluate the Student Learning Outcomes (SLO) or Quality Measures (QM); (3) what was learned about the SLO or QM by virtue of undertaking the assessment; (4) evaluation of whether the results met, failed to meet, or exceeded expectations; and (5) what actions were or will be taken as a result of what was learned. The two tables below provide examples of the table formats and reportage. While it is not an expectation that each SLO and each QM be assessed each year, the unit should have in place a plan that provides for regular periodic evaluation of each articulated SLO and QM.

<table>

<td>Will explore feasibility/ advisability of reordering 245/287 sequence. Decision to be made by end of fall 2011.</td>
</tr>
</tbody>
</table>

*Note – Programs should save evidence used in the assessment process, annual progress reports and any written responses from the college program review team and dean in an electronic file to serve as resource documents for the comprehensive review. These documents...*
may be stored in TracDat using any standard file format, or may be compiled and stored electronically elsewhere.

**Part C: Assessment and Program Review Glossary**

**Annual Progress Report**: A report completed by each program area in order to summarize progress toward comprehensive program review goals and to report on progress toward meeting the recommendations in the dean’s letter and the provost’s MOU. The annual progress report is reviewed at the college level.

**Assessment Methods**: The discipline-appropriate collection and analysis of aggregate-level data that form the basis for evaluating program performance with respect to its defined student learning outcomes and quality measures. The strongest assessment relies on multiple types of data. Programs must include direct evidence of student learning outcomes and may also include indirect evidence as appropriate.

**Criterion**: The measure, performance indicator, or descriptor defined by the program against which program performance is assessed. Criteria may be aspirational or they may reflect the minimum standard of performance required without triggering a decision to make changes in one or more aspects of the program.

**Curriculum Map**: A matrix that cross-lists SLOs with courses in a program of study in order to explicitly describe how the courses contribute to ensuring that students achieve SLOs over the course of the program. Typically, the cells of the matrix will indicate whether a particular SLO is introduced, applied and/or mastered in the context of a given course.

**Descriptor**: A word or phrase used as a label to describe or classify how a particular piece or pieces of evidence demonstrate achievement of a particular SLO or QM.

**Direct Evidence**: Direct evidence includes student products or performances that demonstrate specific learning has taken place. Evidence differs from data or information in that it entails interpretation and reflection in addition to collection and analysis.

**Formative Assessment**: Assessment done on an ongoing basis to help determine whether changes should be made at the course, program or unit level. Formative assessment is most typically undertaken at the course level.

**Indicator**: (1) an indirect measurement of an outcome. For example, the proportion of graduates that are hired by employers in a particular field may be viewed as an indicator of the quality of the training that program graduates receive; (2) a composite measure that is composed of several pieces of evidence that point to a particular conclusion with respect to a QM or SLO.
**Indirect Evidence:** A form of data that relies on self-report, or reporting of others’ perceptions, with respect to achieving standards or outcomes. Evidence differs from data or information in that it entails interpretation and reflection in addition to collection and analysis.

**Measure/Measurement:** (1) numerical information that quantifies outcomes. Measure most often refers to the results of performance on a particular dimension. For example, a measure might be a test score or the percentage of students who agree with an evaluative statement; (2) a general gloss used to refer to evidence collected and analyzed to assess SLO or QM.

**Program Review:** A regularly recurring evaluation of an academic program that is intended to support, develop, and maintain high quality academic programs. The process involves collecting, synthesizing, evaluating and reporting information related to practices and outcomes within programs typically on a five year cycle. After the unit has completed its report, it is reviewed by PRAC, the dean and the provost.

**Program Review and Assessment Committee (PRAC):** Standing HSS committee that is charged with reviewing and responding to five year comprehensive program reviews. In addition, PRAC reviews annual progress reports and may offer assistance with assessment plans from the various programs in the college.

**Quality Measures:** Describes the standards programs have identified as necessary to achieve desired levels of quality in relation to program mission and goals. Quality measures may be phrased in reference to structure, productivity and/or activities.

**Student Learning Outcomes:** Program level SLOs describe what students will know or be able to do by the time they graduate. Another way of looking at program level SLOs is that they describe knowledge, skills and/or dispositions that students will demonstrate by the time they graduate. SLOs defined at the course level should describe what students will know or be able to do by the time they complete the course. Course level and program level SLOs should articulate (see curriculum map).

**Student Learning Outcome (SLO) Assessment Methods:** discipline-appropriate collection and analysis of aggregate-level data that form the basis for evaluating student performance with respect to the defined SLOs.

**Summative Assessment:** methods that attempt to capture the end results of learning in a course or program of study.

*Indicates wording taken from the assessment council document.*
### Some examples of Direct and Indirect Measures of Student Learning at the Course and Program Levels

SECTION VII
FACULTY EVALUATION PROCEDURES AND GUIDELINES

University Policies and Regulations that govern evaluation, post-tenure review, and the granting of promotion and tenure can be found at:

- Board Policy Manual – 1-1-307, 2-3-part 8, and 2-3-part 9
- University Regulations – 3-3-part 8, and 3-3-part 9

Candidates are expected to consult the above sections.

Faculty Evaluation Deadlines and Forms

Current deadlines for submission of faculty evaluation materials to the Dean’s Office are available on the HSS SharePoint website calendar. For program area specific dates, please consult with your program area chair, director or program coordinator.

Downloadable forms for Annual/Biennial and comprehensive evaluation are available on the HSS website at: http://hss.unco.edu/docs_forms.html or on the HSS SharePoint Documents & Forms site.
Part A - Annual/Biennial Review & Evaluation of Faculty Process

HSS Principles and Procedures for Annual/Biennial Review of Faculty

1. The following principles and procedures apply to Annual/Biennial reviews.

2. Departments/program areas will develop review procedures and criteria for Annual/Biennial review which will be reviewed and approved by the dean.

3. The following parameters will apply to the development of program area procedures and criteria:
   a. Departments/program areas forward their procedures/criteria to the dean for approval.
   b. The department/program area may choose to include participants in the process who are not faculty. They will be non-voting.
   d. Departments/program areas must develop criteria/indicators, etc., that distinguish between the levels of evaluation.
   e. Departments/program areas may define their weighting of criteria on either a 15 hour equated load basis or on a program area mission basis. If the equated load basis is chosen, the weighting for a “typical” appointment would be 60% teaching, 20% professional activity, and 20% service. In all cases, the Board approved policy applies to the development of department/program area procedures and criteria.

4. The Dean of Humanities and Social Sciences will not participate in assigning ratings (i.e., a level of Annual/Biennial review) unless the department/program area does not have approved criteria and procedures or unless involved at the level of appeal. The dean will review the application of all procedures and criteria by departments/program areas and may return the department/program area Annual/Biennial reviews (as a whole) to departments/program areas for reconsideration if they are not in accord with approved procedures and criteria. If, after reconsideration by the department/program area, the dean and the department/program area are unable to agree on the application of approved procedures and criteria, the provost will be the final appeal.

5. Any change in procedures and criteria must be submitted to the dean and approved prior to start of a new evaluation cycle.

III. 2.6-3.5 Meets Expectations
II. 1.6-2.5 Needs Improvement
I. 1.0-1.5 Unsatisfactory
Part B – Pre-Tenure Review Process

Pre-Tenure Review

Tenure-track faculty in the College of Humanities and Social Sciences shall undergo pre-tenure review. Normally this shall occur during the third year of progress toward eligibility to apply for tenure. Year(s) of credit toward tenure which are granted upon hire affect this requirement in the following ways:

- One year of credit toward tenure: No change. Pre-tenure review occurs in the third year of tenure track.
- Two years of credit: Pre-tenure review occurs in the fourth year of tenure track. However, in instances where the faculty member’s previous work experience was at UNC in the discipline in which tenure is sought, the faculty member, with the approval of the department chair or school director, may opt for pre-tenure review in the third year of tenure track.
- Three years of credit: Pre-tenure review is optional and not required.

The faculty applicant shall prepare an application in accordance with promotion and tenure guidelines and recommendations in the program area and college and submit a dossier for review by the faculty, chair or director, and dean. Results of the pre-tenure review shall be reported in the form of summary recommendations composed by faculty evaluation committee chair, department chair or school director, and dean. These reports will be shared with the faculty applicant and will serve as an indication of progress toward promotion and tenure. The pre-tenure review will indicate strong points that should be sustained, as well as aspects of faculty performance or of the application process that may need continued development or improvement. The department chair or school director will discuss the results of the pre-tenure review with the faculty applicant. Pre-tenure reviews are non-binding evaluations intended as professional development. The pre-tenure review and its outcome are independent of the promotion and tenure provisions of Board of Trustees Policy and do not indicate an institutional obligation for similar results in the tenure and promotion application. The requirement for pre-tenure review becomes effective fall semester 2010. The result or outcome of the pre-tenure review does not guarantee or preclude a successful tenure recommendation. For faculty in their third year of tenure track in Academic Year 2010-2011, the pre-tenure review is optional. For faculty whose progress on tenure track indicates pre-tenure review in Academic Year 2011-2012 and after, pre-tenure review is required.
Part C – Comprehensive Review Process & Guidelines

Section 1. Comprehensive Review Guidelines for the College of Humanities and Social Sciences

1. Faculty evaluation in the College of Humanities and Social Sciences will conform to the Board of Trustees current policy.

2. It is the responsibility of the faculty member to review those sections pertaining to Comprehensive Review in the Policies and Procedures Manual, e.g. ‘Faculty Evaluation Guidelines’.

3. Comprehensive review includes evaluation in the three areas of instruction, professional activity, and service. Faculty evaluation involves professional and disciplinary based judgments in instruction, professional activity and service. Board of Trustee policy also provides guidelines related to the faculty member’s “obligations that derive from common membership in the community of scholars…” (2-3-602).

4. Department chairs/school directors are strongly encouraged to meet at least once Annual/Biennially with faculty on the path to promotion and/or tenure to discuss the results of Annual/Biennial reviews and assess the candidate's progress toward realizing a successful comprehensive review.

5. In some cases faculty members may be engaged in activities that have direct application to two or even three areas of their appointment (i.e., Instruction, Professional Activity, and Service). Among the activities that might fall into more than one area are the following: consulting; supervision of graduate research; serving on editorial boards; grants, depending on their nature e.g., whether they are pedagogical or content research). It is incumbent upon the candidate to select and defend the selected area(s). For example, a single project may involve publication of original data (Professional Activity), leading workshops for teachers related to that project (Instruction), and serving on a regional, national, or international board that coordinates research efforts within that particular project (Service). In such cases, though, the faculty member must justify in detail why a particular activity should be allotted to more than one area.

6. Program areas will prepare criteria for both Annual/Biennial and comprehensive review. Comprehensive review criteria may differentiate among expectations for tenure and promotion to associate professor, promotion to professor, and post-tenure review. The guidelines for comprehensive review should reflect the nature of instruction, professional activity, and service valued by the discipline. In designing guidelines program areas may include all or some of the items included in the following matrices and may include guidelines not listed in the following matrices. The dean must review and approve program area guidelines. Once approved, the program area guidelines will be used by the program area, department chair/school director and the dean in all comprehensive reviews. The college guidelines will be applicable to all program areas which do not have approved guidelines in place.
Process:

The Dean of Humanities and Social Sciences reviews all materials submitted by program areas in the candidate’s dossier (vita, statement/narrative, and supporting documents), program area faculty vote/evaluation, and department chair/school director’s evaluation/recommendation as defined and limited in University Policy Manual (2-3-801). In addition the candidate may provide a list of all supporting materials.

In some instances the dean may request additional information from the candidate, through interview or request for additional documentation, to gain a more complete understanding of the application. In addition, the dean may seek information from other sources, which may include, but are not limited to, interviews with the department chair/school director, communication with department chairs or equivalent from appropriate peer group institutions or program area-selected reviewers external to UNC, communication with journal editors, or information available in the Michener Library or available through the internet. All information gained from this process will be presented and discussed in the dean's evaluation memo.

Section 2. Dean's Comprehensive Review Evaluations and Recommendations in the College of Humanities and Social Sciences

Basis for the Recommendation: In all of the following cases, the indicated ratings are to be understood as both necessary and sufficient. That is, if the indicated ratings are not achieved, the recommendation is negative and if the indicated ratings are achieved the recommendation is positive. For example: If plurality of faculty in program area evaluate a candidate for promotion and tenure and rates meets expectation (III) in teaching and exceeds expectation (IV) in professional activity and meets expectation (III) in service this constitutes a positive recommendation for promotion and tenure from assistant to associate professor.

For promotion from Lecturer to Senior Lecturer, the college criteria are Level III or ‘meets expectations’ for all areas in workload and Level IV or ‘exceeds expectation’ in at least one area in the workload as a result of undergoing the comprehensive review process.

For promotion from contract-renewable Instructor to contract-renewable Assistant Professor (non-tenure track): Level IV or V rating in at least one area of evaluated activity (instruction, professional activity or service) and Level III rating or higher in the remaining two areas. These ratings apply to a four-year comprehensive review of activity undertaken in the rank of Instructor or its equivalent rank.

For promotion to Associate and Professor, an earned doctorate in the discipline or other terminal degree specified by the program area is required in addition to the following:

Tenure: Level IV or V rating for instruction or professional activity and Level III, IV, or V rating for the other two areas. Assistant professors may only be granted tenure if promoted to associate professor at the same time.
Promotion to Associate Professor: Level IV or V rating for instruction or professional activity and Level III, IV, or V rating for the other two areas.

Promotion to Professor: Level IV or V rating in instruction and professional activity and level III, IV, or V in service.

Post-tenure Review: [As noted in University Regulations 3-3-801(2)(b)] A faculty member is evaluated on assigned workload over the five-year period. A satisfactory performance results from a Level III, IV, or V overall rating, which must include a Level III, IV, or V rating in instruction.

Content of the Recommendation:

The memo from the dean summarizes personnel data for the candidate and communicates the dean's recommendation relative to the proposed action. The dean's recommendation need not restate candidate accomplishments or outcomes that are already described in the dossier. However, the dean's recommendation should highlight accomplishments and evaluate performance as necessary to justify the performance ratings and to suggest areas for improvement (if applicable). All dean's level evaluations and recommendations are made using approved program area guidelines.

Evidence of Performance in Instruction

The following is a list of supporting materials that may be submitted for review of teaching in the College of Humanities and Social Sciences:

- Statement of teaching philosophy
- Copies of course syllabi
- Narrative descriptions of course syllabi
- Copies of exams
- Copies of graded exams
- Copies of graded papers
- New courses
- New programs
- Student evaluations (no numbers or numbers de-emphasized)
- Analyses of student evaluations
- Professor description of pedagogical ability, performance
- Awards for excellence in teaching
- Letters from students
- Student awards
• Student research presented
• Other evidence of effects on students
• Video of teaching
• Peer review of teaching
• Certification in Quality Matters for online instruction
• Chair review of teaching (dean mandates)
• Evidence of student learning assessment protocols, analysis and use of results

Evidence of Performance in Professional Activity: External Peer Review

The policy governing outside evaluators for the purpose of tenure and promotion can be found in University Regulations, 3-3-802(2).
Department and program guidelines should reflect the nature of instruction that is valued in the discipline. Schools, departments and programs should develop expectations for faculty office hours appropriate to the area. These are times during which instructors are physically present and available on campus in regular consultation sessions distributed throughout the semester. In addition, instructors are expected to provide for the required number of instructional minutes appropriate to the credit hour value for each course, to meet students on a regular basis (in classroom-based instruction), to return assignments and submit grades in a timely manner, and to provide student evaluations of teaching to the department chair or school director.

### INSTRUCTION

<td>Adequately supervises directed studies, performances, creative endeavors, internships, field studies, student research, and student teachers.</td>
<td>Offers high quality supervision of directed studies, creative endeavors, internships, field studies, student research, and student teachers.</td>
<td>Offers extraordinary commitment to instruction beyond the classroom.</td>
</tr>
</tbody>
</table>
Professional activity can take many forms, including the scholarship of discovery, of integration, of application and of teaching. Professional activity aims at publication and other forms of dissemination. Program area guidelines should reflect the nature of the professional activity valued in the discipline. In particular, the guidelines for those disciplines valuing the sustained, in depth scholarship represented by scholarly books and monographs should determine how work in progress on such projects are to be documented and what limits, if any, should be placed on the period of time for which work in progress may continue to meet expectations.

<table>
<thead>
<tr>
<th>PROFESSIONAL ACTIVITY</th>
<th>Unsatisfactory (I)</th>
<th>Needs Improvement (II)</th>
<th>Meets Expectations (III)</th>
<th>Exceeds Expectations (IV)</th>
<th>Excellent (V)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Author, Co-Author &amp; Publishing</td>

Section VIII
Chairs, Directors, and Deans Evaluation Guidelines

College of Humanities and Social Sciences Guidelines For the Selection of Chairs and Directors

The Chair and Director selection process shall be in accordance with University Policy.

Duties and Evaluations of Department Chairs and Program Coordinators

The College follows the University Policies for department chair evaluations (University Regulations 3-3-301(4)). Coordinators of free-standing programs shall be evaluated according to the University Policies for department chair evaluation. The following list is not prescriptive but offered to provide an overview of the kinds of responsibilities chairs and program coordinators may typically be expected to fulfill.

1. Provide a single point of contact between the department and both internal and external constituencies
2. Scheduling of classes
3. Facilitate the hiring and evaluation of program adjunct faculty in conjunction with program faculty.
4. Facilitate curriculum changes as per University Regulations Part 5:Curriculum
5. Prepare requests for contracts and all other paperwork
6. Review applications to the hiring pool
7. Schedule, convene, and chair faculty meetings
8. Fulfill the role assigned to the chair in the faculty evaluation process in University Regulations 3-3-803.
9. Prepare assessment reports and other similar required reports
10. Manage the departmental budget
11. Supervise classified staff
12. Relay information to and from the dean (concerning, for example, deadlines, new expectations, programmatic needs, staffing plans, etc.)
13. Help resolve student and faculty complaints
14. Participate in "Leadership Council"
15. Support fund raising and advancement for the department
16. Manage work load assignments within the department
17. Implement College policies and procedures
18. Enrollment management
19. Facilitate work of department committees
20. Execute duties assigned to department chairs
21. Summer administrative duties
22. Advocate for the goals of the department.
23. Other duties arising from unforeseen circumstances

**College of Humanities and Social Sciences Guidelines For the Evaluation of Directors and Deans**

**Director** –
See University Regulations 3-3-1101(4).

**Dean** – The dean will be evaluated in accordance of the evaluation procedures approved by the Board of Trustees.
SECTION IX
Office Space Usage and Assignment

The primary responsibility for the management of office space lies with unit leaders, although the ultimate responsibility for assignment of office space to a unit resides with the dean. Office space should be used for the maximum benefit of the College mission in support of instruction, student advising, scholarship, and professional activity. It is desirable that all full-time HSS faculty members and individuals who provide essential administrative and support functions have office space adequate to performing these tasks. It is also expected that part-time faculty and graduate students have access to on-campus space, as available, to support their activities.

The purpose of this policy is to provide guidance for assignment of office space in the College. It is recognized that relocation of offices is a significant imposition and all reasonable efforts will be made to minimize moves among continuing personnel.

Each full-time faculty member should have one private office to facilitate meeting with students and conducting professional activities. Adjunct faculty will typically share an office with at least one other adjunct faculty member or with a teaching or graduate assistant that has a demonstrated need for office space. Where possible, graduate students without an office should have access to a common study area with desks and/or meeting tables. To the maximum extent possible, storage space between and within units should be consolidated in order to open up additional office space. Storage space that is office-sized should be used as an office whenever possible. The dean’s office will assist in finding alternative storage space. The dean in consultation with the unit will identify convertible spaces.

In the event that a department has a vacant base-funded faculty line, the office allocated for that vacant position shall remain within the unit, as long as approval for filling the position exists. If approval for filling the position is withdrawn, the allocated office shall revert to the pool of office space available for other departments that have demonstrated needs. The dean’s office will manage this pool of available space until such time as it is reallocated to a unit.

The Dean’s Office will conduct an inventory of all office, storage, and department library space as needed.

The following policy will be implemented when academic units are unable to meet their office space needs within their assigned space, taking into consideration all office, storage, and department library spaces within their unit.

1. Additional office space requests will be submitted to the Dean’s Office and will address the basis of need and current occupancy using the priority ranking below.
   a. Unit leaders and essential unit support staff
   b. Full-time faculty
   c. Part-time faculty
   d. Graduate teaching assistants and other graduate assistants
   e. Emeritus faculty

Add 2/22/13
2. Requests for office space will be handled on a case-by-case basis by the Dean’s Office, understanding that the dean’s office has the ability only to assign unassigned office space.
SECTION X
Research Incentive Funding

The overarching objective for the use of Research Incentive dollars in HSS is to promote and support the goals outlined in the above document by investing resources in Research Scholarship and Creative Works (RSCW) and helping PIs/PDs overcome financial and other barriers related to research.

To accomplish these goals as of fall 2014, HSS will follow the structure of distributing F&A costs to HSS schools/departments/programs outlined below:

- If administrative support is provided within a unit, 25% of the distribution (83% of the 30% returned to the college) would go to the unit and 5% (17% of the 30% returned to the college) would remain with the Dean’s office.
  - Beyond this distribution the unit should have a written policy that outlines how decide how to further allocate the funds to the PI/PD.
- If administrative support is not provided within a unit, the full 30% of the distribution would remain with the Dean’s office to cover the additional administrative expenses necessary to support the PI/PD.
  - A percentage could potentially be negotiated back to the PI/PD for discretionary funding. Negotiation for the percentage to be returned to the PI/PD should take place between the Dean and the PI/PD at the time the grant proposal is being submitted.

Possible Items to Fund with Research Incentive Dollars
Following is a (non-exhaustive) list of items related to RSCW for which research incentive money might be used:

- Fees associated with publishing articles in peer-reviewed journals
- Book publishing fees
- Honorariums/official functions for faculty to give talks, poetry readings, etc. at UNC as a community wide event (to include faculty, students, staff and community)
- Time
  - Faculty reassigned time or course releases for adjunct faculty
- Materials, supplies and equipment related to RSCW
- Service & maintenance agreements for instrumentation
- Specialized needs not covered by unit
  - Recording devices for conducting interviews
  - Rental fees for rooms for community based programs
  - Specialized software (supported by IM&T)
  - Travel visas required to undertake research
- Cost sharing for grant applications
- Entrance fees to archives/museums for research
- Cost of shipping research equipment to a site
• Translators
• Transcribers
• Students to do data entry, technicians, technical writing editors
• Grant training workshops
• Support for undergraduate and graduate students in making presentations and publishing papers
  o Travel
  o Printing
  o Publishing fees

If there are questions about an item that is not included in the above list, please contact the HSS Dean’s Office.

Other Resources Available for Research at UNC
Other internal resources available for research at UNC are outlined on the website of the Office of Research [http://www.unco.edu/research/support.html](http://www.unco.edu/research/support.html). This website outlines all the different internal awards available to faculty, including Research, Dissemination, & Faculty Development Awards (RDFD), Provost Awards for Travel (PAT), Faculty & Research Publications Board New Project Awards (FRPB), Annual Scholarly Activity Travel Grants (ASATS), Summer Support Initiative (SSI), and others.

Sabbatical Leave Report

The following materials and procedure will be used by faculty to report sabbatical leave activity. sabbatical leave reports are due within one academic year from completion of the leave. In accordance with Board of Trustees Policy, faculty who do not submit a sabbatical leave report within the required time frame will not be eligible for subsequent sabbatical leaves.

College of Humanities and Social Sciences
Sabbatical Leave Report

Name: _________________________

Department / School__________________________________

Date of Sabbatical Leave:   Semester: ________      Year: ________

Date by which Sabbatical Leave Report is Due:  ______________ (within one academic year from completion of leave).
Date of Sabbatical Leave Report: _______________

Each department /school will determine the method by which faculty will evaluate sabbatical leave reports. The chair/director who is responsible for recording and reporting the results and, where appropriate, for providing the faculty member with a written notification of non-acceptance by the faculty. The protocol for evaluation of sabbatical leave reports will be submitted to the dean for approval. At minimum, the sabbatical report will be evaluated considering the following criteria:

(1) Whether the report is complete and explicitly addresses each of the required elements (see below)
(2) Whether the sabbatical leave met its objectives as outlined in the proposal or, if applicable, as revised.

In order to complete the sabbatical leave report, use this form as a cover sheet for the following:
1. Provide a copy of your approved sabbatical leave proposal.

2. Provide your sabbatical leave report. In your report, please address each of the following:
   a. Summarize the key activities undertaken.
   b. Comment on what was accomplished during the leave, particularly with reference to goals articulated in your proposal.
   c. Explain how the sabbatical has contributed to your own professional development, to the academic program(s) in which you teach, and to the university.
Submit this cover sheet and the above materials to the appropriate department / school faculty representative in accordance with the department’s / school’s approved procedure for evaluation.

APPENDIX

Board of Trustees Policy stipulates the following expectations, requirements, and conditions regarding sabbatical leaves and sabbatical leave reports:

2-3-1001(3) Appropriate Use of Sabbatical Leaves. [See also 3-3-1001(1) Sabbatical Proposals]. The activities undertaken during sabbatical leave must be related to the individual’s on-campus responsibilities. The proposal must specify the effect on professional growth, development of knowledge in the discipline, influence on the students’ educational experience, and the enhancement of the University’s reputation. Once the goals and plan are approved, the faculty member is obligated to fulfill them, unless amended [See also 2-3-1001(5), Approval Procedures].

(a) Examples of acceptable sabbatical proposals include, but are not limited to:
(I) The pursuit of research or study at an institution of higher education or similar entity where improvement of oneself as a teacher-scholar is the focus.
(II) The pursuit of research projects or creative endeavors within a faculty member’s specialty to advance knowledge, improve the —state of the art,‖ or to produce material for publication.
(III) The acquisition of practical experience that will directly enhance the individual’s capacity to meet University responsibilities.
(IV) The pursuit of special studies or projects for the purpose of expanding institutional-related services beyond the faculty member’s obligations.

(b) Examples of unacceptable sabbatical proposals include, but are not limited to:
(I) Study at an institution of higher education, the primary purpose of which is to gain a degree in an area or discipline not related to current University responsibilities.
(II) Travel that is not directly related to University responsibilities. (A significant distinction is made herein between travel to improve oneself as a teacher-scholar and travel in and of itself.)
(III) Any sabbatical request within the faculty member’s current obligations to the University. (Examples include rewriting of course materials, course development, and the like.)
(IV) Activities or research not related to current University responsibilities.

2-3-1001(5) Approval Procedures.
Approval of a leave request will be based upon the merits of the proposal communicated by the specific goals and plan for achievement outlined in the proposal.

(g) Proposal Revisions. Revisions of approved leave plans must be approved by the school director or his or her designee in the program area and dean. The applicant will be informed of the recommendations and, if the revised proposal is not approved, will be afforded an opportunity to provide additional information.

2-3-1001(8) Faculty Report Obligation. In accepting a sabbatical leave, the faculty member agrees to provide to the program area faculty a written report of the activities, the goals attained, and the benefits derived during the course of the leave. Upon approval of the program area faculty, the report will be forwarded to the school director and the dean. The school director and the dean will review the report to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in 2-3-1001(3). If the program area faculty or dean find the report unacceptable, the faculty member will be notified in writing and will have the opportunity to respond. Once the report has been accepted, copies will be forwarded to the CAO. Faculty who do not submit an acceptable report within one academic year of completion of the leave shall not be eligible for subsequent sabbatical leaves.

2-3-1001(9) Institutional Accountability.
(a) All sabbatical leave records and approved and disapproved plans, will be available for inspection, upon request, by the Joint Budget Committee, the Education Committees of the Senate and the House of Representatives, and the Colorado Commission on Higher Education. Withdrawn plans will not be included in the records and will be returned to the faculty members.
(b) Final sabbatical reports are not considered a part of personnel files and become open record for public disclosure pursuant to the Colorado Open Records Statute (C.R.S. 24-72-204).

The complete Board of Trustees Policy, including other provisions related to sabbatical leaves, is available at http://www.unco.edu/trustees/Policy_Manual.pdf. University Regulations related to sabbatical leaves are available at http://www.unco.edu/trustees/University_Regulations.pdf
Appendix II

Evaluation of Sabbatical Leave Report

The following materials and procedure will be used for evaluation of a faculty sabbatical leave report:

College of Humanities and Social Sciences
Evaluation of Faculty Sabbatical Leave Report

This form is to be completed by the faculty evaluation representative, school director or department chair, and dean and copied to the faculty member who has submitted a sabbatical leave report. It is intended to record evaluative responses and recommendations concerning the sabbatical leave report. It is the responsibility of the department chair or school director to ensure that approved protocol for evaluation of sabbatical leave reports is followed and, along with the dean, to ensure it clearly addresses how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). Additional pages of comments may be attached as needed. Under BOT Policy 2-3-1001(8) faculty and dean have the responsibility for assessing the acceptability or non-acceptability of the sabbatical leave report.

Faculty Member: _________________________ Department / School ____________________________
Date of Sabbatical Leave: Semester: ________ Year: ________
Date of Faculty Sabbatical Leave Report: ____________________ _____ First Report ____ Second Report

1. Faculty Evaluation: Indicate the faculty’s approval or non-approval of the sabbatical leave report. Include the means by which the determination was reached according to approved protocol for the academic unit. Attach comments as needed. If the approved protocol of the unit includes voting, indicate the faculty vote concerning the sabbatical leave report*:

_____ Approve: acceptable       _____ Disapprove: not acceptable*

__________________________________            ________________________
Faculty representative         Date

2. Review by Department Chair / School Director:

This sabbatical leave report ____ does _____ does not* clearly address how the sabbatical leave met the appropriate uses of sabbatical leaves as specified in BOT Policy 2-3-1001(3). (See Appendix.)

__________________________________          _________________________
Department Chair / School Director     Date

3. Determination of Dean: _____ Approve: acceptable _____ Disapprove: not acceptable*

_________________________________ __________________________
Dean          Date

*If the sabbatical leave report is found unacceptable or in non-compliance with BOT Policy by the faculty, chair/director, or dean, a written notification must be provided to the faculty member from the level(s) of evaluation which did not approve the report. Attach and submit to the faculty member notifications of non-acceptance together with this form. In cases where the original faculty report has been found unacceptable, the faculty member may submit a second report to the faculty representative for consideration and evaluation. In such cases, this form will be used for responses by faculty, chair/director, and dean for second responses and recommendations. The second response by the dean is the final determination of approval or non-approval of the sabbatical leave report.
