

Extended Windows Update

February 2020

In continuous effort to improve security, IM&T will be deploying a Windows 10 1909 feature update. The update will be deployed during the February Windows update timeline.

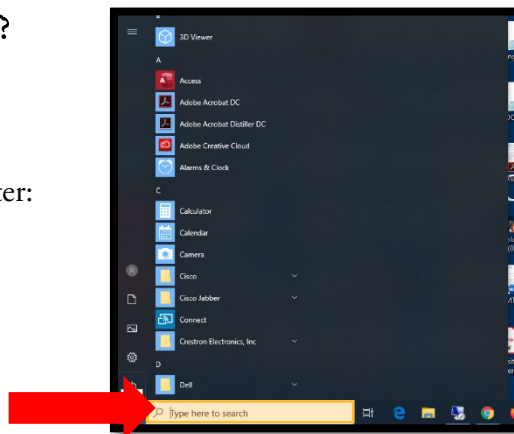

- February 21 - the update will be released to campus.
- March 6 - the update will be required for installation and computers will start to reboot automatically.

IM&T encourages campus to run the update at a convenient time between February 21st and March 6th so the impact to campus is minimized.

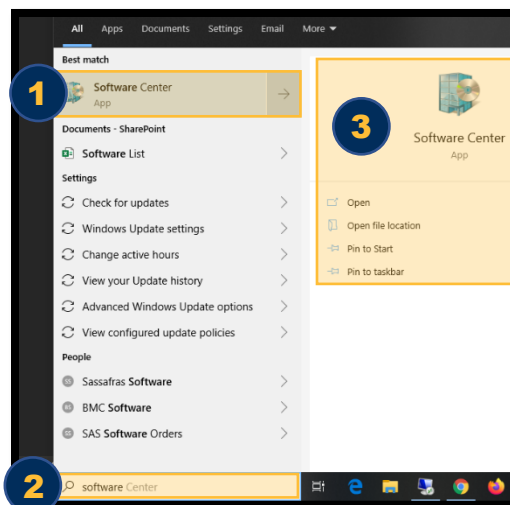

If you have any questions or concerns please contact the Technical Support Center by calling 970-351-4357, visiting help.unco.edu, or via email at help@unco.edu.

How can I run the update myself?

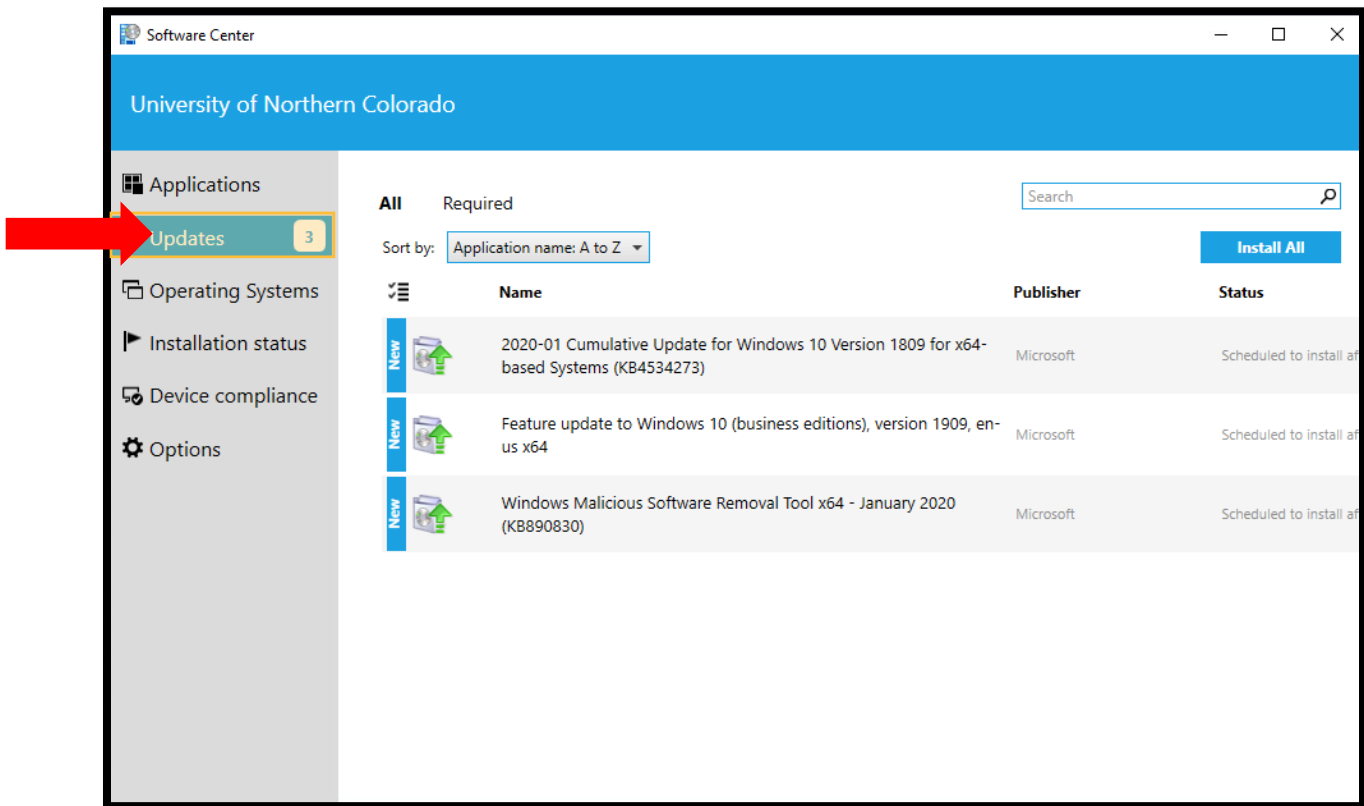

Click start on your computer:

1. Locate the Software Center in your search field.
2. If you do not see the search bar, start typing "Software."
3. The Software Center should appear:

Click on **Software Center** to open the application. Then, click on **Updates** on the left:

On the Right, click on “Install All” to begin the installation. When the installation is complete, you can choose to reboot or wait until a specific time.

If you have any questions or concerns please contact the Technical Support Center by calling 970-351-4357, visiting help.unco.edu, or via email at help@unco.edu.
