Find your student of interest and select the pencil icon to the far right. This will allow you to edit the settings.

Keep an eye on the number of attempts (which includes the initial attempt and any extra attempts) and the number of attempts left. In order to allow 1 attempt left, you'll have to match the number of extra attempts to the number of attempts (ie 7 attempts needs 7 extra attempts in order to have 1 attempt left).

This is where we'll want to set the "Extra Attempts" to the same number as the existing "Attempts" on the darkened page behind this popup. Because everyone already gets 1 attempt.

Make sure to uncheck this checkbox, unless you want to go into the "Moderate This Quiz" settings at the time of the student's next attempt and have to manually unlock it for them.

Remember to click "Save"
