Embedding Tutorials from Canvas Commons

Embedding the Entire Tutorial

1. Login to Canvas
2. From the left sidebar menu select Commons
3. Search for What Every Graduate Student Should Know about the University Libraries (University of Northern Colorado)
6. From the right menu select
7. "Import/Download" then select the course(s) you want to import into
9. Select "Import into Course"

Embedding Individual Tutorials

1. Login to Canvas
2. From the left sidebar menu select Commons
3. Search for What Every Graduate Student Should Know about the University Libraries
4. Select the correct module
5. From the right menu select "Import/Download" then select the course(s) you want to import into
6. Select "Import into Course"

Import can take up to 30 minutes. Once imported, the module(s) will appear in the Modules section of your course. You can edit as you would any module. Remember to publish the module.
