

THE UNC COLLEGE OF NATURAL & HEALTH SCIENCES & RULE105 BREWING PROUDLY PRESENT

Science on Tap

Physics of Music

Music is undoubtedly one of humankind's greatest inventions but what does it have to do with physics and astronomy? Join Ansel Foxley and Charles Kuehn from the University of Northern Colorado Department of Physics and Astronomy as they attempt to answer this question. Learn the physics that makes electric guitars work, how one string can produce multiple different notes, and how the stars themselves make music that help us to unlock their deepest secrets. Join us for this inaugural addition of Science on Tap featuring cool science, fun demos, good music, delicious beer, and trivia for awesome prizes!

SATURDAY
APRIL 5TH
2PM

RULE105 BREWING
