

## **Dual Enrollment Opportunity**

- UNC offers Dual Enrollment with the following Colorado Community Colleges
  - ✓ Aims Community College
  - ✓ Front Range Community College
  - ✓ Morgan Community College
  - ✓ Northeastern Junior College
- The Dual Enrollment program is a concurrent program that students take while enrolled in a Colorado Community College (CC) nursing program – students take the nursing program at the CC while also taking one course every semester at UNC. The program is 30 credits long (10 classes)
- The most important thing to know about Dual enrollment is that you must get accepted into the community college nursing program to be considered eligible for UNC. The application “window” for each CC is different, so log onto the website of each school to see their application requirements
- Once you are admitted to any of the four CC’s above – we “invite” you to participate in Dual Enrollment
- If you have all of the pre-requisites for our traditional/second degree program – you have the necessary pre-requisites for Dual Enrollment as well ☺
- UNC Representative in the School of Nursing to contact with questions: Lori Lehmann ([lori.lehmann@unco.edu](mailto:lori.lehmann@unco.edu)) or (970) 351-2294
