

How to Be a **SUCCESSFUL STUDENT**

in an Online World

Prepare

Set up an intentional space to attend virtual class. Does lying in bed send the right message to your instructor?

Test your system before class. Is your mic working?

Try a **practice meeting** to learn how Zoom works.

Engage

Ask questions via **the chat** function.

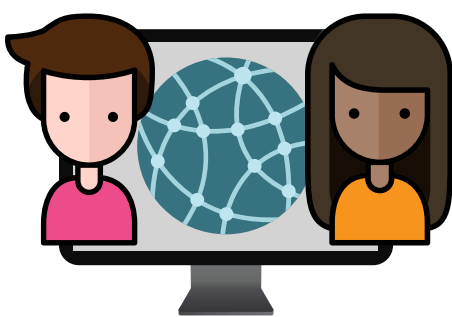

Use the **reactions** feature to interact with your class.

Utilize the **raise your hand** function to ask live questions.

Respect

Enter meetings on mute. Stay muted unless speaking.

Think before you write. Without nonverbal cues, will someone take your message the wrong way?

Support

If you have questions, concerns, or technical issues, it is important to communicate those with your instructors. Even if they cannot help, they may be able to direct you to the proper resources.

UNC's Technical Support Center (TSC) is available to help.
