25Live Pro

System Access

25Live Pro is the scheduling system utilized by the University of Northern Colorado. Colleges/Departments have designated schedulers with the ability to place classes in the 25Live calendars through coding in the Banner system. Various designated schedulers can also manually enter meetings/events into the 25Live calendars using the event form. 25Live Pro user accounts are only granted to the designated College/Department schedulers, or to individuals that the Colleges/Departments authorize to perform scheduling duties.

Individuals that don't have a user account are welcome to visit 25Live Pro as a guest viewer: https://25live.collegenet.com/pro/unco#!/home/dash

25Live users with an active account can sign in using their username & password: https://25live.collegenet.com/pro/unco

Authorized individuals needing access to the 25Live Pro system would ask their Supervisor, Manager, or Department Head to fill out the OnBase form requesting a 25Live Pro user account for them.

New users to 25Live Pro are strongly encouraged to set up a training session with the 25Live Functional Administrator.

Any questions can be directed to: 25LiveHelp@unco.edu
