

If you are unable to access the links on the Curriculum Website, you may need to adjust your Internet Explorer security settings. Unfortunately, there is not a security adjustment that can be made to the website itself, but below are instructions to change your security settings:

1. Open Internet Explorer.
2. On the far right, click on the Tools menu, and choose Internet Options.
3. Click on the Security tab.
4. Click on the green checkmark that says "Trusted sites."
5. Click on the "Sites" button.

6. In the box that is labeled "Add this website to the zone", type "\*.unco.edu" and click Add.
7. Uncheck the box that is labeled "Require server verification (https:) for all sites in this zone".

8. Click the Close button.
9. Click the OK button
