

# Pikes Peak Community College/UNC Transfer Guide\*

## PHYSICS B.S. - Engineering Physics emphasis

2019-2020 Catalog

Degree Requirements – 120 credits

\*Transfer guide for students transferring from Pikes Peak Community College to the University of Northern Colorado for the purpose of completing a bachelor's degree in Physics - Engineering Physics emphasis. Courses marked as (**\*bold**) are UNC equivalent courses (if applicable) upon transfer to UNC. UNC Liberal Arts Core (LAC) is waived with completion of AA/AS degree. (Note: The four-year plan below is a recommended schedule and not reflective of every student's individual academic context. We encourage each transfer student to consult with their respective academic advisor for course sequence guidance.)

This four-year plan is a recommended schedule to complete your bachelor's degree in 4 years. Every UNC student must meet the following requirements in order to graduate with a bachelor's degree: earn a minimum of 120 semester credit hours; possess a minimum of a 2.00 cumulative grade point average; meet all degree requirements in the student's major field of study. Each major and/or emphasis may have additional requirements necessary for graduation. **Students must consult with their major advisor to receive information on any additional graduation requirements.**

### Program Admission Requirements –

Admission to UNC.

### Minor Required –

None.

### Contact Information –

Department of Physics and Astronomy

### Notes –

Students who lack sufficient preparation in mathematics may need to start in MAT 121 College Algebra or MAT 122 College Trigonometry.

Some of the major courses at UNC are offered every other, so the courses taken in years 3 and 4 depend on whether a student enters UNC in an even or odd year. Consultation with a UNC advisor is necessary in determining the year 3, fall semester schedule.

A minimum 2.0 cumulative grade point average is required in PHYS prefix courses for graduation.
