1. Great to have area with consuls set up and hang out, but don't think necessary in a food place.
 2. Brewery- would come if they had a 21+ nights. Incorporate brewery program!

- iv. If you had magic wand, what is one thing you would change about dining on campus?
1. Change the hours that dining halls are open—2 hours are super hard to make sometimes. Open all day—not serving food all day, but having a space to stay and spend time.
 2. Admissions- #1 question is the hours, support people are really disappointed with the limitation of hours.
 3. Bigger universities with dining- open almost all the time.
 - 4.
 5. Adjust hours for majority of student schedules. Not time to get lunch or dinner—fit student schedules better. Walk to the dining hall.
 6. Universities with common hour where there is a “lunch break”
 7. Change amount of meal swipes needed for new students—14 meals are a lot which leads to money being wasted.

I was able to relay the graduate needs by sharing an increase in stipend, insurance coverage, and overall increase in Student Senate pay would allow dedicated students working through school to be able to afford needed things to successfully make it through school. A Qualtrics Survey drilling into the specificities of the needs of all students is in the process of being finalized by David S.
