 - i. Changes for this semester!
 1. New Business/Legislation will need to be sent by midnight on Sunday before the business meeting. For example, legislation is due the 17th for next week's meeting on the 20th.
 2. Reports will be done using a Qualtrics survey instead of via email - they will be due Monday at midnight. Also reports this semester will be individual rather than by college (one person speaking for the college). I will be sending out our Senate newsletter with information regarding this later this week (before the new business deadline on Sunday).
 3. Elijah and I are working on a way to document office hours better. For this, we will be using SharePoint. You may have gotten an email or invitation to join that today. For our new members, you will be added once you have received access to your first.last email. More information on this will likely be presented at next week's business meeting—for now, please keep using the Qualtrics survey.
